Subject: Approval of final layout for De Aar 2 South WEF

Hi Tilly

Your email of 08 November 2022 with regard to the final layout for De Aar 2 WEF refers.

We have assessed the final lay-out of the proposed De Aar 2 South WEF, as provided to us in the KMZ file named: *“20221109_Mulilo De Aar 2 South WEF Layout.kmz”*

Our comments are as follows:

- The final lay-out is acceptable from a bird impact perspective, subject to the implementation of the mitigation measures detailed in the Avifaunal Walk-through Report dated October 2022, to be included in the updated Environmental Management Programme (EMPr).
- The final layout does not require any additional mitigation measures to what was recommended in the avifaunal walk-through report dated October 2022, for the update of the EMPr and Layout Plan Finalisation process.

Best regards/vriendelike groete
