**EASTERN CAPE HERALD NEWSPAPER TEXT
(PUBLISHED ON 09 JUNE 2022)**

NOTICE OF THE FINALISATION OF THE ENVIRONMENTAL MANAGEMENT PROGRAMMES (EMPRs) AND LAYOUTS FOR THE MSENGE EMOYENI AND IZIDULI EMOYENI WIND ENERGY FACILITIES, BLUE CRANE ROUTE LOCAL MUNICIPALITY , EASTERN CAPE PROVINCE

FINALISATION OF THE 140MW MSENGE EMOYENI WIND ENERGY FACILITY AND 84MW IZIDULI EMOYENI WIND ENERGY FACILITY ENVIRONMENTAL MANAGEMENT PROGRAMMES AND LAYOUTS, NEAR BEDFORD AND COOKHOUSE IN THE SARAH BAARTMAN DISTRICT MUNICIPALITY, EASTERN CAPE PROVINCE

Notice is hereby given in terms of Regulation 37 published in Government Notice No.982 under Chapter 5, Part 4 of the National Environmental Management Act (NEMA, Act No. 107 of 1998 and subsequent amendments) Environmental Impact Assessment (EIA) Regulations (2014, as amended) of the submission of the following:

- 1) A proposed Final EMPr and Layout for the 140MW Msenge Emoyeni Wind Energy Facility to the National Department of Forestry, Fisheries and the Environment (DFFE) for comment.
- 2) A proposed Final EMPr and Layout for the 84MW Iziduli Emoyeni Wind Energy Facility to the National Department of Forestry, Fisheries and the Environment (DFFE) for comment.

Amakhala Emoyeni Renewable Energy (Pty) Ltd and Emoyeni Wind Farm Renewable Energy (Pty) Ltd, propose to finalise the layouts and EMPrs for the 140MW Msenge Emoyeni and 84MW Iziduli Emoyeni Wind Energy Facilities respectively. The Msenge Emoyeni Wind Energy Facility has been selected as a preferred bidder by a private offtaker and intends to commence with construction within the confines of the Environmental Authorisation (EA), DFFE Ref: 12/12/20/1754/2. It is the intention to construct the adjacent Iziduli Emoyeni Wind Energy Facility (DFFE Ref: 12/12/20/1754/4) together with the Msenge Emoyeni Wind Energy Facility. The EMPrs for both Wind Energy Facilities are being finalised in accordance with conditions of the respective Environmental Authorisations.

Nala Environmental has been commissioned by the Applicants to undertake the ground truthing and subsequent finalisation of the EMPrs in terms of NEMA EIA Regulations. You are hereby invited to register as an Interested and Affected Party (ISAP) and to comment on the Final EMPrs available on the Nala Environmental website (<https://nalaenvironmental.co.za/>). The documentation will be made available for review and comment from **Thursday , 09 June 2022 to Monday, 11 July 2022 (both days inclusive). Kindly submit your comments on the proposed projects on or before the 11 July 2022.**

June 2022

**PROCESS NOTIFICATIONS TO I&AP'S AND
STAKEHOLDERS INFORMING THEM OF THE
PROPOSED PUBLIC PARTICIPATION PROCESS**

NALA
ENVIRONMENTAL
CONSULTING FIRM

08 June 2022

Dear Stakeholder and Interested & Affected Party,

FINAL ENVIRONMENTAL MANAGEMENT PROGRAMME REPORT AND FINAL LAYOUT FOR THE AUTHORISED 84MW IZIDULI EMOYENI WIND ENERGY FACILITY, BLUE CRANE ROUTE LOCAL MUNICIPALITY, EASTERN CAPE PROVINCE (DFFE Ref No.: 12/12/20/1754/4)

NOTIFICATION OF PUBLIC PARTICIPATION PROCESS

Emoyeni Wind Farm Renewable Energy (Pty) Ltd received and Environmental Authorisation (EA) (DFFE Ref: 12/12/20/1754/4) dated (28/08/2012) and further amendments to the EA dated, 02 July 2015, 18 May 2016, 04 October 2016, 15 November 2018 and the latest 02 June 2021 for the development of a 84MW Iziduli Emoyeni Wind Energy Facility and associated infrastructure between the towns of Cookhouse and Bedford and located within the Cookhouse REDZ in the Eastern Cape Province.

The project will include:

- Up to 10 turbines to the capacity of up to 84MW with a hub height of up to 135m and rotor diameter (including nacelle) of up to 160m (i.e. each blade up to 80m in length);
- Underground cables (where practical) between the turbines;
- Foundations (of up to 20 x 20 x 2 m) to support the turbine towers
- Internal access roads to each turbine (4 - 6m wide during construction, reduced to 3 - 4m wide during operation).

The following properties have been identified for the 84MW Iziduli Emoyeni Wind Energy Facility and associated infrastructure

- Remainder of Farm 220 (Brak Fontein)
- The Farm No. 219
- Portion 1 of Farm No. 218
- Portion 2 of Farm No. 218
- Remainder of No. 218

The adjacent Msenge Emoyeni Wind Energy Facility has been selected as preferred bidder by a private offtaker and it is the intention of the developer to construction the Iziduli Emoyeni Wind Energy Facility together with the Msenge Emoyeni Wind Energy Facility. Therefore, in order to meet financial close requirements and comply with the requirements of the Environmental Authorisation (as

+27 84 277 7074

Unit 261, Kikuyu Waterfall,
Midrand, Johannesburg, 20290

amended) i.e “The Environmental Management Plan (EMP) submitted as part of the application for environmental authorisation must be amended and submitted to the Department for written approval prior to commencement of the activity. The recommendations and mitigation measures recorded in the EIR dated November 2010 must be incorporated as part of the EMP. Once approved, the EMP must be implemented and adhered to.” and “ Condition 6.4. The applicant must submit a final layout plan for the entire wind energy facility for approval to the department. The Layout should indicate the following:

- Turbine positions;
- Foundation footprint
- Permanent laydown areas footprint
- Construction period laydown footprint;
- Internal roads indicating width (construction width and operation width) and with numbered sections between the other site elements which they serve (to make commenting on sections possible);
- Wetlands, drainage lines, rivers, stream and water crossings of roads and cables indicating the type of bridging structures that will be used;
- Heritage sites that will be affected by the turbines and associated infrastructure;
- Substation (s) and/or transformer(s) sites including their entire footprint;
- Cable routes and trench dimensions (where they are not along internal roads)”

In this regard, Emoyeni Wind Farm Renewable Energy (Pty) Ltd has prepared the Final Environmental Management Programme report and Final Layout for review and comment. In accordance with the Environmental Authorisation issued, the Iziduli Emoyeni Wind Energy Facility EMP and Site Layout will be made available for a 30-day public comment and review period. The relevant reports will be made available for download from the Nala Environmental website upon commencement of the 30-day review period. Copies of the documentation can be made available in any format as requested. Should you be unable to download the relevant documentation from the website when it becomes available, kindly advise us of your preferred method to have the documentation sent to you.

The Public Participation Process takes into consideration Regulation 37 published in Government Notice No.982 under Chapter 5, Part 4 of the National Environmental Management Act (NEMA, Act No. 107 of 1998 and subsequent amendments) Environmental Impact Assessment (EIA) Regulations (2014, as amended). Comments received from the competent authority, public and organs of states will be incorporated, addressed and responded to in a comments and responses report that will be submitted to DFFE with the Final EMP and Site Layout.

Nala Environmental was appointed as the independent environmental consultant to undertake the finalisation of the original EMP and Final Layout for the Iziduli Emoyeni Wind Energy Facility.

As per the requirements of the Environmental Authorisation and specialist recommendations made during subsequent amendment process the following specialist pre-construction walkthrough assessments were undertaken by suitably qualified and registered specialist to inform the final layout and EMP:

NALA
ENVIRONMENTAL
CONSULTING FIRM

- » Terrestrial Pre-construction Walkthrough (Scherman Environmental Aquatic and Environmental Management Consulting);
- » Aquatic Pre-construction Walkthrough (Scherman Environmental Aquatic and Environmental Management Consulting);
- » Avifauna Pre-construction Walkthrough (Chris van Rooyen Consulting);
- » Bat Pre-construction Walkthrough (Inkululeko Wildlife Services);
- » Heritage and Palaeontological Pre-construction Walkthrough (Cedar Towers Heritage)

You and/or the organisation, which you represent, has been identified as an Interested and Affected Party (IGAP) to review and comment of the Final EMPr and Layout. **A separate notification letter will be communicated that includes the dates of commencement of the 30-day review period and links to download the relevant documentation for review and comment.**

Our team welcomes your participation and looks forward to your involvement throughout this process. We also welcome you to share this information with others that you feel will have an interest in this process.

Kind regards,

Arlene Singh
Environmental Consultant

Bcc:

Dear Stakeholder and Interested & Affected Parties,

Notice is hereby given in terms of Regulation 37 published in Government Notice No.982 under Chapter 5, Part 4 of the National Environmental Management Act (NEMA, Act No. 107 of 1998 and subsequent amendments) Environmental Impact Assessment (EIA) Regulations (2014, as amended) of the submission of the following:

A proposed Final EMPr and Layout for the 84MW Iziduli Emoyeni Wind Energy Facility to the National Department of Forestry, Fisheries and the Environment (DFFE) for comment.

Emoyeni Wind Farm Renewable Energy (Pty) Ltd, propose to finalise the layout and EMPr for the 84MW Iziduli Emoyeni Wind Energy Facility. The Msenge Emoyeni Wind Energy Facility has been selected as a preferred bidder by a private offtaker and intends to commence with construction within the confines of the Environmental Authorisation

(EA), DFFE Ref.: 12/12/20/1754/2. It is the intention to construct the adjacent Iziduli Emoyeni Wind Energy Facility (DFFE Ref: 12/12/20/1754/4) together with the Msenge Emoyeni Wind Energy Facility. The EMPr for the Iziduli Wind Energy Facility are being finalised in accordance with conditions of the Environmental Authorisation.

Nala Environmental has been commissioned by the Applicant to undertake the ground truthing and subsequent finalisation of the EMPrs in terms of NEMA EIA Regulations. You are hereby invited to register as an Interested and Affected Party (I&AP) and to comment on the Final EMPrs that will be made available on the Nala Environmental website (<https://nalaenvironmental.co.za/>). The documentation will be made available for review and comment from **Thursday , 09 June 2022 to Monday, 11 July 2022 (both days inclusive)**.

You and/or the organisation, which you represent, has been identified as an Interested and Affected Party (I&AP) to review and comment on the Final EMPr and Layout. **A separate notification letter will be communicated that includes the dates of commencement of the 30-day review period and links to download the relevant documentation for review and comment.**

Our team welcomes your participation and looks forward to your involvement throughout this process. We also welcome you to share this information with others that you feel will have an interest in this process.

Kind regards,

CONSULTING FIRM

09 June 2022

Dear Stakeholder and Interested & Affected Party,

FINAL ENVIRONMENTAL MANAGEMENT PROGRAMME REPORT AND FINAL LAYOUT FOR THE AUTHORISED 84MW IZIDULI EMOYENI WIND ENERGY FACILITY, BLUE CRANE ROUTE LOCAL MUNICIPALITY, EASTERN CAPE PROVINCE (DFFE Ref No.: 12/12/20/1754/4)

NOTIFICATION OF PUBLIC PARTICIPATION PROCESS

Emoyeni Wind Farm Renewable Energy (Pty) Ltd received and Environmental Authorisation (EA) (DFFE Ref: 12/12/20/1754/4) dated (28/08/2012) and further amendments to the EA dated, 02 July 2015, 18 May 2016, 04 October 2016, 15 November 2018 and the latest 02 June 2021 for the development of a 84MW Iziduli Emoyeni Wind Energy Facility and associated infrastructure between the towns of Cookhouse and Bedford and located within the Cookhouse REDZ in the Eastern Cape Province.

The project will include:

- Up to 10 turbines to the capacity of up to 84MW with a hub height of up to 135m and rotor diameter (including nacelle) of up to 160m (i.e. each blade up to 80m in length);
- Underground cables (where practical) between the turbines;
- Foundations (of up to 20 x 20 x 2 m) to support the turbine towers
- Internal access roads to each turbine (4 - 6m wide during construction, reduced to 3 - 4m wide during operation).

The following properties have been identified for the 140MW Msenge Emoyeni Wind Energy Facility and associated infrastructure

- Remainder of Farm 220 (Brak Fontein)
- The Farm No. 219
- Portion 1 of Farm No. 218
- Portion 2 of Farm No. 218
- Remainder of No. 218

The adjacent Msenge Emoyeni Wind Energy Facility has been selected as preferred bidder via a private offtaker and it is the intention of the developer to construction the Iziduli Emoyeni Wind Energy Facility together with the Msenge Emoyeni Wind Energy Facility. Therefore, in order to meet financial close requirements and comply with the requirements of the Environmental Authorisation (as

+27 84 277 7074

Unit 261, Kikuyu Waterfall,
Midrand, Johannesburg, 20290

amended) i.e “The Environmental Management Plan (EMP) submitted as part of the application for environmental authorisation must be amended and submitted to the Department for written approval prior to commencement of the activity. The recommendations and mitigation measures recorded in the EIR dated November 2010 must be incorporated as part of the EMP. Once approved, the EMP must be implemented and adhered to.” and “ Condition 6.4. The applicant must submit a final layout plan for the entire wind energy facility for approval to the department. The Layout should indicate the following:

- Turbine positions;
- Foundation footprint
- Permanent laydown areas footprint
- Construction period laydown footprint;
- Internal roads indicating width (construction width and operation width) and with numbered sections between the other site elements which they serve (to make commenting on sections possible);
- Wetlands, drainage lines, rivers, stream and water crossings of roads and cables indicating the type of bridging structures that will be used;
- Heritage sites that will be affected by the turbines and associated infrastructure;
- Substation (s) and/or transformer(s) sites including their entire footprint;
- Cable routes and trench dimensions (where they are not along internal roads)”

In this regard, Emoyeni Wind Farm Renewable Energy (Pty) Ltd has prepared the Final Environmental Management Programme report and Final Layout for review and comment. In accordance with Environmental Authorisation issued, the Iziduli Emoyeni Wind Energy Facility EMPr and Site Layout are available for a 30-day public comment and review period **from 09 June 2022 to 11 July 2022 (both days inclusive)**. The relevant report can be downloaded from: <https://nalaenvironmental.co.za/projects/final-environmental-management-programme-for-the-authorized-iziduli-emoyeni-wind-energy-facility-eastern-cape-province%ef%bf%bc%ef%bf%bc/>

The Public Participation Process takes into consideration Chapter 2 and Chapter 6 (4) (b), (c) , (e) ,42,43 and 44) of GN R.326 of the National Environmental Management Act, 1998 (Act 107 of 1998) (NEMA) Regulations 2014 (as amended), promulgated under Section 24 (5) of the National Environmental Management Act)Act 107 of 1998- NEMA), as amended. Comments received from the competent authority, public and organs of states will be incorporated, addressed and responded to in the EMPr and Site Layout.

Nala Environmental was appointed as the independent environmental consultant to undertake the finalisation of the original EMPr and Final Layout for the Iziduli Emoyeni Wind Energy Facility.

As per the requirements of the Environmental Authorisation and specialist recommendations made during subsequent amendment process the following specialist pre-construction walkthrough assessments were undertaken by suitably qualified and registered specialist to inform the final layout and EMPr:

- » Terrestrial Pre-construction Walkthrough (Scherman Environmental Aquatic and Environmental Management Consulting);
- » Aquatic Pre-construction Walkthrough (Scherman Environmental Aquatic and Environmental Management Consulting);

NALA
ENVIRONMENTAL
CONSULTING FIRM

- » Avifauna Pre-construction Walkthrough (Chris van Rooyen Consulting);
- » Bat Pre-construction Walkthrough (Inkululeko Wildlife Services);
- » Heritage and Palaeontological Pre-construction Walkthrough (Cedar Towers Heritage)

You and/or the organisation, which you represent, has been identified as an Interested and Affected Party (IGAP) to review and comment of the Final EMPr and Layout.

Our team welcomes your participation and looks forward to your involvement throughout this process. We also welcome you to share this information with others that you feel will have an interest in this process.

Kind regards,

Arlene Singh
Environmental Consultant
E-mail: publicparticipation@nalaenvironmental.co.za
