PPR	Public Participation Report
WUL	Water Use Licence

1 INTRODUCTION

Tetra4 (Pty) Ltd (hereafter referred to as the applicant) has appointed Environmental Impact Management Services (Pty) Ltd (EIMS) as the Environmental Assessment Practitioner (EAP) to assist with undertaking the required authorisation processes (including the statutory public participation), and to compile and submit the required documentation in support of application for:

- Environmental Authorisation (EA) and amendments in accordance with the National Environmental Management Act- NEMA (Act 107 of 1998).
- Atmospheric Emissions Licence variation in accordance with the requirements of the National Environmental Management: Air Quality Act- NEM:AQA (Act 39 of 2004).
- Waste Management Licence in accordance with the requirements of the National Environmental Management: Waste Act- NEM:WA (Act 59 of 2008).
- Water Use Licence (WUL) in accordance with the National Water Act – NWA (Act 36 of 1998).
- Amendment of Rights Permits or Plans in accordance with Section 102 of the Mineral and Petroleum Resources Development Act – MPRDA (Act 28 Of 2002).

The applicant wishes to expand their natural gas operations, to be located within the approved production right area. This planned expansion to the existing approved production activities will involve up to 300 new production wells, gas transmission pipelines and associated infrastructure, compressor stations and a new combined Liquid Natural Gas (LNG) and Liquid Helium (LHe) plant (“LNG/LHe Plant”) and associated infrastructure as part of the Cluster 2 expansion of the Project in order to meet the future production requirements.

The proposed project falls within the Masilonyana and Matjhabeng Local Municipalities, in the Lejweleputswa District Municipality, Free State Province. The site boundary is ~5km south west of the town of Virginia, ~9km south the town of Welkom and ~16km north of the town of Theunissen. The application area covers approximately 27 500 hectares, and the approximate centre point of the site is located at 28°10'20.47"S and 26°43'50.79"E.

2 OBJECTIVES OF THE PUBLIC PARTICIPATION

South Africa, being one of the countries with the most progressive constitutions, enshrined the public’s right to be involved in decisions that may affect them in its Constitution. Section 57(1) of the new Constitution that provides: “*The National Assembly may (b) make rules and orders concerning its business, with due regard to representative and participatory democracy, accountability, transparency and public involvement*”. This provision, along with several others gave rise to many new trends in South African legislation. In environmental legislation, the idea of public participation (or stakeholder engagement) features strongly and especially the National Environmental Management Act (Act 107 of 1998, NEMA) and the recent regulations passed under the auspices of this Act makes very strict provisions for public participation in environmental decision-making.

Public participation can be defined as...“*a process leading to a joint effort by stakeholders, technical specialists, the authorities and the proponent who work together to produce better decisions than if they had acted independently*”¹. From this definition, it can be seen that the input of the public is regarded as very important indeed.

The PPP is designed to provide sufficient and accessible information to Interested and Affected Parties (I&APs) in an objective manner to assist them to:

¹ Greyling, T. (1999) Towards Managing Environmental Disputes: Appropriate Public Participation. Prepared for Conference on Environmental Dispute Resolution 10-11 June 1998, Fourways, Gauteng, Manyaka Greyling Meiring (Pty) Ltd, South Africa

- During the Scoping and Environmental Impact Assessment (EIA) Process:
 - Contribute relevant local information and knowledge to the environmental assessment;
 - Verify that their issues have been recorded;
 - Comment on the findings of the environmental assessments; and
 - Provide relevant local information and knowledge to the environmental assessment.

The PPP is a requirement of several pieces of South African Legislation and aims to ensure that all relevant I&APs are consulted, involved and their opinions are taken into account and a record included in the reports submitted to Authorities. The process ensures that all stakeholders are provided this opportunity as part of a transparent process which allows for a robust and comprehensive environmental study. The PPP for the necessary authorisation required for the proposed Tetra4 Gas Gathering and Production Project needs to be managed sensitively and according to best practises in order to ensure and promote:

- Compliance with international best practice options;
- Compliance with national legislation;
- Establishment and management of relationships with key stakeholder groups; and
- Encouragement of involvement and participation in the environmental study and authorisation/approval process.

As such, the purpose of the PPP and stakeholder engagement process is to:

- Introduce the proposed project and process for the authorisation project;
- Explain the environmental authorisation;
- Determine and record issues, concerns, suggestions, and objections to the project;
- Provide opportunity for input and gathering of local knowledge;
- Establish and formalise lines of communication between the I&APs and the project team;
- Identify all significant issues for the project; and
- Identify possible mitigation measures or environmental management plans to minimise and/or prevent negative environmental impacts and maximise and/or promote positive environmental impacts associated with the project.

This Public Participation Report (PPR) lists all verbal and written issues raised by I&APs and stakeholders from the 30-day initial notification and call to register period from the 20 May 2022 to date. A breakdown of the PPP is given within the remaining sections of this PPR.

2.1 LEGAL COMPLIANCE

The PPP must comply with all environmental legislation that requires public participation as part of an application for authorisation or approval; namely:

- NEMA;
- NEM:AQA; and
- NWA.

Adherence to the requirements of the above-mentioned Acts will allow for an Integrated PPP to be conducted, and in so doing, satisfy the requirement for public participation referenced in the Acts. The details of the Integrated PPP are provided below.

3 IDENTIFICATION OF INTERESTED AND AFFECTED PARTIES (I&APS)

An initial I&AP database has been compiled from historic projects in the area and Windeed searches to obtain the contact details of the affected and surrounding landowners. The I&APs referred to in the PPR include:

- Pre-identified and registered landowners and surrounding/adjacent landowners;
- Pre-identified and registered key stakeholders;
- Regulatory authorities;
- Specialist interest groups; and
- All I&APs who responded to the initial notifications and requested to be registered.

Efforts to pre-identify key I&APs involved various avenues such as consultation with the proponent and known landowners within the study area, review of related previously conducted studies, and identification of key interest groups and authorities within the vicinity of the study area and municipality. Refer Appendix B 1 for the Key Stakeholder/I&AP Database.

All landowners whose properties are within the study area have been notified about the project via post, fax and/or email as well as through advertisements and/or site notices inviting them to participate in the EIA process. Refer to Appendix B 2 for the landowner, key stakeholder and I&AP initial notifications.

3.1 LIST OF AUTHORITIES NOTIFIED

The following authorities, but not limited to, were notified of the proposed project and invited to participate in the public participation process:

- Free State Development Corporation
- Free State Department of Cooperative Governance and Traditional Affairs
- Free State Department of Economic, Small Business Development, Tourism and Environmental Affairs
- Free State Department of Mineral Resources and Energy
- Free State Department of Police, Roads and Transport
- Free State Department of Public Works and Infrastructure
- Free State Department of Water and Sanitation
- Free State Development Corporation
- Free State Heritage Resources Authority
- Lejwaleputswa District Municipality
- Masilonyana Local Municipality
- Matjhabeng Local Municipality
- National Department of Agriculture, Land Reform And Rural Development;
- National Department of Forestry, Fisheries and the Environment;
- National Department of Transport
- National Department of Water and Sanitation; and
- National Department of Mineral Resources
- National Energy Regulator of South Africa
- National House of Traditional Leaders
- Sedibeng Water

- South African Heritage Resources Agency (SAHRA).

3.2 LIST OF OTHER KEY I&APS AND STAKEHOLDERS IDENTIFIED AND NOTIFIED

The following key I&APS, but not limited to, were notified of the proposed project and invited to participate in the public participation process:

- Afgri Agri Services
- African Carbon Energy (Pty) Ltd
- Afriforum
- Agri Free State
- Agri South Africa
- Birdlife SA
- Botanical Society
- Centre for Environmental Rights
- Conservation South Africa
- Council for Geoscience
- CSIR
- Earth Life Africa
- Endangered Wildlife Trust
- Eskom Holdings SOC Ltd;
- Federation for a Sustainable Environment
- Free State Wetland Forum
- GroundWork SA
- Local Ward Councillors
- Matjhabeng Ratepayers Association
- National Farmers Union
- Sibanye Stillwater
- South African National Biodiversity Institute
- South African National Roads Agency Ltd: Eastern Region
- Tara Wildlife SA
- Transnet SOC Ltd
- World Wildlife Fund

4 NOTIFICATION OF INTERESTED AND AFFECTED PARTIES

This section provides details on the notifications that were distributed as part of the consultation process to date.

4.1 INITIAL NOTIFICATION OF LANDOWNERS AND I&APS

The PPP commenced on the 16th May 2022 with an initial notification and call to register ending on the 21st June 2022. Notification during this initial consultation was given in the manner described below.

4.1.1 REGISTERED LETTERS, FAXES AND EMAILS

Notification letters in English, Afrikaans and seSotho were distributed to pre-identified I&APS through either registered mail, faxes, and/or emails. Please refer to Appendix B 2 for initial notification and proof of initial notification.

The notification documents included the following information:

- List of anticipated activities to be authorised;
- Sufficient detail of the proposed development to enable I&APS to assess/surmise what impact the development will have on them or on the use of their land;

- The purpose of the proposed project;
- Details of the application processes associated with proposed activities;
- Details of the affected properties (including a locality map);
- Details of the South African environmental legislation that must be adhered to;
- Date by which the I&AP must register and send comments through to EIMS;
- Contact details of the EAP.

4.1.2 NEWSPAPER ADVERTISEMENTS

Advertisements describing the proposed project and EIA process were placed in the Vista Newspaper (in English, Afrikaans and SeSotho) with adequate circulation in the vicinity of the study area on the 19th May 2022. A notice was also placed in the Free State Provincial Gazette on the 01st July 2022. The newspaper advert and notice included the following information:

- Project name;
- Applicant name;
- Project location;
- Nature of the activity;
- Legislative requirements; and
- Relevant EIMS contact person for the project.

Please refer to Appendix B 3 for proof of adverts and notices placed.

4.1.3 SITE NOTICE PLACEMENT

Seventy-Eight (78) A1 Correx site notices (in English, Afrikaans and SeSotho) were placed at 78 locations along, within and surrounding the perimeter of the proposed project study area on the 16th-19th May 2022. The on-site notices included the following information:

- Project name;
- Applicant name;
- Project location;
- Map of proposed project area;
- Project description;
- Legislative requirements; and
- Relevant EIMS contact person for the project.

Please refer to Appendix B 4 for proof of site notice and site notice distribution.

4.2 SUMMARY OF PUBLIC PARTICIPATION OPPORTUNITIES

The table below provides a summary of the opportunities provided to I&APs for participation in the public participation process to date.

Table 1: Opportunities Provided for Public Participation

PUBLIC PARTICIPATION PHASE			
ACTION	DESCRIPTION	PUBLICATION/PLACE	DATE
Initial Public Notification (announcement of project and call to register)	Newspaper advertisements	Vista Newspaper (English, Afrikaans and SeSotho)	19 May 2022
	Placement of site notices.	78 A1 site notices (English, Afrikaans and SeSotho) within and around the study area (78 placement locations).	16 - 19 May 2022
	Notification of landowners, occupiers, and other key I&APs.	Affected landowners and key I&APs were notified via email, fax, and/or post (English, Afrikaans and SeSotho).	20 May 2022
		Government Gazette (English, Afrikaans and SeSotho)	01 July 2022

5 NOTIFYING INTERESTED AND AFFECTED PARTIES OF THE DECISION

Interested and Affected Parties will be notified via either fax, registered mail and/or email, where contact details are available of the decision once available including the appeal process should they wish to appeal the decision.

6 RECORD OF ISSUES RAISED

The comments presented in are those that have been received and addressed from 20 May 2022 to date and will be updated post the public review period of the Scoping Report.

6.1 Summary of issues that were raised

A high-level summary of the comments raised to date are presented below.

- Concerns of water availability to farmers and air quality impacts of the proposed project
- Groundwater contamination concerns
- I&AP deregistrations
- I&AP registrations
- KMZ file request by Eskom
- Notification of ongoing PV Authorization project from EAP within project area notification, locality map sharing and BID documents.
- Request for a list of farms to be affected by the proposed developments
- Seeking of potential business opportunities from the proposed development
- Transnet commented that the proposed development does not affect their pipeline servitudes in the region

All comments and/or queries received to date are included in this report and presented in Appendix B 5 and Appendix B 6 for submission to the competent authority, the Petroleum Agency SA (PASA). Please refer to Appendix B 6 for proof of correspondence.

7 CONCLUSION AND RECOMMENDATIONS

This report will be updated for submission to the PASA, following the 30-day public review period of the Scoping Report and associated appendices.
