Morning Tilly,

I have checked on the proposed slight micro sighting of turbines 11 and 25, and removal of turbines 9 and 13 with regards to any possible change to the potential aquatic ecosystem impacts and confirm that the changes are acceptable and will not result in any change to the potential aquatic ecosystem impacts previously assessed or the mitigation measures recommended.

Kind regards

Toni

Good morning Specialists,

I am just following up on my email below. Please kindly look at the attached kmz. file and provide feedback as soon as possible (as per the email below).

I look forward to hearing from you.

Kind regards,

Tilly

Tilly Watermeyer (MSc)
