# APPENDIX 11 SCREENING TOOL REPORTS

# SCREENING REPORT FOR AN ENVIRONMENTAL AUTHORIZATION AS REQUIRED BY THE 2014 EIA REGULATIONS – PROPOSED SITE ENVIRONMENTAL SENSITIVITY

### **EIA Reference number:**

Project name: Karreebosch WEF Part 2 & BAR

**Project title:** Karreebosch WEF Part 2 & BAR for G7 Renewable Energies, Northern Cape and Western Cape

**Date screening report generated:** 12/07/2022 14:37:31

Applicant: G7 Renewable Energies (Pty) Ltd

**Compiler:** WSP Africa (Pty) Ltd.

**Compiler signature:** 

Application Category: Utilities Infrastructure | Electricity | Distribution and Transmission | Powerline

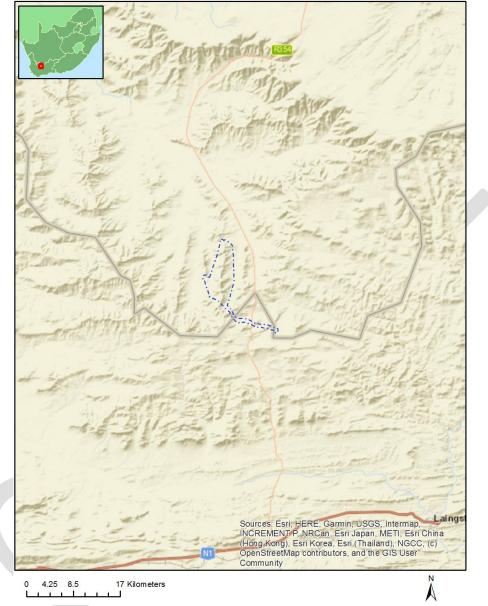

.....

Development footprint<sup>1</sup> vertices: No development footprint(s) specified.

# Wind and Solar developments with an approved Environmental Authorisation or applications under consideration within 30 km of the proposed area

| No | EIA Reference No    | Classification | Status of<br>application | Distance from proposed<br>area (km) |
|----|---------------------|----------------|--------------------------|-------------------------------------|
| 1  | 14/12/16/3/3/2/2009 | Solar PV       | Approved                 | 28.4                                |

Environmental Management Frameworks relevant to the application

No intersections with EMF areas found.

# Environmental screening results and assessment outcomes

The following sections contain a summary of any development incentives, restrictions, exclusions or prohibitions that apply to the proposed development site as well as the most environmental sensitive features on the site based on the site sensitivity screening results for the application classification that was selected. The application classification selected for this report is: Utilities Infrastructure | Electricity | Distribution and Transmission | Powerline.

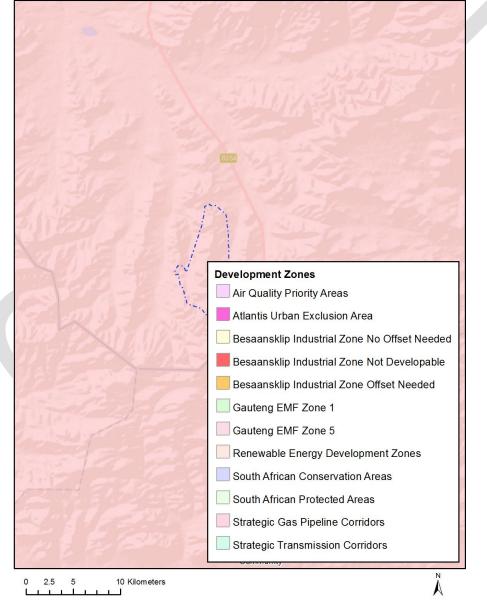

### Relevant development incentives, restrictions, exclusions or prohibitions The following development incentives, restrictions, exclusions or prohibitions and their implications that apply to this site are indicated below.

| Incentiv   | Implication   |
|------------|---|
| е,         |   |
| restrictio |   |
| n or       |   |

Project Location: Karreebosch WEF Part 2 & BAR

# Proposed Development Area Environmental Sensitivity

The following summary of the development site environmental sensitivities is identified. Only the highest environmental sensitivity is indicated. The footprint environmental sensitivities for the proposed development footprint as identified, are indicative only and must be verified on site by a suitably qualified person before the specialist assessments identified below can be confirmed.

| Theme   | Very High<br>sensitivity | High<br>sensitivity | Medium<br>sensitivity | Low<br>sensitivity |
|---|--------------------------|---------------------|-----------------------|--------------------|
| Agriculture Theme                             |                          |                     | Х                     |                    |
| Animal Species Theme                          |                          | Х                   |                       |                    |
| Aquatic Biodiversity Theme                    | Х                        |                     |                       |                    |
| Archaeological and Cultural<br>Heritage Theme |                          | Х                   |                       |                    |
| Civil Aviation Theme                          |                          |                     |                       | Х                  |
| Defence Theme                                 |                          |                     |                       | Х                  |
| Paleontology Theme                            | Х                        |                     |                       |                    |
| Plant Species Theme                           |                          |                     | X                     |                    |
| Terrestrial Biodiversity Theme                | Х                        |                     |                       |                    |

# Specialist assessments identified

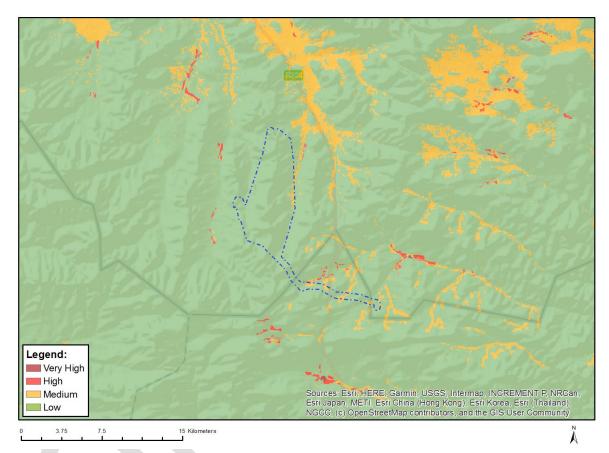

Based on the selected classification, and the environmental sensitivities of the proposed development footprint, the following list of specialist assessments have been identified for inclusion in the assessment report. It is the responsibility of the EAP to confirm this list and to motivate in the assessment report, the reason for not including any of the identified specialist study including the provision of photographic evidence of the site situation.

# Results of the environmental sensitivity of the proposed area.

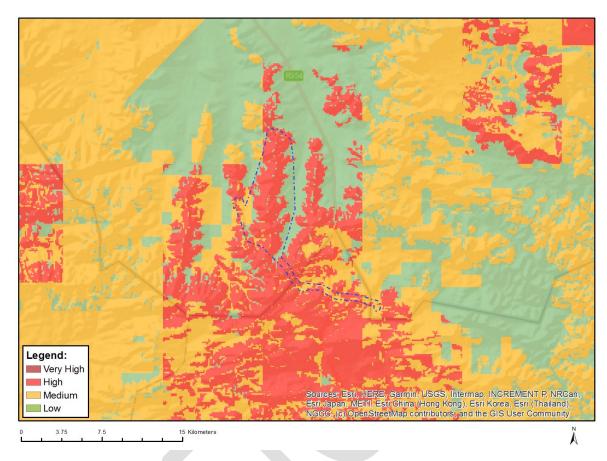

The following section represents the results of the screening for environmental sensitivity of the proposed site for relevant environmental themes associated with the project classification. It is the duty of the EAP to ensure that the environmental themes provided by the screening tool are comprehensive and complete for the project. Refer to the disclaimer.

# MAP OF RELATIVE AGRICULTURE THEME SENSITIVITY

# MAP OF RELATIVE ANIMAL SPECIES THEME SENSITIVITY

Where only a sensitive plant unique number or sensitive animal unique number is provided in the screening report and an assessment is required, the environmental assessment practitioner (EAP) or specialist is required to email SANBI at <u>eiadatarequests@sanbi.org.za</u> listing all sensitive species with their unique identifiers for which information is required. The name has been withheld as the species may be prone to illegal harvesting and must be protected. SANBI will release the actual species name after the details of the EAP or specialist have been documented.

| Very High sensitivity | High sensitivity | Medium sensitivity | Low sensitivity |

Development footprint<sup>1</sup> vertices: No development footprint(s) specified.

# Wind and Solar developments with an approved Environmental Authorisation or applications under consideration within 30 km of the proposed area

| No | EIA Reference No    | Classification | Status of<br>application | Distance from proposed<br>area (km) |
|----|---------------------|----------------|--------------------------|-------------------------------------|
| 1  | 14/12/16/3/3/2/2009 | Solar PV       | Approved                 | 28.5                                |

<sup>&</sup>lt;sup>1</sup> "development footprint", means the area within the site on which the development will take place and incudes all ancillary developments for example roads, power lines, boundary walls, paving etc. which require vegetation clearance or which will be disturbed and for which the application has been submitted.

No intersections with EMF areas found.

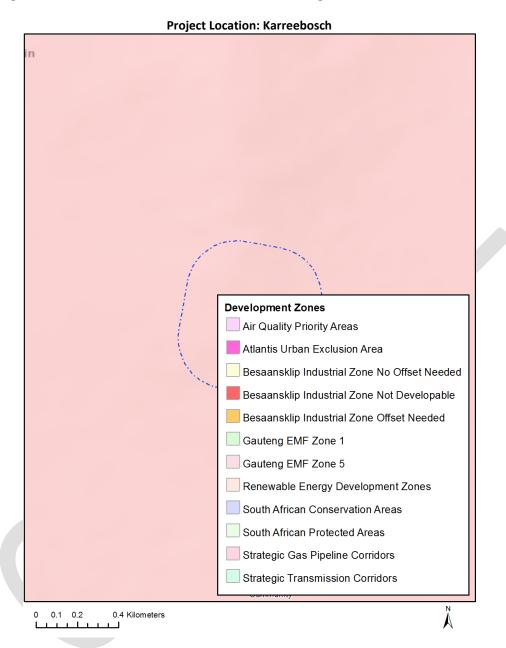

# Environmental screening results and assessment outcomes

The following sections contain a summary of any development incentives, restrictions, exclusions or prohibitions that apply to the proposed development site as well as the most environmental sensitive features on the site based on the site sensitivity screening results for the application classification that was selected. The application classification selected for this report is: Utilities Infrastructure | Electricity | Distribution and Transmission | Substation.

### Relevant development incentives, restrictions, exclusions or prohibitions

The following development incentives, restrictions, exclusions or prohibitions and their implications that apply to this site are indicated below.

| Incentiv<br>e,<br>restrictio<br>n or<br>prohibiti<br>on  | Implication  |
|--|--|
| Strategic<br>Transmissi<br>on<br>Corridor-<br>Central<br>corridor  | https://screening.environment.gov.za/ScreeningDownloads/DevelopmentZones/Co<br>mbined_EGI.pdf  |

Map indicating proposed development footprint within applicable development incentive, restriction, exclusion or prohibition zones

# Proposed Development Area Environmental Sensitivity

The following summary of the development site environmental sensitivities is identified. Only the highest environmental sensitivity is indicated. The footprint environmental sensitivities for the proposed development footprint as identified, are indicative only and must be verified on site by a suitably qualified person before the specialist assessments identified below can be confirmed.

| Theme                | Very High<br>sensitivity | High<br>sensitivity | Medium<br>sensitivity | Low<br>sensitivity |
|----------------------|--------------------------|---------------------|-----------------------|--------------------|
| Agriculture Theme    |                          |                     |                       | Х                  |
| Animal Species Theme |                          | Х                   |                       |                    |
| Page 6 of 17         |                          |                     |                       | Disclaimer applies |

| Plant Species Theme            |   | Х |   |
| Terrestrial Biodiversity Theme | Х |   |   |

# Specialist assessments identified

Based on the selected classification, and the environmental sensitivities of the proposed development footprint, the following list of specialist assessments have been identified for inclusion in the assessment report. It is the responsibility of the EAP to confirm this list and to motivate in the assessment report, the reason for not including any of the identified specialist study including the provision of photographic evidence of the site situation.

# Results of the environmental sensitivity of the proposed area.

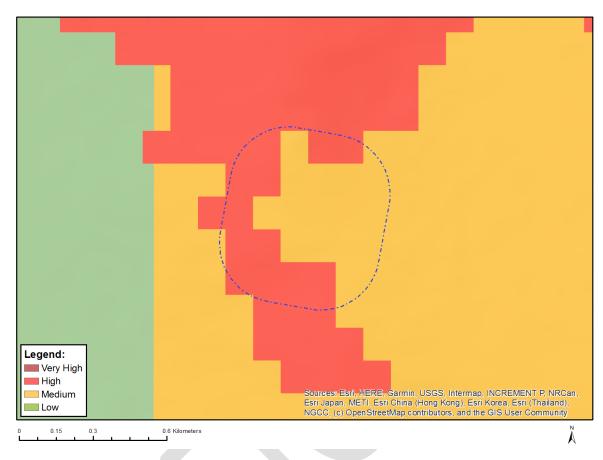

The following section represents the results of the screening for environmental sensitivity of the proposed site for relevant environmental themes associated with the project classification. It is the duty of the EAP to ensure that the environmental themes provided by the screening tool are comprehensive and complete for the project. Refer to the disclaimer.

# MAP OF RELATIVE AGRICULTURE THEME SENSITIVITY

| Very High sensitivity | High sensitivity | Medium sensitivity | Low sensitivity |
|-----------------------|------------------|--------------------|-----------------|
|                       |                  |                    | Х               |

| Sensitivity | Feature(s)  |
|-------------|---|
| Low         | Land capability;01. Very low/02. Very low/03. Low-Very low/04. Low-Very low/05. Low |

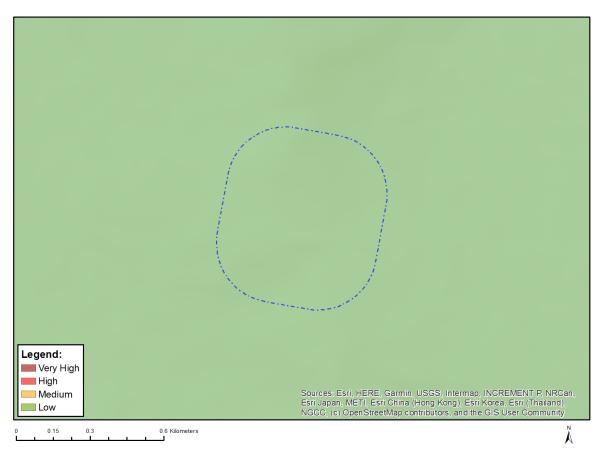

# MAP OF RELATIVE ANIMAL SPECIES THEME SENSITIVITY

Where only a sensitive plant unique number or sensitive animal unique number is provided in the screening report and an assessment is required, the environmental assessment practitioner (EAP) or specialist is required to email SANBI at <u>eiadatarequests@sanbi.org.za</u> listing all sensitive species with their unique identifiers for which information is required. The name has been withheld as the species may be prone to illegal harvesting and must be protected. SANBI will release the actual species name after the details of the EAP or specialist have been documented.

| Very High sensitivity | High sensitivity | Medium sensitivity | Low sensitivity |
|-----------------------|------------------|--------------------|-----------------|
|                       | X                |                    |                 |

| Sensitivity | Feature(s)                      |
