Attention : Ms Natasha Higgitt

Dear Ms Higgitt

SAHRA CASE ID 11967: UPGRADE OF 66KV POWERLINE NETWORK IN KURUMAN AREA, NORTHERN CAPE PROVINCE

Your letter with Interim Comment on the above SAHRA case, dated 07 September 2018, has reference.

The final paragraph with heading Interim Comment" stipulated that the identified areas must be surveyed prior to construction. Furthermore, monitoring reports from either the ECO or appointed palaeontologist must be submitted.

Zitholele Consulting herewith submits the Final PIA Field Survey undertaken by the appointed palaeontologist, Dr. John Almond, Natura Viva CC, of all areas identified in the foregoing PIA reports for SAHRA's consideration.

Dr. Almond furthermore provided palaeontological training and environmental awareness to the appointed ECO and other relevant staff, as indicated in this report. The appointed ECO will therefore submit monitoring report to SAHRA via SAHRIS going forward.

Lastly, Dr. Almond has been appointed to provide on-site assessment of potential palaeontological sites of finds on a ad-hoc basis for the power line construction period.

We trust that the points above have addressed the requirements as stipulated in the Interim Comments by SAHRA on the case.

Yours faithfully
