Dear Organ of State	
RE: THE PROPOSED RESTORATION AND MAINTENANCE OF THE BLUE STONE QUARRY WALL, ROBBEN ISLAND, WESTERN CAPE PROVINCE. Bobben Island World Heritage Iste, located off the coast of the Western Cape region of South Africa, has been on the World Heritage Ist since 1999, and is recognised as a place associated with the use of the Island by the state for political imprisonment and isolation of pople who were considered as understable. These landmarks include the Blue Stone in the quarry for the construction of many buildings on the Island. The prisoner also bailt the stone wall or dyke which flanks the Quarry on the seaside. The wall was originally The Quarry and stone wall are, therefore, highly treasured as heritage and are significant to the Island's history of imprisonment with hard labour, BSQ and wall, and the prison prisonment with hard labour, BSQ and wall wall and prisonment with hard bard prisonment with hard bard prisonment wi	Quarry (BSQ) located on the northwest coast of the Island. Prisoners using hand tools mined dolomite built to prevent the ingress of seawater into the quarry area.
placing Robben Island on the UNESCO World Heritage list as a site of memory and conscience. In September 2001, a maritime storm destroyed a middle section of the wall resulting in a deluge of seawater into the quarry. The tidal action created a gap in the wall approximate extending the breached section to the breached section of the wallen abe described as a plie of stones with a 1-4 gradient slope on the side fains the sea.	stely 15m wide. In 2012, there was another severe tidal event and a large section of the wall collapsed
Extensing the treatment section to azin, currently, the treatment section of the wait can be described as a pine of scoles with a 1-4 gradein slope of the site is song the sea. Responding to the disaster, Robben Island Museum has prepared a remedial plan which requires the following tasks to be undertaken (based on the 2020 implementation Plan)	
 Reinstating to the unsater, noducen sama waterant may prepare a remeval prime which requess the ronowing cases to be undertaken (based on the 2020 imperientation pain) Reinstating the breached section of the BSQ wall (approximately 77 m long). 	• •
Repairing damaged sections of the walls that are currently standing.	
Repairing the Quarry Revetment ring walls.	
a character and the state of the
