Access routes	Generation of dust on gravel roads.		Operation, Decommissioning	Neg	3	2	2	1	8	3	24	CONTROL Manage dust through water carts and wetting of gravel roads if and when required. Establish speed limits that will effectively reduce dust generation on roads.	Dust fallout will be managed to not exceed 600mg/m2/day.	2	1	2	1	6	3	18	Dust fallout will be managed to not exceed 600mg/m2/day. Dust regulations as per NEM:AQA.	1. Sporadic visual inspection of billowing dust clouds from prospecting areas throughout prospecting operations.	1. Visual inspection for billowing dust clouds.	1. Environmental manager	1. Sporadic visual inspection of billowing dust clouds from prospecting areas throughout prospecting operations.
Access routes & Drilling	Emissions into the atmosphere through use of diesel powered equipment, machinery and vehicles.		Operation, Decommissioning	Neg	2	2	2	1	7	5	35	CONTROL Machinery and equipment will be regularly serviced to ensure they are in proper working condition and to reduce risk of excessive emissions.	Keep equipment, machinery and vehicles operating within their manufacturing specifications.	1	1	2	1	5	5	25	SANS / SABS / SA legislative requirements regarding vehicle and equipment maintenance and operating requirements. General duty of care in terms of NEMA.	1. Weekly inspection of all service and maintenance plans for all equipment and machinery as soon as equipment is brought to site for the duration of prospecting operations to ensure maintenance is scheduled in time.	1. Ensure vehicles are within operation specifications to prevent excessive noise, emission and reduce risks of leaks.	1. Site manager in conjunction with prospecting manager	1. Weekly inspection of all vehicle and equipment service and maintenance log books for the duration of prospecting operations.
Aspect: Noise																									
Access routes & Drilling	Increased noise levels.		Operation, Decommissioning	Neg	4	2	2	1	9	4	36	CONTROL Machinery and equipment will be regularly serviced. Noise control measures will be considered such as soundproofing of point sources, use of silencers, using strobe lights rather than beepers where feasible and where this won't compromise safety of people on site. Ensure	Prevent nuisance noise to nearby land owners / users	2	2	2	1	7	4	28	Environmental noise managed to SANS 10103:2004 levels.	-	-	-	-
