**Subject:** De Aar 2 South WEF - Confirmation of Acceptance of Updated Final Layout for Decision Making

Hi Tilly

We refer to your email dated 23 January 2023 and the attached kmz file . "20230120\_Mulilo De Aar 2 South WEF Layout.kmz" .

We have studied the final lay-out and our comments are as follows:

- It is recommended that the lay-out is approved, subject to the implementation of the mitigation measures as detailed in the final avifaunal walk-down report dated March 2023, with such mitigation measures to be included in the updated EMPr.
- The updated final layout does not result in any changes to our findings or require any further mitigation to what we have recommended in our final avifaunal walk-down report dated March 2023 for the update of the EMPr and Layout Plan Finalisation process (as it was always the understanding that only up to 26 of the assessed potential 28 turbine positions would be constructed).

Best regards/vriendelike groete
