

Loslitdag 2015 skop af

Stellalander-Vryburg – Loslitdag, die land se grootste fondsinsamelings- en bewusmakingsprojek vir persone met gestremdhede, vind vanjaar op Vrydag (4 September) plaas.

Dit is 'n dag waarop gevra word dat almal gemaklik, formeel of somer verspot sal aantrek wanneer hulle werk toe gaan en die amptelike Loslitdag-plakker sal dra.

Loslitdag het verlede jaar R28 miljoen ingesamel.

Die donasies gaan na 300 organisasies in die land waarvan die begunstigdes 12 nasionale organisasies insluit.

Die tema vir vanjaar is 'Loslit Innie Lente'.

Volgens projekbestuurder Celeste Vinassa, vier almal in die eerste week van September die aankoms van die lente.

Vanjaar is daar vyf plakkers beskikbaar en kan mense 'n hele 'bos' plakkers koop.

Skole en organisasies kan solank hul plakkers aanvra by Loslitdag se hoofkantoor.

Bemerkingsmateriaal en plakkers word gratis aan deelnemende organisasies verskaf en hulle betaal vir die plakkers nadat hulle die geld ingesamel het.

Die projek word beheer deur Die Nasionale Raad vir Persone met Liggaamlike Gestremdheid in Suid-Afrika en is geborg deur die Edcongroep.

Donasies van R10 per plakker is belangrik aangesien ons so die nodige fondse kan insamel ter ondersteuning van persone met gestremdhede se regte tot onderwys, behuising, opleiding, toeganklikheid en werkskepping te ondersteun.

Met ander woorde die volle inskakeling in die gemeenskap.

Hierdie is 'n fondsinsamelingsgeleentheid vir persone met gestremdheid.

Die groot begunstigdes is die volgende organisasies:

Die Nasionale Raad vir Mense met Liggaamlike Gestremdheid in Suid-Afrika, Die SA Federasie vir Geestesgesondheid, Federasie vir Dowes van SA, Die Nasionale Raad vir Blindes, Outisme Suid Afrika, Down-Sindroom Suid-Afrika, Die Nasionale Raad vir Persone met Serebrale Gestremdheid, Die Suid-Afrikaanse Dowe Vereniging, Die Nasionale Instituut vir Dowes, QuadPara

Vereniging van Suid-Afrika, Alzheimer's Suid-Afrika en South African Disability Alliance.

Loslitdag ambassadeurs, Terry-Ann Adams en Bernadette Rigney.

Houmoed VLU Kinderweek

Hier is Ruth Mothapo (Verwes maatskapliedediens), Marina Treurnich en Evie de Vos saam met die kinders van die Verwes Maatskaplike diens op Wolmaransstad. Die Houmoed VLU bied jaarliks 'n Kinderweek met verskillende handvaardighede hier aan.

Riana Grobbelaar, Corlia Uys en Hettie Smit saam met die kinders van die Verwes Maatskapliedediens op Wolmaransstad tydens die jaarlikse Kinderweek wat deur die Houmoed VLU aangebied word. Die lede voorsien die kinders elke dag van middagete en elkeen ontvang 'n pakkie met lekkernye om huis toe te neem. Hul bedank al die lede vir hulle harde werk.

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS
 In terms of GNR 982, 983, 984, 985 published on 4 December 2014 under section 24(5) and 44 of the National Environmental Management Act, 1998 (Act No. 107 of 1998), notice is hereby given that Miko Energy Palus Energy & Nunki Energy intends to carry out the following activities:
Project names: RHODES 2 SOLAR PARK (Miko Energy (Pty) Ltd). EAST 2 SOLAR PARK and EAST 3 SOLAR PARK (Palus Energy (Pty) Ltd). BOWDEN 1 SOLAR PARK and BOWDEN 2 SOLAR PARK (Nunki Energy (Pty) Ltd).
Projects Description: The abovementioned companies intends to establish renewable energy generation facilities, which will consist of construction, operation and maintenance of a Photovoltaic (PV) Power Plants with associated infrastructure and structures having a generation capacity up to 75 MW each. The footprint of each solar park will be up to 210 ha. The Photovoltaic (PV) Power Plants together with their connection infrastructure will require the installation of the following equipment:
 • Photovoltaic modules (monocrystalline, polycrystalline or thin-film solar modules)
 • Mounting systems (fixed or single-axis horizontal trackers) for the PV arrays and related foundations
 • Internal cabling and string boxes
 • Medium voltage stations, hosting DC/AC inverters and LV/MV power transformers
 • Medium voltage receiving station(s)
 • Workshop & warehouses
 • one small on-site high-voltage substation with high-voltage power transformers, stepping up the voltage to the voltage of the Eskom's grid (132 kV) and a 132 kV busbar with metering and protection devices and a control building, to be located within the PV plant development area
 • Electrical system and UPS (Uninterruptible Power Supply) devices
 • Lighting system
 • Grounding system
 • Access road and internal roads
 • Fencing of the site and alarm and video-surveillance system
 • Water access point and water extraction on-site borehole(s) point, water supply pipelines, water treatment facilities
 • sewage system (Ballam Waterslot or Lilliput system).
The Rhodes 2 Solar Park may be connected either:
 a) to the Eskom Hotazel substation, south of the project site; or
 b) to the new Eskom Hotazel - Umtu 132 kV power line, south of the project site; or
 c) to the new Eskom Umtu substation, south-west of the project site.
Two power line corridors are proposed for the connection to the Eskom Hotazel substation / Eskom Hotazel - Umtu 132 kV power line / Eskom Umtu substation:
 • Corridor 1 to the Eskom Hotazel substation: the power line corridor will be approximately 16.3 km long and will run parallel to the existing Eskom "Hotazel - Heuningvlei" 132 kV power line. Properties crossed by Corridor 1: Remainder and Portion 1 of the Farm Bowden 223, Farm Rhodes 269, Remainder and Portion 2 of the Farm Est 270, Farm Kipling 271, Remainder of the Farm Hotazel 280.
 • Corridor 2 to the new Eskom Umtu substation: the power line corridor will be approximately 20.8 km long and will run parallel to the existing Eskom "Hotazel - Heuningvlei" 132 kV power line (for 14.8 km) and to the Eskom "Hotazel - Umtu" 132 kV power line (for 6.0 km). Properties crossed by the Corridor 2: Remainder and Portion 1 of the Farm Bowden 223, Farm Rhodes 269, Remainder and Portion 2 of the Farm Est 270, Farm Kipling 271, Remainder of the Farm Hotazel 280, Farm Umtu 281, Remainder of the Farm Olive Pan 282.
 a) In case of connection to the Eskom Hotazel substation: a new 132 kV power line (double circuit), approximately 16.3 km long, will run within the Corridor 1 and will connect the on-site high-voltage substations to the Eskom Hotazel substation.
 b) In case of connection to the Eskom Hotazel - Umtu 132 kV power line: a small switching station will be built within the Corridor 1, next to the Eskom Hotazel - Umtu 132 kV power line, which will loop in and out of the 132 kV bus bar of the new switching station through two new sections of 132 kV line approximately 100 m long. A new 132 kV power line (double circuit), approximately 14.8 km long, will run within the Corridor 1 and will connect the on-site high-voltage substations to the new switching station.
 c) In case of connection to the Eskom Umtu substation: a new 132 kV power line (double circuit), approximately 20.8 km long, will run within the Corridor 2 and will connect the on-site high-voltage substations to the Eskom Umtu substation.
 The connection may also entail interventions on the Eskom grid, according to Eskom's connection requirements.
During the construction phase, the site may be provided with additional:
 • water access point and water extraction on-site borehole(s) point, water supply pipelines, water treatment facilities;
 • pre-fabricated buildings that will be removed at the end of the construction phase.
Locations: The project sites include the Farm Rhodes 269, Kuruman RD (1810.83 ha), Remainder and Portion 2 of the Farm East 270, Kuruman RD (1820.8 ha) and Portion 1 of the farm Bowden 223, Kuruman RD (1223.38 ha), located in the Joe Morolong Local Municipality, John Taolo Gaetsewe District Municipality, Northern Cape Province.
 A Background Information Document (BID) providing more information can be requested via email (see email address below). An Environmental Impact Assessment (EIA) process is required for the above proposed activities. Such a study is currently being undertaken by AGES (Pty) Ltd (in order to determine whether the proposed activities will result in any significant environmental impacts).
 In order to ensure that you are identified as an interested and/or affected party, please submit, in writing, your name, contact information and interest in the matter, within 30 days of publication of this notice, to the following address: AGES (Pty) Ltd, 120 Marshall Street, Polokwane 0699 - P.O. Box 2526, Polokwane, 0700 - Tel: +27 (0) 15 291 1577 - Fax: +27 (0) 15 291 1577 - Emails: jbotha@ages-group.com / egrobler@ages-group.com.
