## 1 INTRODUCTION AND PROJECT LOCALITY

Nomamix (Pty) Ltd (the applicant) is applying for the right to prospect Platinum Group Metals on Portions 0(RE), 1, 2, 6 and 7 of the Farm Mareesburg 8 JT situated approximately 30 km south of the Steelpoort region. The project area falls within the jurisdiction of the Fetakgomo Tubatse Local Municipality and the Sekhukhune District Municipality of the Limpopo Province.

**Table 1: Properties included in the Prospecting Right Application**

Farm	Portion
Farm Mareesburg 8 JT	Portion 0 (Remaining Extent), Portion 1, Portion 2, Portion 6 and Portion 7

The proposed non-invasive prospecting activities will include the following main techniques:

- Data search, field mapping and desktop studies;
- Logging and sampling historical core; and
- Scoping and (pre) feasibility studies.

Due to the large amount of previous diamond core drilling conducted in the area, new drilling locations will only be considered after completion of all the sourced historic exploration results. For the purpose of this Basic Assessment (BA) process, the Environmental Assessment Practitioner (EAP) and appointed specialist will perform a baseline and/or desktop assessment identifying potential sensitivities in the general area of the properties.

As a result of the Screening Report generated by the National Screening Tool, as required by the 2014 EIA regulations, various environmental sensitivities have been identified. Based on the environmental sensitivities the following list of specialist baseline assessments have been identified for the inclusion in the BA process:

- Agricultural Verification;
- Archaeological, Cultural and Palaeontology Desktop Assessment;
- Terrestrial Biodiversity (Fauna and Flora included) Verification;
- Aquatic Biodiversity Verification;
- Hydrology Flood line Verification; and
- Noise Verification.

The required specialist will conduct a desktop analysis, using satellite imagery and any other available and relevant information and provide a statement motivating the sensitivities. Following the specialist statement, the EAP together with the specialist, will conduct an on-site inspection verifying the sensitivities identified during the desktop analysis. Due to non-intrusive prospecting, the desktop and site verification information from the specialist will inform the Basic Assessment Report (BAR) and Environmental Management Programme (EMPr).

Should additional sampling be required using any invasive prospecting methods, the areas where these activities will take place will require the necessary assessments as per the various protocols published for identified themes and approval from the Department of Mineral Resources and Energy (DMRE), prior to commencement of any such activities.

The proposed activity will require Environmental Authorisation in terms of the Mineral and Petroleum Resources Development Act (MPRDA), 2002 (Act No. 28 of 2002) and the National Environmental Management Act (NEMA), 1998 (Act No. 107 of 1998), read

with Regulation 19 of the Environmental Impact Assessment (EIA) Regulations (GN No. R.982 of 04 December 2014, as amended by GN No. 326 of 07 April 2017 and GN No. 517 of 11 June 2021). The following activity is anticipated to be applied for:

**Table 2: Anticipated NEMA Activity triggered**

Listing Notice 1 (GNR. 983, as amended)	Listed Activity 20	Any activity including the operation of that activity which requires a prospecting right in terms of section 16 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity as contained in this Listing Notice or in Listing Notice 3 of 2014, required to exercise the prospecting right.
---	--------------------	--

As part of the BAR Process to be followed, a Heritage Assessment will be conducted in terms of Section 38 of the National Heritage Act, 1999 (Act No. 25 of 1999).

**Note:** all activities applied for as described above may be revised once additional project details become available.

## 2 OBJECTIVES OF PUBLIC PARTICIPATION

The purpose of this Public Participation Process is:

- To provide Background Information about the proposed activity and the environmental processes to be followed;
- To notify potential Interested and Affected Parties (I&APs) of the Environmental Process to be followed in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended;
- To notify potential Interested and Affected Parties (I&APs) of the Environmental Process to be followed in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002);
- To notify Interested and Affected Parties (I&APs) that a Heritage Assessment will be undertaken in terms of the National Heritage Resources Act, 1999 (Act No. 25 of 1999); and
- To obtain issues and concerns from potential IA&Ps regarding the Environmental Processes to be followed and the proposed activities.

Public Participation is important for the following reasons:

- It provides an opportunity for Interested & Affected Parties (I&APs), Environmental Assessment Practitioners (EAPs) and the competent authority (CA) to obtain clear, accurate and understandable information about the environmental impacts of the proposed activity or implications of a decision;
- It provides I&APs with an opportunity to voice their support, concerns and questions regarding the project application or decision;
- It provides I&APs with the opportunity of suggesting ways for reducing or mitigating any negative impacts of the project and for enhancing its positive impacts;
- It enables an applicant to incorporate the needs, preferences and values of affected parties into its application;
- It provides opportunities for clearing up misunderstandings about technical issues, resolving disputes and reconciling conflicting interests;
- It is an important aspect of securing transparency and accountability in decision-making; and
- It contributes toward maintaining a healthy, vibrant democracy.

**Figure 1: Nomamix Prospecting Right Project Area**

**Figure 2: Nomamix Prospecting Right Project Regional Locality**

### 3 IDENTIFICATION OF I&APs

The following groups were identified as potential Interested and Affected Parties (I&APs):

- Relevant National Government Departments;
- Relevant Provincial Government Departments;
- Relevant Municipal Representatives;
- Relevant Ward Councillors;
- Landowners/Occupiers;
- Adjacent Landowners/Occupiers;
- Relevant Institutional/Organisational Representatives;
- Surrounding Mining Activities;
- Land Claimants; and
- Governmental and Non-Governmental Organisations and Agencies.

To ensure that all potential I&APs are made aware of the project and have the opportunity to register and provide comments, the notification process will be as thorough as possible. Registration will remain open throughout the Public Participation Process to allow Interested and Affected Parties to register and submit their input throughout. For the list of identified I&APs refer to **APPENDIX 1**.

## 4 NOTIFICATION OF I&APs

### 4.1 SITE NOTICES

To inform surrounding and immediate community members, landowners, occupiers, workers and passers-by of the proposed project and to invite registrations and comments, site notices will be erected at a visible and accessible localities throughout the study area on 08 September 2022. These notices will be strategically erected along access routes throughout the study area. For the site notices to be erected refer to **APPENDIX 2**.

### 4.2 NEWSPAPER ADVERTISEMENTS

To inform a broad spectrum of individuals who might want to register as I&APs, newspaper advertisements (one English and one Sepedi) will be placed in the Sekhukhune Times and the Steelburger News respectively on Thursday, 08 September 2022. Proof of the advertisements placed will be attached to the final PPP Report. Refer to **APPENDIX 3** for the advertisement wording to be placed.

### 4.3 WRITTEN NOTIFICATIONS

Identified I&APs will be directly informed of the application processes to be followed by means of email, hand delivery, registered post, and text message (where no other means of communication is possible). Proof of written notifications sent will be attached to the Final Public Participation Report for submission. Note that the written notifications will encourage potential I&APs to register and provide their comments/questions on the proposed project and related application processes currently underway. The Background Information Document (in both English and Sepedi) has been attached to this report as **APPENDIX 4**.

### 4.4 NOTIFICATION OF I&APs OF REPORTS AVAILABILITY

Registered I&APs will be notified of the availability of the Draft Basic Assessment Report for Public Commenting as and when required. I&APs will be informed of the relevant commenting period and will be encouraged to submit any comments or questions on or before the closing date (to be confirmed). For the notification letter to be sent refer to **APPENDIX 5**.

## 5 ACCESS AND COMMENTING OPPORTUNITY

Commenting and Registration opportunity will be provided for throughout this Public Participation Process. The entire process will remain transparent and allow for I&APs to register and comment throughout. The process will be conducted in accordance with Clause 3(8) of the NEMA EIA Regulations (GN No. 326 of 07 April 2017) which indicates that any public participation process must be conducted for a period of at least 30 days. Hard copies of the Draft documents will be placed at a relevant public entity and will be provided to the relevant Departments/Institutions/Organisations requiring hard copies of the documents. Further to this, an electronic copy of the draft documents will be uploaded onto the Environmental Management Assistance (Pty) Ltd Website.

## 6 REGULATORY CONSULTATION

Commenting Authorities include the following:

- Department of Forestry, Fisheries and the Environment;
- Department of Water and Sanitation;
- Department of Mineral Resources and Energy;
- Department of Agriculture, Land Reform and Rural Development;
- Limpopo Department of Economic Development, Environment and Tourism;
- Fetakgomo Tubatse Local Municipality;
- Sekhukhune District Municipality; and
- South African Heritage Resources Agency.

## 7 DISCLOSURE OF I&APs' INTERESTS

Registered I&APs will be informed that this process is a PUBLIC PROCESS. All comments and/or questions received from I&APs on this process is considered public knowledge. In accordance with the Environmental Impact Assessment Regulations, EnviroRoots (Pty) Ltd will not keep any information of this nature confidential and will submit all comments and/or questions received to the Regulatory Authority in a verbatim manner as far as possible.

By registering as an I&AP and providing comments, I&APs consent to the above. Note that no contact information for I&APs will be made available to the public at any point during the process. However, names and surnames will accompany comments in the Comments and Responses Report (C&RR) to form part of this process. I&APs will be requested to inform EnviroRoots if they would prefer their name and surname to not accompany their comments.

This Public Participation Process is conducted in accordance with Section 11(1)(c) of the Protection of Personal Information Act, 2013 (Act No. 4 of 2013), which allows for the processing of personal information if processing complies with an obligation imposed by law on the responsible party and in accordance with Section 11(1)(f) of the Act which allows for the processing of personal information if processing is necessary for pursuing the legitimate interests of the responsible party or of a third party to whom the information is supplied.

## 8 REGISTRATIONS AND COMMENTS RECEIVED

Identified I&APs will be encouraged to submit their registrations and comments to EnviroRoots for them to receive further correspondence regarding the proposed project currently underway. Comments and registrations received via all methods (Registration Forms/email/telephonic/public participation meeting) will be captured and will be provided in the Final Basic Assessment Report for submission to the relevant Departments.

## 9 ADDRESSING COMMENTS AND CONCERNS

A Comments and Responses Report (C&RR) will be compiled as part of the Public Participation Process. This document will record the issues of concern, questions and suggestions contributed by stakeholders during the course of the Basic Assessment Report Process. This report also includes the responses provided by relevant parties. It should be noted that the Comments and Responses Report is an active document which will be updated throughout the process as comments and concerns are received. However, following submission of all final documents to the Department of Mineral Resources and Energy, all additional comments should be directed directly to the Department.

## 10 NOTIFYING I&APS OF THE DECISION

Following the verdict by the DMRE on whether to grant or reject the Environmental Authorisation Application, all registered I&APs will be informed of the decision as well as the appeal process and its timeframes for submission, if applicable.

## 11 PUBLIC PARTICIPATION CHECKLIST

Public Participation for the proposed Nomamix Prospecting Right Project NEMA Application has been conducted in terms of the Environmental Impact Assessment Regulations, 2014 (Government Notice No. R. 982 of 04 December 2014, as amended by Government Notice No. 326 of 07 April 2017 and GN No. 517 of 11 June 2021). These regulations provide specific methods by which Public Participation should be conducted. A checklist for the process as per the regulations are provided in **Table 3** below. The table contains the clauses relevant to Public Participation associated with the Basic Assessment Report Process.

**Table 3: Public Participation Checklist for the proposed project (GN No. R. 982 of 04 December 2014, as amended)**

Section	Description	Implemented
Chapter 2 Clause 3(8)	Any public participation process must be conducted for a period of at least 30 days.	 (refer to <b>Section 5</b> )
Chapter 2 Clause 4(2)	The applicant must, in writing, within 14 days of the date of the decision on the application ensure that – (a) All registered interested and affected parties are provided with access to the decision and the reasons for such decision; and (b) The attention of all registered interested and affected parties is drawn to the fact that an appeal may be lodged against the decision in terms of the National Appeal Regulations, if such appeal is available in the circumstances of the decision.	 (refer to <b>Section 10</b> )
Chapter 3 Clause 7(2)	The competent authority or EAP must consult with every organ of state that administers a law relating to a matter affecting the environment relevant to that application for an environmental authorisation when such competent authority considers the application and unless agreement to the contrary has been reached the EAP will be responsible for such consultation.	 (refer to <b>Section 3</b> and <b>Section 6</b> )
Chapter 3 Clause 13(1)(f)	An EAP and a specialist, appointed in terms of regulation 12(1) or 12(2)m must – Disclose to the proponent or applicant, registered interested and affected parties and the competent authority all material information in the possession of the EAP and, where applicable, the specialist, that reasonably has or may have the potential of influencing –	 (refer to <b>Section 7</b> )

Section	Description	Implemented
	<p>(i) any decision to be taken with respect to the application by the competent authority in terms of these Regulations; or</p> <p>(ii) the objectivity of any report, plan or document to be prepared by the EAP or specialist, in terms of these Regulations for submission to the competent authority;</p> <p>unless access to that information is protected by law, in which case it must be indicated that such protected information exists and is only provided to the competent authority.</p>	
<p>Chapter 4 Clause 19(1)(a)</p>	<p>Where basic assessment must be applied to an application, the applicant must, within 90 days of receipt of the application by the competent authority, submit to the competent authority a <b><u>basic assessment report, inclusive of specialist reports, an EMPr and where applicable a closure plan, which have been subjected to a public participation process of at least 30 days and which reflects the incorporation of comments received, including any comments of the competent authority.</u></b></p>	<p style="text-align: center;"> (refer to <b>Section 5</b>)</p>
<p>Chapter 6 Clause 39</p>	<p>(1) If the proponent is not the owner or person in control of the land on which the activity is to be undertaken, the proponent must, before applying for an environmental authorisation in respect of such activity, obtain the written consent of the landowner or person in control of the land to undertake such activity on that land.</p> <p>(2) Subregulation (1) does not apply in respect of –</p> <p>(a) Linear activities;</p> <p>(b) <b><u>Activities constituting, or activities directly related to prospecting or exploration of a mineral and petroleum resource or extraction and primary processing of a mineral or petroleum resource;</u></b> and</p> <p>(c) Strategic integrated projects as contemplated in the Infrastructure Development Act, 2014.</p>	<p style="text-align: center;"> (N/A)</p>
<p>Chapter 6 Clause 40</p>	<p>(1) The public participation process to which the –</p> <p>(a) basic assessment report and EMPr, and where applicable the closure plan, submitted in terms of regulation 19;</p> <p>Was subjected to must give all potential or registered interested and affected parties, including the competent authority, a period of at least 30 days to submit comments on each of the basic assessment report, EMPr, scoping report and environmental impact assessment report, and where applicable the closure plan, as well as the report contemplated in regulation 32, if such reports or plans are submitted at different times.</p> <p>(2) The public participation process contemplated in this regulation must provide access to all information that reasonably has or may have the potential to influence any decision with regard to an application unless access to that information is protected by law and must include consultation with –</p> <p>(a) The competent authority;</p>	<p style="text-align: center;"> (refer to <b>Section 5</b>)</p> <p style="text-align: center;"> (This report)</p>

Section	Description	Implemented
	<p>(b) Every State department that administers a law relating to a matter affecting the environment relevant to an application for an environmental authorisation</p> <p>(c) All organs of state which have jurisdiction in respect of the activity to which the application relates; and</p> <p>(d) All potential, or, where relevant, registered interested and affected parties.</p> <p>(3) Potential or registered interested and affected parties, including the competent authority, may be provided with an opportunity to comment on reports and plans contemplated in subregulation (1) prior to submission of an application but must be provided with an opportunity to comment on such reports once an application has been submitted to the competent authority.</p>	
<p>Chapter 6 Clause 41(2)</p>	<p>The person conducting a public participation process must take into account any relevant guidelines applicable to the public participation as contemplated in section 24J of the Act and must give notice to all potential interested and affected parties of an application or proposed application which his subjected to public participation by –</p> <p>(a) Fixing a notice board at a place conspicuous to and accessible by the public at the boundary, on the fence or along the corridor of –</p> <p>(i) The site where the activity to which the application or proposed application relates is or is to be undertaken; and</p> <p>(ii) Any alternative site;</p>	<p style="text-align: center;"> (refer to <b>Section 4.1</b>)</p>
	<p>(b) Giving written notice, in any of the manners provided for in section 47D of the Act, to –</p> <p>(i) The occupiers of the site and, if the proponent or applicant is not the owner or person in control of the site on which the activity is to be undertaken, the owner or person in control of the site where the activity is or is to be undertaken and to any alternative site where the activity is to be undertaken;</p> <p>(ii) Owners, persons in control of, and occupiers of land adjacent to the site where the activity is or is to be undertaken and to any alternative site where the activity is to be undertaken;</p> <p>(iii) The municipal councillor of the ward in which the site and alternative site is situated and nay organisation of ratepayers that represent the community in the area;</p> <p>(iv) The municipality which has jurisdiction in the area;</p> <p>(v) Any organ of state having jurisdiction in respect on any aspect of the activity; and</p> <p>(vi) Any other party as required by the competent authority;</p>	<p style="text-align: center;"> (refer to <b>Section 4</b>)</p>
	<p>(c) Placing an advertisement in –</p> <p>(i) One local newspaper; or</p>	<p style="text-align: center;"> (refer to <b>Section 4.2</b>)</p>

Section	Description	Implemented
	<p>(ii) Any official Gazette that is published specifically for the purpose of providing public notice of applications or other submissions made in terms of these Regulations;</p> <p>(d) placing an advertisement in at least one provincial newspaper or national newspaper, if the activity has or may have an impact that extends beyond the boundaries of the metropolitan or district municipality in which it is or will be undertaken: Provided that this paragraph need not be complied with if an advertisement has been placed in an official Gazette referred to in paragraph (c)(ii); and</p>	
	<p>(e) using reasonable alternative methods, as agreed to by the competent authority, in those instances where a person is desirous of but unable to participate in the process due to –</p> <p>(i) illiteracy;</p> <p>(ii) disability; or</p> <p>(iii) any other disadvantage.</p>	<p style="text-align: center;"></p> <p style="text-align: center;">(Where applicable, I&amp;APs were assisted in Sepedi)</p>
<p>Chapter 6 Clause 41(3)</p>	<p>A notice, notice board or advertisement referred to in subregulation (2) must—</p> <p>(a) give details of the application or proposed application which is subjected to public participation; and</p> <p>(b) state –</p> <p>(i) whether basic assessment or S&amp;EIR procedures are being applied to the application;</p> <p>(ii) the nature and location of the activity to which the application relates;</p> <p>(iii) where further information on the application or proposed application can be obtained; and</p> <p>(iv) the manner in which and the person to whom representations in respect of the application or proposed application may be made.</p>	<p style="text-align: center;"></p> <p style="text-align: center;">(refer to <b>Section 4.1</b> and <b>4.2</b>)</p>
<p>Chapter 6 Clause 41(4)</p>	<p>A notice board referred to in subregulation (2) must –</p> <p>(a) be of a size of at least 60cm by 42cm; and</p> <p>(b) display the required information in lettering and in a format as may be determined by the competent authority.</p>	<p style="text-align: center;"></p> <p style="text-align: center;">(refer to <b>Section 4.1</b>)</p>
<p>Chapter 6 Clause 41(6)</p>	<p>When complying with this regulation, the person conducting the public participation process must ensure that –</p> <p>(a) information containing all relevant facts in respect of the application or proposed application is made available to potential interested and affected parties; and</p> <p>(b) participation by potential or registered interested and affected parties is facilitated in such a manner that all potential or registered interested and affected parties</p>	<p style="text-align: center;"></p> <p style="text-align: center;">(this report)</p>

Section	Description	Implemented
	are provided with a reasonable opportunity to comment on the application or proposed application.	
Chapter 6 Clause 42	<p>A proponent or applicant must ensure the opening and maintenance of a register of interested and affected parties and submit such a register to the competent authority, which register must contain the names, contact details and addresses of—</p> <p>(a) all persons who, as a consequence of the public participation process conducted in respect of that application, have submitted written comments or attended meetings with the proponent, applicant or EAP;</p> <p>(b) all persons who have requested the proponent or applicant, in writing, for their names to be placed on the register; and</p> <p>(c) all organs of state which have jurisdiction in respect of the activity to which the application relates.</p>	 (refer to <b>Section 3</b> )
Chapter 6 Clause 43	<p>(1) A registered interested and affected party is entitled to comment, in writing, on all reports or plans submitted to such party during the public participation process contemplated in these Regulations and to bring to the attention of the proponent or applicant any issues which that party believes may be of significance to the consideration of the application, provided that the interested and affected party discloses any direct business, financial, personal or other interest which that party may have in the approval or refusal of the application.</p> <p>(2) In order to give effect to section 240 of the Act, any State department that administers a law relating to a matter affecting the environment must be requested, subject to regulation 7(2), to comment within 30 days.</p>	 Refer to <b>Section 5</b>
Chapter 6 Clause 44(1)	The applicant must ensure that the comments of interested and affected parties are recorded in reports and plans and that such written comments, including responses to such comments and records of meetings, are attached to the reports and plans that are submitted to the competent authority in terms of these Regulations.	 (refer to <b>Section 9</b> )

## **APPENDIX 2: SITE NOTICES**

# NOTICE OF ENVIRONMENTAL PROCESSES TO BE CONDUCTED AND RELATED PUBLIC PARTICIPATION PROCESS: APPLICATION FOR ENVIRONMENTAL AUTHORISATION: PROPOSED NOMAMIX (PTY) LTD PROSPECTING RIGHT PROJECT

## ENVIRONMENTAL PROCESSES TO BE CONDUCTED

- Notice is hereby given in terms of the Mineral and Petroleum Resources Development Act (MPRDA), 2002 (Act No. 28 of 2002) and the National Environmental Management Act (NEMA), 1998 (Act No. 107 of 1998), read with Regulation 19 of the Environmental Impact Assessment (EIA) Regulations (GN No. R.982 of 04 December 2014, as amended by GN No. 326 of 07 April 2017 and GN No. 517 of 11 June 2021), that Nomamix (Pty) Ltd proposes to lodge an application for Environmental Authorisation by means of a Basic Assessment Report (BAR) Process for activities listed in Government Notice R.983 (Listing Notice 1, as amended by GN No. 327 of 07 April 2017 and GN No. 517 of 11 June 2021).
- Notice is hereby given in terms of Section 38 of the National Heritage Resources Act, 1999 (Act No. 25 of 1999), that a Heritage Assessment will be conducted as part of the Basic Assessment Report Process.

## PROJECT BACKGROUND AND LOCALITY

Nomamix (Pty) Ltd (the applicant) is applying for the right to prospect Platinum Group Metals on Portions 0(RE), 1, 2, 6 & 7 of the Farm Mareesburg 8 JT situated approximately 30 km south of the Steelpoort region. The project area falls within the jurisdiction of the Fetakgomo Tubatse Local Municipality and the Sekhukhune District Municipality of the Limpopo Province.

The proposed non-invasive prospecting activities will include the following main techniques:

- Data search, field mapping and desktop studies;
- Logging and sampling historical core; and
- Scoping and (pre) feasibility studies.

Due to the large amount of previous diamond core drilling conducted in the area, new drilling locations will only be considered after completion of all the sourced historic exploration results.

For the purpose of this Basic Assessment (BA) process, the Environmental Assessment Practitioner (EAP) and appointed specialist will perform a baseline and/

or desktop assessment identifying potential sensitivities in the general area of the properties.

As a result of the Screening Report generated by the National Screening Tool, as required by the 2014 EIA regulations, various environmental sensitivities have been identified. Based on the environmental sensitivities the following list of specialist baseline assessments have been identified for the inclusion in the BA process:

- Agricultural Verification;
- Archaeological, Cultural and Palaeontology Desktop Assessment;
- Terrestrial Biodiversity (Fauna and Flora included) Verification;
- Aquatic Biodiversity Verification;
- Hydrology Flood line Verification; and
- Noise Verification.

The required specialist will conduct a desktop analysis, using satellite imagery and any other available and relevant information and provide a statement motivating the sensitivities. Following the specialist statement, the EAP together with the specialist, will conduct an on-site inspection verifying the sensitivities identified during the desktop analysis.

Due to non-intrusive prospecting, the desktop and site verification information from the specialist will inform the Basic Assessment Report (BAR) and Environmental Management Programme (EMPr).

Should additional sampling be required using any invasive prospecting methods, the areas where these activities will take place will require the necessary assessments as per the various protocols published for identified themes and approval from the Department of Mineral Resources and Energy (DMRE), prior to commencement of any such activities.

## APPLICATION PROCESS

The proposed project will require Environmental Authorisation by means of a Basic Assessment Report Process for the following listed activity:

**GNR 983 (20):** Any activity including the operation of that activity which requires a prospecting right in terms of section 16 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity as contained in this Listing Notice or in Listing Notice 3 of 2014, required to exercise the prospecting right.

Note: activities applied for as described above may be revised once additional project details become available.

## INVITATION TO REGISTER AND COMMENT

Interested and Affected Parties (I&APs) are hereby invited to a 30-day commenting period on the Draft Basic Assessment Report from 09 September 2022 to 10 October 2022. The Draft Report will be available in hard copy format at the Steelpoort Post Office and the Maartenshoop Police Station. A link to an electronic copy of the Draft Report is furthermore available from the Public Participation Consultant on request.

## PUBLIC PARTICIPATION CONSULTANT:

## **APPENDIX 3: PROOF OF ADVERTISEMENTS PLACED**

# NOTICE OF ENVIRONMENTAL PROCESSES TO BE CONDUCTED AND RELATED PUBLIC PARTICIPATION PROCESS: APPLICATION FOR ENVIRONMENTAL AUTHORISATION: PROPOSED NOMAMIX (PTY) LTD PROSPECTING RIGHT PROJECT

## ENVIRONMENTAL PROCESSES TO BE CONDUCTED

- Notice is hereby given in terms of the Mineral and Petroleum Resources Development Act (MPRDA), 2002 (Act No. 28 of 2002) and the National Environmental Management Act (NEMA), 1998 (Act No. 107 of 1998), read with Regulation 19 of the Environmental Impact Assessment (EIA) Regulations (GN No. R.982 of 04 December 2014, as amended by GN No. 326 of 07 April 2017 and GN No. 517 of 11 June 2021), that Nomamix (Pty) Ltd proposes to lodge an application for Environmental Authorisation by means of a Basic Assessment Report (BAR) Process for activities listed in Government Notice R.983 (Listing Notice 1, as amended by GN No. 327 of 07 April 2017 and GN No. 517 of 11 June 2021).
- Notice is hereby given in terms of Section 38 of the National Heritage Resources Act, 1999 (Act No. 25 of 1999), that a Heritage Assessment will be conducted as part of the Basic Assessment Report Process.

## PROJECT BACKGROUND AND LOCALITY

Nomamix (Pty) Ltd (the applicant) is applying for the right to prospect Platinum Group Metals on Portions 0(RE), 1, 2, 6 & 7 of the Farm Mareesburg 8 JT situated approximately 30 km south of the Steelpoort region. The project area falls within the jurisdiction of the Fetakgomo Tubatse Local Municipality and the Sekhukhune District Municipality of the Limpopo Province.

The proposed non-invasive prospecting activities will include the following main techniques:

- Data search, field mapping and desktop studies;
- Logging and sampling historical core; and
- Scoping and (pre) feasibility studies.

Due to the large amount of previous diamond core drilling conducted in the area, new drilling locations will only be considered after completion of all the sourced historic exploration results. For the purpose of this Basic Assessment (BA) process, the Environmental Assessment Practitioner (EAP) and appointed specialist will perform a baseline and/or desktop assessment identifying potential sensitivities in the general area of the properties.

As a result of the Screening Report generated by the National Screening Tool, as required by the 2014 EIA regulations, various environmental sensitivities have been identified. Based on the environmental sensitivities the following list of specialist baseline assessments have been identified for the inclusion in the BA process:

- Agricultural Verification;
- Archaeological, Cultural and Palaeontology Desktop Assessment;
- Terrestrial Biodiversity (Fauna and Flora included) Verification;
- Aquatic Biodiversity Verification;
- Hydrology Flood line Verification; and
- Noise Verification.

The required specialist will conduct a desktop analysis, using satellite imagery and any other available and relevant information and provide a statement motivating the sensitivities. Following the specialist statement, the EAP together with the specialist, will conduct an on-site inspection verifying the sensitivities identified during the desktop analysis. Due to non-

intrusive prospecting, the desktop and site verification information from the specialist will inform the Basic Assessment Report (BAR) and Environmental Management Programme (EMPr). Should additional sampling be required using any invasive prospecting methods, the areas where these activities will take place will require the necessary assessments as per the various protocols published for identified themes and approval from the Department of Mineral Resources and Energy (DMRE), prior to commencement of any such activities.

## APPLICATION PROCESS

The proposed project will require Environmental Authorisation by means of a Basic Assessment Report Process for the following listed activity:

**GNR 983 (20):** Any activity including the operation of that activity which requires a prospecting right in terms of section 16 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity as contained in this Listing Notice or in Listing Notice 3 of 2014, required to exercise the prospecting right.

**Note:** activities applied for as described above may be revised once additional project details become available.

## INVITATION TO REGISTER AND COMMENT

Interested and Affected Parties (I&APs) are hereby invited to a 30-day commenting period on the Draft Basic Assessment Report from 09 September 2022 to 10 October 2022. The Draft Report will be available in hard copy format at the Steelpoort Post Office and the Maartenshoop Police Station. A link to an electronic copy of the Draft Report is furthermore available from the Public Participation Consultant on request.

## THE IMPORTANCE OF PUBLIC PARTICIPATION

- ✓ It provides an opportunity for Interested & Affected Parties (I&APs), Environmental Assessment Practitioners (EAPs) and the Competent Authority (CA) to obtain clear, accurate and understandable information about the environmental impacts of the proposed activity or implications of a decision;
- ✓ It provides I&APs with an opportunity to voice their support, concerns and questions regarding the project application or decision;
- ✓ It provides I&APs with the opportunity to suggest ways for reducing or mitigating any negative impacts of the project and for enhancing its positive impacts;
- ✓ It enables an applicant to incorporate the needs, preferences and values of affected parties into its application;
- ✓ It provides opportunities for clearing up misunderstandings about technical issues, resolving disputes and reconciling conflicting interests;
- ✓ It is an important aspect of securing transparency and accountability in decision-making; and
- ✓ It contributes toward maintaining a healthy, vibrant democracy.

## PURPOSE OF THIS DOCUMENT

- ✓ To provide Background Information about the proposed activity and the environmental processes to be followed;
- ✓ To notify potential Interested and Affected Parties (I&APs) of the Environmental Process to be followed in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended;
- ✓ To notify potential Interested and Affected Parties (I&APs) of the Environmental Process to be followed in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002);
- ✓ To notify Interested and Affected Parties (I&APs) that a Heritage Assessment will be undertaken in terms of the National Heritage Resources Act, 1999 (Act No. 25 of 1999); and
- ✓ To obtain issues and concerns from potential IA&Ps regarding the Environmental Processes to be followed and the proposed activities.

## PROJECT BACKGROUND INFORMATION AND LOCALITY

Nomamix (Pty) Ltd (the applicant) is applying for the right to prospect Platinum Group Metals on Portions 0(RE), 1, 2, 6 and 7 of the Farm Mareesburg 8 JT situated approximately 30 km south of the Steelpoort region. The project area falls within the jurisdiction of the Fetakgomo Tubatse Local Municipality and the Sekhukhune District Municipality of the Limpopo Province.

Farm	Portion
Farm Mareesburg 8 JT	Portion 0 (Remaining Extent), Portion 1, Portion 2, Portion 6 and Portion 7

The proposed non-invasive prospecting activities will include the following main techniques:

- Data search, field mapping and desktop studies;
- Logging and sampling historical core; and
- Scoping and (pre) feasibility studies.

Due to the large amount of previous diamond core drilling conducted in the area, new drilling locations will only be considered after completion of all the sourced historic exploration results. For the purpose of this Basic Assessment (BA) process, the Environmental Assessment Practitioner (EAP) and appointed specialist will perform a baseline and/or desktop assessment identifying potential sensitivities in the general area of the properties.

As a result of the Screening Report generated by the National Screening Tool, as required by the 2014 EIA regulations, various environmental sensitivities have been identified. Based on the environmental sensitivities the following list of specialist baseline assessments have been identified for the inclusion in the BA process:

- Agricultural Verification;
- Archaeological, Cultural and Palaeontology Desktop Assessment;
- Terrestrial Biodiversity (Fauna and Flora included) Verification;
- Aquatic Biodiversity Verification;
- Hydrology Flood line Verification; and
- Noise Verification.

The required specialist will conduct a desktop analysis, using satellite imagery and any other available and relevant information and provide a statement motivating the sensitivities. Following the specialist statement, the EAP together with the specialist, will conduct an on-site inspection verifying the sensitivities identified during the desktop analysis. Due to non-intrusive prospecting, the desktop and site verification information from the specialist will inform the Basic Assessment Report (BAR) and Environmental Management Programme (EMPr).

Should additional sampling be required using any invasive prospecting methods, the areas where these activities will take place will require the necessary assessments as per the various protocols published for identified themes and approval from the Department of Mineral Resources and Energy (DMRE), prior to commencement of any such activities.

## ENVIRONMENTAL PROCESSES TO BE CONDUCTED

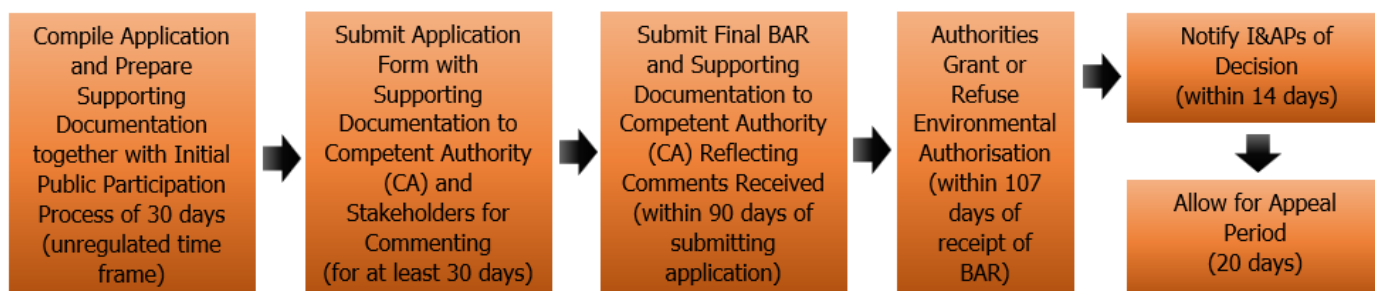

Notice is hereby given in terms of the Mineral and Petroleum Resources Development Act (MPRDA), 2002 (Act No. 28 of 2002) and the National Environmental Management Act (NEMA), 1998 (Act No. 107 of 1998), read with Regulation 19 of the Environmental Impact Assessment (EIA) Regulations (GN No. R.982 of 04 December 2014, as amended by GN No. 326 of 07 April 2017 and GN No. 517 of 11 June 2021), that Nomamix (Pty) Ltd proposes to lodge an application for Environmental Authorisation by means of a Basic Assessment Report (BAR) Process for activities listed in Government Notice R.983 (Listing Notice 1, as amended by GN No. 327 of 07 April 2017 and GN No. 517 of 11 June 2021). The following activity is anticipated to be applied for:

Listing Notice 1 (GNR. 983, as amended)	Listed Activity 20	Any activity including the operation of that activity which requires a prospecting right in terms of section 16 of the Mineral and Petroleum Resources Development Act, as well as any other applicable activity as contained in this Listing Notice or in Listing Notice 3 of 2014, required to exercise the prospecting right.
---	--------------------	--

Notice is hereby further given in terms of Section 38 of the National Heritage Resources Act, 1999 (Act No. 25 of 1999), that a Heritage Assessment will be conducted as part of the Basic Assessment Report Process.

**Note:** activities applied for as described above may be revised once additional project details become available.

### BAR PROCESS

### YOUR ROLE AS INTERESTED AND AFFECTED PARTY

Public involvement is an essential part of this process as required by the Regulatory Authorities. You have been identified as a possible Interested and Affected Party (I&AP) who may want to be informed about the project and have input into the process. All comments will be recorded and presented to Nomamix (Pty) Ltd and the relevant Departments. You will receive feedback on how your comments have been addressed and on the outcome of the assessment.

### REGISTRATION AND COMMENTING OPPORTUNITY

Interested and Affected Parties (I&APs) are hereby invited to a 30-day commenting period on the Draft Basic Assessment Report from 09 September 2022 to 10 October 2022. The Draft Report will be available in hard copy format at the Steelpoort Post Office and the Maartenshoop Police Station. A link to an electronic copy of the Draft Report is furthermore available from the Public Participation Consultant or the Environmental Assessment Practitioner on request.

## **APPENDIX 5: WRITTEN NOTIFICATION**

Date: 08 September 2022

Attention: Interested and Affected Parties (I&APs)

**NOTIFICATION OF PUBLIC COMMENTING PERIOD ON THE DRAFT BASIC ASSESSMENT REPORT FOR THE PROPOSED NOMAMIX (PTY) LTD PROSPECTING RIGHT PROJECT ENVIRONMENTAL AUTHORISATION APPLICATION ON THE FARM MAREESBURG 8 JT SITUATED WITHIN THE FETAKGOMO TUBATSE LOCAL MUNICIPALITY AND THE SEKHUKHUNE DISTRICT MUNICIPALITY, LIMPOPO PROVINCE**

This letter serves as notification that the Draft Basic Assessment Report (DBAR) and relevant appendices for Nomamix (Pty) Ltd, pertaining to the project mentioned in the subject matter above, is available for public commenting.

I&APs are hereby invited to a 30-day commenting period from 09 September 2022 to 10 October 2022 (as the last day for commenting). The above-mentioned documentation will be available for Public Viewing and Commenting in hard copy format at the Steelpoort Post Office and the Maartenshoop Police Station.

Further to the above an electronic copy of the Draft Basic Assessment Report and relevant appendices could be obtained from the following web address:

<http://www.emassistance.co.za/index.php/public-documents>

Kindly direct any comments or queries regarding the documents in writing to EnviroRoots (Pty) Ltd at:

Email: [info@enviroroots.co.za](mailto:info@enviroroots.co.za)

Address: PO Box 1082, Bapsfontein, 1510

Mobile Number: Ms. C. Bowyer at 084 444 2414

Please distribute the information as far as possible within the community and provide EnviroRoots (Pty) Ltd with any additional contact information for any other potential I&APs that might be interested in receiving the documents for public commenting.

NB Note: This process is a PUBLIC PROCESS. All comments and/or questions received from I&APs on this process is considered public knowledge. In accordance with the Environmental Impact Assessment Regulations (Government Notice No. R.982 of 4 December 2014, as amended) EnviroRoots (Pty) Ltd will not keep any information of this nature confidential and will submit all comments and/or questions received to the Regulatory Authority.

**Tel/Cell: 084 444 2414**

**Email: [chantel@enviroroots.co.za](mailto:chantel@enviroroots.co.za)**

**Reg No: 2017/322089/07**

**Director: C. Bowyer (B.Sc. Hons. Environmental Science)**

By providing comments, you consent to the above. Note that no contact information for I&APs will be made available to the public at any point during the process. However, names and surnames will accompany comments in the Comments and Responses Report (C&RR) to form part of this process. If you would prefer your name and surname to not accompany your comments kindly inform EnviroRoots of such.

This Public Participation Process is conducted in accordance with Section 11(1)(c) of the Protection of Personal Information Act, 2013 (Act No. 4 of 2013), which allows for the processing of personal information if processing complies with an obligation imposed by law on the responsible party and in accordance with Section 11(1)(f) of the Act which allows for the processing of personal information if processing is necessary for pursuing the legitimate interests of the responsible party or of a third party to whom the information is supplied.

Regards

EnviroRoots Team
