

APPENDIX A: EXPERTISE OF THE EAP

CURRICULUM VITAE

NAME	Roelien du Plessis
DATE OF BIRTH	30 September 1957
PROFESSIONAL/SPECIALISATION	Environmental Consultant
NATIONALITY	South African
YEARS' EXPERIENCE	28 years teaching 14 years Environmental Management

KEY QUALIFICATIONS:

Roelien du Plessis holds a MA Environmental Management from Unisa. She also completed various courses to provide her with a background in the environmental field that included: waste management, water management, carbon footprint reduction and environmental auditing. She is a lecturer at Unisa in Environmental Management and present honours level modules in Integrated Environmental Management, Environmental Management Systems and Auditing, Environmental Management for Civil and Chemical Engineers on BTech level. She was part of a team training the Environmental Management Inspectors (EMI's / Green Scorpions). She presents the course: Integrated Environmental Management for the fourth year level BTech students at Tshwane University of Technology as a guest lecturer, including inter alia Legislation, Environmental Impact Assessment and Environmental Auditing .

She is a member of several professional institutions and associations such as (Integrated Waste Management South Africa (IWMSA), Water Institute of South Africa (WISA), the Geographical Society of South Africa (GSSA) and International Association for Impact Assessment South Africa (IAIAAs).

Roelien has extensive knowledge and experience in environmental assessment and management and therefore fulfils the role of environmentalist on numerous projects. Her responsibilities include providing valuable input during various stages of the project with regards to possible impacts that the facilities, under scrutiny, may have on the environment. More specifically, Roelien identifies and assesses impacts that may lead to: water pollution, community degradation, land degradation, harmful emissions and detrimental effects of waste. Mitigation measures are then identified and suggested to reduce the impact on the environment.

She is therefore qualified to undertake EIA's, various kinds of auditing, green building certification, carbon foot printing, waste audits and waste management licensing, etc.
