Dear Ms Seetelo

**INTENDED RELOCATION OF THE REMAINS OF 43 GRAVES THAT ARE OLDER THAN 60 YEARS FROM THE FARM BOSHMANSFONTEIN 12 IS, MPUMALANGA**

**BACKGROUND INFORMATION**

Our company has been appointed by Glencore South Africa (PTY) Ltd to affect the relocation of 43 graves located in one informal cemetery on the farm Boshmansfontein 12 IS, Mpumalanga. Martins Funerals (Emalahleni) will be responsible for the handling and reburial of the exhumed human remains (Appendix A). Of the 43 graves 2 are known to be older than 60 years and 16 have been assumed to be older than 60 years old as stipulated in the Heritage Act.

**DESCRIPTION OF CEMETERIES**

The details of this cemetery and graves are as follows:

- **TOP 14: Latitude: -26.0416399967 Longitude : 29.2028359696**

This cemetery contains a total of 420 graves located on the farm Boshmansfontein 12 IS, near Ogies, Mpumalanga Province (Appendix B). We had previously received permission to relocate 386 graves from this cemetery, which were relocated within eMalahleni and to five other local municipal cemeteries outside eMalahleni. The families included in this permit were still negotiating the terms of the relocation of their graves with the mine. The Ntuli family (NOK Stuurman Ntuli are claiming 27 graves and 2 are known to be older than 60 years and the age of 14 are not known by the family, therefore it is regarded to be older than 60 years. The details of the deceased persons can be found in the attached grave register (Appendix C). The graves will be relocated to the cemeteries as requested by the family.

**PERMITS AND PERMISSIONS**

We have received the following permits and permissions thus far:

- The South African Police Services were informed of the proposed relocation. They will be informed of the date of relocation at least 7 days in advance (Appendix D).

We are also in the process of applying for permits and permissions from the following institutions:

- The South African Heritage Resources Agency as required by Section 36 of Act 25 of 1999. (Graves older than 60 years and all graves that were not identified by next of kin)
- The Mpumalanga Provincial Department of Health.
- The eMahlaleni Local Municipality.

### **SOCIAL CONSULTATION**

The cemeteries are adversely impacted upon by the expansion of coal mining by the Tweefontein Optimisation Project. We conducted an intensive process of social consultation in order to identify the buried individuals and obtain requests for exhumation and re-interment from the affected families. This process commenced on Monday, 21 August 2013 with the erection of bilingual (English and isiZulu) site notices at all the cemeteries (Appendix E). Bilingual (isiZulu and English) newspaper notices were published in the Daily Sun on the 18 September 2013 and Witbank News on Friday, 6 September 2013 (Appendix F). Radio notices were aired on SABC Ligwalagwala FM for 7 days from the 19-20 November 2013 (Appendix G)

The physical social consultation process commenced on Monday, 2 September 2013 and the methodology followed in terms of this consultative process comprised the following:

- Identification of persons who may have resided in the study area by speaking to elderly people who have lived within the surroundings of the study area all their lives.
- During conversations with these individuals leads may have been forthcoming of families or individuals who used to reside within the study area.
- Our social consultant followed up each of the leads, to ascertain whether these individuals could have graves buried within the study area. In some cases preliminary meetings could immediately take place, while in others a preliminary meeting date was scheduled.
- Once families with graves within the study area had been identified, a preliminary meeting took place to introduce the proposed relocation project to the families. This first meeting also aimed to establish where the graves of the particular family are located.
- Once the family representatives with whom the preliminary meeting had been held had discussed the proposed relocation with the remainder of their families, a date was scheduled on which the physical identification of the graves could be undertaken and if the family so wished the proposed request forms could be signed (Appendix H).
- On the identification date the respective family representatives were physically taken to the cemeteries where their graves were buried. The representatives then identified their graves and the respective (unique) grave numbers were recorded by the social consultant. At this point those families willing to sign the request forms were then given the opportunity to do so (Appendix H).

As a result of the social consultation process the following results were achieved:

Of the 43 graves located in this cemetery, 41 graves have been positively identified by the affected families and a signed request form for the relocation for each grave has been provided (to be hand delivered as an addendum). For the remaining 2 graves located at the TOP14 cemetery, they have

not been positively identified or claimed by next of kin.

To clarify matters we have allocated the affected graves to the following categories:

Graves older than 100 years (Section 35 of Act 25 of 1999):	None
Graves older than 60 years (Section 36 of Act 25 of 1999):	2
Graves of victims of conflict (Section 36 of Act 25 of 1999):	None
Graves of individuals of royal decent (Section 36 of Act 25 of 1999):	None
Graves younger than 60 years that are located outside a registered cemetery (Ordinance 7 of 1925, Section 36 of Act 25 of 1999, Ordinance 12 of 1980):	25
Graves identified by the next of kin but of which the date of death is presently unknown	14
Presently unknown graves/possible graves (Section 36 of Act 25 of 1999):	2
<b>Total</b>	<b>43</b>

### REBURIAL OF REMAINS

As mentioned above, it would be preferred if the unidentified graves be reburied in the closest municipal cemetery, Kromdraai cemetery. According to the wishes of the families, the identified graves must be buried at the following municipal cemeteries:

Name of Cemetery	Responsible Municipality	Number of Graves to be relocated here
Kromdraai Cemetery	eMalahleni Local Municipality	43
<b>Total No.</b>		<b>43</b>

### REQUEST

In light of the aforementioned information, we hereby respectfully apply for permission to:

1. Exhume the remains in the 43 affected graves, where 18 graves are older than 60 years;
2. Rebury the remains in the cemetery indicated by the family, as set out above.

Please do not hesitate to contact me if you need any additional information.
