RE: Diepsloot Ingonyama Link Road Upgrade

Dear Maphata Ramphela

This letter serves to inform you that the Johannesburg Development Agency (on behalf of the City of Johannesburg) intends implementing a road upgrade project in Diepsloot. The aim of this project is to unlock economic investment potential and also improve vehicular and pedestrian movement in the area. The upgrade will be undertaken primarily along Ingonyama Road. The work includes (but is not limited) to the following key components:

- Paving upgrade and creation of new sidewalks
- Landscaping
- Lighting
- Street furniture
- Stormwater pipes and kerb inlets
- Road surfacing
- Traffic circle
- Cycle lanes
- Steel traders structures
- Traffic signals.

The road upgrade is due to the dilapidated gravel road and incomplete road network in and out of Diepsloot. The paving upgrade will improve the public environment on Ingonyama Road and minimize illegal squatting in the road reserve. The new paving will provide safe pathways for pedestrians and improved rainwater re-circulation (see attached plans).

Ingonyama Road measures approximately 1300m in length and includes road surface and paving (approx. 4650m²). As per the National Heritage Resources Act 1999, Clause 38 subsection (a) and (b) we need to inform the relevant heritage and resource authorities of our intentions.

Yours Sincerely,

Nokuthula Sibuya
