

APPENDIX 6

Public Consultation

Public Participation Consultation Document

This report contains the details of the efforts taken to notify the public and key stakeholders about the project, the advertisement and site notices placed, the information provided to the IAPs, the IAPs who registered.

A PPP under the EIA Regulations was undertaken as part of the Basic Assessment process, which included the following:

- Placing site notices at the entrance to the property and to the site;
- Placing adverts in the Aliwal Weekblad (Aliwal Weekly) newspaper (29 January 2021)
- a Notification and Background Information Document ("**BID**") regarding the Project was sent to all identified interested and affected parties ("**I&APs**"). This includes the adjacent landowners and relevant authorities.

A time period of 30 days was allowed for the public to register and / or send their issues and concerns regarding the project to Turn 180 Environmental Consultants.

APPENDIX 6.1

Phahladira on 09/04/2021: The Department advised the applicant to apply for a water use licence from the Department of Water Affairs.</p> <p>Response 21/04/2021: Turn 180 requested that the DMR advise on their motivations for their advisory of WUL application. It should be noted that Turn180 appointed an Ecologist to do an Ecological and Wetland Assessment on the proposed site to delineate wetlands and watercourses in or in near proximity of the proposed borrow pit activities. The findings of the Wetland assessment were as follows: "No watercourses or wetlands occur near the site with the nearest watercourse being a small but distinct drainage line to the south (approximately 250 m). This drainage line flow to the south of the site and is highly unlikely that it will be affected by the development. The site itself does not contain any concentrated runoff patterns, wetlands or watercourses though the existing borrow pit does cause two small portions where ponding occurs and leads to the formation of artificial wetland conditions. However, these do not perform any significant ecological functions, are completely artificial in nature and will therefore not have any significant conservation value."</p> <p>Turn 180 notified the Department of Water and Sanitation ("DWS") of the</p> |

Public Consultation Process
Notice is given of an application for Environmental Authorisation in terms of the 2014 EIA Regulations as amended under the National Environmental Management Act 107 of 1998 for a mining permit. The above applications will be made for the proposed establishment of a borrow pit and associated activities, structures and infrastructure on the farm Vlaktefontein 210/RE, Lady Grey District, Eastern Cape Province.
Applicant: Tau-Pele Construction (Pty) Ltd. The mining activities will entail the clearance of the proposed mining area of vegetation and topsoil which will be stockpiled and the removal of overburden. No blasting will occur.
The following activities will be applied for: Activity 21 (a) and (b) and Activity 27 of GN.R. 327 of the NEMA 2014 Regulations as amended. You are requested to send any issues and/or concerns regarding the proposed projects or to request the Basic Assessment Report for review to Lizel Kennedy at Turn 180 072 873 6665 / 072 967 7962 or Suite 221, Private Bag X01, Brandhof, 9324 or lizel@turn180.co.za or admin@turn180.co.za within 30 days of the date of this advertisement and no later than 28 February 2021.

Joe Gqabi District Municipality
Public Notice: 54/2020
Joe Gqabi District Municipality, with its seat in Barkly East, covers the area of Walter Sisulu (Burgersdorp, Steynberg, Venterstad, Aliwal North and Jamesstown), Seneka (Lady Grey, Steynberg, Barkly East, Rhodes and Potlouw) and Ekurhuleni (Lizele Mauder, Mount Fletcher and the majority of Tsoelike and Qumbi).
APPLICATIONS FROM SUITABLY QUALIFIED CANDIDATES ARE INVITED FOR THE FOLLOWING POSITION:
MANAGER: MUNICIPAL HEALTH SERVICES (This Grade 18 is a Category 4 Local Authority)
The position reports directly to the Director: Community Services.
REMUNERATION
An annual salary of R 542 897,00 on a scale offer.
FRINGE BENEFITS
Normal fringe benefits include leave, membership to a group life scheme, housing / rent subsidy on certain conditions, pension/provident fund, membership to a medical aid scheme subsidised by council, cell phone allowance and a car allowance.
REQUIREMENTS
• Up to date Registration with the HPCSA as an Environmental Health Practitioner (Independent Practitioner).
• 5 Year Degree in Environmental Health Sciences.
• Minimum of 3 years relevant experience in a management position or at least 5 years supervisory experience within a municipal health services environment.
• A Project Management qualification will serve as an added advantage.
• Computer literacy in word processing, spreadsheets, presentations, email and internet.
• Good communication and report writing skills.
• Ability to speak and understand at least two languages spoken in the district will serve as an added advantage.
• Cross CB (S) Drivers License is essential.
KEY PERFORMANCE INDICATORS
• Managing the overall operations and staff within the Municipal Health Service (MHS) Section in accordance with the scope of the profession and relevant legislation.
• Developing, updating and ensuring the execution of relevant policies, regulations and by-laws of the JDM.
• Managing of all administrative procedures and processes within the MHS Section.
• Developing and implementing goal oriented objectives to improve the quality of MHS within the JDM.
• Developing and instituting MHS EIP plans and ensuring linkage to the budget.
• Developing and maintaining performance management and consulting/ talking with all relevant local municipalities.
• Managing the section's finances by drawing up the section's budget in cooperation with Director: Community Services and assessing budgetary needs of MHS in the JDM including that of local municipalities.
• Implementing developmental MHS programs within the district.
• Participating in the relevant district, provincial and national working groups.
• Ensuring that environmental health is rendered in accordance with scientific principles and following the project management approach.
• Improving the health status of community through the identification, evaluation and controlling of critical environmental factors that affect the physical, social and psychological well-being of the said communities.
• Managing of matter pertaining to complaints investigation, paper burns and examinations, facilities, invasion and environmental health education and awareness.
• Any other function as may be reasonably delegated by management or falling within the ambit of Municipal Health Services function and as outlined in the relevant job description.
Kindly submit a detailed CV together with a prescribed application form and relevant valid certificates and documents to the attention of the Manager: Human Resources. No faxed, emailed or late applications will be accepted. Application forms can be downloaded on our website: www.jgd.gov.za. Copying and/or lobbying of a Councilor and officials will not be accepted and non-compliance thereof will immediately disqualify any applicant.
Please note that non-completion of the official Joe Gqabi District Municipality Application for Employment Form will immediately disqualify any applicant. The Z83 application form will also not be accepted. The relevant form is obtainable from the Human Resources Section at the Barkly East Offices of the Joe Gqabi District Municipality and can also be downloaded from <http://www.jgd.gov.za>.
The Joe Gqabi District Municipality is committed to Employment Equity and to the creation of a working environment that is welcoming of all applicants. Applicants from the target groups as per the approved Employment Equity Plan of the Municipality will receive preference.
Should you not receive any response within two (2) months after the closing date, please accept that your application was unsuccessful. Applications to be sent four-handed at the address below:

APPENDIX: 6.3

Proof that adjacent landowners and stakeholders received written notification

Example of the Notification and BID sent to adjacent landowners and stakeholders:

20 January 2021

Dear Interested and Affected Party

NOTICE OF AN APPLICATION FOR ENVIRONMENTAL AUTHORISATION TO OBTAIN A MINING PERMIT FOR A PROPOSED BORROW PIT ON THE REMAINDER OF THE FARM VLAKTEFONTEIN 210, LADY GREY DISTRICT, EASTERN CAPE.

Notice is given of an application for Environmental Authorisation ("EA") in terms of the 2014 EIA Regulations as amended under the National Environmental Management Act, 1998 (Act No. 107 of 1998) for a mining permit. The above application will be made for the proposed establishment of a gravel borrow pit and associated activities, structures, and infrastructure on the Remainder of the farm Vlakfontein 210, Lady Grey District, Eastern Cape province.

This notification provides stakeholders and / or identified Interested and Affected Parties ("I&AP") with the opportunity to comment on the proposed project and to indicate their interest.

Related Activities

The following activities will be applied for:

Activities in terms of GN. R. 327 of the NEMA 2014 Regulations as amended:

- Activity 21 (a) and (b) – *"Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), including – (a) associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or (b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing;"*
- Activity 27 - *"The clearance of an area of 1 hectare or more, but less than 20 hectares of indigenous vegetation".*

COMPANY DIRECTOR: G. L. DE VILLIERS

BUSINESS ADDRESS: 21 DROMEDARIS STREET | DAN PIENAAR | BLOEMFONTEIN | 9301 - REGISTERED PHYSICAL ADDRESS: 8 CONDE STREET | BAYSWATER | BLOEMFONTEIN | 9301

POSTAL ADDRESS: SUITE 221 | PRIVATE BAG X01 | BRANDHOF | 9324

TEL: 072 967 7962 | E-MAIL: admin@turn180.co.za

BBBEE LEVEL 2

The borrow pit will be situated at more than 100 m from the nearest watercourse and approximately 380m from the edge of the nearest wetland. No watercourses will be impacted during the excavation of the gravel.

Project Description

- Turn180 Environmental Consultants ("**Turn 180**") was appointed by Tau-Pele Construction (Pty) Ltd ("**the Applicant**") as Environmental Assessment Practitioner ("**EAP**") to manage the required authorisation processes on their behalf.
- The Draft Basic Assessment Report ("**BAR**") will be sent to any all registered I&AP upon their request.
- ▲ • Applications will be submitted to the Department of Mineral Resources ("**DMR**") to obtain EA for the Mining Permit.

The mining activities will entail the following:

- Clearance of the proposed mining area not exceeding an area of 5ha of vegetation and topsoil which will be stockpiled separately.
- Overburden (if any) will be removed and stockpiled.
- The gravel will be excavated, ~~loaded~~ and hauled to construction sites where it will be used for the upgrading of the R58 road. No drilling and/or blasting will occur.
- Stormwater will be diverted around the active mining areas and all areas regarded as "dirty areas" by means of berms to enter the natural drainage areas. Dirty water will be contained on site to evaporate.

Locality

The proposed mining area with an extent not exceeding 5ha and will be located on the Remainder of the farm Vlakfontein 210 in the Lady Grey District at the following coordinates:

30°42'5.75"S and 26°59'32.28"E

Please refer to the attached locality map (Figure 1).

General Aspects and impacts

- The mining activities will create direct and indirect job opportunities for the local community which will improve their socio-economic conditions.
- General waste (i.e. paper, plastic, glass bottles, etc.) will be collected and disposed of at an authorised landfill site on a regular basis.
- Drilling and blasting will not take place. Earthmoving equipment will be used to excavate the gravel.
- Mining activities may lead to noise and dust generation. Mining activities will only take place during daylight working hours. Appropriate dust-suppression measures will be implemented if dust is a concern.
- Preliminary desktop assessment indicated that no water resources will be impacted by the excavation of the gravel as there are no watercourses or wetlands within 100m from the Mining Permit area. However, an ecologist and wetland specialist have been appointed to conduct a study and report which will be sent to all registered I&AP and Stakeholders.
- No vegetation will be cleared outside the footprint of the mining area.

Invitation to participate.

You are requested to send any issues and/or concerns regarding the proposed project to Lizel Kennedy at Turn 180: 072 873 6665 or 072 967 7962 (Tel), Suite 221, Private Bag X01, ~~Brandhof~~ 9324 or lizel@turn180.co.za or admin@turn180.co.za (e-mail) within 30 days from the date on this letter (on or before 22 February 2021).

Your feedback in this regard is appreciated.

Regards

Louis De Villiers

Attachments: 210414 Draft Basic Assessment and EMPr.pdf

Dear: Mr. P De Wet (Vlaktefontein 210)

APPLICATION FOR ENVIRONMENTAL AUTHORISATION TO OBTAIN A MINING PERMIT FOR A PROPOSED BORROW PIT ON THE REMAINDER OF THE FARM DIE PLAAS 210 (VLAKTEFONTEIN 210), LADY GREY DISTRICT, EASTERN CAPE.

Please find attached the Draft Basic Assessment Report for the above-mentioned project. We request that you provide comments on the project if you wish to do so. Please send any comments on or before 18 May 2021.

Please note that the Appendixes are too large to add to this email. If you would like a CD with all the attachments, please provide us with a postal address where such a CD can be sent. Alternatively, other methods of data transfer (such as WeTransfer) can also be considered.

We trust you will find this in order. Please do not hesitate to contact us for further information regarding this project.

Kind regards,

MEGAN FREWEN

Attention: Pieter Muller

Dear Sir/Madam

APPLICATION FOR MINING PERMIT IN TERMS OF SECTION 27 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 AS AMENDED BY SECTION 23 OF ACT 49 OF 2008, AS AMENDED: TAU PELE CONSTRUCTION (PTY) LTD TO MINE STONE AGGREGATE AND GRAVEL ON PORTION OF THE REMAINDER OF THE FARM DEE PLAAS 210, SITUATED IN THE MAGISTERIAL DISTRICT OF ALIWAL NORTH.

1. This is to inform you that your application for a mining permit is accepted in terms of section 27 (3) of the Minerals and Petroleum Resources Development Act, 2002 (Act 28 of 2002) ("Act") as amended by Section 23 (5) of the Act.
2. In the light of the minimum requirements as stipulated on Regulation 16 (1) and 16 (2) of the EIA Regulations, your application for environmental authorization was incomplete as it was not accompanied by this acceptance

Application of a Mining Permit in terms of Section 27 of MPRDA, 2002 (Act 28/2002) Tau Pele Construction (Pty) Ltd, situated in the Magisterial District of Aliwal North Ref No. EC 10650 MP HNPm.

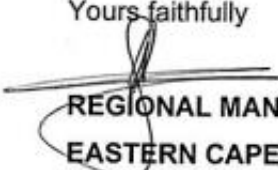

letter as per Sub Regulation (16) (1) (ix) and considering that it is now completed by this acceptance letter, you are hereby required to submit the documents as stipulated on the Regulation 19 (1) and 19 (8).

3. Please note that in terms of S 27 (5) of the Act as amended by Section 23 (5) (a) and (b) of the Amendment Act, you are required to:
 - 3.1. Submit to this office the required environmental reports and documents as stipulated in your acknowledgement of receipt of an environmental authorisation in this regard.
4. Notify and consult with the land owner(s) or lawful occupier(s) and all interested and affected parties (I & AP) and upload on the system the results of such consultation must be submitted 30 days from the date of this letter.
5. You are requested to submit the following information and upload on SAMRAD:
 - (a) a copy of identity document for director/s;
 - (b) a certified copy of title deed or a confirmation letter of the property for which the mining permit is applied
 - (c) A revised Regulation 2.2 plan and correct the following: the plan must be signed and dated by the applicant, farm name and magisterial district must be corrected to reflect the updated and currently description.

This information must be submitted and uploaded on SAMRAD on or before 23rd April 2021.

6. You further advised to apply for Water Use Licence from the Department of Water Affairs.

Yours faithfully

**REGIONAL MANAGER: MINERAL AND PETROLEUM REGULATION
EASTERN CAPE REGION**

21 April 2021

Department of Mineral Resources and Energy
Mineral and Petroleum Regulation
Eastern Cape Region
Private Bag X6076
Port Elizabeth
6000

Attention: Regional Manager Mr T.S Phahlandira

APPLICATION FOR ENVIRONMENTAL AUTHORISATION TO OBTAIN A MINING PERMIT FOR A PROPOSED BORROW PIT ON THE REMAINDER OF THE FARM DIE PLAAS 210 (VLAKTEFONTEIN 210), LADY GREY DISTRICT, EASTERN CAPE.

This letter serves as a response to the letter, dated 09 April 2021 and received from you on 12 April 2021, regarding the abovementioned project, **Reference Number: EC 30/5/1/3/2/10650 MP.**

The contents of your letter refer:

1. Turn 180 Environmental Consultants ("**Turn 180**") notes that the application for mining permit was accepted by the DMR.
2. The DMR's request which refers to Regulations 16(1) and 16(2) pertains. As per Regulation 16(1) and 16(2), the applicant (i.e., Tau Pele Construction (Ltd) is not the owner of the land on which the proposed borrow pit is to be established. Hence, written consent was obtained from the owner of the land, Mr P.J. De Wet, who signed a landowner agreement. Turn 180 confirms that the signed landowner agreement has been uploaded onto the SAMRAD online application system as an Appendix ("**Landowner Agreement**") on 09 April 2021.
3. Turn 180 will submit the required environmental reports to the department as per request.

COMPANY DIRECTOR: G. L. DE VILLIERS

TEL: 072 967 7962 | E-MAIL: admin@turn180.co.za

BBBEE LEVEL 2

4. Turn 180 will distribute the Draft Basic Assessment Report to the landowner, I&AP and authorities and the results will be uploaded to the system within the required 30 days from this letter.
5. The following information was requested via email on 08 April 2021 by the DMR to be submitted onto SAMRAD on or before 09 April 2021 and Turn 180 uploaded the documents onto SAMRAD accordingly, on **09 April 2021**:
 - a) *A copy of identity documents of directors.*

Turn180 uploaded the IDs of the following persons as an Appendix "Tau Pele Holdings Directors IDs":

 - AF Bouwer;
 - Q Olivier;
 - LN Douw;
 - DJF Solani;
 - b) *A certified copy of the title deed.*

Turn180 uploaded a certified copy of the onto SAMRAD as an Appendix "Title Deed_Die Plaas 210".
 - c) *A revised and corrected Regulation 2(2) plan comprising all mentioned corrections, signed by the Tau Pele Representative, Mr Pieter Muller.*

Turn180 uploaded an amended Regulation 2.2 plan onto SAMRAD as an Appendix "Regulation 2(2) Plan-Amended A3".

Turn 180 confirms that the required documents were uploaded onto the SAMRAD application system as per request from Mrs Nontobeko Mdakane of the DMR on, 9 April 2021. Turn 180 corresponded via email to Mrs Mdakane that the requested documents were submitted, and Mrs Mdakane acknowledged the submission.

See the attached screenshot of the submitted documents on the SAMRAD online application portal as Appendixes, as well as email correspondence with Nontobeko Mdakane.

6. The DMR advises in the letter, dated 09 April 2021, that the Applicant apply for a Water Use Licence from the Department of Water and Sanitation ("**DWS**"). Turn 180 requests that the DMR advise on their motivations for their advisory of WUL application. It should be noted that Turn180 appointed an Ecologist to do an Ecological and Wetland Assessment on the proposed site to delineate wetlands and watercourses in or in near proximity of the proposed borrow pit activities. The findings of the Wetland assessment were as follows:

No watercourses or wetlands occur near the site with the nearest watercourse being a small but distinct drainage line to the south (approximately 250 m). This drainage line flow to the south of the site and is highly unlikely that it will be affected by the development. The site itself does not contain any concentrated runoff patterns, wetlands or watercourses though the

existing borrow pit does cause two small portions where ponding occurs and leads to the formation of artificial wetland conditions. However, these do not perform any significant ecological functions, are completely artificial in nature and will therefore not have any significant conservation value.

Please consider that Tum 180 notified the DWS of the project and that they will receive all the necessary documents, information and reports for commenting.

Your further comments on the project are appreciated.

Kind regards

A handwritten signature in cursive script that reads "Kennedy".

ACKNOWLEDGEMENT AND ACCEPTANCE OF THE APPLICATION FOR AN ENVIRONMENTAL AUTHORIZATION FOR MINING AND ASSOCIATED LISTED ACTIVITIES IN RESPECT OF MINING STONE AGGREGATE; GRAVEL ON A PORTION OF THE REMAINDER OF THE FARM DEE PLAAS 210, ADMINISTRATIVE DISTRICT OF ALIWAL NORTH IN THE EASTERN CAPE

APPLICANT: TAU PELE CONSTRUCTION (PTY) LTD

1. The Department hereby acknowledges and accepts receipt an application for an **Environmental Authorization** (EA) lodged on the SAMRAD system on the 26th of March 2021 for the mining of STONE AGGREGATE; GRAVEL ON A PORTION OF THE REMAINDER OF THE FARM DEE PLAAS 210, ADMINISTRATIVE DISTRICT OF ALIWAL NORTH IN THE EASTERN CAPE.
2. In light of the minimum requirements as stipulated on Regulation 16 (1) and 16 (2) of the EIA Regulations your application for an Environmental Authorization was incomplete as it was not accompanied by the acceptance letter as per sub Regulation 16 (1) (ix) and considering that it is now completed by this acceptance letter, you are hereby required submit the documents as stipulated on Regulation 19 (1) to 19 (8) of the EIA Regulations.
3. The Basic Assessment Report must be submitted within 90 calendar days (i.e. no later than the 10th of July 2021) from the date of the Mining Permit acceptance letter (i.e. as per the required timeframes specified by the NEMA EIA Regulations, 2014).
4. The Basic Assessment Report must be inclusive of consultation documents, which have been subjected to a public participation process for at least 30 days and which reflects and incorporates all comments received from I&AP's. Government departments must be included and this includes but not limited to, the

Provincial Heritage Resources Authority, Provincial Department of Environmental Affairs, Department of Agriculture, Department of Water & Sanitation, Department of Public Works or SANRAL, ECPTA and the Local Municipality.

5. Please ensure that comments from all relevant Government Departments are submitted and should you be unable to obtain such comments, proof of the attempts that were made to obtain comments should be submitted. Kindly note that the DMR no longer conducts consultation with government Departments and it is upon the applicant to conduct such consultation.
6. Should a water use license be required, an application for a water use license must be made to the Department of Water and Sanitation.
7. Only activities listed on the application will be considered when issuing an environmental authorization and the onus is on the applicant to ensure that **all listed activities** related to the proposed project **are included** in the application. Kindly note that no listed activities may commence without an environmental authorization from this Department.
8. Please submit 2 hardcopies and 1 softcopies of the Basic Assessment Report for consultation purposes with Mine Health and Safety (MHS).
9. Failure to submit the Basic Assessment Report within the required timeframes will result in the lapsing of the EA application.

Should you have any further queries, please do not hesitate to contact this office.

This Department reserves the right to revise its initial comments and request further information from you, based on any new or revised information received

Yours faithfully

Sir/Madam

COMMENTS ON THE DRAFT BASIC ASSESSMENT REPORT AND ENVIRONMENTAL MANAGEMENT PROGRAMME REPORT FOR THE PROPOSED BORROW PIT ON THE REMAINDER OF THE FARM DIE PLAAS 210 (VLAKTEFONTEIN 210): LADY GREY: EASTERN CAPE

This office acknowledges the receipt of your Draft Basic Assessment Report and Environmental Management Programme Report received on the 14 April 2021 for our comments on the proposed borrow pit mining.

The Department recommends that the soil erosion and alien invasive plants mitigation measures mentioned on the Environmental Management Programme Report and your response letter on the BID comments regarding the proposed project, received on the 7 May 2021 must be implemented in order to minimise or mitigate any soil erosion potential.

The proposed borrow pitting site after all the material has been collected should be restored to its original state so that the grazing potential of the area can be restored after borrow pitting activities.

Yours sincerely

pp. Executive Officer (Act 43 of 1983)

Subject: RE: Comments on the Draft Basic Assessment report and Environmental Management Programme Report for the proposed borrow pit on the remainder of the farm Die Plaas 210 (Vlaktefontein 210): Lady Grey: Eastern Cape

Dear Nomsa

Thank you for your letter. It is the closure objectives to rehabilitate and return the affected borrow pit area as close as practically possible to its pre-mining land-use (i.e. grazing). The integrity of topsoil will be retained by stockpiling it separately and will be re-instated during the rehabilitation phase. Soil erosion potential will be minimised, and invasive plant species will be managed by implementing measures contained in the EMPr. The area will be revegetated with the appropriate plant species and monitored until the land-use has recovered.

I trust you will find the above in order.

Regards
Lizel

Attention: Nomsa Moyo

APPLICATION FOR ENVIRONMENTAL AUTHORISATION TO OBTAIN A MINING PERMIT FOR A PROPOSED BORROW PIT ON THE REMAINDER OF THE FARM DIE PLAAS 210 (VLAKTEFONTEIN 210), LADY GREY DISTRICT, EASTERN CAPE.

This letter serves as a response to the comments dated 27 January 2021 regarding the above-mentioned project that our office received from you per e-mail.

Your comments on the Background Information Document ("BID") refer:

- The activities that will impact natural agricultural resources (vegetation, soil and water) during the mining of gravel from the proposed borrow pit have been addressed in the Draft Bar and Environmental Management Programme Report ("EMPr") attached in Section B of the Draft BAR, sent to you on 14 April 2021.
- Any ecological sensitive areas will be protected from degradation arising from the activities. However, it should be noted that no ecologically important or sensitive areas were identified on site. According to the Ecological Assessment (Van Rensburg, 2021) the proposed site comprises of Aliwal Dry Grassland, which has a low conservation value and falls within a vegetation type of Least Concern. Please note that the Ecological Assessment was attached as an Appendix (Appendix 3) in the Draft BAR.
- Any ecological sensitive areas will be protected from degradation arising from the activities. However, it should be noted that no ecologically important or sensitive areas were identified on site. According to the Ecological Assessment (Van Rensburg, 2021) the proposed site comprises of Aliwal Dry Grassland, which has a low conservation value and falls within a vegetation type of Least Concern. Please note that the Ecological Assessment was attached as an Appendix (Appendix 3) in the Draft BAR.
- No watercourses or wetlands occur near the site with the nearest watercourse being a small but distinct drainage line to the south (approximately 250 m). This drainage line flow to the south of the site and is highly unlikely that it will be affected by the development.

BBBEE LEVEL 2

The site itself does not contain any concentrated runoff patterns, wetlands or watercourses though the existing borrow pit does cause two small portions where ponding occurs and leads to the formation of artificial wetland conditions. However, these do not perform any significant ecological functions, are completely artificial in nature and will therefore not have any significant conservation value (Van Rensburg, 2021).

- Soil conservation methods will be applied. Topsoil will be stockpiled separately for later use during rehabilitation. Soil erosion on site will be prevented by erosion management and storm water management; mitigation measures are discussed in the EMPr attached in the Draft Bar.
- During construction, the personnel will make use of portable chemical toilets on site. These toilets will be cleaned on a regular basis by a contractor. This is indicated in the EMPr which was attached in Section B (EMPr) in the Draft BAR.
- Please note that no bulk storage of hazardous substances will occur on site. If any hazardous chemicals, fuels, etc. are used during construction, it will be stored in a temporary bund area. It should be noted that there are no watercourses on site and thus no flood lines.
- The applicant will identify any potential source of pollution and to take appropriate measures to prevent pollution throughout the mining project.

We trust you will find this in order. Please do not hesitate to contact us for any further information regarding this project.

Kind regards

Lizél Kennedy

APPENDIX: 6.4

**Proof that Authorities and Organs of State
received written notification**

Example of Notification and BID sent to Authorities and Organs of State:

20 January 2021

Department of Water and Sanitation
P.O. Box 528
Bloemfontein
9300

Dear Dr. Tseliso Ntuli

NOTICE OF AN APPLICATION FOR ENVIRONMENTAL AUTHORISATION TO OBTAIN A MINING PERMIT FOR A PROPOSED BORROW PIT ON THE REMAINDER OF THE FARM VLAKTEFONTEIN 210, LADY GREY DISTRICT, EASTERN CAPE.

Notice is given of an application for Environmental Authorisation ("EA") in terms of the 2014 EIA Regulations as amended under the National Environmental Management Act, 1998 (Act No. 107 of 1998) for a mining permit. The above application will be made for the proposed establishment of a gravel borrow pit and associated activities, structures, and infrastructure on the Remainder of the farm Vlakfontein 210, Lady Grey District, Eastern Cape province.

This notification provides stakeholders and / or identified Interested and Affected Parties ("I&AP") with the opportunity to comment on the proposed project and to indicate their interest.

Related Activities

The following activities will be applied for:

Activities in terms of GN. R. 327 of the NEMA 2014 Regulations as amended:

- Activity 21 (a) and (b) – "Any activity including the operation of that activity which requires a mining permit in terms of section 27 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), including – (a) associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource; or (b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening, or washing;"

COMPANY DIRECTOR: G. L. DE VILLIERS

VAT NO: 4220284154 | BUSINESS REGISTRATION NO: 2018/110720/07 – SOUTH AFRICA

BUSINESS ADDRESS: 21 DROMEDARIS STREET | DAN PIENAAR | BLOEMFONTEIN | 9301 - REGISTERED PHYSICAL ADDRESS: 8 CONDE STREET | BAYSWATER | BLOEMFONTEIN | 9301

POSTAL ADDRESS: SUITE 221 | PRIVATE BAG X01 | BRANDHOF | 9324

TEL: 072 967 7962 | E-MAIL: admin@turn180.co.za

BBBEE LEVEL 2

-
- Activity 27 - "The clearance of an area of 1 hectare or more, but less than 20 hectares of indigenous vegetation".

The borrow pit will be situated at more than 100 m from the nearest watercourse and approximately 380m from the edge of the nearest wetland. No watercourses will be impacted during the excavation of the gravel.

Project Description

- Turn180 Environmental Consultants ("Turn 180") was appointed by Tau-Pele Construction (Pty) Ltd ("the Applicant") as Environmental Assessment Practitioner ("EAP") to manage the required authorisation processes on their behalf.
- The Draft Basic Assessment Report ("BAR") will be sent to any all registered I&AP upon their request.
- Applications will be submitted to the Department of Mineral Resources ("DMR") to obtain EA for the Mining Permit.

The mining activities will entail the following:

- Clearance of the proposed mining area not exceeding an area of 5ha of vegetation and topsoil which will be stockpiled separately.
- Overburden (if any) will be removed and stockpiled.
- The gravel will be excavated, loaded, and hauled to construction sites where it will be used for the upgrading of the R58 road. No drilling and/or blasting will occur.
- Stormwater will be diverted around the active mining areas and all areas regarded as "dirty areas" by means of berms to enter the natural drainage areas. Dirty water will be contained on site to evaporate.

Locality

The proposed mining area with an extent not exceeding 5ha and will be located on the Remainder of the farm Vlakfontein 210 in the Lady Grey District at the following coordinates:

30°42'5.75"S and 26°59'32.28"E

Please refer to the attached locality map (Figure 1).

General Aspects and impacts

- The mining activities will create direct and indirect job opportunities for the local community which will improve their socio-economic conditions.
- General waste (i.e., paper, plastic, glass bottles, etc.) will be collected and disposed of at an authorised landfill site on a regular basis.
- Drilling and blasting will not take place. Earthmoving equipment will be used to excavate the gravel.
- Mining activities may lead to noise and dust generation. Mining activities will only take place during daylight working hours. Appropriate dust-suppression measures will be implemented if dust is a concern.
- Preliminary desktop assessment indicated that no water resources will be impacted by the excavation of the gravel as there are no watercourses or wetlands within 100m from the Mining Permit area. However, an ecologist and wetland specialist have been appointed to conduct a study and report which will be sent to all registered I&AP and Stakeholders.
- No vegetation will be cleared outside the footprint of the mining area.

Invitation to participate.

You are requested to send any issues and/or concerns regarding the proposed project to Lizel Kennedy at Turn 180: 072 873 6665 or 072 967 7962 (Tel), Suite 221, Private Bag X01, Brandhof, 9324 or lizel@turn180.co.za or admin@turn180.co.za (e-mail) within 30 days from the date on this letter (on or before 22 February 2021).

Your feedback in this regard is appreciated.

Regards

Louis De Villiers
