AMAFI APPLICATION FOR THE DEMOLITION OF CHIMNEY STACK AT ILLOVO MILL, PENNINGTON

In response to questions at the HOC meeting on 7 December 2022 :

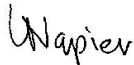

1. Will the stack be dismantled entirely or will the base remain? [The stack will be dismantled down to ground level. Or at least to a level that can be safely rehabilitated to be repurposed maybe into a store or functional space.](#)

[The foundation will remain intact, no excavations will happen around the new and existing adjacent buildings.](#)

2. Engineering drawings or visuals of the type of steel chimney that will replace the brick chimney.
[See example in the attached document. No detail designs available at this stage.](#)
3. The location of the steel stack
[Immediately adjacent to the existing stack - 30°24'44.61"S; 30°40'36.28"E](#)

Refer to the attached motivation and additional photographs.

Yours sincerely,

Lindsay Napier Pr.Arch
