

## **Tsitsikamma Wind Energy Project**

---

Tsitsikamma Community Wind Farm (Pty) Ltd (“TCWF”) is planning the implementation of a Wind Energy Facility in the Tsitsikamma area in the Eastern Cape Province. This project involves the construction and operation of a wind farm with installed capacity of about 100 MW. The wind farm consists of 31 wind turbine generators and associated infrastructure.

This project will lead to a reduction of greenhouse gas emissions due to the displacement of carbon-intensive coal-based electricity by zero-emission wind based electricity. TCWF is planning to include this project as a component project activity (CPA) under the registered CDM programme of activities (PoA) ‘South African Wind Power Projects’, in order to offset the high costs associated with the project.

If there are any comments or concerns regarding this project, interested and affected parties are invited to contact Rob Ashdown; telephone number: +27 73 963 6285, or email: ([rob.ashdown@cennergi.com](mailto:rob.ashdown@cennergi.com)) before the end of February 2014.

## **Tsitsikamma Wind Energie Projek**

---

Tsitsikamma Community Wind Farm (Pty) Ltd (“TCWF”) is in die proses om n Wind Energie Projek te implementeer in die Tsitsikamma gebied in die Oos Kaap. Hierdie projek behels die konstruksie en bedryf van 'n windplaas met geïnstalleerde kapasiteit van ongeveer 100 MW. Die windplaas sal bestaan uit 31 wind turbine kragopwekkers en verwante infrastruktuur.

Hierdie projek sal lei tot 'n vermindering van kweekhuisgasse te danke aan die verplasing van koolstof-intensiewe steenkool-gebaseerde elektrisiteit deur wind gebaseerde elektrisiteit. TCWF beplan om hierdie projek te ontwikkel as 'n komponent projek aktiwiteit (CPA) onder die geregistreerde CDM program van aktiwiteite (PoA) 'South African Wind Power Projects', ten einde die hoë koste verbonde aan die projek te verreken.

Enige voorstelle of kommentaar in verband met die projek deur geïntereseerde partye kan gerig word aan: Rob Ashdown, telefoon nommer: +27 73 963 6285, or epos ([rob.ashdown@cennergi.com](mailto:rob.ashdown@cennergi.com)) voor die einde van Februarie 2014.
