ENVIRONMENTAL IMPACT ASSESSMENT FOR THARISA MINERALS (PTY) LTD

Notice is given in terms of the Mineral and Petroleum Resources Development Act, 28 of 2002 (MPRDA), the National Environmental Management Act 107 of 1998 (NEMA), the National Environment Management Air Quality Act, 38 of 2004 (NEMAQA), and the National Water Act, 36 of 1998 (NWA) of intent by Tharisa Minerals (Pty) Ltd (Tharisa) to carry out the activities described below in this regard, applications for environmental authorisations have been submitted to the North West Department of Economic Development, Environment, Conservation and Tourism (DEDECT) and the North West Department of Mineral Resources (DMR), Applications for an atmospheric emissions licence and water use licence will be lodged with the DEDECT (Air Quality Management Unit) and Department of Water Affairs in due course.

Reference number: DMR Reference Number NW30/5/12/3/2/1358, DEDECT Reference Number NWP/EIA/50/2011. Please include these reference numbers on all correspondence.

Name of Proponent: Tharisa Minerals (Pty) Ltd (Tharisa)

Description of proposed activities: Tharisa is an existing mine which produces chrome and platinum group metals (PGM) concentrates near Marikana town in the North West Province. Since the distribution of the scoping report in June 2012, as part of its ongoing mine planning, Tharisa identified the need for an additional waste rock dump to handle the volume of waste rock produced by the open pit mining operations.

This advertisement serves to notify you that the scoping report is being updated to address the change in project scope and will be available for public review in March 2014.

The updated NEMA listed activities in terms of the 2010 EIA Regulations potentially triggered by the project include Activities 11 (related to disturbance of non-perennial watercourses), 13 (storage of fuel) and 18 (related to disturbances of non-perennial watercourse) of Regulation No 344, Activities 5 (related to the need for a water use licence), 15 (alteration of land greater than 20ha) and 26 (related to the need for an air emission licence) of Regulation No 565 and Activity 14 (related to clearing indigenous vegetation in an area greater than 5ha) of Regulation No 358.

Location: The project will be located at Tharisa Mine, on the farms Kafferskraal 342 JQ and Glandsink 487 JQ within the Rustenburg and Matiberg Local Municipalities and Bojanala Platinum District Municipality of the North West Province.

Name of consultant to contact: SLR Consulting (Africa) (Pty) Ltd (SLP). Contact persons: Ms Stella Moekelets. Postal Address: P.O. Box 1566, Cramerivier, 2060. Tel: (011) 467-0945, Fax: (011) 467-1978, E-mail: smoekelets@slrconsulting.com

Submission of comments and Registration for IAPs: If/should you wish to receive further information or submit comments on the project please submit your name, contact information, DEDECT and DMR reference numbers, interests in the matter and comments in writing to the contact person(s) above within 30 days of publication of this advertisement.

Additional information: To obtain additional information about the proposed project under the environmental assessment process, please contact the above mentioned consultants.

Date of publication of this site notice: 14 February 2014

Blokkraai 31-01

Grid for the 31-01 crossword puzzle.

Answer # 252

Grid for the 31-01 crossword puzzle with numbers and some letters filled in.

## ENVIRONMENTAL IMPACT ASSESSMENT FOR THARISA MINERALS (PTY) LTD

Notice is given in terms of the Mineral and Petroleum Resources Development Act, 28 of 2002 (MPRDA), the National Environmental Management Act, 107 of 1998 (NEMA), the National Environmental Management Act, 39 of 2004 (NEMA-GA) and the National Water Act, 36 of 1998 (NWA) of intent by Tharisa Minerals (Pty) Ltd (Tharisa) to carry out the activities described below. In this regard, applications for environmental authorisations have been submitted to the North West Department of Economic Development, Environment, Conservation and Tourism (DEDECT) and the North West Department of Mineral Resources (DMR). Applications for an atmospheric emissions licence and water use licence will be lodged with the DEDECT (Air Quality Management Unit) and Department of Water Affairs in due course.

**Reference number:**  
DMR Reference Number: NW30/5/12/3/21/358  
DEDECT Reference Number: NWP/EIA/502011  
Please include the above reference numbers on all correspondence.

**Name of Proprietor:**  
Tharisa Minerals (Pty) Ltd (Tharisa)

**Description of proposed activities:**  
Tharisa is an existing mine that produces chrome and platinum group metal (PGM) concentrates near Mankwato town in the North West Province. In late 2011 Tharisa commissioned an environmental assessment process for various proposed developments including a chrome sand drying plant, changes to the tailings dam design, and changes to the general surface infrastructure layout and operations. Once the distribution of the scoping report in June 2012, as part of its ongoing mine planning, Tharisa identified the need for an additional waste rock dump to handle the volume of waste rock produced by the open pit mining operations. The addition of the waste rock dump triggers new activities in terms of the 2010 EIA Regulations under the National Environmental Management Act, 107 of 1998 (NEMA). This change in project footprint also triggers the need to include the additional facilities under the Mineral and Petroleum Resources Development Act, 28 of 2002 (MPRDA) instead of assessing a separate EIA process to cater for this change. It was decided in consultation with the relevant regulatory authorities to incorporate the new waste rock dump into the current EIA process and as such revise the scoping report and re-engage with interested and/or affected parties (IAPs) for the purposes of scoping.

This advertisement serves to notify you that the scoping report is being updated to deal with the change in project scope and will be available for public review in March 2014. A scoping report summary, including details on the review process will be distributed to all IAPs registered on the project's IAP database.

The updated NEMA listed activities in terms of the 2010 EIA Regulations potentially triggered by the project include: Activities 17 (related to disturbances of non-perennial watercourses), 13 (storage of fuel) and 18 (related to disturbances of non-perennial watercourses) of Regulation No 544, Activities 3 (related to the need for a water use licence), 15 (clearance of land greater than 20 ha) and 26 (related to the need for an air emission licence) of Regulation No 545 and Activity 14 (related to clearing indigenous vegetation in an area greater than 5 ha) of Regulation no 545.

**Location:**  
The project will be located at Tharisa Mine on the farms Kafferkrans 342 JQ and Elandsdrift 167 JQ, within the Rustenburg and Maaiberg Local Municipalities and Brijuniya Platinum District Municipality of the North West Province.

**Name of consultant to contact:**  
SLR Consulting (Africa) (Pty) Ltd (SLR)  
Contact persons: M. Stella Mooketsi  
Postal Address: PO Box 1580, Grahamstown, 2090  
Tel: 011 487 0845 Fax: 011 467 0978 E-mail: annelise@slrconsulting.com

**Submission of comments and Representation for IAPs:**  
Should you wish to receive further information or submit comments on the project, please submit your name, contact information, DEDECT and DMR reference number/s, address in the matter and comments in writing to the contact person(s) above, within 30 days of publication of this advertisement.

**Additional information:**  
To obtain additional information about the proposed project, and/or the environmental assessment process, please contact the above mentioned consultant.

**Date of publication of this notice:**  
14 February 2014
