Notes

IMPORTANT! skirting around room must remain intact and undamaged. It must be possible to remove the cupboard and have the skirting remaining. Skirting around base of cupboard is to be cut and shaped to fit into skirting fixed to wall.

All fixings are to be concealed and should not be visible from outside the cupboard.

Hinges to be 110° straight chrome plated FG slide on cupboard hinges as supplied by ROCO ref 51MS15050000 or other approved. Number of hinges per door to be in accordance with manufacturers recommendations. (2 per leaf)

Cupboard carcass material to be minimum double sided white melamine covered light duty particle board. Base to be plain medium duty MDF particle board.

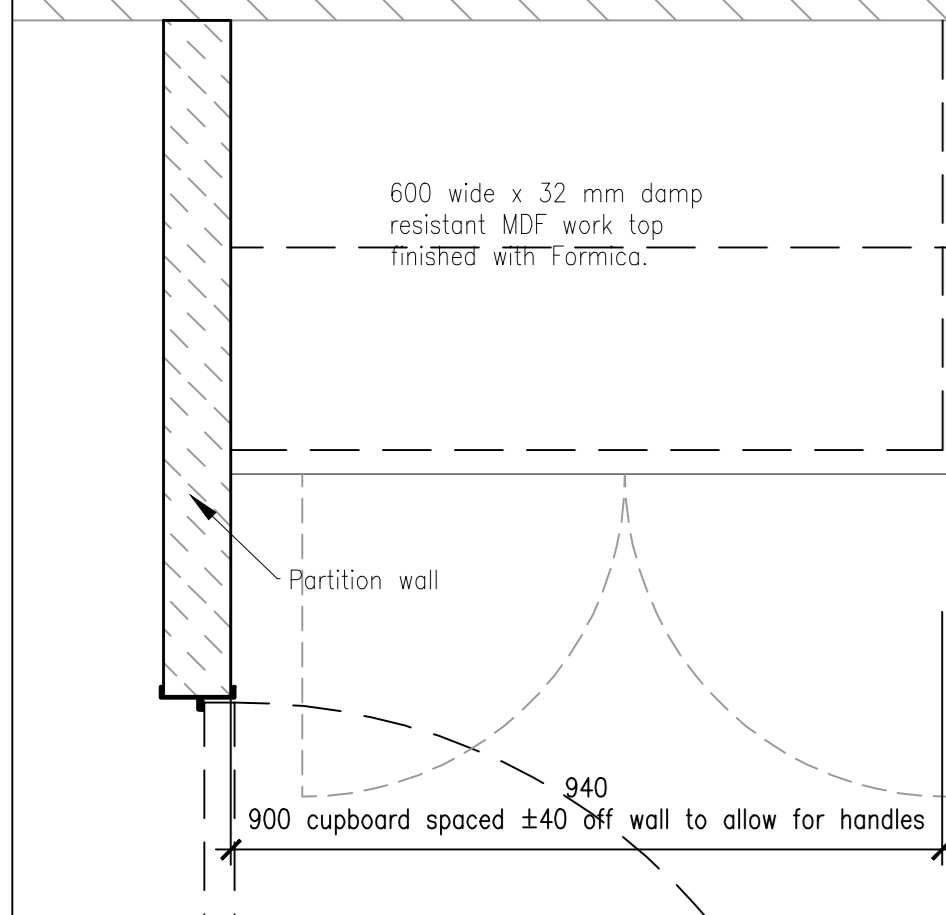

Cupboard handles to be 81mm wide x 19mm high satin chrome plated arch handle as per ROCO ref TSS13645C or other approved.

Cupboard lock to be 86mm brass finished 2 lever cupboard/drawer lock as per ROCO ref TS7472 or Union 415-84/1 or other approved fixed with 4 screws to inside of cupboard. Keep to be fixed to opposing door leaf.

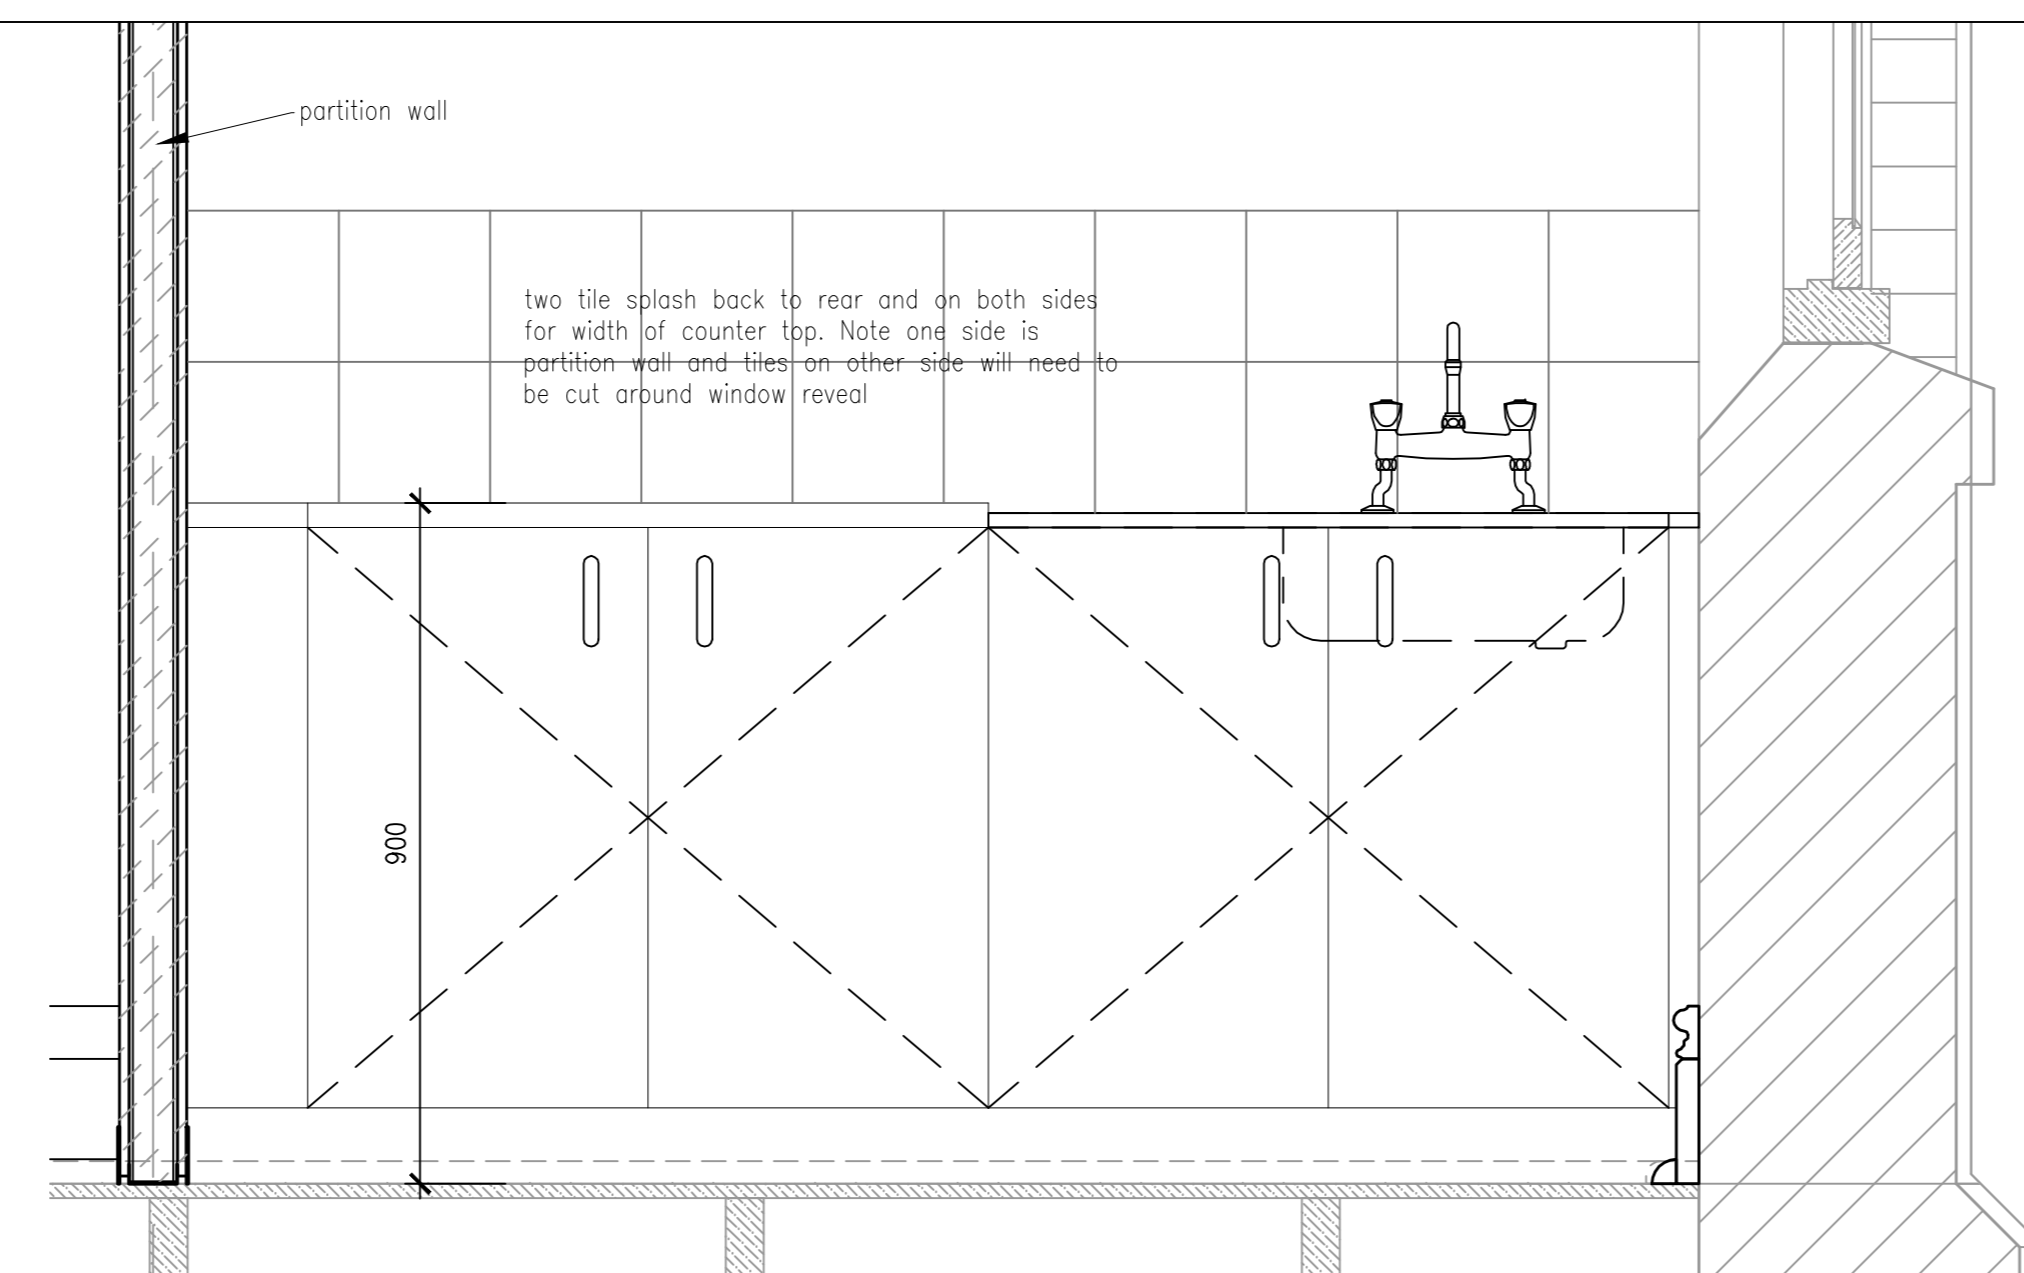

Escutcheon to be 18mm diameter white plastic escutcheon as per ROCO ref F81 or other approved to accommodate key for lock and to be press fitted into purpose drilled hole in cupboard frame.

20mm chrome plated barrel bolt to be fitted to bottom of door leaf opposite one with lock with keep neatly set into bottom of cupboard.

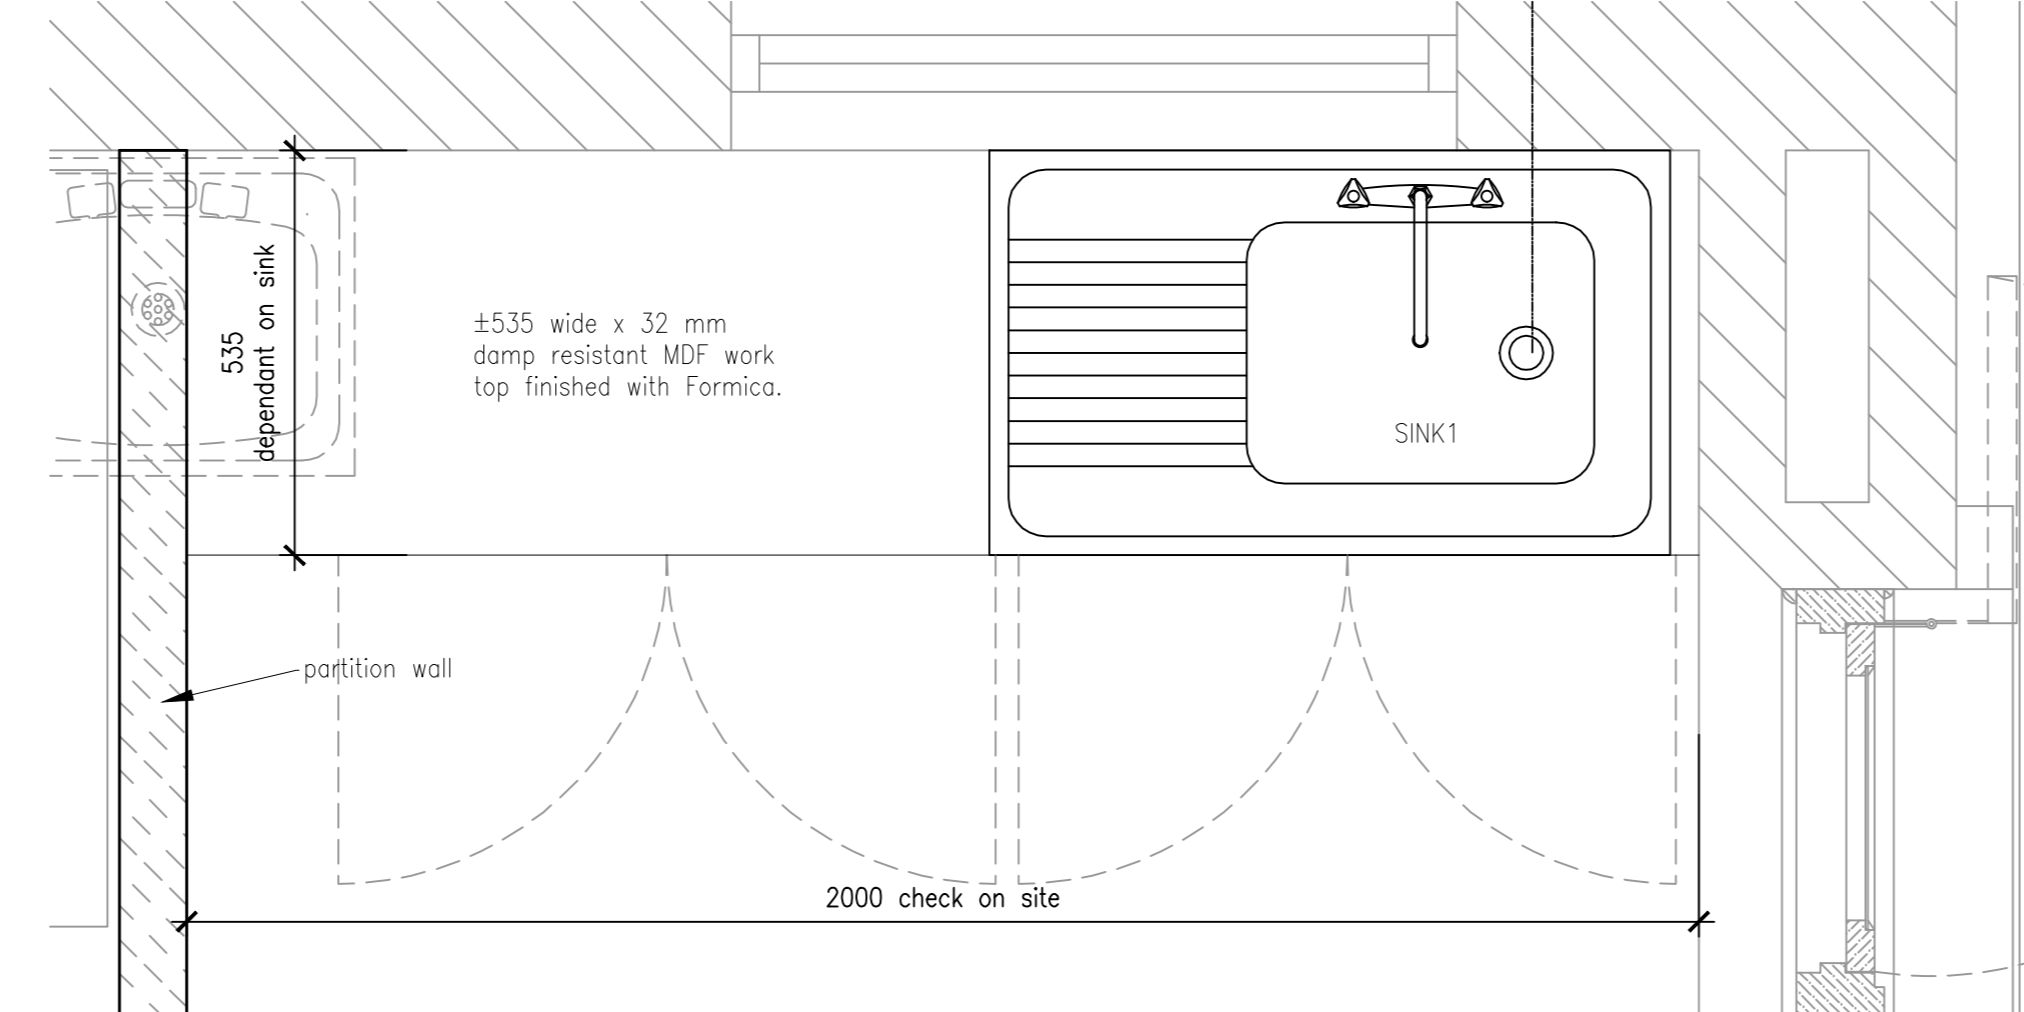

Carefully and neatly seal all gaps between unit and wall with white silicone sealant.
