**VOORGESTELDE GAS NA KRAG PROJEK IN DIE HAWE VAN RICHARDSBAAI, UMHLATUZE  
PLAASLIKE MUNISIPALITEIT, KING CETSHWAYO DISTRIK IN KZN**

**OMGEWINGS IMPAK VERSLAG (OIV) FASE IN TERME VAN DIE OMGEWINGS IMPAK ASSESSERINGS REGULASIES, 2014 (SOOS  
GEWYSIG)**

**VERWYSINGS NO 14/12/16/3/3/2/2007**

**Triplo4 Sustainable Solutions** (Edms) Bpk onderneem die Omgewings Impak Asseserings (OIA) proses wat benodig word vir **Karpowership SA** (Edms) Bpk vir Omgewingsmagtiging (in terme van die Nasionale Omgewingsbestuur Wet, 1998), en 'n Atmosferiese Emissie-Lisensie (AEL) (in terme van die Nasionale Omgewingsbestuur: Luggehalte Wet, 2004) vir die **Voorgestelde Gas na Krag via Kragskip Projek by die Richards Baai Hawe**, uMhlathuze Munisipaliteit, binne die King Cetshwayo Distriks Munisipaliteit, KZN.

**Agtergrond:** Die Omvangs-, tesame met die OIA-proses was gedurende 2020 - 2021 onderneem en die Omgewingsmagtiging was geweier. Karpowership SA (PEdms) het appêl aangeteken. Die Minister het die appêl afgewys en haar magte in terme van Artikel 43(6) van NEMA uitgeoefen. Die aansoek is terug verwys na die Bevoegde Gesag om die aansoeker die geleentheid te bied om tekortkominge en gebreke aan te spreek deur 'n nuwe Omgewings Impak Verslag en verwante Openbare Deelname Proses sodat die aansoek deur die Bevoegde Gesag oorweeg kan word.

**Projekbesonderhede:** Die projek behels die opwekking van elektrisiteit vanaf 2 drywende mobiele kragsepe (Powerships) in die hawe van Richards Baai wat voorsien word met natuurlike gas deur 'n 3de skip, 'n drywende Voorraad Hergassingseenheid (FSRU). Die 3 sepe sal vasgemeer wees in the hawe vir die projek se verwagte 20 jaar leeftyd. 'n Vloeibare Bergings Hervergassings Draer sal vloeibare natuurlike gas aan die FSRU voorsien, ongeveer elke 20 – 30 dae afhangend van die behoefte aan elektrisiteit wat deur die koper ESKOM bepaal word. Die FSRU berg die vloeibare natuurlike gas aan boord en omskep die vloeibare vorm in gas (Natuurlike gas) op aanvraag van die Kragsepe (Hervergassing). Natuurlike gas sal van die FSRU na die Kragsepe oorgeplaas word via 'n gaspypleiding op die seebodem. Die ontwerp kapasiteit van die projek is 540MW. Elektrisiteit sal op die Kragsepe deur 27 gasenjines opgewek word, elk met hitteinsat van meer as 10MW (ontwerp kapasiteit van 18.32MW teen volle kapasiteit). Hitte wat deur die werking van die enjins ontstaan word gestoor en gebruik om stoom te maak vir 3.6 stoomturbines, elkeen met 'n hitteinsat van omtrent 15.45MW. Die ooreengekome kapasiteit van 450MW, wat nie oorskry mag word in terme van die RMIPPPP, word deur 'n 132kV kragtoevoerlyn oor 'n afstand van ongeveer 3.6Km vanaf 'n Eskom aansluitingspunt by die Richards Baai hawe tot by die bestaande Bayside substasie herlei vanwaar dit in die Nasionale Netwerk inskakel. Dit sal ontwikkeling vereis binne-in of binne 32meter van 'n waterloop, die invul/verwydering van enige materiaal van 10 kubieke meter van 'n waterloop, die invul/verwydering 5 kubieke meter materiaal van 'n riviermonding asook die moontlike verwydering van inheemse plantegroei.

**Kommentaar op die konsep verslag**

Die nuwe Omgewings Impak Asseserings Verslag (ingeslote die Omgewings Bestuurs Program (EMPr) en die spesialisverslae) sal beskikbaar wees aan Belangstellende en Geaffekteerde Partye asook die DEFF van 10 November – 13 Desember 2022 by die Richards Baai openbare biblioteek (Fisiese adres: Kruger St SBG, Richards Baai), die Empangeni openbare biblioteek (Fisiese adres: H/V Union en Commercial Strate, Empangeni), Triplo4 Ballito kantoor en webwerf [www.triplo4.com](http://www.triplo4.com) / aanlyn platform

**Openbare Vergaderings**

As deel van die openbare deelnameproses sal twee vergaderings (soos in die table hieronder) gehou word en onafhanklik aanlyn gefasiliteer word. Dieselfde inligting sal by beide geleenthede verskaf word en geregistreerde Belangstellende en Geaffekteerde Partye (B & GPs) sal die notules van beide vergaderings ontvang. Navrae en kommentaar mag gelewer word voor die vergaderings plaasvind.

**INOMBOLO YEREFURENSI: 14/12/16/3/3/2/2007**

I-Triplo4 Sustainable Solutions (Pty) Ltd yenza inkqubo ehlangeneyo yoVavanyo lweMpembelelo yokuSingqongileyo (EIA) efunekayo kwisicelo seKarpowership SA (Pty) Ltd soGunyaziso lweNdalo (ngokoMthetho weSizwe woLawulo lokusiNgqongileyo, we-1998) kunye neLayisensi yokuKhusela iAtmospheric (AEL) (ngokoMthetho woLawulo lokusiNgqongileyo weSizwe: uMthetho oLawula uMgangatho woMoya, wama-2004) **weSindululo sokwenza uMbane ngeRhasi ngokusebenzisa iProjekthi yeNqanawa Zamandla eRichards Bay, kuMasipala iMhlathuze phakathi kuMasipala weSithili iKing Cetywayo, KwaZulu Natal.**

**Imvelaphi:** Inkqubo yokunika ingxelo ngeMpembelelo yokuSingqongileyo (S&EIR) yaqhutywa ngowama-2020-2021 kwaye uGunyaziso lokusiNgqongileyo lwaliwa. Karpowership (Pty) Ltd yabhena. UMphathiswa wasichitha isibheni waza wasebenzisa amagunya wakhe ngokweCandelo lama-43(6) le-NEMA. Isicelo sabuyiselwa kwi-Igunya Elinobuchule (CA) ukuvumela umfaki-sicelo ukuba alungise izikhewu ezininzi neziphene nge-EIAR entsha kunye neNkqubo yokuThatha iNxaxheba koLuntu enxulumeneyo (PPP), ukuze isicelo siqwalaselwe yi-CA.

**Iinkcukacha zeprojekthi:** Le projekthi ibandakanya ukuveliswa kombane zii-Nqanawa eziphehla umbani ezimbini ezibotshelwe kwiZibuko laseRichards Bay, ezondliwa ngerhasi yendalo evela kwinqanawa yesithathu, iFloating Storage Regasification Unit (FSRU). Ezi nqanawe zintathu ziya kubotshelwa kwiZibuko kangangimanyaka engama-20 ngokokuqikelelwa kobude beprojekthi. Inqanawe iLiquefied Natural Gas (LNG) iya kuza nerhasi yendalo engamanzi ize ikhutshelwe kwiFSRU kube kanye ngeentsuku ezingama-20 ukuya kuma-30 kuxhomekeke kwisidingo sombane esiqitywe ngumthengi, ESKOM. I-FSRU igcina i-LNG ngaphakathi, ijike ulwelo lube kwimo yegesi (iGesi yeNdalo) xa ifunwa yiNqanawa eziphehla umbani (uRegassification). Irhasi yendalo iya kukhutshelwa isuka kwiFSRU isisiwa kwiNqanawa eziphehla umbani ngombhobho werhasi engaphantsi kolwandle. Umthamo weprojekthi yi-450MW, kunye nombane onokuthi uveliswe ngeenjini zegesi ezingama-27, inye inegalelo lobushushu elingaphezulu kwe-10MW (umthamo woyilo we-18.32MW uphelele). Iinjini zomphunga ezi-3.6 zinegalelo lobushushu elimalunga ne-15.45MW inye. Umbane oveliswe kwiinqanawa zombane uya kukhutshelwa ngaphandle kumzila wothumelo we-132kV kungama omalunga nee-7.38km, ukusuka kwindawo edibanisa iZibuko laseRichards Bay ukuya kumzila ka-Eskom, (unyanzelisa isikhululo esitsha) ukuya kwisiKhululo esikhoyo se-Bayside Substation, efaka umbane kuthungelwano lwesizwe. Ukuza kuthi ga ngoku zifuna uphuhliso ngaphakathi okanye ngaphakathi kweemitha ezingama-32 zomlambo kunye nokuzaliswa / ukususwa kwayo nayiphi na imathiriyeli ye-10 cubic metres ukusuka kumlambo okanye ngaphakathi kweemitha ezili-100 emhlabeni wophawu oluphezulu lwamanzi, kunye nokucocwa okunokwenzeka kwezityalo zemveli.

**INKQUBO YOKUTHATHA INXAXHEBA YOLUNTU – ISIGABA SE-EIR**

**Izimvo ngengxelo eyilwayo ye-EIA:**

Ingxelo entsha eyiDrafti EIA (ibandakanya iNkqubo yoLawulo lokusiNgqongileyo (EMPr) kunye neengxelo zeengcali) iya kufumaneka kumaQela naNomdla naChaphazelekayo (I&APs), ngokunjalo nakwiDFFE ukusuka ngomhla we-10 kweyeNkanga ukuya kowe-13 kweyoMnga 2022 **iThala leencwadi loluntu eRichards Bay (idilesi yeNdawo: kumbindi weNdlela i-Kruger, eRichards Bay) nethala leencwadi loluntu laseMpangeni (idilesi yendawo: kwiKona yeManyano nezitalato zoRhwebo, eMpangeni), naseOfisi LaseTriplo4 eBallito, nakwiwebhusayithi yakwaTriplo4: www.triplo4.com / iqonga le-intanethi:**

**Iintlanganiso zoluntu:**

Njengenxalenye yenkqubo yentatho-nxaxheba yoluntu, iintlanganiso ezimbini (ngokwethyibhile engezantsi) ziya kubanjwa kwaye ziququzelelwe ngokuzimeleyo. Ingcaciso efanayo iya kunikwa kuzo zombini iiseshoni kwaye ii-I&APs ezibhalisiweyo ziya kufumana imizuzu yazo zombini iiseshoni. Imibuzo okanye izimvo zingafakwa kwangaphambi kweentlanganiso.

**ISIGABA SOKUHLOLA UMTHELELA KWEZEMVELO NEZINDAWO ZOKUHLALA (EIR) NGOKWEMITHETHO EYAZIWA NGE-EIA  
REGULATIONS, 2014 (ECHIBIYELWE)**

**INOMBOLO EYIREFERENSI: 14/12/16/3/3/2/2007**

Inkampani eyaziwa **ngeTripto4 Sustainable Solutions (Pty) Ltd** izoqala ukuhlola ukuthi kunamthelela muni ukuphehla ugesi kusetshenziswa igesi. Lokhu kubizwa ngokuthi yi-integrated Environmental Impact Assessment (EIA) edingwa yinkampani **iKarpowership SA (Pty) Ltd's** ukuze kuphumelele isicelo sayo sokugunyazwa esaziwa ngokuthi yi-Environmental Authorisation (njengokulawula komthetho obizwa nge-National Environmental Management Act, 1998) kanye ne-Atmospheric Emissions Licence (AEL) (njengokulawula komthetho wezingabunjalo lomoya owaziwa ngeNational Environmental Management: Air Quality Act, 2004). Lokhu kuzolekelela ukuphasiswa **kwePhrojekthi iPowership ehlongozwayo yokuphehla ugesi ngamandla egesi** okuzokwenziwa eChwebeni laseRichards Bay eMhlathuze Local Municipality eseKing Cetshwayo District Municipality, KwaZulu-Natal.

**Umlando wokwendlela:** Sekuke kwenziwa ukuhlola ngenqubo eyaziwa ngokuthi yi-Scoping and Environmental Impact Reporting (S&EIR) ngowezi-2020 kuya kowezi--2021 kodwa inkampani ayiyitholanga i-Environmental Authorisation enika igunya. Ukunqatshelwa kwadluliselwa phambili yiKarpowership SA (Pty) Ltd. Ungqongqoshe wasichitha isicelo sokwedlulisa icala esebenzisa uSection 43(6) weNEMA. Isicelo sabuyiselwa enhlanganweni iCompetent Authority (CA) ukuze inkampani ilungise konke okwakuyizikhalo ngokuqala i-EIA kabusha kanye nohlelo lwePublic Participation Process (PPP), ukuze isicelo sibuyele kobhekiswani yiCA.

**Imininingwane ngephrojekthi:** Iphrojekthi ibandakanya ukukhiqizwa kukagesi yimikhumbi emibili eyaziwa ngokuthi amaPowerships azobe emiswe eChwebeni laseRichards Bay. Le mikhumbi izophakelwa igesi yemvelo wumkhumbi wesithathu, owaziwa ngeFloating Storage and Regasification Unit (FSRU). Le mikhumbi yomithathu izobe igxunyekwe eChwebeni iminyaka okulindeleke ukuba ibe ngamashumi amabili (20). Umkhumbi othwala Igesi yemvelo ewuketshezi owaziwa ngokuthi yi-Liquefied Natural Gas (LNG) Carrier uzoyiletha igesi bese uyithululela emkhunjini iFSRU cishe kanye ezinsukwini ezingamashumi amabili kuya kwamathathu (20-30) kuye ngokuthi ugesi udingeka kangakanani ngokuka-Eskom okuwuyena mthengi. Umkhumbi iFSRU ugcina igesi iLNG kuyona bese uyiguqula ibe wuketshezi (igesi yemvelo) kuye ngokudingeka kwayo yiPowership (ukuphindwa kokukhiqizwa kwegesi). Igesi yemvelo izosuswa kwiFSRU iyiswe kwiPowership kusetshenziswa ipayipi legesi elihamba ngaphansi kolwandle. Isilinganiso somthamo sephrojekthi sibalelwa ku-540MW. Ugesi uzophehlwa kumaPowerships yizinjini ezingama-27, ngayinye inezinga lokushisa elidlula ku-10MW (yakhelwe umthamo oyi-18.32MW uma isebenza ngokugcwele). Ukushisa okukhiqizwa yizinjini ezilekelelanayo kuyagodlwa, bese amandla ako esetshenziselwa ukwakha umusi ozolawula izinjini ezinokushisa okulinganiselwa ku-15.45MW ngayinye. Umthamo ongama-450MW, okungamele weqiwe ngokwemithetho yeRMIPPPP, uzothuthwa kusetshenziswa intambo eyi-132kV ebangeni elingamakhilomitha ama-3.6, ukusuka eChwebeni laseRichards Bay kuya ezintanjeni zakwa-Eskom, kuya lapho kumele kuxhunye khona (esiteshini sikagesi okuzodingeka sakhiwe) sibe budebuzwe neBayside Substation evele ikhona, okuyisona esiphakela isilawuli sikazwelonke. Lokhu kudinga ukuthuthukiswa okuyibanga elingamamitha angama-32 omsele wamanzi kanye nokugcwaliswa/ukususwa kwezinto ibanga elingamakhubhikhamitha ayi-10 ukusuka emseleni wamanzi noma amamitha ayi-100 ukusuka emanzini kuya ezweni, kanti futhi zingaba khona izihlahla zemvelo ezisuswayo.

**INQUBO YOKUZIBANDAKANYA KOMPHEKATHI: ISIGABA SE- EIR**

**Ukuphawula ngombiko osalungiswa we-EIA:**

Umbiko osalungiswa we-EIA (obandakanya ne-Environmental Management Programme (EMPr) kanye nemibiko yongoti) izotholakala kulabo abanothando nabathintekayo abaziwa ngokuthi ama-Interested and Affected Parties (I&APs), kanye nakwi-DFFE kusukela zi-10 kuNovemba kuya zi-13 kuDecemba 2022 eRichards Bay public library (Ikheli: Corner of Union and Commercial Streets, Empangeni), emahhovisi akwaTripto4 aseBallito kanye naseMpangeni public library (Ikheli: Corner of Union and Commercial Streets, Empangeni), emahhovisi akwaTripto4 aseBallito kanye nakwisizindalwazi sakwaTripto4: website: [www.tripto4.com](http://www.tripto4.com) / nakwezokuxhumana neningi.

**Imihlangano Yomphakathi:**

Njengengxenywe yenqubo yokuzibandakanya nomphakathi, imihlangano emibili (njengoba kubhaliwe ethebuleni ngezansi) izobanjwa kanti izoqhutshwa ngendlela ezimele. Ulwazi olufanayo luzonikezwa kuwona womabili amahlandla kanti labo abarejistiwe ngokusemthethweni bayothola amaminithi emihlangano yombili. Imibuzo nokuphawula kungalethwa ngaphambi kokuba uqale umhlangano.

**PROPOSED GAS TO POWER POWERSHIP PROJECT AT THE PORT OF RICHARDS BAY  
UMHLATHUZE LOCAL MUNICIPALITY, KING CETSHWAYO DISTRICT, KWAZULU-NATAL**

**ENVIRONMENTAL IMPACT REPORTING (EIR) PHASE IN TERMS OF THE EIA REGULATIONS, 2014 (AS AMENDED)**

**REFERENCE NUMBER: 14/12/16/3/3/2/2007**

**Triplo4 Sustainable Solutions (Pty) Ltd** is undertaking an integrated Environmental Impact Assessment (EIA) process required for **Karpowership SA (Pty) Ltd's** application for Environmental Authorisation (in terms of the National Environmental Management Act, 1998) and an Atmospheric Emissions Licence (AEL) (in terms of the National Environmental Management: Air Quality Act, 2004) for its **Proposed Gas to Power via Powership Project at the Port of Richards Bay**, uMhlathuze Municipality within King Cetshwayo District Municipality, KwaZulu Natal.

**Background:** A Scoping and Environmental Impact Reporting (S&EIR) process was conducted during 2020-2021 and the Environmental Authorisation was refused. The refusal was appealed by Karpowership SA (Pty) Ltd. The Minister dismissed the appeal and exercised her powers in terms of Section 43(6) of NEMA. The application was remitted back to the Competent Authority (CA) to allow the applicant to address various gaps and defects through a new EIA and associated Public Participation Process (PPP), in order for the application to be considered by the CA.

**Project detail:** The Project entails the generation of electricity by two Powerships moored in the Port of Richards Bay, fed with natural gas from a third ship, a Floating Storage & Regasification Unit (FSRU). The three ships will be moored in the port for the Project's anticipated 20-year lifespan. A Liquefied Natural Gas Carrier (LNGC) will bring in liquefied natural gas (LNG) and offload it to the FSRU approximately once every 20 to 30 days, dependent on power demand which is determined by the buyer, ESKOM. The FSRU stores the LNG onboard and turns the liquid form into gaseous form (Natural Gas) upon demand from the Powership (Regassification). Natural gas will be transferred from the FSRU to the Powerships via a subsea gas pipeline. The Project's design capacity is 540MW. Electricity will be generated on Powerships by 27 reciprocating engines, each having a heat input in excess of 10MW (design capacity of 18.32MW each at full capacity). Heat generated by operation of the reciprocating engines is captured, and that energy is used to create steam to drive three steam turbines that each have a heat input of circa 15.45MW. The contracted capacity of 450MW, which cannot be exceeded under the terms of the RMIPPPP, will be evacuated via a 132kV transmission line over a distance of approximately 3.6km, from the Richards Bay Port tie-in point to the Eskom line, at a connection point (necessitating a new switching station) in proximity to the existing Bayside Substation, which feeds electricity into the national grid. This will require the development within a watercourse or within 32 metres thereof, infilling / removal of any material of 10 cubic metres from a watercourse and infilling / removal of 5 cubic metres material from an estuary as well as possible clearance of indigenous vegetation.

**PUBLIC PARTICIPATION PROCESS – EIR PHASE**

**Comment on the draft EIA report:**

The new Draft EIA Report (inclusive of the Environmental Management Programme (EMPr) and specialist reports) will be available to Interested and Affected Parties (I&APs), as well as to the DFFE from **10 November – 13 December 2022** at the **Richards Bay public library** (Physical Address: Kruger Road CBD, Richards Bay), the **Empangeni public library** (physical address: Corner of Union and Commercial Streets, Empangeni), the Triplo4's Ballito office and on Triplo4's website: [www.triplo4.com](http://www.triplo4.com) / online platform.

**Public Meetings:**

As part of the Public Participation Process, two meetings (as per table below) will be held and independently facilitated. The same information will be provided at both sessions and registered I&APs will receive the minutes of both sessions. Questions or comments may be submitted in advance of the meetings.

**Project detail:** The Project entails the generation of electricity by two Powerships moored in the Port of Richards Bay, fed with natural gas from a third ship, a Floating Storage & Regasification Unit (FSRU). The three ships will be moored in the port for the Project's anticipated 20-year lifespan. A Liquefied Natural Gas Carrier (LNGC) will bring in liquefied natural gas (LNG) and offload it to the FSRU approximately once every 20 to 30 days, dependent on power demand which is determined by the buyer, ESKOM. The FSRU stores the LNG onboard and turns the liquid form into gaseous form (Natural Gas) upon demand from the Powership (Regassification). Natural gas will be transferred from the FSRU to the Powerships via a subsea gas pipeline. The Project's design capacity is 540MW. Electricity will be generated on Powerships by 27 reciprocating engines, each having a heat input in excess of 10MW (design capacity of 18.32MW each at full capacity). Heat generated by operation of the reciprocating engines is captured, and that energy is used to create steam to drive three steam turbines that each have a heat input of circa 15.45MW. The contracted capacity of 450MW, which cannot be exceeded under the terms of the RMIPPPP, will be evacuated via a 132kV transmission line over a distance of approximately 3.6km, from the Richards Bay Port tie-in point to the Eskom line, at a connection point (necessitating a new switching station) in proximity to the existing Bayside Substation, which feeds electricity into the national grid. This will require the development within a watercourse or within 32 metres thereof, infilling / removal of any material of 10 cubic metres from a watercourse and infilling / removal of 5 cubic metres material from an estuary as well as possible clearance of indigenous vegetation.

**PUBLIC PARTICIPATION PROCESS – EIR PHASE**

**Comment on the draft EIA report:**

The new Draft EIA Report (inclusive of the Environmental Management Programme (EMPr) and specialist reports) will be available to Interested and Affected Parties (I&APs), as well as to the DFFE from **10 November – 13 December 2022** at the **Richards Bay public library** (Physical Address: Kruger Road CBD, Richards Bay), the **Empangeni public library** (physical address: Corner of Union and Commercial Streets, Empangeni), the Triplo4's Ballito office and on Triplo4's website: [www.triplo4.com](http://www.triplo4.com) /online platform.

**Public Meetings:**

As part of the Public Participation Process, two meetings (as per table below) will be held and independently facilitated. The same information will be provided at both sessions and registered I&APs will receive the minutes of both sessions. Questions or comments may be submitted in advance of the meetings.

Port	Meeting	Venue Address	Date	Time
Richards Bay	In person	Zululand Chambers of Business Foundation (ZCBF) King Fisher Hall at Alton Rd, Richards Bay Central. Coordinates – 28°45'23.04"S 32° 2'5.52"E	23 Nov 2022	10am-1pm
Richards Bay	Virtual	The registration link will be emailed to all previously & newly registered I&AP's.	23 Nov 2022	5pm-8pm

**I&APs who are unable to participate in the meetings, please contact Triplo4 in advance so that additional assistance or alternative arrangements can be made to enable participation.**

**Please submit all comments and requests for registration as an I&AP (if not already registered) and/or further information to:**

**VOORGESTELDE GAS NA KRAG PROJEK IN DIE HAWE VAN RICHARDSBAAI, UMHLATHUZE  
PLAASLIKE MUNISIPALITEIT, KING CETCHWAYO DISTRIK IN KZN**

OMGEWINGS IMPAK VERSLAG (OIV) FASE IN TERME VAN DIE OMGEWINGS IMPAK ASSESSERINGS REGULASIES, 2014 (SOOS GEWYSIG)

VERWYSINGS NO 14/12/16/3/3/2/2007

**Triplo4 Sustainable Solutions** (Edms) Bpk onderneem die Omgewings Impak Asseserings (OIA) proses wat benodig word vir **Karpowership SA** (Edms) Bpk vir Omgewingsmagtiging (in terme van die Nasionale Omgewingsbestuur Wet, 1998), en 'n Atmosferiese Emissie-Lisensie (AEL) (in terme van die Nasionale Omgewingsbestuur: Luggehalte Wet, 2004) vir die **Voorgestelde Gas na Krag via Kragskip Projek by die Richards Baai Hawe**, uMhlathuze Munisipaliteit, binne die King Cetshwayo Distriks Munisipaliteit, KZN.

**Agtergrond:** Die Omvangs-, tesame met die OIA-proses was gedurende 2020 - 2021 onderneem en die Omgewingsmagtiging was geweier. Karpowership SA (PEdms) het appèl aangeteken. Die Minister het die appèl afgewys en haar magte in terme van Artikel 43(6) van NEMA uitgeoefen. Die aansoek is terug verwys na die Bevoegde Gesag om die aansoek die geleentheid te bied om tekortkominge en gebreke aan te spreek deur 'n nuwe Omgewings Impak Verslag en verwante Openbare Deelname Proses sodat die aansoek deur die Bevoegde Gesag oorweeg kan word.

**Projekbesonderhede:** Die projek behels die opwekking van elektrisiteit vanaf 2 drywende mobiele kragsepe (Powerships) in die hawe van Richards Baai wat voorsien word met natuurlike gas deur 'n 3de skip, 'n drywende Voorraad Hergassingseenheid (FSRU). Die 3 skepe sal vasgemeer wees in die hawe vir die projek se verwagte 20 jaar leeftyd. 'n Vloeibare Bergings Hervergassings Draer sal vloeibare natuurlike gas aan die FSRU voorsien, ongeveer elke 20 – 30 dae afhangende van die behoefte aan elektrisiteit wat deur die koper ESKOM bepaal word. Die FSRU berg die vloeibare natuurlike gas aan boord en omskep die vloeibare vorm in gas (Natuurlike gas) op aanvraag van die Kragsepe (Hervergassing). Natuurlike gas sal van die FSRU na die Kragsepe oorgeplaas word via 'n gaspyleiding op die seebodem. Die ontwerpkapasiteit van die projek is 540MW. Elektrisiteit sal op die Kragsepe deur 27 gasenjines opgewek word, elk met hitteinset van meer as 10MW (ontwerpkapasiteit van 18.32MW teen volle kapasiteit). Hitte wat deur die werking van die enjins ontstaan word gestoor en gebruik om stoom te maak vir 3.6 stoomturbines, elkeen met 'n hitteinset van omtrent 15.45MW. Die ooreenkeerde kapasiteit van 450MW, wat nie oorskry mag word in terme van die RMIPPPP, word deur 'n 132kV Kragtoevoerlyn oor 'n afstand van ongeveer 3.6Km vanaf 'n Eskom aansluitingspunt by die Richards Baai hawe tot by die bestaande Bayside substasie herlei vanwaar dit in die Nasionale Netwerk inskakel. Dit sal ontwikkeling vereis binne-in of binne 32meter van 'n waterloop, die invul/verwydering van enige materiaal van 10 kubieke meter van 'n waterloop, die invul/verwydering 5 kubieke meter materiaal van 'n riviermonding asook die moontlike verwydering van inheemse plantegroei.

**OPENBARE DEELNAME PROSES: OMGEWINGS IMPAK VERSLAG FASE**

**Kommentaar op die konsep verslag**

Die nuwe Omgewings Impak Asseserings Verslag (ingeslote die Omgewings Bestuurs Program (EMPr) en die spesialisverslae) sal beskikbaar wees aan Belangstellende en Geaffekteerde Partye asook die DEFF van 10 November – 13 Desember 2022 by die Richards Baai openbare biblioteek (Fisiese adres: Kruger St SBG, Richards Baai), die Empangeni openbare biblioteek (Fisiese adres: HV Union en Commercial Strate, Empangeni), Triplo4 Ballito kantoor en webwerf [www.triplo4.com](http://www.triplo4.com) / aanlyn platform

**Openbare Vergaderings**

As deel van die openbare deelnameproses sal twee vergaderings (soos in die table hieronder) gehou word en onafhanklik aanlyn gefasiliteer word. Dieselfde inligting sal by beide geleenthede verskaf word en geregisteerde Belangstellende en Geaffekteerde Partye (B & GPs) sal die notules van beide vergaderings ontvang. Navrae en kommentaar mag gelewer word voor die vergaderings plaasvind.

**ISIGABA SOKUHLOLA UMTHELELA KWEZEMVELO NEZINDAWO ZOKUHLALA (EIR) NGOKWEMITHETHO EYAZIWA NGE-EIA REGULATIONS, 2014 (ECHIBIYELWE)**

**INOMBOLO EYEREFURENSI: 14/12/16/3/3/2/2007**

Inkampani eyaziwa **ngeTriplO4 Sustainable Solutions (Pty) Ltd** izoqala ukuhlola ukuthi kunamthelela muni ukuphehla ugesi kusetshenziswa igesi. Lokhu kubizwa ngokuthi yi-integrated Environmental Impact Assessment (EIA) edingwa yinkampani **iKarpowership SA (Pty) Ltd** s ukuzo kuphumelele isicelo sayo sokugunyazwa esaziwa ngokuthi yi-Environmental Authorisation (njengokulawula komthetho obizwa nge-National Environmental Management Act, 1998) kanye ne-Atmospheric Emissions Licence (AEL) (njengokulawula komthetho wezingabunjalo lomoya owaziwa nge-National Environmental Management: Air Quality Act, 2004). Lokhu kuzokulelela ukuphasiswa **kwePhrojekthi iPowership ehlongozwayo yokuphehla ugesi ngamandla igesi** okuzokwenziwa eChwebeni laseRichards Bay eMhlathuze Local Municipality eseking Cetshwayo District Municipality, KwaZulu-Natal.

**Umlando wokwendlela:** Sekuke kwenziwa ukuhlola ngenqubo eyaziwa ngokuthi yi-Scoping and Environmental Impact Reporting (S&EIR) ngowe-2020 kuya kowezi-2021 kodwa inkampani ayiyitholanga i-Environmental Authorisation enika igunya. Ukunqatshelwa kwaudlulisela phambili yiKarpowership SA (Pty) Ltd. Ungqongoshe wasichitha isicelo sokwendlela icala esebenzisa uSection 43(6) weNEMA. Isicelo sabuyiselwa enhlanganeni iCompetent Authority (CA) ukuze inkampani ilungise konke okwakuyizikhalo ngokuqala i-EIAR kabusha kanye nohlelo lwePublic Participation Process (PPP), ukuze isicelo sibuyele kobhekisiswa yiCA.

**Imininingwane ngephrojekthi:** Iphrojekthi ibandakanya ukukhizwa kukagesi yimikhumbi emibili eyaziwa ngokuthi amaPowerships azobe emise eChwebeni laseRichards Bay. Le mikhumbi izophakelwa igesi yemvelo wumkhumbi wesithathu, owaziwa ngeFloating Storage and Regasification Unit (FSRU). Le mikhumbi yomithathu izobe igxunyekwe eChwebeni iminyaka okulindeleke ukuba ibe ngamashumi amabili (20). Umkhumbi othwala igesi yemvelo ewuketshezi owaziwa ngokuthi yi-Liquefied Natural Gas (LNG) Carrier uzoyiletha igesi base uyithululela emkhunjini iFSRU cise kanye ezinsukwini ezingamashumi amabili kuya kwamathathu (20-30) kuye ngokuthi ugesi udingeka kangakanani ngokuka-Eskom okuwuyena mthengi. Umkhumbi iFSRU ugcina igesi iLNG kuyona base uyiququla ibe wuketshezi (gesi yemvelo) kuye ngokudingeka kwayo yiPowership (ukuphinda kokukhizwa kwegesi). Igesi yemvelo izosuswa kwiFSRU iyiswe kwiPowership kusetshenziswa ipayipi legesi elihamba ngaphansi kolwandle. Isilinganiso somthamo sephrojekthi sibalelwa ku-540MW. Ugesi uzophelwa kumaPowerships yizinjini ezingama-27, ngayinye inezinga lokushisa elidlula ku-10MW (yakhelwe umthamo oyi-18.32MW uma isebenza ngokugcwele). Ukushisa okukhizwa yizinjini ezilekelelanayo kuyagodlwa, base amandla ako esetshenziselwa ukwakha umusi ozolawula izinjini ezinokushisa okulinganiselwa ku-15.45MW ngayinye. Umthamo ongama-450MW, okungamelele welelo ngokwemithetho yeRMIPPPP, uzothuthwa kusetshenziswa intambo eyi-132kV ebangeni elingamakhilomitha ama-3.6, ukusuka eChwebeni laseRichards Bay kuya ezintanjeni zakwa-Eskom, kuya lapho kumele kuhonywe khona (esatsheni sikagesi okuzidingeka sakhiwe) sibe budabudize neBayside Substation evele ikhona, okuyisona esiphakela isilawuli sikazwelonke. Lokhu kudinga ukuthuthukiswa okuyibanga elingamamitha angama-32 omsele wamanzi kanye nokugcwaliswa/ukususwa kwezinto ibanga elingamakhubhikimitha ayi-10 ukusuka emseleni wamanzi noma amamitha ayi-100 ukusuka emanzini kuya ezweni, kanti futhi zingaba khona izihlala zemvelo ezisuswayo.

**INQUBO YOKUZIBANDAKANYA KOMPHEKTHI: ISIGABA SE- EIR**

**Ukuphawula ngombiko osalungiswa we-EIA:**

Umbiko osalungiswa we-EIA (ibandakanya ne-Environmental Management Programme (EMPr) kanye nemibiko yongoti) izotholakala **kulabo abanathando nabathintekayo abaziwa ngokuthi ama-Interested and Affected Parties (I&APs)**, kanye nakwi-DFFE kusukela zi-**10 kuNovemba kuya zi-13 kuDecemba 2022 eRichards Bay public library** (Ikheli: Kruger Road CBD, Richards Bay), kanye **naMpangeni public library** (Ikheli: Corner of Union and Commercial Streets, Empangeni), emahhovisi akwaTriplO4 aseBallito kanye nakwisizindalwazi sakwaTriplO4: website: [www.triplo4.com](http://www.triplo4.com) / nakwezokuxhumana neningi.

**Imihlangano Yomphakathi:**

Njengengxenywe yenqubo yokuzibandakanya nompheleli, imihlangano emibili (njengoba kubhalwe ethebuleni ngezansi) izobanjwa kanti izokhululwa ngendlela ezimele. Ulwazi olufanayo luzonikezwa kuwona womabili amahlanda kanti labo abarejistiwe ngokusemthethweni bayothola amaminithi emihlangano yombili. Imibuzo nokuphawula kungalethwa ngaphambi kokuba uqale umhlangano.

**INOMBOLO YEREFURENSI: 14/12/16/3/3/2/2007**

I-TriplO4 Sustainable Solutions (Pty) Ltd yenza inkqubo ehlangeneyo yoVavanyo lweMpembelelo yokuSingqongileyo (EIA) efunekayo kwisicelo seKarpowership SA (Pty) Ltd soGunyaziso lweNdalo (ngokoMthetho weSizwe woLawulo lokusiNgqongileyo, we-1998) kunye neLayisensi yokuKhusela iAtmospheric (AEL) ( ngokoMthetho woLawulo lokusiNgqongileyo weSizwe: uMthetho oLawulo uMgangatho woMoya, wama-2004) **weSindululo sokwenza uMbane ngeRhasi ngokusebenzisa iProjekthi yeNqanawa Zamandla eRichards Bay**, kuMasipala iMhlathuze phakathi kuMasipala weSithili iKing Cetywayo, KwaZulu Natal.

**Imvelaphi:** Inkqubo yokunika ingxelo ngeMpembelelo yokuSingqongileyo (S&EIR) yaqhutywa ngowama-2020-2021 kwaye uGunyaziso lokusiNgqongileyo lwalwa. Karpowership (Pty) Ltd yabhenza. UMphathiswa wasichitha isibhenzo waza wasebenzisa amagunya wakhe ngokweCandelo lama-43(6) le-NEMA. Isicelo sabuyiselwa kwi-Igunya Elinobuchule (CA) ukuvumela umfaki-sicelo olungo abungase izikhewu ezininzi neziphene nge-EIAR entsha kunye neNkqubo yokuThatha iNxaxheba koLuntu enxulumeneyo (PPP), ukuze isicelo siqwalaselwe yi-CA.

**Iinkxakacha zeprojekthi:** Le projekthi ibandakanya ukukhizwa kombane zii-Nqanawa eziphehla umbani ezimbini ezibotshelelwe kwiZibuko laseRichards Bay, ezondliwa ngerhasi yendalo evela kwinqanawa yesithathu, iFloating Storage Regasification Unit (FSRU). Ezi nqanawa zintathu ziya kubotshelelwa kwiZibuko kangangiminyaka engama-20 ngokokuqikelelwa kubude beprojekthi. Inqanawe iLiquefied Natural Gas (LNG) iza kuza nerhasi yendalo engamanzi ize ikhutshelwe kwiFSRU kuba kanye ngeentsuku ezingama-20 ukuya kuma-30 kuxhomekeke kwisidingo sobane esigqitywe ngumthengi, ESKOM. I-FSRU igcina i-LNG ngaphakathi, ijike ulwelo lube kwimo yegesi (iGesi yeNdalo) xa ifunwa yiNqanawa eziphehla umbani (uRegasification). Irhasi yendalo iya kukhutshelwa isuka kwiFSRU isisiwa kwiNqanawa eziphehla umbani ngombobho werhasi engaphantsi kolwandle. Umthamo weprojekthi yi-450MW, kunye nombane onokuthi uveliswe ngeenjini zegesi ezingama-27, inye inegalelo lobushushu elingaphezulu kwe-10MW (umthamo woyilo we-18.32MW uphelele). Iinjini zomphunga ezi-3.6 zinegalelo lobushushu elimalunga ne-15.45MW inye. Umbane oveliswe kwinqanawa zombane uya kukhutshelwa ngaphandle kumzila wothumelo we-132kV kungama omalunga nee-7.38km, ukusuka kwindawo edibanisa iZibuko laseRichards Bay ukuya kumzila ka-Eskom, (unyanzelisa ikhululo esitsha) ukuya kwisiKhululo esikhoyo se-Bayside Substation, efaka umbane kuthungelwano lwesizwe. Ukuza kuthi ga ngoku ziphahisa uphuhliso ngaphakathi okanye ngaphakathi kweemitha ezingama-32 zomlambo kunye nokuzalwisa / ukususwa kwayo nayiphi na imathiriyeli ye-10 cubic metres ukusuka kumlambo okanye ngaphakathi kweemitha ezili-100 emhlabeni wophawu oluphezulu lwamanzi, kunye nokucocwa okunokwenzeka kwezityalo zemveli.

**INQUBO YOKUTHATHA INXAXHEBA YOLUNTU – ISIGABA SE-EIR**

**Izimvo ngengxelo eyilwayo ye-EIA:**

Ingxelo entsha eyiDraft EIA (ibandakanya iNkqubo yoLawulo lokusiNgqongileyo (EMPr) kunye neengxelo zeengcali) iya kufumaneka kumaQela aNomda naChaphazelekayo (I&APs), ngokunjalo nakwiDFFE ukusuka ngomhla we-10 kweyeNkanga ukuya kowe-13 kweyoMnga 2022 **iThala leencwadi loluntu eRichards Bay (idilesi yeNdawo: kumbindi weNdlela i-Kruger, eRichards Bay) nethala leencwadi loluntu laseMpangeni (idilesi yendawo: kwiKona yeMnyano nezitalo zoRhwebo, eMpangeni)**, naseOfisi LaseTriplO4 eBallito, nakwiwebhusayithi yakwaTriplO4: [www.triplo4.com](http://www.triplo4.com) / iqonga le-intanethi:

**Iintlanganiso zoluntu:**

Njengenxalenye yenqubo yentatho-nxaxheba yoluntu, iintlanganiso ezimbini (ngokwethyebile engezantsi) ziya kubanjwa kwaye ziququzelelwe ngokuzimeleyo. Ingcaciso efanayo iya kunikwa kuzo zombini iiseshoni kwaye ii-I&APs ezibhalisiweyo ziya kufumana imizuzu yazo zombini iiseshoni. Imibuzo okanye izimvo zingafakwa kwangaphambi kweentlanganiso.

# KARPOWERSHIP GAS TO POWER

## THE KARPOWERSHIP PROJECTS

Karpowership SA (Pty) Ltd is a South African Company that is proposing gas to power projects to generate electricity in the ports of Richards Bay, Saldanha Bay and Ngqura. The Projects have been given priority by our Government to provide much needed electricity for the whole country and will help to stop load shedding.

Electricity is important for job creation and to improve the lives of all South Africans.

The information presented in this leaflet is to give you a simple explanation of the Projects, to allow you to understand and be informed about the Projects, should you wish to be part of the public participation process.

## HOW IS ELECTRICITY GENERATED

Instead of using coal and a power station on land to generate electricity, electricity is generated using a Powership moored in a harbour, using natural gas which is much cleaner than coal. The gas is delivered by a tanker and stored in a storage ship and then delivered to a Powership. The Powership burns the gas to generate electricity. The electricity is then sent through powerlines to provide the country with electricity.

## THE ENVIRONMENT

The studies are conducted by qualified people and will show if there are any impacts on the environment and people.

To understand the environmental impacts, Triplo4 will be conducting an environmental impact assessment. Studies to be conducted by specialists will include the following:

- Loadshedding
- Seabirds and fish
- Climate change
- Noise
- Plants
- Communities
- Employment
- Tourism
- Heritage
- Safety
- Fishing
- Economy
- Air quality
- Electricity supply

## PUBLIC PARTICIPATION PROCESS

It is very important that communities are consulted and made aware of the Projects. Public participation is a process where you as a member of the community can come to a meeting that will be held in your area, to obtain more information about the Project and ask questions. It is important to attend the meeting if you require more information or if you believe that you will be affected by the Project. You may also share this leaflet with your family and community members, so that they are made aware of the Projects.

You will have the opportunity to get further information, ask questions and give your views on the Projects by:

- Registering your interest by contacting Triplo4 by sms, WhatsApp or email.
- Attending public meetings in person at the planned public meetings.
- Attending public meetings online through a link that will be sent you after you register.
- Submitting written comments by email, SMS, WhatsApp or email

You can also obtain more information on the Project by reading the documents that will be placed in public spaces in your area.

## PLANNED PUBLIC MEETINGS

### SALDANHA BAY

**Public meeting**  
 Date: 21 November 2022  
 Time: 10:00 - 13:00

# KARPOWERSHIP GAS TOT KRAG

## DIE KARPOWERSHIP-PROJEKTE

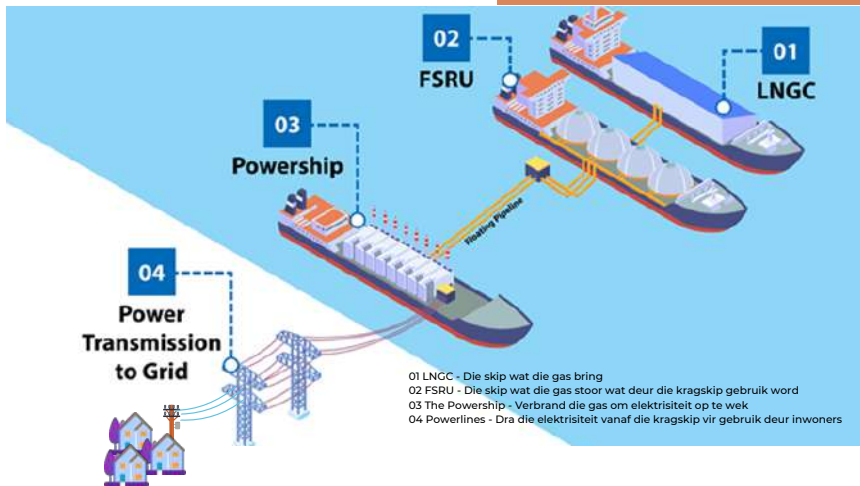

Karpowership SA (Edms) Bpk is 'n Suid-Afrikaanse maatskappy wat gas-tot-krag-projekte voorstel om elektrisiteit op te wek in die hawens van Richardsbaai, Saldanhaabaai en Ngqura. Ons Regering het prioriteit gegee aan hierdie projekte om uiters nodige elektrisiteit aan die hele land te voorsien, wat sal help om beurtkrag te beëindig.

Elektrisiteit is belangrik vir werkskepping en om die lewens van alle Suid-Afrikaners te verbeter.

Die inligting in hierdie pamflet word voorsien om jou 'n eenvoudige beskrywing van die Projekte te gee, sodat jy die Projekte kan verstaan en kennis daaroor het, indien jy graag deel van die openbare deelname-proses wil wees.

## HOE WORD ELEKTRISITEIT OPGEWEK?

Pleks daarvan dat steenkool en 'n kragstasie op land gebruik word om elektrisiteit op te wek, word elektrisiteit opgewek deur middel van 'n kragskip wat in 'n hawe vasgemeer is, en natuurlike gas word gebruik wat baie skoner as steenkool is. Die gas word deur 'n tankskip afgelewer en in 'n stoorskip gestoor en dan aan 'n kragskip gelewer. Die kragskip verbrand die gas om elektrisiteit op te wek. Die elektrisiteit word dan deur kraglyne gestuur om die land van elektrisiteit te voorsien.

## DIE OMGEWING

Die studies word uitgevoer deur gekwalifiseerde persone en sal toon of daar enige impakte op die omgewing en die mense is.

Om die impak op die omgewing te verstaan, gaan Triplo4 'n omgewingsimpakassessering doen. Studies deur spesialiste sal die volgende insluit:

- Beurtkrag
- Seevoëls en vis
- Klimaatverandering
- Geraas
- Plante
- Gemeenskappe
- Werk
- Toerisme
- Erfenis
- Veiligheid
- Visvangs
- Ekonomie
- Luggehalte
- Elektrisiteitsvoorsiening

## OPENBARE DEELNAME-PROSES

Dit is baie belangrik dat gemeenskappe geraadpleeg en van die Projekte bewus gemaak word. Openbare deelname is 'n proses waar jy as lid van die gemeenskap na 'n vergadering kan kom wat in jou gebied gehou sal word om meer inligting oor die Projek te kry en vrae te vra. Dit is belangrik om die vergadering by te woon as jy meer inligting benodig of glo dat jy deur die Projek geraak sal word. Jy kan ook hierdie pamflet met jou gesin en gemeenskapslede deel sodat hulle van die Projekte bewus gemaak word.

Jy sal die geleentheid hê om meer inligting te kry, vrae te vra en jou opinie van die Projekte te gee deur:

- Jou belangstelling te registreer deur Triplo4 per SMS, WhatsApp of epos te kontak.
- Deur die beplande Openbare vergaderings in persoon by te woon.
- Openbare vergaderings aanlyn by te woon deur 'n skakel wat jy sal ontvang nadat jy geregistreer het.
- Skriftelike kommentaar in te dien per epos, SMS of WhatsApp.

Jy kan ook meer inligting oor die Projek verkry deur die dokumente te lees wat op openbare plekke in jou gebied geplaas sal word.

- Ukushintsha kwesimo sezulu
- Umsindo
- Izitshalo
- Imiphakathi
- Ezemisebenzi
- Ezokuvakasha
- Ifagugu
- Ukuphepha
- Ezokudoba
- Ezomnotho
- Umoya
- Ukuhlinzeka ngogesi

Ucwaningo lwenziwa abantu abaqeqeshiwe kanti luzoveza uma kunomthelela ongemuhle kwezemvelo kanye nakubantu abaphila kuleyo ndawo.

## INQUBO YOKUZIBANDAKANYA KOMPHAKATHI

Kubalulekile kakhulu ukuthi imiphakathi ithintwe futhi yaziswe ngamaphrojekthi. Ukuzibandakanya komphakathi kuvula ithuba lokuthi wena njengelunga lomphakathi uze uzokwethamela umhlango endaweni ohlala kuyo ukuze uthole ulwazi olubanzi uphinde uthole nethuba lokubuzisa imibuzo. Kusemqoka ukuyethamela le mihlangano ukuze uzuse ulwazi ikakhulukazi uma ubona sengathi izokuthinta iphrojekthi. Leli pheshana ungalinikeza amalunga omndeni kanye nabanye abantu emphakathini ukuze babe nolwazi ngala maphrojekthi.

Uzothola ithuba lokuzuzisa ulwazi, ubuze imibuzo futhi uzwakalise uvo lwakho ngamaphrojekthi ngokwenza lokhu:

- Bhalisa intshisekelo yakho ngokuxhumana nabakwaTriplo4 nge-sms, WhatsApp noma ngombikombani (i-email).
- Ukwethamela imihlangano yomphakathi ehleliwe bukhoma.

1. Triplo4 Sustainable Solutions (Pty) Ltd (Triplo4), has been appointed by Karpowership SA (Pty) Ltd (KSA) to conduct an environmental impact assessment (EIA), with respect to the KSA gas to power projects in the Ports of Saldanha Bay, Richards Bay and Ngqura.
2. This Environmental Impact Assessment with Public Participation arises out of a decision by the Minister of the Department of Forestry Fisheries and the Environment (DFFE), (dated 1 August 2022), to close out gaps and deficiencies in the EIA submitted to the DFFE in April 2021. The new EIA process accordingly includes this Public Participation Process.
3. As you are an Interested and Affected Party and/or represent the interests of the Amakhosi and/or small scale fishers and/or the interests of First Nation indigenous peoples and/or environmental groups and communities and/or traditional agricultural and stock farming communities and/or businesses, we hereby give you notice of the public meetings, as part of the Public Participation Process, that will be held with regard to the Projects as follows:

**RE: KARPOWERSHIP SA (PTY) LTD (KSA), PROPOSED GAS TO POWER PROJECTS IN THE PORTS OF SALDANHA BAY, RICHARDS BAY AND NGQURA**

1. Triplo4 Sustainable Solutions (Pty) Ltd (Triplo4), has been appointed by Karpowership SA (Pty) Ltd (KSA) to conduct an environmental impact assessment (EIA), with respect to the KSA gas to power projects in the Ports of Saldanha Bay, Richards Bay and Ngqura.
2. This Environmental Impact Assessment with Public Participation arises out of a decision by the Minister of the Department of Forestry Fisheries and the Environment (DFFE), (dated 1 August 2022), to close out gaps and deficiencies in the EIA submitted to the DFFE in April 2021. The new EIA process accordingly includes this Public Participation Process.
3. As you are an Interested and Affected Party and/or represent the interests of the Amakhosi and/or small scale fishers and/or the interests of First Nation indigenous peoples and/or environmental groups and communities and/or traditional agricultural and stock farming communities and/or businesses, we hereby give you notice of the public meetings, as part of the Public Participation Process, that will be held with regard to the Projects as follows:

<b>SALDANHA BAY</b>	<b>RICHARDS BAY</b>	<b>PORT OF NGQURA</b>
<b>Public Meeting Date:</b> <b>21-Nov-2022</b> Time: 10:00 - 13:00	<b>Public Meeting Date:</b> <b>23-Nov-2022</b> Time: 10:00 - 13:00	<b>Public Meeting Date:</b> <b>25-Nov-2022</b> Time: 10:00 - 13:00

4. You are well aware that Public Participation is critical to the Project EIA process and the *Audi Alteram Partem* rule, to ensure that communities are consulted, are aware of the Projects and the potential environmental and social impacts and that they have the opportunity to obtain information and comment on the Projects, particularly those communities and groups that are classified as marginalised, poor, inadequately resourced or unsophisticated.
  
5. Whilst we are aware that consultation is a function of Triplo4, as an organisation with your representative mandate, with a large database of members that potentially fall into the above categories, we kindly request:
  - a. That you forward copies of the attached Public Participation Notice and Information Leaflet (both of which are attached in English, Afrikaans, isiZulu, isiXhosa and Sesotho), to your database of members.  
(Should you wish us to provide you with hard copies of the notices or information leaflets in any particular language, you are kindly requested to timeously advise us of the language and quantity required, which we shall deliver directly to your offices).
  
  - b. That if you are aware of particular individuals, communities or groups that you believe are materially affected by the Project, that you advise them accordingly, alternatively provide Triplo4 with their names and contact details (in compliance with the Protection of Personal Information Act), to enable Triplo4 to contact them directly. Our contact details for the project is set out in Section 6.
  
  - c. Inform your database that copies of the Background Information Document (BID) Information Document (in English, Afrikaans, isiZulu, isiXhosa and Sesotho) which is available immediately for perusal, as well as the Draft Environmental Impact Report (in English, but with an executive summary In Afrikaans, isiZulu, isiXhosa and Sesotho), which will be available for perusal on the 10<sup>th</sup> November 2022, may be accessed at the following locations:

You are well aware that Public Participation is critical to the Project EIA process and the *Audi Alteram Partem* rule, to ensure that communities are consulted, are aware of the Projects and the potential environmental and social impacts and that they have the opportunity to obtain information and comment on the Projects, particularly those communities and groups that are classified as marginalised, poor, inadequately resourced or unsophisticated.
5. Whilst we are aware that consultation is a function of Triplo4, as an organisation with your representative mandate, with a large database of members that potentially fall into the above categories, we kindly request:
  - a. That you forward copies of the attached Public Participation Notice and Information Leaflet (both of which are attached in English, Afrikaans, isiZulu, isiXhosa and Sesotho), to your database of members and publish this communication on your website.  
(Should you wish us to provide you with hard copies of the notices or information leaflets in any particular language, you are kindly requested to timeously advise us of the language and quantity required, which we shall deliver directly to your offices).
  - b. That if you are aware of particular individuals, communities or groups that you believe are materially affected by the Project, that you advise them accordingly, alternatively provide Triplo4 with their names and contact details (in compliance with the Protection of Personal Information Act), to enable Triplo4 to contact them directly. Our contact details for the project is set out in Section 6.

**RE: KARPOWERSHIP SA (PTY) LTD (KSA), PROPOSED GAS TO POWER PROJECTS IN THE PORTS OF SALDANHA BAY, RICHARDS BAY AND NGQURA**

1. Triplo4 Sustainable Solutions (Pty) Ltd (Triplo4), has been appointed by Karpowership SA (Pty) Ltd (KSA) to conduct an environmental impact assessment (EIA), with respect to the KSA gas to power projects in the Ports of Saldanha Bay, Richards Bay and Ngqura.
2. This Environmental Impact Assessment with Public Participation arises out of a decision by the Minister of the Department of Forestry Fisheries and the Environment (DFFE), (dated 1 August 2022), to close out gaps and deficiencies in the EIA submitted to the DFFE in April 2021. The new EIA process accordingly includes this Public Participation Process.
3. As you are an Interested and Affected Party, we hereby give you notice of the public meetings, as part of the Public Participation Process, that will be held with regard to the Projects as follows:

SALDANHA BAY	RICHARDS BAY	PORT OF NGQURA
<b>Public Meeting Date:</b> <b>21-Nov-2022</b> Time: 10:00 - 13:00	<b>Public Meeting Date:</b> <b>23-Nov-2022</b> Time: 10:00 - 13:00	<b>Public Meeting Date:</b> <b>25-Nov-2022</b> Time: 10:00 - 13:00

4. You are well aware that Public Participation is critical to the Project EIA process and the *Audi Alteram Partem* rule, to ensure that communities are consulted, are aware of the Projects and the potential environmental and social impacts and that they have the opportunity to obtain

information and comment on the Projects, particularly those communities and groups that are classified as marginalised, poor, inadequately resourced or unsophisticated.

5. Whilst we are aware that consultation is a function of Triplo4, as an organisation with a large database of members that potentially fall into the above categories, we kindly request:

- a. That you forward copies of the attached Public Participation Notice and Information Leaflet (both of which are attached in English, Afrikaans, isiZulu, isiXhosa and Sesotho), to your database of members and publish this communication on your website. (Should you wish us to provide you with hard copies of the notices or information leaflets in any particular language, you are kindly requested to timeously advise us of the language and quantity required, which we shall deliver directly to your offices).
- b. That if you are aware of particular individuals, communities or groups that you believe are materially affected by the Project, that you advise them accordingly, alternatively provide Triplo4 with their names and contact details (in compliance with the Protection of Personal Information Act), to enable Triplo4 to contact them directly. Our contact details for the project is set out in Section 7.
- c. Inform your database that copies of the Background Information Document (BID) Information Document (in English, Afrikaans, isiZulu, isiXhosa and Sesotho) which is available immediately for perusal, as well as the Draft Environmental Impact Report (in English, but with an executive summary In Afrikaans, isiZulu, isiXhosa and Sesotho), which will be available for perusal on the 10<sup>th</sup> November 2022, may be accessed at the following locations:

4. You are well aware that Public Participation is critical to the Project EIA process and the *Audi Alteram Partem* rule, to ensure that communities are consulted, are aware of the Projects and the potential environmental and social impacts and that they have the opportunity to obtain information and comment on the Projects, particularly those communities and groups that are classified as marginalised, poor, inadequately resourced or unsophisticated. Small scale fishing communities fall into the category underlined above.

5. Whilst we are aware that consultation is a function of Triplo4, as an organisation with your representative mandate, with a large database of members that potentially fall into the above categories, we kindly request:

- a. That you forward copies of the attached Public Participation Notice and Information Leaflet (both of which are attached in English, Afrikaans, isiZulu, isiXhosa and Sesotho), to your database of members and publish this communication on your website.

(Should you wish us to provide you with hard copies of the notices or information leaflets in any particular language, you are kindly requested to timeously advise us of the language and quantity required, which we shall deliver directly to your offices).

- b. That if you are aware of particular individuals, communities or groups that you believe are materially affected by the Project, that you advise them accordingly, alternatively provide Triplo4 with their names and contact details (in compliance with the Protection of Personal Information Act), to enable Triplo4 to contact them directly. Our contact details for the project is set out in Section 6.

- c. Inform your database that copies of the Background Information Document (BID) Information Document (in English, Afrikaans, isiZulu, isiXhosa and Sesotho) which is available immediately for perusal, as well as the Draft Environmental Impact Report (in English, but with an executive summary In Afrikaans, isiZulu, isiXhosa and Sesotho), which will be available for perusal on the 10<sup>th</sup> November 2022, may be accessed at the following locations:

4. You are well aware that Public Participation is critical to the Project EIA process and the *Audi Alteram Partem* rule, to ensure that communities are consulted, are aware of the Projects and the potential environmental and social impacts and that they have the opportunity to obtain information and comment on the Projects, particularly those communities and groups that are classified as marginalised, poor, inadequately resourced or unsophisticated.
5. Whilst we are aware that consultation is a function of Triplo4, as an organisation with your representative mandate, with a large database of members that potentially fall into the above categories, we kindly request:
  - a. That you forward copies of the attached Public Participation Notice and Information Leaflet (both of which are attached in English, Afrikaans, isiZulu, isiXhosa and Sesotho), to your database of members and publish this communication on your website.  
(Should you wish us to provide you with hard copies of the notices or information leaflets in any particular language, you are kindly requested to timeously advise us of the language and quantity required, which we shall deliver directly to your offices).
  - b. That if you are aware of particular individuals, communities or groups that you believe are materially affected by the Project, that you advise them accordingly, alternatively provide Triplo4 with their names and contact details (in compliance with the Protection of Personal Information Act), to enable Triplo4 to contact them directly. Our contact details for the project is set out in Section 6.
  - c. Inform your database that copies of the Background Information Document (BID) Information Document (in English, Afrikaans, isiZulu, isiXhosa and Sesotho) which is available immediately for perusal, as well as the Draft Environmental Impact Report (in English, but with an executive summary In Afrikaans, isiZulu, isiXhosa and Sesotho), which will be available for perusal on the 10<sup>th</sup> November 2022, may be accessed at the following locations:

**RE: KARPOWERSHIP SA (PTY) LTD (KSA), PROPOSED GAS TO POWER PROJECTS IN THE PORTS OF SALDANHA BAY, RICHARDS BAY AND NGQURA**

1. Triplo4 Sustainable Solutions (Pty) Ltd (Triplo4), has been appointed by Karpowership SA (Pty) Ltd (KSA) to conduct an environmental impact assessment (EIA), with respect to the KSA gas to power projects in the Ports of Saldanha Bay, Richards Bay and Ngqura.
2. This Environmental Impact Assessment with Public Participation arises out of a decision by the Minister of the Department of Forestry Fisheries and the Environment (DFFE), (dated 1 August 2022), to close out gaps and deficiencies in the EIA submitted to the DFFE in April 2021. The new EIA process accordingly includes this Public Participation Process.
3. As you are an Interested and Affected Party and/or represent the interests of the citizens of South Africa against the abuse of the Country’s resources and public funds and/or constitutional rights and/or environmental protection and/or the rule of law, we hereby give you notice of the public meetings, as part of the Public Participation Process, that will be held with regard to the Projects as follows:

<b>SALDANHA BAY</b>	<b>RICHARDS BAY</b>	<b>PORT OF NGQURA</b>

**PROPOSED GAS TO POWER POWERSHIP PROJECT AT THE PORT OF RICHARDS BAY  
UMHLATHUZE LOCAL MUNICIPALITY, KING CETSHWAYO DISTRICT, KWAZULU-NATAL**

**ENVIRONMENTAL IMPACT REPORTING (EIR) PHASE IN TERMS OF THE EIA REGULATIONS, 2014 (AS AMENDED)**

**REFERENCE NUMBER: 14/12/16/3/3/2/2007**

**Triplo4 Sustainable Solutions (Pty) Ltd** is undertaking an integrated Environmental Impact Assessment (EIA) process required for **Karpowership (Pty) Ltd's** application for Environmental Authorisation (in terms of the National Environmental Management Act, 1998) and an Atmospheric Emissions Licence (AEL) (in terms of the National Environmental Management: Air Quality Act, 2004) for its **Proposed Gas to Power via Powership Project at the Port of Richards Bay**, uMhlathuze Municipality within King Cetshwayo District Municipality, KwaZulu Natal.

**Background:** A Scoping and Environmental Impact Reporting (S&EIR) process was conducted during 2020-2021 and the Environmental Authorisation was refused. The refusal was appealed by Karpowership (Pty) Ltd. The Minister dismissed the appeal and exercised her powers in terms of Section 43(6) of NEMA. The application was remitted back to the Competent Authority (CA) to allow the applicant to address various gaps and defects through a new EIA and associated Public Participation Process (PPP), in order for the application to be considered by the CA.

The draft EIA was subjected to PPP during November-December 2022, and the final EIA was submitted to the CA in January 2023 for consideration.

On the 3<sup>rd</sup> of May 2023, a condonation has been granted for a period of sixty (60) days from the date of the decision letter, and a further public participation process ("PPP") is being conducted, to provide registered I&APs with additional opportunity to comment on the revised EIA.

**PUBLIC PARTICIPATION PROCESS – EIR PHASE (DURING CONDONATION IN TERMS OF SECTION 47 OF NEMA)**

**Comment on the draft EIA report:**

The revised EIA Report (inclusive of the Environmental Management Programme (EMPr) and specialist reports) will be available to Interested and Affected Parties (I&APs), as well as to the DFFE from **17 May – 15 June 2023** at the **Richards Bay public library** (Physical Address: Kruger Road CBD, Richards Bay), the **Empangeni public library** (physical address: Corner of Union and Commercial Streets, Empangeni), the Triplo4's Ballito office and on Triplo4's website: [www.triplo4.com](http://www.triplo4.com) / online platform.
