ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

CONTENTS

APPENDIX H.4: CORRESPONDENCE AND PROOF OF CORRESPONDENCE SENT TO STAKEHOLDERS FOR THE DRAFT EIA REPORT RELEASE _____ 4

1. Letter 5 sent via email to I&APs, Stakeholders and Organs of State: Notification of the Release of the Draft EIA Report for a 30-day Comment Period	5
2. Email 5 sent to I&APs, Stakeholders and Organs of State on 2 June 2023	7
3. Proof of SMS Text Messages sent to I&APs, Stakeholders and Organs of State (where cell phone numbers are available) on 3 June 2023	20
4. Proof of Upload of the DEIAR to the CSIR Project Website	29
5. Proof of Upload of the DEIAR to Google Drive (Kudu Solar Facility 11)	30
6. Proof of Upload of the DEIAR to SAHRIS (Kudu Solar Facility 11)	31
7. Follow-Up/ Reminder Email sent to all I&APs, Stakeholders, and Organs of State on 8 June 2023	32
8. Proof of Delivery of Follow Up/ Reminder Email sent to all I&APs, Stakeholders, and Organs of State on 8 June 2023	35
9. Follow-Up/ Reminder Email sent to all I&APs, Stakeholders, and Organs of State on 21 June 2023	39
10. Proof of Delivery of Follow Up/ Reminder Email sent to all I&APs, Stakeholders, and Organs of State on 21 June 2023	42
11. Proof of SMS Reminder Text Message sent to all I&APs, Stakeholders, and Organs of State (where cell phone numbers were available) on 21 June 2023	46
12. Personalised Reminder Email sent to key I&APs, Stakeholders and Organs of State (as determined by the DFFE) between 21 and 27 June 2023	56
13. Proof of Delivery of Personalised Reminder Email sent to key I&APs, Stakeholders and Organs of State (as determined by the DFFE) between 21 and 27 June 2023	80
14. Proof of Telephonic Communication and Communication Attempts with Key Stakeholders and I&APs between 26 and 28 June 2028	84
15. Proof of WhatsApp Communication with Key Stakeholders and I&APs between 26 June and 4 July 2023	87
16. Proof of SMS and Telephonic Communication with a Renosterberg Local Municipality Councillor	94
17. Reminder/ Notification of the Closure of Comment Period Email sent to all I&APs, Stakeholders and Organs of State on 3 July 2023	96

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

18. Proof of Delivery of the Notification of the Closure of the Comment Period Email sent to key I&APs, Stakeholders and Organs of State on 3 July 2023	99
19. Read Receipts of All Email Communication to Stakeholders During the DEIAR Release Phase	103
20. Automatic Replies Received in Response to All Email Communication Sent to Stakeholders During the DEIAR Release Phase	111

APPENDIX H.5: PROOF OF SUBMISSION OF THE DRAFT EIA REPORT AND AMENDED APPLICATION FORM TO THE DFFE _____ 113

1. Copy of Email sent to the DFFE for Submission of the DEIAR and Amended Application Form on 2 June 2023 (Kudu Solar Facility 11)	114
2. Proof of Upload of the DEIAR to the DFFE Novell S-Filer System on 2 June 2023 (Kudu Solar Facility 11)	115
3. DFFE Acknowledgement of Receipt of the DEIAR (Kudu Solar Facility 11)	116

APPENDIX H.6: COMMENTS RECEIVED FROM STAKEHOLDERS DURING THE 30-DAY REVIEW OF THE DRAFT EIA REPORT _____ 117

02 June 2023

Dear Interested and/or Affected Party,

RE: NOTIFICATION OF THE COMMENCEMENT OF THE ENVIRONMENTAL IMPACT ASSESSMENT (EIA) PHASE AND THE AVAILABILITY OF 12 x DRAFT EIA REPORTS FOR A 30-DAY REVIEW PERIOD FOR THE PROPOSED DEVELOPMENT OF 12 x SOLAR PHOTOVOLTAIC (PV) FACILITIES (I.E. KUDU SOLAR FACILITIES 1 TO 12) AND ITS ASSOCIATED INFRASTRUCTURE, NEAR DE AAR, NORTHERN CAPE (DFFE REFERENCE NUMBERS: 14/12/16/3/3/2/2244/45/46/47/48/49/50/51/52/53/54/55)

The Project Developer, ABO Wind renewable energies (Pty) Ltd, is proposing the development of 12 Solar Photovoltaic (PV) Facilities and associated infrastructure to be located north-east of the town of De-Aar in the Northern Cape Province. The proposed projects are located within the Renosterberg Local Municipality and Pixley Ka Seme District Municipality, and they form part of a cluster of the following developments:

- **PROJECTS 1 TO 12:** The proposed development of 12 Solar PV Facilities and associated infrastructure (i.e., Kudu Solar Facility 1 to Kudu Solar Facility 12).
- **PROJECTS 13 TO 24:** The proposed development of switching stations and collector stations at each on-site substation complex, located at each of the 12 Kudu Solar Facilities, and up to 12 x 132 kV overhead power lines connecting each Solar PV Facility to the proposed collector stations or up to the proposed Main Transmission Substation (MTS).
- **PROJECT 25:** The proposed development of an independent 400/132 kV MTS, including associated infrastructure at the MTS.
- **PROJECT 26:** The proposed development of a 400 kV Loop-In-Loop-Out (LILO) from the existing Hydra-Perseus 400 kV overhead power line to the proposed MTS.

The Draft Scoping Reports for these 12 proposed Solar PV Facilities were made available to all registered Interested and/or Affected Parties (I&APs), Organs of State and key relevant stakeholders for a 30-day review period that extended from 09 December 2022 to 30 January 2023 (excluding the DFFE regulated shutdown period). All comments and issues raised as part of the review period were captured in the detailed Comments and Responses Reports and addressed, where applicable, in the Final Scoping Reports. The Final Scoping Reports were submitted to the DFFE on 11 February 2023 for consideration in line with Regulation 21 (1) and 22 of the 2014 NEMA EIA Regulations (as amended). The twelve letters of acceptance of the Final Scoping Reports were signed by DFFE between 24 March 2023 and 29 March 2023.

The proposed Kudu Solar Facilities will comprise various infrastructure, such as a solar field, building infrastructure, an on-site substation complex, a Battery Energy Storage System (BESS), as well as associated infrastructure (e.g., laydown area; internal roads; fencing; storm water channels; panel maintenance and cleaning area; underground low voltage cables or cable trays; and 22 or 33 kV internal underground power lines). The proposed projects trigger various listed activities in terms of the 2014 NEMA EIA Regulations (as amended); with Activity 1 of Listing Notice 2 (GN R325) serving as the main activity. Chapter 4 of the Draft EIA Reports details the listed activities, which require authorisation and thus form part of these Scoping and EIA Processes. Note that separate Applications for Environmental Authorisation (EA), i.e., one for each Kudu Solar Facility project, have been submitted to the National Department of Forestry, Fisheries, and the Environment (DFFE), as the Competent Authority, along with the Draft EIA Reports for comment.

Projects 1 to 12 are not located within any of the Renewable Energy Development Zones (REDZs) gazetted in Government Notice (GN) 114 on 16 February 2018; and GN 144 on 26 February 2021. Therefore, the proposed projects are subject to full Scoping and Environmental Impact Assessment (EIA) Processes and a decision-making period of 107 days, in terms of the National Environmental Management Act (Act 107 of 1998, as amended) (NEMA) and the 2014 NEMA EIA Regulations (as amended). The Scoping and EIA Processes for Projects 1 to 12 are currently being undertaken, whereas the relevant environmental impact assessment processes for Projects 13 to 26 will be undertaken at a later stage. An integrated Public Participation Process (PPP) is being undertaken for the proposed projects, as well as all applications necessary in respect of other applicable legislation.

Board members: Prof. T. Majozo (Chairperson), Dr A. Childs, Dr R. Masango, Mr S. Masie,
Ms T. Mokhabuki, Dr V. Mthethwa, Mr J. Netshitenzhe, Dr C. Render, Mr C. Shariff, Dr T. Dlamini (CEO)

www.csir.co.za

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

In line with Regulation 41 (2) (b) of the 2014 NEMA EIA Regulations (as amended), as a registered stakeholder and Interested and/or Affected Party (I&AP) on the project database, **you are hereby notified of the commencement of the EIA Phase and the availability of the Draft EIA Reports for the 12 proposed Kudu Solar Facility projects for a 30-day review period, which extends from 02 June 2023 to 03 July 2023 (excluding public holidays).**

The Draft EIA Reports and Executive Summaries can be accessed on the project website (<https://www.csir.co.za/environmental-impact-assessment>). As a supplementary mechanism, the Draft EIA Reports along with the Executive Summaries, the detailed Comments and Responses Reports and all associated appendices can also be downloaded from the following link on Google Drive: https://bit.ly/KUDU_SOLAR_PV

Should you wish to register as an I&AP and/or provide comments on the Draft EIA Report, you are kindly requested to send your name, contact details (with an indication of your interest in these projects) and any project-related comments to the Project Manager at the contact details provided below **no later than 03 July 2023**:

- **Attention:** Rohaida Abed
- **Email:** ems@csir.co.za
- **Postal address:** Postnet Suite 367
Private Bag x10
Musgrave Road
4062
- **Tel:** 031 242 2300

All comments and issues raised as part of the review period on the Draft EIA Reports will be captured in the detailed Comments and Responses Reports and addressed, where relevant and applicable, and included with the Final EIA Reports which will be submitted to the DFFE for decision-making in terms of Regulation 23 (1) (a) and 24 of the 2014 NEMA EIA Regulations (as amended). As a registered I&AP on these projects, you will be duly informed of the submission of the Final EIA Reports to the DFFE for decision-making, as well as the outcome of the DFFE's decision on the Final EIA Reports for these proposed projects.

In accordance with the Protection of Personal Information Act (Act No. 4 of 2013), CSIR will conduct itself responsibly when collecting, processing, storing and sharing any personal information collected for the purposes of PPP in terms of the 2014 NEMA EIA Regulations (as amended). By registering as an I&AP and/or submitting information and comments, you consent to the collection, collation, processing, and storing of such information and the use and disclosure of such information for the aforementioned purpose (<https://www.csir.co.za/csir-privacy-notice>). If you would like to opt out of communications on these projects, please do so by responding to this correspondence via email.

We thank you in advance for your participation in these Scoping and EIA Processes. Should you have any queries or require additional information, or should you struggle to access the documentation at any of the above links, please do not hesitate to contact the undersigned using the contact details provided above.

Sincerely,

Paul Lochner *Registered EAP*
EMS Manager and Project Leader

Dear Interested and Affected Party / Stakeholder,

RE: NOTIFICATION OF THE RELEASE OF THE DRAFT EIA REPORTS FOR A 30-DAY COMMENT PERIOD FOR THE PROPOSED DEVELOPMENT OF 12 SOLAR PHOTOVOLTAIC (PV) FACILITIES (I.E. KUDU SOLAR FACILITIES) AND VARIOUS ASSOCIATED INFRASTRUCTURE, NEAR DE AAR, NORTHERN CAPE

National Department of Forestry, Fisheries, the Environment (DFFE) Reference Numbers:

Kudu Solar Facility 1: 14/12/16/3/3/2/2244
Kudu Solar Facility 2: 14/12/16/3/3/2/2245
Kudu Solar Facility 3: 14/12/16/3/3/2/2246
Kudu Solar Facility 4: 14/12/16/3/3/2/2247

Kudu Solar Facility 5: 14/12/16/3/3/2/2248
Kudu Solar Facility 6: 14/12/16/3/3/2/2249
Kudu Solar Facility 7: 14/12/16/3/3/2/2250
Kudu Solar Facility 8: 14/12/16/3/3/2/2251

Kudu Solar Facility 9: 14/12/16/3/3/2/2252
Kudu Solar Facility 10: 14/12/16/3/3/2/2253
Kudu Solar Facility 11: 14/12/16/3/3/2/2254
Kudu Solar Facility 12: 14/12/16/3/3/2/2255

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

The Project Applicants are proposing to develop the Kudu Solar Photovoltaic (PV) cluster, consisting of up to 12 Solar PV Facilities, associated infrastructure and Electricity Grid Infrastructure (EGI), north-east of the town of De Aar, in the Renosterberg Local Municipality and Pixley Ka Seme District Municipality, in the Northern Cape Province. The generation capacity of each PV Facility will range from approximately 50 MWac to up to 350 MWac.

The proposed projects are not located within any of the gazetted Renewable Energy Development Zones (as gazetted in Government Notice R114; 16 February 2018). Therefore, the proposed Solar PV Facilities are subject to a Scoping and Environmental Impact Assessment (S&EIA) process and a decision-making period of 107 days, in terms of the 2014 National Environmental Management Act (Act 107 of 1998, as amended) (NEMA) EIA Regulations (as amended).

The Draft Scoping Reports for the proposed projects were made available to all potential and registered Interested and/or Affected Parties (I&APs), Organs of State and relevant key stakeholders for a 30-day comment period, which extended from 9 December 2022 to 30 January 2023 (excluding public holidays and the regulated shutdown period). All comments and issues raised as part of the comment period were captured in the Comments and Responses Report and addressed, where relevant and applicable, in the Final Scoping Reports. The Final Scoping Reports were submitted to the DFFE on 11 February 2023 for consideration in line with Regulation 21(1) and 22 of the 2014 NEMA EIA Regulations (as amended). The DFFE notified the appointed EAP (CSIR) of the Department's acceptance of the Final Scoping Reports in March 2023.

In line with Regulation 23(1) (a) and 24 of the 2014 NEMA EIA Regulations (as amended), the Draft EIA Reports have been compiled and you are hereby notified of the availability of these reports for a 30-day commenting period, extending from **2 June 2023 to 3 July 2023** (excluding public holidays).

The Draft EIA Reports and Executive Summaries can be accessed via the project website at the link below:

- Project website: <https://www.csir.co.za/environmental-impact-assessment>

The Draft EIA Reports inclusive of all appendices can be accessed via the Google Drive project folder at the link below:

- Google Drive: https://bit.ly/KUDU_SOLAR_PV

You are kindly requested to register your interest and submit any comments you may have on the Draft EIA Reports to the CSIR by **3 July 2023** (details are provided below and in the attached).

Please do not hesitate to contact us should you have any queries relating to the above.

In accordance with the Protection of Personal Information Act (Act 4 of 2013), the CSIR will conduct itself responsibly when collecting, processing, storing and sharing any personal information collected for the purposes of Public Participation Processes (PPP) in terms of the 2014 NEMA EIA Regulations (as amended). By registering as an Interested and Affected Party (I&AP) and/or submitting information and comments, you consent to the collection, collation, processing, and storing of such information and the use and disclosure of such information for the aforementioned purpose (<https://www.csir.co.za/csir-privacy-notice>). If you would like to opt out of communications on this project, please do so by responding to this correspondence via email.

Kind Regards,
Rohaida Abed

The proposed projects are not located within any of the gazetted Renewable Energy Development Zones (as gazetted in Government Notice R114; 16 February 2018). Therefore, the proposed Solar PV Facilities are subject to a Scoping and Environmental Impact Assessment (S&EIA) process and a decision-making period of 107 days, in terms of the 2014 National Environmental Management Act (Act 107 of 1998, as amended) (NEMA) EIA Regulations (as amended).

The Draft Scoping Reports for the proposed projects were made available to all potential and registered Interested and/or Affected Parties (I&APs), Organs of State and relevant key stakeholders for a 30-day comment period, which extended from 9 December 2022 to 30 January 2023 (excluding public holidays and the regulated shutdown period). All comments and issues raised as part of the comment period were captured in the Comments and Responses Report and addressed, where relevant and applicable, in the Final Scoping Reports. The Final Scoping Reports were submitted to the DFFE on 11 February 2023 for consideration in line with Regulation 21(1) and 22 of the 2014 NEMA EIA Regulations (as amended). The DFFE notified the appointed EAP (CSIR) of the Department's acceptance of the Final Scoping Reports in March 2023.

In line with Regulation 23(1) (a) and 24 of the 2014 NEMA EIA Regulations (as amended), the Draft EIA Reports have been compiled and you are hereby notified of the availability of these reports for a 30-day commenting period, extending from 2 June 2023 to 3 July 2023 (excluding public holidays).

The Draft EIA Reports and Executive Summaries can be accessed via the project website at the link below:

- Project website: <https://www.csir.co.za/environmental-impact-assessment>

The Draft EIA Reports inclusive of all appendices can be accessed via the Google Drive project folder at the link below:

- Google Drive: https://bit.ly/KUDU_SOLAR_PV

You are kindly requested to register your interest and submit any comments you may have on the Draft EIA Reports to the CSIR by 3 July 2023 (details are provided below and in the attached).

Please do not hesitate to contact us should you have any queries relating to the above.

In accordance with the Protection of Personal Information Act (Act 4 of 2013), the CSIR will conduct itself responsibly when collecting, processing, storing and sharing any personal information collected for the purposes of Public Participation Processes (PPP) in terms of the 2014 NEMA EIA Regulations (as amended). Dear Stakeholders and I&APs,

RE: NOTIFICATION OF THE RELEASE OF THE DRAFT EIA REPORTS FOR A 30-DAY COMMENT PERIOD FOR THE PROPOSED DEVELOPMENT OF 12 SOLAR PHOTOVOLTAIC (PV) FACILITIES (I.E. KUDU SOLAR FACILITIES) AND VARIOUS ASSOCIATED INFRASTRUCTURE, NEAR DE AAR, NORTHERN CAPE

National Department of Forestry, Fisheries, the Environment (DFFE) Reference Numbers:

Kudu Solar Facility 1: 14/12/16/3/3/2/2244	Kudu Solar Facility 5: 14/12/16/3/3/2/2248	Kudu Solar Facility 9: 14/12/16/3/3/2/2252
Kudu Solar Facility 2: 14/12/16/3/3/2/2245	Kudu Solar Facility 6: 14/12/16/3/3/2/2249	Kudu Solar Facility 10: 14/12/16/3/3/2/2253
Kudu Solar Facility 3: 14/12/16/3/3/2/2246	Kudu Solar Facility 7: 14/12/16/3/3/2/2250	Kudu Solar Facility 11: 14/12/16/3/3/2/2254
Kudu Solar Facility 4: 14/12/16/3/3/2/2247	Kudu Solar Facility 8: 14/12/16/3/3/2/2251	Kudu Solar Facility 12: 14/12/16/3/3/2/2255

The Project Applicants are proposing to develop the Kudu Solar Photovoltaic (PV) cluster, consisting of up to 12 Solar PV Facilities, associated infrastructure and Electricity Grid Infrastructure (EGI), north-east of the town of De Aar, in the Renosterberg Local Municipality and Pixley Ka Seme District Municipality, in the Northern Cape Province. The generation capacity of each PV Facility will range from approximately 50 MWac to up to 350 MWac.

The proposed projects are not located within any of the gazetted Renewable Energy Development Zones (as gazetted in Government Notice R114; 18 February 2018). Therefore, the proposed Solar PV Facilities are subject to a Scoping and Environmental Impact Assessment (S&EIA) process and a decision-making period of 107 days, in terms of the 2014 National Environmental Management Act (Act 107 of 1998, as amended) (NEMA) EIA Regulations (as amended).

The Draft Scoping Reports for the proposed projects were made available to all potential and registered Interested and/or Affected Parties (I&APs), Organs of State and relevant key stakeholders for a 30-day comment period, which extended from 9 December 2022 to 30 January 2023 (excluding public holidays and the regulated shutdown period). All comments and issues raised as part of the comment period were captured in the Comments and Responses Report and addressed, where relevant and applicable, in the Final Scoping Reports. The Final Scoping Reports were submitted to the DFFE on 11 February 2023 for consideration in line with Regulation 21(1) and 22 of the 2014 NEMA EIA Regulations (as amended). The DFFE notified the appointed EAP (CSIR) of the Department's acceptance of the Final Scoping Reports in March 2023.

In line with Regulation 23(1) (a) and 24 of the 2014 NEMA EIA Regulations (as amended), the Draft EIA Reports have been compiled and you are hereby notified of the availability of these reports for a 30-day commenting period, extending from 2 June 2023 to 3 July 2023 (excluding public holidays).

NBKB

Case Type: Section 38 (8) - Statutory Comment Required

Development Type: Renewable Energy

ProposalDescription:
Kudu Solar Facility 1 (Pty) Ltd to Kudu Solar Facility 12 (Pty) Ltd is proposing to develop 12 Solar Photovoltaic (PV) power generation facilities and associated Electrical Grid Infrastructure (EGI), north-east of the town of De Aar, in the Renosterberg Local Municipality and Pixley Ka Seme District Municipality, in the Northern Cape Province. Scoping and Environmental Impact Assessment (EIA) Processes are currently being undertaken for the 12 Solar PV facilities. Separate Basic Assessment (BA) and/or EGI Standard Registration processes will be commissioned separately, once finalised, for the EGI projects. This case is for the proposed Kudu Solar Facility 11, and the Applicant is Kudu Solar Facility 11 (Pty) Ltd.
ApplicationDate: Sunday, December 11, 2022 - 23:02

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

Dear Interested and Affected Party / Stakeholder,

RE: REMINDER OF THE RELEASE OF THE DRAFT EIA REPORTS FOR A 30-DAY COMMENT PERIOD FOR THE PROPOSED DEVELOPMENT OF 12 SOLAR PHOTOVOLTAIC (PV) FACILITIES (I.E. KUDU SOLAR FACILITIES) AND VARIOUS ASSOCIATED INFRASTRUCTURE, NEAR DE AAR, NORTHERN CAPE

National Department of Forestry, Fisheries, the Environment (DFFE) Reference Numbers:

Kudu Solar Facility 1: 14/12/16/3/3/2/2244	Kudu Solar Facility 5: 14/12/16/3/3/2/2248	Kudu Solar Facility 9: 14/12/16/3/3/2/2252
Kudu Solar Facility 2: 14/12/16/3/3/2/2245	Kudu Solar Facility 6: 14/12/16/3/3/2/2249	Kudu Solar Facility 10: 14/12/16/3/3/2/2253
Kudu Solar Facility 3: 14/12/16/3/3/2/2246	Kudu Solar Facility 7: 14/12/16/3/3/2/2250	Kudu Solar Facility 11: 14/12/16/3/3/2/2254
Kudu Solar Facility 4: 14/12/16/3/3/2/2247	Kudu Solar Facility 8: 14/12/16/3/3/2/2251	Kudu Solar Facility 12: 14/12/16/3/3/2/2255

Further to the email notification below, this serves as a reminder that the 30-day public comment period on the Draft EIA Reports for the proposed 12 Solar Photovoltaic (PV) facilities (i.e. Kudu Solar Facilities) and various associated infrastructure, near De Aar, Northern Cape, closes on 3 July 2023.

As indicated below the Draft EIA Reports can be accessed as follows:

- Google Drive: https://bit.ly/KUDU_SOLAR_PV
- Project website: <https://www.csir.co.za/environmental-impact-assessment>

You are kindly requested to register your interest and submit any comments you may have on the Draft EIA Reports to the CSIR by 3 July 2023 (details are provided below and in the attached).

Thank you to those of you that have already provided comment.

Please do not hesitate to contact us should you have any queries relating to the above.

In accordance with the Protection of Personal Information Act (Act 4 of 2013), the CSIR will conduct itself responsibly when collecting, processing, storing and sharing any personal information collected for the purposes of Public Participation Processes (PPP) in terms of the 2014 NEMA EIA Regulations (as amended). By registering as an Interested and Affected Party (I&AP) and/or submitting information and comments, you consent to the collection, collation, processing, and storing of such information and the use and disclosure of such information for the aforementioned purpose (<https://www.csir.co.za/csir-privacy-notice>). If you would like to opt out of communications on this project, please do so by responding to this correspondence via email.

Kind Regards,
Rohaida Abed

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

Dear Interested and Affected Party / Stakeholder,

RE: REMINDER OF THE RELEASE OF THE DRAFT EIA REPORTS FOR A 30-DAY COMMENT PERIOD FOR THE PROPOSED DEVELOPMENT OF 12 SOLAR PHOTOVOLTAIC (PV) FACILITIES (I.E. KUDU SOLAR FACILITIES) AND VARIOUS ASSOCIATED INFRASTRUCTURE, NEAR DE AAR, NORTHERN CAPE

National Department of Forestry, Fisheries, the Environment (DFFE) Reference Numbers:

Kudu Solar Facility 1: 14/12/16/3/3/2/2244	Kudu Solar Facility 5: 14/12/16/3/3/2/2248	Kudu Solar Facility 9: 14/12/16/3/3/2/2252
Kudu Solar Facility 2: 14/12/16/3/3/2/2245	Kudu Solar Facility 6: 14/12/16/3/3/2/2249	Kudu Solar Facility 10: 14/12/16/3/3/2/2253
Kudu Solar Facility 3: 14/12/16/3/3/2/2246	Kudu Solar Facility 7: 14/12/16/3/3/2/2250	Kudu Solar Facility 11: 14/12/16/3/3/2/2254
Kudu Solar Facility 4: 14/12/16/3/3/2/2247	Kudu Solar Facility 8: 14/12/16/3/3/2/2251	Kudu Solar Facility 12: 14/12/16/3/3/2/2255

Further to the email notifications below, this serves as an additional reminder that the 30-day public comment period on the Draft EIA Reports for the proposed 12 Solar Photovoltaic (PV) facilities (i.e. Kudu Solar Facilities) and various associated infrastructure, near De Aar, Northern Cape, closes on 3 July 2023.

As indicated below, the Draft EIA Reports can be accessed as follows:

- Google Drive: https://bit.ly/KUDU_SOLAR_PV
- Project website: <https://www.csir.co.za/environmental-impact-assessment>

You are kindly requested to register your interest and submit any comments you may have on the Draft EIA Reports to the CSIR by 3 July 2023 (details are provided below).

Thank you to those of you that have already provided comment.

Please do not hesitate to contact us should you have any queries relating to the above.

In accordance with the Protection of Personal Information Act (Act 4 of 2013), the CSIR will conduct itself responsibly when collecting, processing, storing and sharing any personal information collected for the purposes of Public Participation Processes (PPP) in terms of the 2014 NEMA EIA Regulations (as amended). By registering as an Interested and Affected Party (I&AP) and/or submitting information and comments, you consent to the collection, collation, processing, and storing of such information and the use and disclosure of such information for the aforementioned purpose (<https://www.csir.co.za/csir-privacy-notice>). If you would like to opt out of communications on this project, please do so by responding to this correspondence via email.

Kind Regards,
Rohaida Abed

Subject: RE: Reminder - Availability of Draft EIA Reports for Comment - Kudu Solar PV - DWS

Good day DWS Officials

I trust that you are well.

We are kindly following up on the Kudu PV Projects, as per our communications below.

Please let us know if the Department of Water and Sanitation has any comments on the Draft EIA Reports for the Kudu PV Projects? If so, please kindly send through your comments by **3 July 2023**.

If the Department does not have any comments, please also kindly confirm.

The proposed projects are intended to be submitted in next rounds of the REIPPPP, and any applications for WUL or GA will be undertaken post Environmental Authorisation (should it be granted).

Thank you for your assistance with this.

Kind Regards,
Rohaida

Dear Officials at the DFFE Directorate: Protected Areas

I hope this email finds you well.

I am kindly following up on the proposed development of twelve Solar Photovoltaic (PV) Facilities (Kudu Solar Facilities 1 to 12) and associated infrastructure, near De Aar, Northern Cape Province, as per our communications (copied here). Attached is the KMZ file of the farm portions that form part of the study area.

Please note that the 30-day comment period on the Draft Environmental Impact Assessment Reports for the proposed projects closes on **3 July 2023**.

Should the Department still wish to submit comments on the Draft EIA Reports for the above-mentioned projects, please send your comments in writing to ems@csir.co.za.

If the Department does not have any comments on the Draft EIA Reports for the above-mentioned projects, kindly acknowledge this email and state that the Department does not have any comments on these projects.

Thank you in advance.

Subject: RE: Reminder of the Availability of Draft EIA Reports for Comment - Kudu Solar PV

Dear Officials at the Air Traffic and Navigation Services (ATNS) & the Civil Aviation Authorities (CAA)

I hope this email finds you well.

I am kindly following up on the proposed development of twelve Solar Photovoltaic (PV) Facilities (Kudu Solar Facilities 1 to 12) and associated infrastructure, near De Aar, Northern Cape Province, as per our communications (copied here).

Please note that the 30-day comment period on the Draft Environmental Impact Assessment Reports for the proposed projects closes on **3 July 2023**.

Should the ATNS/ CAA still wish to submit comments on the Draft EIA Reports for the above-mentioned projects, please send your comments in writing to ems@csir.co.za.

If the ATNS/ CAA does not have any comments on the Draft EIA Reports for the above-mentioned projects, kindly acknowledge this email and state that the ATNS/ CAA does not have any comments on these projects.

Thank you in advance.

Kind Regards
Helen Antonopoulos

Goeie middag [REDACTED]

Ek het u vroeër vandag probeer skakel namens die Wetenskaplike en Nywerheidsnavorsingsraad (WNNR). Die WNNR is aangestel deur ABO Wind (Edms) Bk as die onafhanklike omgewingskonsultant vir die voorgestelde ontwikkeling van die Kudu Sonkragfasiliteite, geleë naby Petrusville en Philipstown in die Noord-Kaap.

As 'n geïdentifiseerde aangrensende grondeienaar, wil ons u graag herinner dat die publieke deelname periode op 03 Julie 2023 sluit, indien u kommentaar wil lewer op die projekte. U kan u kommentaar rig aan die WNNR Omgewingsbestuursdiense met e-posadres ems@csir.co.za.

U is meer as welkom om my per selfoon [REDACTED] of per e-pos [REDACTED] te kontak indien u enige vrae het of verdere inligting vereis.

Baie dankie
Helen Antonopoulos (WNNR)

Goeie middag [REDACTED]

Die WNNR is aangestel deur ABO Wind (Edms) Bk as die onafhanklike omgewingskonsultant vir die voorgestelde ontwikkeling van die Kudu Sonkragfasiliteite, geleë naby Petrusville en Philipstown in die Noord-Kaap.

As 'n Geïnteresseerde en/of Belanghebbende Party (G&BP), wil ons u graag herinner dat die publieke deelname periode op 03 Julie 2023 sluit, indien u kommentaar wil lewer op die projekte. U kan u kommentaar rig aan die WNNR Omgewingsbestuursdiense met e-posadres ems@csir.co.za.

U is meer as welkom om my per selfoon [REDACTED] of per e-pos [REDACTED] te kontak indien u enige vrae het of verdere inligting vereis.

Baie dankie
Helen Antonopoulos (WNNR)

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

Cc: [REDACTED]
Subject: RE: Herinnering van die Besikbaarheid van die Konsep Omgewingsimpakverslae vir Kommentaar - Kudu Sonkragfasiliteite

Goeie middag [REDACTED]

Dankie dat u my oproep vroeër geneem het. Indien u om kommentaar wil lewer op die twaalf Kudu Sonkragfasiliteite, kan u u kommentaar rig aan die WNNR Omgewingsbestuursdiense met e-posadres ems@csir.co.za teen Maandag 03 Julie 2023.

Baie dankie
Helen Antonopoulos

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

Dear Interested and Affected Party / Stakeholder,

RE: CLOSURE OF THE COMMENT PERIOD ON THE DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORTS FOR THE PROPOSED DEVELOPMENT 12 SOLAR PHOTOVOLTAIC (PV) FACILITIES (I.E. KUDU SOLAR FACILITIES) AND VARIOUS ASSOCIATED INFRASTRUCTURE, NEAR DE AAR, NORTHERN CAPE

This serves as a notification that the 30-day public comment period on the Draft Environmental Impact Assessment (EIA) Reports for the proposed 12 Kudu Solar Facilities closes today (i.e., Monday 3 July 2023).

Should you still wish to submit comments on the Draft EIA Reports for the above-mentioned projects, please send your comments in writing to ems@csir.co.za latest by midnight, Monday 3 July 2023, details are provided below:

The Draft EIA Reports and executive summary can be accessed via the project website at the weblink below:

- <https://www.csir.co.za/environmental-impact-assessment>

The Draft EIA Reports inclusive of all appendices can be accessed via the Google Drive project folder at the weblink below:

- https://bit.ly/KUDU_SOLAR_PV

Please note that comments or input received after midnight on Monday 3 July 2023 may not be considered.

Note that copies of all comments received from potential and registered I&APs and relevant key stakeholders during the review of the Draft EIA Reports will be incorporated into the Comments and Responses Reports, which will be included separately with the Final EIA Reports. The Final EIA Reports will then be submitted to the DFFE for decision-making in line with Regulation 23(1) (a) (b) of the 2014 NEMA EIA Regulations (as amended).

Please do not hesitate to contact us should you have any queries relating to the above or should you experience difficulties to access the documentation at the links provided above.

Kind Regards,
Rohaida Abed

Good day,

DFFE Reference Number: 14/12/16/3/2/2254

SCOPING AND ENVIRONMENTAL IMPACT ASSESSMENT (EIA) PROCESS FOR THE PROPOSED DEVELOPMENT OF A SOLAR PHOTOVOLTAIC (PV) FACILITY (KUDU SOLAR FACILITY 11) AND ASSOCIATED INFRASTRUCTURE, NEAR DE AAR, NORTHERN CAPE PROVINCE

Kindly note that the Draft EIA Report and Amended Application for Environmental Authorisation (EA), inclusive of all supporting appendices, as well as a Cover Letter for the above proposed Kudu Solar Facility 11 project (DFFE Reference Number: 14/12/16/3/2/2254) have been uploaded to the Novell S-Filer system for comment.

Please note that a pre-application meeting took place with the Competent Authority, the National Department of Forestry, Fisheries and the Environment (DFFE) on 26 April 2022 (Reference Number: 2022-04-0005), in order to discuss and agree on various aspects with the DFFE prior to release of the Draft Scoping Report. Refer to Appendix 1 of the Amended Application for EA for the proof of such correspondence, as well as Appendix D of the Draft EIA Report.

The Draft Scoping Report was made available to stakeholders and registered Interested and/or Affected Parties (I&APs) for a 30-day comment period extending from 9 December 2022 to 30 January 2023 (excluding the regulated shutdown period).

The Final Scoping Report was submitted to DFFE in February 2023. The DFFE provided written acceptance of the Final Scoping Report in March 2023.

The Draft EIA Report is being made available to potential and registered I&APs, Organs of State and relevant key stakeholders for a 30-day comment period extending from 2 June 2023 to 3 July 2023 (excluding public holidays).

The proposed project forms part of a cluster of twelve (12) Solar Facilities (i.e. Kudu Solar Facility 1 to Kudu Solar Facility 12) and are located on adjoining farm portions.

Separate Amended Applications for EA and Draft EIA Reports for each project have been compiled and are being uploaded to the system in parallel (separate emails are being sent for these).

The relevant DFFE officials have been copied on this email.

This submission is in line with the "Process for Submitting files to the CD IEA_082022" document. To this end, please find attached to this email:

- Cover Letter to DFFE regarding submission of the Draft EIA Report for the abovementioned project;
- Proof of upload of the Amended Application for EA, Draft EIA Report and Appendices (i.e. Screenshot of the upload); and
- Document Control Form.

Kindly note that the Cover Letter is also included as part of the zipped folder uploaded.

We trust that you find this submission in order, and we look forward to your feedback.

Please do not hesitate to contact us should you have any queries relating to the above.

Thank you and kind regards,
Rohaida

Dear Sir/Madam

ACKNOWLEDGEMENT OF RECEIPT OF THE DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORT AND AMENDED APPLICATION FORM FOR THE PROPOSED DEVELOPMENT OF A SOLAR PHOTOVOLTAIC (PV) FACILITY (KUDU SOLAR FACILITY 11) AND ASSOCIATED INFRASTRUCTURE, NEAR DE AAR, NORTHERN CAPE PROVINCE.

The Department confirms having received the Draft Environmental Impact Assessment Report and Amended Application Form for the abovementioned project on 02 June 2023. You have submitted these documents to comply with the National Environmental Management Act, 1998 (Act No. 107 of 1998) and the Environmental Impact Assessment (EIA) Regulations, 2014, as amended.

Please take note of Regulation 40(3) of the EIA Regulations, 2014, as amended, which states that *"Potential or registered interested and affected parties, including the competent authority, may be provided with an opportunity to comment on reports and plans contemplated in subregulation (1) prior to submission of an application but must be provided with an opportunity to comment on such reports once an application has been submitted to the competent authority."*

Further note that in terms of Regulation 45 of the EIA Regulations, 2014, as amended, this application will lapse if the applicant fails to meet any of the time-frames prescribed in terms of these Regulations, unless an extension has been granted in terms of Regulation 3(7) of these Regulations.

You are hereby reminded of Section 24F of the National Environmental Management Act 1998 (Act No. 107 of 1998), as amended, that no activity may commence prior to an Environmental Authorisation being granted by the Department.

Kind Regards,
Lydia Kudu

Dear Mr Lochner

COMMENTS ON THE DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR THE PROPOSED DEVELOPMENT OF A SOLAR PHOTOVOLTAIC (PV) FACILITY (KUDU SOLAR FACILITY 11) AND ASSOCIATED INFRASTRUCTURE, NEAR DE AAR, NORTHERN CAPE PROVINCE.

The Application form for Environmental Authorisation and draft Environmental Impact Assessment Report (EIAR) received by the Department on 02 June 2023, refer.

This letter serves to inform you that the following information must be included in the final EIAR:

1. Application Form

- i. It is imperative that the relevant authorities are continuously involved throughout the environmental impact assessment process as the development property possibly falls within geographically designated areas in terms of numerous activities listed in Listing Notice 3, particularly for activities impacting on areas in the Province's Conservation Plans. Written comments must be obtained from the relevant authorities and submitted to this Department.
- ii. If the activities applied for in the application form differ from those mentioned in the final EIAR, an amended application form must be submitted. Please note that the Department's application form template has been amended and can be downloaded from the following link <https://www.dffe.gov.za/documents/forms>
- iii. The final EIAR must also provide the technical details for the proposed facility in table format as well as their description and/or dimensions.
- iv. The final EIAR must provide an assessment of the impacts and mitigation measures for each of the listed activities applied for.
- v. Please ensure that all relevant listed activities are applied for, are specific and can be linked to the development activity or infrastructure (including thresholds) as described in the project description. Only activities (and sub-activities) applicable to the development must be applied for and assessed.

WA

- vi. The EAP is required to provide clear assessment for each identified alternative and further provide clear motivation and reasons as to why the preferred alternative proves to be the preferred compared to other alternatives.
 - vii. Ensure that the SG codes, farm names and numbers are correct and consisted throughout the reports.
- 2. Public Participation Process**
- i. Please ensure that comments from all relevant stakeholders are submitted to the Department with the final EIAR. This includes but is not limited to the relevant Provincial Departments, Department of Forestry, Fisheries and the Environment: Directorate Biodiversity and Conservation.
 - ii. A Comments and Response trail report (C&R) must be submitted with the final EIAR. The C&R report must incorporate all comments for this development. The C&R report must be a separate document from the main report and the format must be in the table format. All comments from I&APs must be responded to adequately. A response such as "noted" is not regarded as an adequate response to I&AP's comments.
 - iii. Comments from each submission must be responded to individually. The dates in which comments were received must be recorded in the C&R. Your responses to the issues raised by the Department must be included in the comments and response (C&R) report, in table format.
 - iv. The final EIAR must comply with all conditions of the acceptance of the scoping report (SR) and the Plan of Study for Environmental Impact Assessment (PoSEIA). The final EIAR must address all comments received on the SR and the draft EIAR, including this letter.
 - v. The Public Participation Process must be conducted in terms of Regulation 39, 40, 41, 42, 43 & 44 of the EIA Regulations, 2014, as amended.
- 3. Cumulative Assessment**
- Should there be any other similar projects within a 20km to 30km radius of the proposed development site, the cumulative impact assessment for all identified and assessed impacts must be refined to indicate the following:
- Identified cumulative impacts must be clearly defined, and where possible the size of the identified impact must be quantified and indicated, i.e., hectares of cumulatively transformed land.
 - Detailed process flow and proof must be provided, to indicate how the specialist's recommendations, mitigation measures and conclusions from the various similar developments in the area were taken into consideration in the assessment of cumulative impacts and when the conclusion and mitigation measures were drafted for this project.
 - The cumulative impacts significance rating must also inform the need and desirability of the proposed development.
 - A cumulative impact environmental statement on whether the proposed development must proceed or not.
- 4. The layout map must indicate the following:**
- The envisioned area for the Development of a 330MWac Solar Photovoltaic (PV) Facility (**Kudu Solar Facility 11**). (i.e.), location and all associated infrastructure including BESS, should be mapped at an appropriate scale.
 - **All supporting onsite infrastructure such as follows:**
 - Solar Field, comprising Solar Arrays with a maximum height of approximately 3.5m.
 - Building Infrastructure (e.g., on-site substation complex; offices; operational and maintenance building and control centre; warehouse/workshop; ablution facilities; Inverter-Transformer stations; and guard house).

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

Chief Directorate: Integrated Environmental Authorisations

- An on-site substation complex including the following:
 - On-site Independent Power Producer (IPP) or Facility Substation.
 - Lithium Ion or Redox Flow BESS.
 - Switching Station and Collector Station.
 - Associated Infrastructure (e.g., temporary construction laydown area; internal roads up to 5m wide; widening and/or upgrading of existing access roads (where required); fencing; storm water channels; panel maintenance and cleaning area; underground low voltage cables or cable trays; and 22 or 33kV internal underground power lines).
 - All existing infrastructure on the site, especially internal road infrastructure, as indicated above.
 - Please provide an environmental sensitivity map, if possible, which indicates the following:
 - The location of sensitive environmental features on site, e.g., CBAs, protected areas, heritage sites, wetlands, drainage lines etc. that will be affected by the facility and its associated infrastructure;
 - Buffer areas; and All "no-go" areas.
- 5. Specialist assessments**
- i. Specialist Declaration of Interest forms must be attached to the final EIAR. You are therefore requested to submit original signed Specialist Declaration of Interest forms for each specialist study conducted. The forms are available on Department's website (please use the Department's template).
 - ii. All specialist studies must be final, and provide detailed/practical mitigation measures for the preferred alternative and recommendations, and must not recommend further studies to be completed post EA.
 - iii. Please ensure that, all required specialist studies for the project are recommended and conducted. Finding and recommendations of the specialist studies must incorporate with final report and the EMPr for decision making. As initial recommended in the scoping acceptance.
 - iv. Should the appointed specialists specify contradicting recommendations, the EAP must clearly indicate the most reasonable recommendation and substantiate this with defensible reasons; and where necessary, include further expertise advice.
 - v. It is further brought to your attention that Procedures for the Assessment and Minimum Criteria for Reporting on identified Environmental Themes in terms of Sections 24(5)(a) and (h) and 44 of the National Environmental Management Act, 1998, when applying for Environmental Authorisation, which were promulgated in Government Notice No. 320 of 20 March 2020 (i.e. "the Protocols"), and in Government Notice No. 1150 of 30 October 2020 (i.e. protocols for terrestrial plant and animal species), have come into effect. Please note that specialist assessments must be conducted in accordance with these protocols.
 - vi. Recommendations provided by specialist reports must be considered and used to inform the preferred layout alternative.
- 6. Undertaking of an Oath**
- i. Please note that the final EIAR must have an undertaking under oath/ affirmation by the EAP.
 - ii. Based on the above, you are therefore required to include an undertaking under oath or affirmation by the EAP (administered by a Commissioner of Oaths) as per Appendix 3 of the NEMA EIA Regulations, 2014, as amended, which states that the EIAR must include:
"an undertaking under oath or affirmation by the EAP in relation to:
 - a) *the correctness of the information provided in the reports;*
 - b) *the inclusion of comments and inputs from stakeholders and I&APs;*
 - c) *the inclusion of inputs and recommendations from the specialist reports where relevant; and*
 - d) *any information provided by the EAP to interested and affected parties and any responses by the EAP to comments or inputs made by interested and affected parties".*

Chief Directorate: Integrated Environmental Authorisations

7. **Details and Expertise of the EAP**

Please ensure that the Final EIAR includes the details and expertise of the EAP, including a curriculum vitae, to comply with the requirements of Appendix 3 of the NEMA EIA Regulations, 2014, as amended.

8. **Environmental Management Programme**

• The EMPr must also include the following:

- All recommendations and mitigation measures recorded in the EIAR and the specialist studies conducted.
- An environmental sensitivity map indicating environmental sensitive areas and features identified during the assessment process.
- Measures to protect hydrological features such as streams, rivers, pans, wetlands, dams and their catchments, and other environmental sensitive areas from construction impacts including the direct or indirect spillage of pollutants.
- An alien/invasive plant management report; plant rescue and protection report; and re-vegetation and habitat rehabilitation report.
- In addition to the above, the EMPr must comply with Appendix 4 of the EIA Regulations, 2014, as amended.

General

The EAP must provide landowner consent for all farm portions affected by the proposed project, whether the project component is linear or not, i.e., all farm portions where the access road and associated infrastructure is to be located.

The EIAR must provide coordinate points for the proposed development site (note that if the site has numerous bend points, at each bend point coordinates must be provided) as well as the start, middle and end point of all linear activities. Coordinates must be provided the format as specified in the 2014 NEMA Regulations, as amended .

Please also ensure that the final EIAR includes the period for which the Environmental Authorisation is required and the date on which the activity will be concluded as per Appendix 3 of the NEMA EIA Regulations, 2014, as amended.

Please note that, the comments on the draft scoping report issued on 30 January 2023 and the acceptance of the scoping report dated 29 March 2023 are still valid and must be adhered to.

You are further reminded to comply with Regulation 23(1)(a) of the NEMA EIA Regulations, 2014, as amended, which states that: *"The applicant must within 106 days of the acceptance of the scoping report submit to the competent authority -*

(a) an environmental impact assessment report inclusive of any specialist reports, and an EMPr, which must have been subjected to a public participation process of at least 30 days and which reflects the incorporation of comments received, including any comments of the competent authority."

Should there be significant changes or new information that has been added to the EIAR or EMPr which changes or information was not contained in the reports or plans consulted on during the initial public participation process, you are required to comply with Regulation 23(1)(b) of the NEMA EIA Regulations, 2014, as amended, which states: *"The applicant must within 106 days of the acceptance of the scoping report submit to the competent authority – (b) a notification in writing that the reports, and an EMPr, will be submitted within 156 days of acceptance of the scoping report by the competent authority, or where regulation 21(2) applies, within 156 days of receipt of application by the competent authority, as significant changes have been made or significant new information has been added to the environmental impact assessment report or EMPr, which changes or information was not contained in the reports or plans consulted on during the initial public participation process*

Dear Sir/Madam

COMMENTS ON THE DRAFT ENVIRONMENTAL IMPACT ASSESSMENT REPORTS FOR THE PROPOSED DEVELOPMENT OF A SOLAR PHOTOVOLTAIC (PV) FACILITIES AND ASSOCIATED INFRASTRUCTURE, NEAR DE AAR, NORTHERN CAPE PROVINCE

The Directorate: Biodiversity Conservation reviewed and evaluated the draft report.

Based on the information provided in the reports, the entire site and all identified buildable areas and development footprints, are located within the ESA, the ESA is due to the site being in the Platberg-Karoo Conservancy (not formally protected), the vegetation units and important wetland and river features. Five Species of Conservation Concern (SCC) species were recorded during the site surveys, namely Blue Crane, Martial Eagle, Verreaux's Eagle, Cape Vultures and White-backed Vulture. However, it is noted that the recommendations of the Aquatic and Avifauna Specialists have been taken into consideration in the layout planning, and sensitive areas have been avoided accordingly. The protected tree *Boscia albitrunca* occurs in the Shrubby Grassland at the base of a Koppie. The overall sensitivity of the site is considered medium, with some landscape features, including the Koppies, as medium sensitivity.

Most of the cumulative negative impacts were rated with a low post mitigation impact significance for the construction phase, apart from Terrestrial. A similar trend is applicable to the operational phase, Avifauna impacts being rated as moderate.

Based on the above the Directorate Biodiversity Conservation is of the view that with stringent mitigation measures the development impacts can be mitigated to acceptable level.

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

3. Comments received from the South African Civil Aviation Authority (SACAA)

From: Lizell Stroh <StrohL@caa.co.za>
Sent: Thursday, 22 June 2023 15:35
To: EMS
Cc: Doris Khoza; Simphiwe Masilela
Subject: RE: Reminder of the Availability of Draft EIA Reports for Comment - Kudu Solar PV
Attachments: New Obstacle Regulations 26TH AMENDMENT.pdf; Obstacles - Development around Aerodromes.pdf

Categories: This message has been archived by Retain on June 30 2023 02:41

Good day, future sake kindly send all EIA communication to Obstacles@caa.co.za.

kindly find the "link" as from the caa website, on information and the process and procedure requires to be follow, towards solar projects proposed.

www.caa.co.za

www.caa.co.za/industry-information/obstacles/ kindly scroll down on the Notices for the respected information. Obstacle Notice 1/2022 – Appointment of New Windfarm and Solar Obstacle Application Service Provider

Kindly be advised, Air Traffic and Navigation Services (ATNS) has been appointed as the Obstacle application Service Provider for Windfarms on 1 May 2021. They will be also responsible for Solar Obstacle Applications from the 1st of February 2022. All new Solar applications must be lodged to obstacles@atns.co.za or contact Graham Mondzinger (Obstacle Evaluator) at 062 002 1621.

Their responsibility would pertain to the assessments, maintenance, and all other related matters in respect to Windfarms and Solar assessments.

Kindly confirm the Transmission line proposed towards the projects, as this would affect Aviation operations.

Kindly find information on Development around Airports and extract to the Obstacle Regulations Part 139.01.30 as information.

Kind regards

Lizell Stroh
Obstacle Inspector
Aerodrome Infrastructure

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

DEPARTMENT OF TRANSPORT

CIVIL AVIATION ACT, 2009 (ACT NO. 13 of 2009)

TWENTY - SIXTH AMENDMENT OF THE CIVIL AVIATION REGULATIONS, 2023

(The English Text is the official text of the Regulations)

I, Sindisiwe Chikunga, Minister of Transport, hereby, in terms of section 155(1) of the Civil Aviation Act, 2009 (Act No. 13 of 2009), make the Regulations set out in the Schedule hereunder.

Ms Sindisiwe Chikunga, MP
Minister of Transport

Date: 2023/03/17

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

139.01.30

(1) A holder of an aerodrome licence shall monitor a concerned aerodrome and its surroundings to assess permanent or temporary obstacle limitation and penetration surfaces, to establish if any obstacle has an impact on the safety of aircraft operations at such aerodrome.

(2) If an assessment referred to in subregulation (1) identifies any obstacle that negatively impacts on aircraft safety, a holder of an aerodrome licence shall take appropriate action to mitigate the risk and restrict or remove such obstacle.

(3) A holder of an aerodrome licence shall not erect or allow to be erected, without the prior approval of the Director, a building, structure, or object which projects above a slope of 1 in 20 and which is within 3 000 m measured from the nearest point on a boundary of such aerodrome or heliport.

(4) An object, whether temporary or permanent, which projects above the obstacle limitation surfaces within a radius of 8 km as measured from an aerodrome reference point shall be marked as prescribed in Document SA-CATS 139.

(5) An object, whether temporary or permanent, which projects above the obstacle limitation surfaces beyond a radius of 8 km and constitutes a potential hazard to aircraft, shall be marked as prescribed in Document SA-CATS 139.

(6) A holder of an aerodrome licence shall not erect or allow to be erected, without the prior approval of the Director, a building or object which constitutes an obstruction or potential hazard to an aircraft operating in a navigable airspace in the vicinity of an aerodrome, or navigation aid, or which will adversely affect the performance of a radio navigation or ILS.

(7) A holder of an aerodrome licence shall not erect or allow to be erected, without the prior approval of the Director, an object higher than 45 m above the

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

mean level of a landing area or within 8 km measured from the nearest point on a boundary of an aerodrome.

(8) A holder of an aerodrome licence shall not erect or allow to be erected, without the prior approval of the Director a building, structure, or object which projects above a slope of 1 in 20 and which is within 3 000 m measured from the nearest point on a boundary of an aerodrome or heliport.

(9) A holder of an aerodrome licence shall not erect or allow to be erected, without the prior approval of the Director, a building, structure or other object which will project above the obstacle limitation surfaces of an aerodrome or heliport.

(10) A person or authority involved in land development, shall not compromise air safety by authorising or developing any land or erecting a building or obstacle on such land.”:

(d) the insertion in Subpart 2 in the arrangements of regulations of the following Subpart:

“SUBPART 2: LICENSING AND OPERATION OF AERODROMES

- 139.02.1 Requirements for licence
- 139.02.2 Application for licence or amendment thereof
- 139.02.3 Processing of application for licence or amendment thereof
- 139.02.4 Adjudication of application for licence or amendment thereof
- 139.02.5 **[[Issuing]** Issuance of licence
 - 139.02.6 Period of validity
 - 139.02.7 Transferability
 - 139.02.8 Renewal of licence
 - 139.02.9 Licence of intent
 - 139.02.10 Aerodrome design requirements

Information Document

Development around Aerodromes

Developers planning developments and more specifically housing developments around aerodromes should take cognisance of the following: -

1. The most critical part of flight is the take off. Far less critical but never the less still potentially dangerous is the landing.
2. An incident relating to a take off and landing should be rated as probable, i.e. it will happen, sooner or later.
3. The noise of any aircraft taking off is in the vicinity of 100 decibel ⁽¹⁾ (dB). At 60 m above the ground, a sound level of more than 100 dBA ⁽²⁾ can be realised. (See SANS standard below).

The extent of existing and future aircraft noise over a proposed development must be determined to ensure that the township layout and land uses are in line with **Chapter 6 of the Draft White Paper on National Civil Aviation Policy** and the applicable laws.

Failure to comply with the above will result in the creation of an environment that is not compatible with residential and associated land uses.

4. High levels of exhaust gasses emitted at low levels especially at take off where aircraft engines are at maximum power.
5. Risk of chemical pollutants like fuel, lubricants and pesticides (from crop spraying aircraft) etc.
6. Navigation equipment of different types, radiating electromagnetic energy in different frequency bands. From the **Medium Frequency** (MF) band (low hundreds of Kilohertz below the "Broadcast AM band"), to the **Very High Frequency** (VHF) band (above the "Broadcast FM" band starting at 108 Megahertz), to the **Ultra High Frequency** (UHF) band (above M-net and e-TV frequencies) and to frequencies in the **Microwave bands** are used on and around aerodromes. These

⁽¹⁾ The decibel (dB) is used to measure sound level. The dB is a logarithmic unit used to describe a ratio where the log base is 10. 10 dB would represent a 10-fold increase, 20 dB a 100-fold increase, 60 dB a million fold increase etc., in the level.

⁽²⁾ The decibel A-weighted (dBA) relates to the response of the human ear where 0dB is the threshold of hearing, i.e. the smallest sound a human can hear.

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

facilities are most often placed on the extended centre line of runways. The effects of long term radiation from navigation equipment especially on children that could be playing in the vicinity of such equipment, has not been proven. **The only safeguard from electromagnetic radiation is distance.**

7. Structures built in the near vicinity of an aerodrome, especially in the approach path to a runway, has the potential to interfere with the proper operation of navigational equipment, both on the ground and on airborne equipment. In addition, expected spin-offs from such developments such as lights, sunlight reflections from roofs, trees that will grow high in time and smoke also have the potential to endanger aviation.

Furthermore, factories in the vicinity of aerodromes emitting large volumes of hot air/gasses can seriously affect the flying conditions of aircraft by producing high velocity ascending airflow being replaced by high velocity descending airflow. This could head to loss of control of aircraft by the rapid succession of down then up and down again forces exerted on aircraft, which in severe cases could also lead to structural damage to aircraft.

It can hence reasonably be deduced that especially the approach areas to an aerodrome are neither safe nor healthy to live in. It is against this background, that the areas in line with a runway was traditionally zoned for "Agriculture" in the immediate proximity of an aerodrome and for "Light industry" in the adjacent area.

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

The following should be noted: -

It is clear that all legislation effecting such development is seldom properly investigated, especially as far as noise is concerned.

From a national level, noise is regulated by six acts, namely:

- *The Constitution of the Republic of South Africa Act, 1996* (Act No. 108 of 1996).
- *The Environment Conservation Act, 1989* (Act No 73 of 1989).
- *The Standards Act, 1982* (Act No 30 of 1982).
- *The Road Traffic Act, 1996* (Act No 93 of 1996). (And attendant Regulations).
- *The Civil Aviation Act, 2009*, (Act No 13 of 2009).
- *The Occupational Health and Safety Act, 1993* (Act No 85 of 1993).

Other relevant legislation is:

EIA Regulations
National/Provincial Noise Control Regulations.
National Policy on Aircraft Noise and Engine Emissions.

Issues

- i) The legal proving of noise impact/noise disturbance/noise nuisance requires that an appropriate scientific and technical approach be applied in any investigation/evaluation of any noise-related problem.
- ii) Requirements placed on new developments/rezoning/consent uses regarding noise impact evaluation require a uniform and scientific approach.

Scope and Details

- i) Noise measurement and calculations shall be undertaken in accordance with the appropriate standards. Reference to a standard is deemed to be a reference to the latest edition of that standard.
- ii) The procedure set out in **SANS 10328 (SABS 0328)**, *Methods for Environmental Noise Impact Assessments* shall be used as a guide for all noise impact investigations.
- iii) **SANS 10103:2003**, *The Measurement and Rating of Environmental Noise with Respect to Land Use, Health, Annoyance and to Speech Communications* is to be used as the specific reference for *the acceptable rating levels for noise in districts*. Also all noise measurement surveys are to be undertaken in accordance with this standard.
- iv) **SANS 10210 (SABS 0210)**, *Calculating and Predicting Road Traffic Noise* is to be used to calculate *supplementary* controlled areas related to road traffic as well as any road traffic problem noise levels.

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

- v) **SANS 10117:2003**, *Calculation and Prediction of Aircraft Noise around Airports for Land Use Purposes* is to be used to calculate the noisiness index related to the establishment of *supplementary controlled areas* around airports and military air bases.
SANS 10117 specifies that the Integrated Noise Model (INM) which has been developed and issued by the Federal Aviation Administration (FAA) is to be used to calculate the noise contours around airports.
- vi) **SANS 10357 (SABS 0357)**, *The Calculation of Sound Propagation by the Concave Method* is to be used for the calculation of *supplementary controlled areas* related to any major noise source(s).
- vii) The procedures set out in **SANS 10181 (SABS 0181)**, *The Measurement of Noise Emitted by Road Vehicles when Stationary* and **SANS 10205 (SABS 0205)**, *The Measurement of Noise Emitted by Motor Vehicles in Motion* will be used for the monitoring of individual motor vehicles.
- viii) Procedures are set out in the various SABS ISO Acoustics Codes of Practice.

It is most likely that most, if not all of the development will fall in an area where the noise level would exceed the 55 dBA limit set for residential development.

- **Section 24 of the Constitution** provides that *"everyone has the right ... to an environment that is not harmful to their health or well-being; and ... to have the environment protected for the benefit of present and future generations through reasonable legislative and other measures that*
 - (i) *prevent pollution and ecological degradation;*
 - (ii) *promote conservation; and*
 - (iii) *secure ecologically sustainable development and use of natural resources while promoting justifiable economic and social development."*

The Constitution thus, compels government to give effect to people's environmental rights and places government under a legal duty to act as a responsible custodian of the nation's environment. This would apply to developments around airports.

CIVIL AVIATION REGULATIONS, 2011 to the CIVIL AVIATION ACT, 2009 (ACT NO 13 OF 2009)

Regulations from The Civil Aviation Act relating to Obstacles
(Extract)

Obstacle limitations and markings outside aerodrome or heliport
139.01.30

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

(1) All objects, whether temporary or permanent, which project above the horizontal surface within a specified radius of 8 kilometers as measured from the aerodrome reference point should be marked as specified in Document SA-CATS 139.

(2) Any other object which projects the horizontal surface beyond these radii or above the conical surface and which constitutes a potential hazard to aircraft must be marked as specified in Document SA-CATS 139.

(3) Buildings or other objects which will constitute an obstruction or potential hazard to aircraft moving in the navigable air space in the vicinity of an aerodrome, or navigation aid, or which will adversely affect the performance of the radio navigation or instrument landing systems, must not be erected or allowed to come into existence without the prior approval of the Director.

(4) No buildings or objects higher than 45 meters above the mean level of the landing area, or, in the case of a water aerodrome or heliport, the normal level of the water, must without the approval of the Director be erected within a distance of 8 kilometer measured from the nearest point on the boundary of an aerodrome or heliport.

(5) No building, structure or object which projects above a slope of 1 in 20 and which is within 3000 meters measured from the nearest point on the boundary of an aerodrome or heliport must, without the prior approval of the Director be erected or be allowed to come into existence.

(6) No building, structure or other object which will project above the approach, transitional or horizontal surfaces of an aerodrome or heliport must, without the prior approval of the Director, be erected or allowed to come into existence.

(7) The obstacle limitation surface as prescribed in Document SA-CATS 139 must be clear of any penetration of obstacles temporary or otherwise.

(8) In the event of a conflict of interest between land use authorities and air space users, air safety must be regarded as predominant and not to be compromised by land development projects or other obstacles.

Protection of radio sites

171.03.3

No structure or object, whether natural or artificial, which have the potential of interfering or degrading radio signals for the purpose of aviation safety, shall be allowed to come in existence or to move or be moved within the surfaces and slopes as prescribed in the Document SA-CATS 171.

Endangering safety

91.01.10

(1) No person shall, through any act or omission –

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

- (a) endanger the safety of an aircraft or person therein; or
- (b) cause or permit an aircraft to endanger the safety of any person or property.

(2) No person shall cause, by any means, a beam of light or other energy source, either visible or not, to be emitted towards any aircraft or air traffic control tower or any person therein such that there would be the potential for causing blindness or otherwise adversely affecting the ability of such person to safely carry out his or her duties.

Part 188.00.1 Makes non compliance of the above an offence

1. In accordance with the **Civil Aviation Regulations (CAR)** to the **Civil Aviation Act (Act 13 of 2009)**, the standards of the International Civil Aviation Organisation (ICAO) are applicable.
2. ICAO annex 14 stipulates that all new developments in the approach area shall be below 1,6% (slope of 1: 62,5), if a slope of not exceeding 2% (slope of 1:50) does not already exist. In which case this slope (2% or lower) shall be maintained. The approach area starts at a point 60 m **beyond** the end of the runway and 150 m either side of the extended centre line, diverging by 15% (10 degrees) outwards from this point outwards.

Conclusion

The aerodrome license holder should register safeguarding maps with the Local Planning Authorities and should receive, from the Local Planning Authority, copies of applications for developments in and within the vicinity of the aerodrome.

If against the above background, developers still persist on continuing with development, the existence of mentioned dangers should be reflected in the establishment conditions.

Subject: RE: Reminder of the Availability of Draft EIA Reports for Comment - Kudu Solar PV

Dear Lizell

Thanks for your email and the information. Noted, we have added "Obstacles@caa.co.za" to the email.

The proposed project is not located on any extended runway centreline, nor is it located within 3 km of an aerodrome or heliport. The De Aar Aerodrome is located approximately 54 km south-west of the study area; and the Petrusville Aerodrome is located approximately 25 km north-east of the study area.

The power lines for the proposed projects are not being assessed in these EIAs for the PV Facilities. Separate Environmental Assessment processes will be undertaken for the power lines in due course. We will communicate the details once finalised.

Please let me know if you have any feedback on the above?

Kind Regards,
Rohaida

Subject: RE: Closure of the Comment Period on the Draft EIA Reports for the Proposed Development of the 12 Kudu Solar Photovoltaic Facilities, near De Aar, Northern Cape
Attachments: Obstacles - Development around Aerodromes.pdf; Part 139 01 30 Regulations.pdf

Good day,

The SACAA has no objection to the proposed development, however, a formal obstacle assessment must be conducted in order to determine whether the proposed will affect the safety of flights in any way.

Kindly note that the SACAA has transferred the assessments for Solar and Wind energy applications to Air Traffic and Navigation Services (ATNS) as published on the SACAA website.

Their responsibility would pertain to the assessments, maintenance, and all other related matters in respect to Solar assessments.

The contact details for ATNS are:

Obstacle Evaluator
ATNS Head Office
Tel: +2711 6071000 (Ask for Obstacle Evaluators)
Email: Obstacles@atns.co.za

For any other obstacle applications, kindly refer to the current obstacle application procedures and processes to follow, as per the SACAA website:

Find attached information for Developments around aerodromes and prescribed in SACAA Regulations, processes, and procedures to follow.

More information can be obtained at <http://www.caa.co.za>. Click on information for industry under 'Obstacles'. There is a fee applicable to the said application as well, which is currently R1020 (any changes to this fee will be published on the website). Assessments will commence upon receipt of payment and once the database is updated.

Applications must be forwarded to obstacles@caa.co.za together with the following:

- A kmz/kml (Google Earth) file reflecting the footprint to the proposed development site.
- Provide coordinates (deg, min, sec), Height and Elevation.
- Also indicate the highest structure of the project (to the top)

Should you require more information please contact the inspectorate at obstacles@caa.co.za

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

The following should be noted: -

It is clear that all legislation effecting such development is seldom properly investigated, especially as far as noise is concerned.

From a national level, noise is regulated by six acts, namely:

- *The Constitution of the Republic of South Africa Act, 1996* (Act No. 108 of 1996).
- *The Environment Conservation Act, 1989* (Act No 73 of 1989).
- *The Standards Act, 1982* (Act No 30 of 1982).
- *The Road Traffic Act, 1996* (Act No 93 of 1996). (And attendant Regulations).
- *The Civil Aviation Act, 2009*, (Act No 13 of 2009).
- *The Occupational Health and Safety Act, 1993* (Act No 85 of 1993).

Other relevant legislation is:

EIA Regulations
National/Provincial Noise Control Regulations.
National Policy on Aircraft Noise and Engine Emissions.

Issues

- i) The legal proving of noise impact/noise disturbance/noise nuisance requires that an appropriate scientific and technical approach be applied in any investigation/evaluation of any noise-related problem.
- ii) Requirements placed on new developments/rezoning/consent uses regarding noise impact evaluation require a uniform and scientific approach.

Scope and Details

- i) Noise measurement and calculations shall be undertaken in accordance with the appropriate standards. Reference to a standard is deemed to be a reference to the latest edition of that standard.
- ii) The procedure set out in **SANS 10328 (SABS 0328)**, *Methods for Environmental Noise Impact Assessments* shall be used as a guide for all noise impact investigations.
- iii) **SANS 10103:2003**, *The Measurement and Rating of Environmental Noise with Respect to Land Use, Health, Annoyance and to Speech Communications* is to be used as the specific reference for *the acceptable rating levels for noise in districts*. Also all noise measurement surveys are to be undertaken in accordance with this standard.
- iv) **SANS 10210 (SABS 0210)**, *Calculating and Predicting Road Traffic Noise* is to be used to calculate *supplementary* controlled areas related to road traffic as well as any road traffic problem noise levels.

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

- v) **SANS 10117:2003**, *Calculation and Prediction of Aircraft Noise around Airports for Land Use Purposes* is to be used to calculate the noisiness index related to the establishment of *supplementary controlled areas* around airports and military air bases.
SANS 10117 specifies that the Integrated Noise Model (INM) which has been developed and issued by the Federal Aviation Administration (FAA) is to be used to calculate the noise contours around airports.
- vi) **SANS 10357 (SABS 0357)**, *The Calculation of Sound Propagation by the Concave Method* is to be used for the calculation of *supplementary controlled areas* related to any major noise source(s).
- vii) The procedures set out in **SANS 10181 (SABS 0181)**, *The Measurement of Noise Emitted by Road Vehicles when Stationary* and **SANS 10205 (SABS 0205)**, *The Measurement of Noise Emitted by Motor Vehicles in Motion* will be used for the monitoring of individual motor vehicles.
- viii) Procedures are set out in the various SABS ISO Acoustics Codes of Practice.

It is most likely that most, if not all of the development will fall in an area where the noise level would exceed the 55 dBA limit set for residential development.

- **Section 24 of the Constitution** provides that *"everyone has the right ... to an environment that is not harmful to their health or well-being; and ... to have the environment protected for the benefit of present and future generations through reasonable legislative and other measures that*
 - (i) *prevent pollution and ecological degradation;*
 - (ii) *promote conservation; and*
 - (iii) *secure ecologically sustainable development and use of natural resources while promoting justifiable economic and social development."*

The Constitution thus, compels government to give effect to people's environmental rights and places government under a legal duty to act as a responsible custodian of the nation's environment. This would apply to developments around airports.

CIVIL AVIATION REGULATIONS, 2011 to the CIVIL AVIATION ACT, 2009 (ACT NO 13 OF 2009)

Regulations from The Civil Aviation Act relating to Obstacles
(Extract)

Obstacle limitations and markings outside aerodrome or heliport
139.01.30

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

(1) All objects, whether temporary or permanent, which project above the horizontal surface within a specified radius of 8 kilometers as measured from the aerodrome reference point should be marked as specified in Document SA-CATS 139.

(2) Any other object which projects the horizontal surface beyond these radii or above the conical surface and which constitutes a potential hazard to aircraft must be marked as specified in Document SA-CATS 139.

(3) Buildings or other objects which will constitute an obstruction or potential hazard to aircraft moving in the navigable air space in the vicinity of an aerodrome, or navigation aid, or which will adversely affect the performance of the radio navigation or instrument landing systems, must not be erected or allowed to come into existence without the prior approval of the Director.

(4) No buildings or objects higher than 45 meters above the mean level of the landing area, or, in the case of a water aerodrome or heliport, the normal level of the water, must without the approval of the Director be erected within a distance of 8 kilometer measured from the nearest point on the boundary of an aerodrome or heliport.

(5) No building, structure or object which projects above a slope of 1 in 20 and which is within 3000 meters measured from the nearest point on the boundary of an aerodrome or heliport must, without the prior approval of the Director be erected or be allowed to come into existence.

(6) No building, structure or other object which will project above the approach, transitional or horizontal surfaces of an aerodrome or heliport must, without the prior approval of the Director, be erected or allowed to come into existence.

(7) The obstacle limitation surface as prescribed in Document SA-CATS 139 must be clear of any penetration of obstacles temporary or otherwise.

(8) In the event of a conflict of interest between land use authorities and air space users, air safety must be regarded as predominant and not to be compromised by land development projects or other obstacles.

Protection of radio sites 171.03.3

No structure or object, whether natural or artificial, which have the potential of interfering or degrading radio signals for the purpose of aviation safety, shall be allowed to come in existence or to move or be moved within the surfaces and slopes as prescribed in the Document SA-CATS 171.

Endangering safety 91.01.10

(1) No person shall, through any act or omission –

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

- (a) endanger the safety of an aircraft or person therein; or
- (b) cause or permit an aircraft to endanger the safety of any person or property.

(2) No person shall cause, by any means, a beam of light or other energy source, either visible or not, to be emitted towards any aircraft or air traffic control tower or any person therein such that there would be the potential for causing blindness or otherwise adversely affecting the ability of such person to safely carry out his or her duties.

Part 188.00.1 Makes non compliance of the above an offence

1. In accordance with the **Civil Aviation Regulations (CAR)** to the **Civil Aviation Act (Act 13 of 2009)**, the standards of the International Civil Aviation Organisation (ICAO) are applicable.
2. ICAO annex 14 stipulates that all new developments in the approach area shall be below 1,6% (slope of 1: 62,5), if a slope of not exceeding 2% (slope of 1:50) does not already exist. In which case this slope (2% or lower) shall be maintained. The approach area starts at a point 60 m **beyond** the end of the runway and 150 m either side of the extended centre line, diverging by 15% (10 degrees) outwards from this point outwards.

Conclusion

The aerodrome license holder should register safeguarding maps with the Local Planning Authorities and should receive, from the Local Planning Authority, copies of applications for developments in and within the vicinity of the aerodrome.

If against the above background, developers still persist on continuing with development, the existence of mentioned dangers should be reflected in the establishment conditions.

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

CIVIL AVIATION ACT, 2009 (ACT NO 13 OF 2009)

CIVIL AVIATION REGULATIONS, 2011 (26TH AMENDMENT REGULATIONS)

Obstacle limitations and markings outside aerodrome or heliport

CAR: Part 139.01.30

(1) A holder of an aerodrome licence shall monitor a concerned aerodrome and its surroundings to assess permanent or temporary obstacle limitation and penetration surfaces, to establish if any obstacle has an impact on the safety of aircraft operations at such aerodrome.

(2) If an assessment referred to in subregulation (1) identifies any obstacle that negatively impacts on aircraft safety, a holder of an aerodrome licence shall take appropriate action to mitigate the risk and restrict or remove such obstacle.

(3) A holder of an aerodrome licence shall not erect or allow to be erected, without the prior approval of the Director, a building, structure, or object which projects above a slope of 1 in 20 and which is within 3 000 m measured from the nearest point on a boundary of such aerodrome or heliport.

(4) An object, whether temporary or permanent, which projects above the obstacle limitation surfaces within a radius of 8 km as measured from an aerodrome reference point shall be marked as prescribed in Document SA-CATS 139.

(5) An object, whether temporary or permanent, which projects above the obstacle limitation surfaces beyond a radius of 8 km and constitutes a potential hazard to aircraft, shall be marked as prescribed in Document SA-CATS 139.

(6) A holder of an aerodrome licence shall not erect or allow to be erected, without the prior approval of the Director, a building or object which constitutes an obstruction or potential hazard to an aircraft operating in a navigable airspace in the vicinity of an aerodrome, or navigation aid, or which will adversely affect the performance of a radio navigation or ILS.

(7) A holder of an aerodrome licence shall not erect or allow to be erected, without the prior approval of the Director, an object higher than 45 m above the mean level of a landing area or within 8 km measured from the nearest point on a boundary of an aerodrome.

(8) A holder of an aerodrome licence shall not erect or allow to be erected, without the prior approval of the Director a building, structure, or object which projects above a slope of 1 in 20 and which is within 3 000 m measured from the nearest point on a boundary of an aerodrome or heliport.

(9) A holder of an aerodrome licence shall not erect or allow to be erected, without the prior approval of the Director, a building, structure or other object which will project above the obstacle limitation surfaces of an aerodrome or heliport.

(10) A person or authority involved in land development, shall not compromise air safety by authorising or developing any land or erecting a building or obstacle on such land.

Sent: Sunday, June 4, 2023 10:28 PM
To: Natasha Higgitt <nhiggitt@sahra.org.za>
Cc: EMS <ems@csir.co.za>
Subject: RE: Availability of Draft EIA Reports for Comment - Kudu Solar PV

Dear Natasha

I hope that you are well, further to the notifications sent out for the release of the Draft EIA Reports for the Kudu Solar project, and based on discussions between you, John Almond and myself earlier in April and May 2023, kindly note that the relevant files have been submitted on SAHRIS and application status changed to "submitted".

I have uploaded the HIA, updated Palaeontology SSV (as discussed with John Almond in April 2023), Visual Impact Assessment, PPP for the EIA Phase (Appendix H), EMPr for PV (Appendix I) and Generic EMPr for Substations (Appendix J) per project and case.

The Draft EIA Report consists of the following chapters and appendices:

- Summary Executive Summary
- Chapter 1 Introduction
- Chapter 2 Project Description
- Chapter 3 Description of the Affected Environment
- Chapter 4 Approach to EIA Process and Public Participation
- Chapter 5 Project Alternatives
- Chapter 6 Agriculture Compliance Statement
- Chapter 7 Terrestrial Biodiversity, Terrestrial Plant Species and Terrestrial Animal Species Assessment
- Chapter 8 Aquatic Biodiversity and Species Assessment
- Chapter 9 Avifauna Assessment
- Chapter 10 Visual Impact Assessment
- Chapter 11 Heritage Impact Assessment (Archaeology and Cultural Heritage)
- Chapter 12 Palaeontology
- Chapter 13 Socio-Economic Assessment
- Chapter 14 Traffic Impact Assessment
- Chapter 15 Battery Energy Storage Systems High Level Risk Assessment
- Chapter 16 Geohydrology Assessment
- Chapter 17 Geotechnical Assessment
- Chapter 18 Civil Aviation Site Sensitivity Verification
- Chapter 19 Defence Site Sensitivity Verification
- Chapter 20 Conclusions and Recommendations
- Appendix A Curriculum Vitae of the Environmental Assessment Practitioners
- Appendix B Declaration of Independence of the Environmental Assessment Practitioner
- Appendix C Maps
- Appendix D Pre-Application Consultation with the Competent Authority
- Appendix E Database of Interested and Affected Parties
- Appendix F Public Participation for the Scoping Phase
- Appendix G DFFE Acceptance of the Final Scoping Report
- Appendix H Public Participation for the EIA Phase
- Appendix I Environmental Management Programme for the PV Facility and Associated Infrastructure
- Appendix J Generic Environmental Management Programme for the On-Site Substation
- Appendix K Additional Information

Please let me know if you need any additional files to be uploaded.

We also understand that the fees for SAHRA comment are not relevant as the cases were created before 1 Jan 2023. Please kindly confirm?

Thanks and kind regards,
Rohaida

Good morning,

Thank you for your email. No application fees are required for this case as it was submitted before 1 January 2023. No additional appendices need to be uploaded at this point.

Kind regards,

Please note: Due to high meeting and task load, I may not be able to respond to your email immediately. If you do not receive a response within 5 working days, please resend your query.

Hi Natasha

I hope that you are well.

I was kindly just checking if all is ok with the commenting, and if you needed any other appendices?

Our Palaeontology specialist is out of the country from 3 July 2023. Is there any chance that you could kindly send comments a bit earlier so that I could consult with him on your comments, if needed?

Apologies for the pressure with this, I know there are many cases for review.

Thanks
Rohaida

Final Comment

In terms of Section 38(4), 38(8) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Kudu Solar Facility 11 (Pty) Ltd

Kudu Solar Facility 1 (Pty) Ltd to Kudu Solar Facility 12 (Pty) Ltd is proposing to develop 12 Solar Photovoltaic (PV) power generation facilities and associated Electrical Grid Infrastructure (EGI), north-east of the town of De Aar, in the Renosterberg Local Municipality and Pixley Ka Seme District Municipality, in the Northern Cape Province. Scoping and Environmental Impact Assessment (EIA) Processes are currently being undertaken for the 12 Solar PV facilities. Separate Basic Assessment (BA) and/or EGI Standard Registration processes will be commissioned separately, once finalised, for the EGI projects. This case is for the proposed Kudu Solar Facility 11, and the Applicant is Kudu Solar Facility 11 (Pty) Ltd.

The Council for Scientific and Industrial Research (CSIR) has been appointed by ABO Wind renewable energies (Pty) Ltd to undertake an Environmental Authorisation Application for the proposed Kudu Solar Facility 11 and associated infrastructure, near De Aar, Northern Cape Province.

A Draft Scoping Report (DSR) has been submitted in terms of the National Environmental Management Act, 1998 (NEMA) and the NEMA Environmental Impact Assessment (EIA) Regulations. The proposed activities will include the construction of solar panels, auxiliary buildings, inverter/transformer stations, on-site substation complex, battery energy storage system (BESS), underground cables, access roads, internal roads, fencing, storm water channels, panel cleaning and maintenance area, laydown areas with an overall application area of 470 ha.

Natura Viva CC and ASHA Consulting (Pty) Ltd were appointed to provide heritage specialist input as part of the EA process as per section 24(4)b(iii) of NEMA and section 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA).

Almond, J. E. 2022. Site Sensitivity Verification Report: Proposed Development of the Kudu Solar Photovoltaic Facilities and Associated Infrastructure near Philipstown and De Aar, Pixley Ka Seme District, Northern Cape Province.

A report that combines the assessment of all 12 Kudu Solar Projects has been submitted.

The proposed development footprint is underlain by the Waterford Formation, the Tierberg Formation and are overlain by the Late Caenozoic calccrete hardpans, alluvial deposits, surface gravels and soils of low sensitivity. A Chance Finds Procedure is recommended to be implemented.

Orton, J. 2022. Heritage Specialist Scoping Report Inputs: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

A total of one heritage resource of very low heritage significance was identified within the Kudu PV 11 development area.

Recommendations provided in the report include the following:

- A Chance Finds Procedure is recommended; and
- The recommendations of the Visual Impact Assessment must be followed.

In an Interim Comment issued on the 25/01/2023, SAHRA requested that the HIA be revised and an addendum to the PIA must be submitted with specific results for the Kudu Solar 11 project. Since the issuing of the Interim Comment, an HIA and PIA have been submitted (04/06/2023).

Almond, J. E. 2023. Site Sensitivity Verification Report (In Terms of Part A of the Assessment Protocols Published in GN 320 on 20 March 2020). Proposed Development of the Kudu Solar Photovoltaic Facilities and Associated Infrastructure near Philipstown and De Aar, Pixley Ka Seme District, Northern Cape Province

No fossils were identified within the proposed development area. A Chance Finds Procedure is recommended to be followed.

Orton, J. 2023. Heritage Specialist Study: Scoping and Environmental Impact Assessment (EIA) Processes for the Proposed Development of a Solar Photovoltaic Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

One surface scatter of Stone Age lithics of very low heritage significance was identified within the proposed development footprint. The report has been revised to include a tracklog of the completed survey. No additional recommendations were provided.

Final Comment

The following comments are made as a requirement in terms of section 38(8) of the NHRA in the format provided in section 38(4) of the NHRA and must be included in the Final EIA and EMPr:

- 38(4)a – The SAHRA Development Applications Unit has no objections to the proposed development;
- 38(4)b – The recommendations of the specialists are supported and must be adhered to. No further additional specific conditions are provided for the development;
- 38(4)c(i) – If any evidence of archaeological sites or remains (e.g. remnants of stone-made structures, indigenous ceramics, bones, stone artefacts, ostrich eggshell fragments, charcoal and ash concentrations), fossils or other categories of heritage resources are found during the proposed development, SAHRA DAU (Natasha Higgitt 021 202 8660/ nhiggitt@sahra.org.za) must be alerted as per section 35(3) of the NHRA. Non-compliance with this section of the NHRA is an offense in terms of section 51(1)e of the NHRA and item 5 of the Schedule;
- 38(4)c(ii) – If unmarked human burials are uncovered, the SAHRA DAU (Natasha Higgitt 021 202 8660/ nhiggitt@sahra.org.za) must be alerted immediately as per section 36(6) of the NHRA. Non-compliance with section of the NHRA is an offense in terms of section 51(1)e of the NHRA and item 5 of the Schedule;
- 38(4)d – See section 51(1) of the NHRA regarding offences;
- 38(4)e – The following conditions apply with regards to the appointment of specialists:
- i) If heritage resources are uncovered during the course of the development, a professional archaeologist or palaeontologist, depending on the nature of the finds, must be contracted as soon as possible to inspect the heritage resource. If the newly discovered heritage resources prove to be of archaeological or palaeontological significance, a Phase 2 rescue operation may be required subject to permits issued by SAHRA;
- The Final EIA must be submitted to the SAHRIS application for record purposes;
- The decision regarding the EA application must be submitted to the SAHRIS application for record purposes.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

Good morning Rohaida

Please find attached letters 1 to 6 for the Proposed Development of 12 Solar Photovoltaic (PV) Facilities (I.E. Kudu Solar Facilities) and Various Associated Infrastructure, near De Aar, Northern Cape as requested.

The assessor is still busy with Letters 7 to 12. The originals will be sent via registered mail.

With kind regards,

Melinda Jansen

Dear Melinda

Thank you very much for sending through the comments for Kudu Solar Facilities 1 to 6, it is appreciated.

Kindly note that the comment period closes on 3 July 2023 – please kindly send the comments for the Kudu Solar Facilities 7 to 12 by 3 July 2023.

We also have the following query:

The proposed projects are intended to be submitted in next rounds of the REIPPPP, and any applications for WUL or GA will be undertaken post Environmental Authorisation (EA) (should it be granted). Other EAs have been granted positively based on the same understanding and process, and proof of WUL or GA submission during the EIA Process was not a requirement. Therefore, please confirm that since this is a REIPPPP project, any applications for WUL or GA can be undertaken post EA (should it be granted). Kindly confirm that this is acceptable.

Thank you for your assistance with this.

Kind Regards,
Rohaida

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

TO WHOM IT MAY CONCERN

Eskom requirements for work in or near Eskom servitudes.

1. Eskom's rights and services must be acknowledged and respected at all times.
2. Eskom shall at all times retain unobstructed access to and egress from its servitudes.
3. Eskom's consent does not relieve the developer from obtaining the necessary statutory, land owner or municipal approvals.
4. Any cost incurred by Eskom as a result of non-compliance to any relevant environmental legislation will be charged to the developer.]
5. If Eskom has to incur any expenditure in order to comply with statutory clearances or other regulations as a result of the developer's activities or because of the presence of his equipment or installation within the servitude restriction area, the developer shall pay such costs to Eskom on demand.
6. The use of explosives of any type within 500 metres of Eskom's services shall only occur with Eskom's previous written permission. If such permission is granted the developer must give at least fourteen working days prior notice of the commencement of blasting. This allows time for arrangements to be made for supervision and/or precautionary instructions to be issued in terms of the blasting process. It is advisable to make application separately in this regard.
7. Changes in ground level may not infringe statutory ground to conductor clearances or statutory visibility clearances. After any changes in ground level, the surface shall be rehabilitated and stabilised so as to prevent erosion. The measures taken shall be to Eskom's satisfaction.
8. Eskom shall not be liable for the death of or injury to any person or for the loss of or damage to any property whether as a result of the encroachment or of the use of the servitude area by the developer, his/her agent, contractors, employees, successors in title, and assignees. The developer indemnifies Eskom against loss, claims or damages including claims pertaining to consequential damages by third parties and whether as a result of damage to or interruption of or interference with Eskom's services or apparatus or otherwise. Eskom will not be held responsible for damage to the developer's equipment.
9. No mechanical equipment, including mechanical excavators or high lifting machinery, shall be used in the vicinity of Eskom's apparatus and/or services, without prior written permission having been granted by Eskom. If such permission is granted the developer must give at least seven working days' notice prior to the commencement of work. This allows time for arrangements to be made for supervision and/or precautionary instructions to be issued by the relevant Eskom Manager

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

Note: Where and electrical outage is required, at least fourteen work days are required to arrange it.

10. Eskom's rights and duties in the servitude shall be accepted as having prior right at all times and shall not be obstructed or interfered with.
11. Under no circumstances shall rubble, earth or other material be dumped within the servitude restriction area. The developer shall maintain the area concerned to Eskom's satisfaction. The developer shall be liable to Eskom for the cost of any remedial action which has to be carried out by Eskom.
12. The clearances between Eskom's live electrical equipment and the proposed construction work shall be observed as stipulated by *Regulation 15* of the *Electrical Machinery Regulations of the Occupational Health and Safety Act, 1993 (Act 85 of 1993)*.
13. Equipment shall be regarded electrically live and therefore dangerous at all times.
14. In spite of the restrictions stipulated by Regulation 15 of the Electrical Machinery Regulations of the Occupational Health and Safety Act, 1993 (Act 85 of 1993), as an additional safety precaution, Eskom will not approve the erection of houses, or structures occupied or frequented by human beings, under the power lines or within the servitude restriction area.
15. Eskom may stipulate any additional requirements to highlight any possible exposure to Customers or Public to coming into contact or be exposed to any dangers of Eskom plant.
16. It is required of the developer to familiarise himself with all safety hazards related to Electrical plant.
17. Any third party servitudes encroaching on Eskom servitudes shall be registered against Eskom's title deed at the developer's own cost. If such a servitude is brought into being, its existence should be endorsed on the Eskom servitude deed concerned, while the third party's servitude deed must also include the rights of the affected Eskom servitude.

EXECUTIVE SUMMARY

In recent decades, the use of wind turbines, concentrated solar plants and photovoltaic plants have been on the increase as it serves as an abundant source of energy. This document specifies proposed setbacks for wind turbines and the reasons for these setbacks from infrastructure as well as setbacks for concentrated solar plants and photovoltaic plants. Setbacks for wind turbines employed in other countries were compared and a general setback to be used by Eskom was suggested for use with wind turbines and other renewable energy generation plants.

CONTROLLED DISCLOSURE

1. INTRODUCTION

During the last few decades, a large amount of wind turbines have been installed in wind farms to accommodate for the large demand of energy and depleting fossil fuels. Wind is one of the most abundant sources of renewable energy. Wind turbines harness the energy of this renewable resource for integration in electricity networks. The extraction of wind energy is its primary function and thus the aerodynamics of the wind turbine is important. There are many different types of wind turbines which will all exhibit different wind flow characteristics. The most common wind turbine used commercially is the Horizontal Axis Wind Turbine. Wind flow characteristics of this turbine are important to analyse as it may have an effect on surrounding infrastructure.

Wind turbines also cause large turbulence downwind that may affect existing infrastructure. Debris or parts of the turbine blade, in the case of a failure, may be tossed behind the turbine and may lead to damage of infrastructure in the wake path.

This document outlines the minimum distances that need to be introduced between a wind turbine and Eskom infrastructure to ensure that debris and / or turbulence would not negatively impact on the infrastructure and future expansion of infrastructure (lines and substation) as per the long term planning scenario.

Safety distances of wind turbines from other structures as implemented by other countries were also considered and the reasons for their selection were noted. All renewable energy developments are approved by The Department of Environmental Affairs, Forestry and Fisheries (DEFF) in terms of NEMA. The DEFF is aware of the setbacks guideline, however they cannot use it in terms of decision making since the setbacks document has no legal standing in SA and it would be outside of their mandate who have been advised to follow the guidelines herein.

Concentrated solar plants and photovoltaic plants setbacks away from substations were also to be considered to prevent restricting possible power line access routes to the substation and possible expansion of substations.

2. SUPPORTING CLAUSES

2.1 SCOPE

This document provides guidance on the safe distance that a wind turbine should be located from any Eskom power line or substation. Although it is not based on any legislative requirement, it is deemed important that Eskom's infrastructure and future network expansion planning is not impeded. The document specifies proposed setback distances for transmission lines (220 kV to 765 kV), distribution lines

Revision: 2
Page: 5 of 9

(66 kV to 132 kV) and all Eskom substations. Proposed setbacks for concentrated solar plants and photovoltaic plants are also specified away from substations.

2.1.1 Purpose

Setbacks for wind turbines and power lines / substations are required for various reasons. These include possible catastrophic failure of the turbine blade that may release fragments and which may be thrown onto nearby power lines that may result in damage with associated unplanned outages. Turbulence behind the turbine may affect helicopter flight during routine Eskom live line maintenance and inspections that may lead to safety risk of the aircraft / personnel. Concentrated solar plants and photovoltaic plants setback away from substations were required to prevent substations from being boxed in by these renewable generation plants limiting line route access to the substations and possible future substation expansion.

2.1.2 Applicability

This document is applicable to the siting of all new and existing wind turbines, concentrated solar plants and photovoltaic plants near power lines and substations and in line of site between Eskom telecommunication infrastructure, including future Eskom renewable energy development.

2.3 DEFINITIONS

Definition	Description
Setback	The minimum distance between a wind turbine and boundary line/dwelling/road/infrastructure/servitude etc.
Flicker	Effect caused when rotating wind turbine blades periodically cast shadows
Tip Height	The total height of the wind turbine ie. Hub height plus half rotor diameter (see Figure1)

2.3.1 Disclosure Classification

Controlled disclosure: controlled disclosure to external parties (either enforced by law, or discretionary).

2.4 ABBREVIATIONS

Abbreviation	Description
None	

2.5 ROLES AND RESPONSIBILITIES

All parties involved in the positioning wind turbines, concentrated solar plants and photovoltaic plants near power lines/substations should endeavour to follow the setbacks outlined in this guideline.

2.6 PROCESS FOR MONITORING

Agreement by Eskom in writing on any encroachment of the setbacks distance should be requested via the Grid Access Unit. Eskom should ensure that every application for renewable energy (RE) developments are informed about the existence of the setbacks document early in the RE planning process to ensure maximum effect. This includes Eskom RE development.

2.7 RELATED/SUPPORTING DOCUMENTS

None

3. DOCUMENT CONTENT

3.1 INTERNATIONAL SETBACK COMPARISON

Wind Turbine setbacks employed by various countries were considered. It was found that setbacks were determined for various reasons that include noise, flicker, turbine blade failure and wind effects as well as

CONTROLLED DISCLOSURE

Renewable Energy Generation Plant Setbacks to Eskom Infrastructure

Unique Identifier: 240-65559775
Revision: 2
Page: 7 of 9

future network expansion planning. The distances (setbacks) varied based on these factors and were influenced by the type of infrastructure

Wind turbine setbacks varied for roads, power lines, dwellings, buildings and property and it was noted that the largest setbacks were employed for reasons of noise and flicker related issues [1-7]. Very few countries specified setbacks for power lines.

The literature survey [1-7], yielded information about studies and experiments were conducted to determine the distance that a broken fragment from a wind turbine might be thrown. Even though of low probability of hitting a power line [5.0×10^{-5}], the distances recorded were significant [750m¹⁸]

Wind turbines may also cause changes in wind patterns with turbulent effects behind the hub. These factors influence the wind turbine setbacks specified in this document.

Setbacks were thus introduced to prevent any damage to Eskom infrastructure and impedence to operation and future network expansion planning.

Renewable energy plant can also limit access into substations for power lines of all voltages. A setback distance should therefore be employed to prevent substations from being boxed in by these generation plants and preventing future network expansion. These setback distances are specified in this document.

3.2 ESKOM RECOMMENDED SETBACKS

Any renewable energy applicant should engage with Eskom to determine if their plant layout or positioning of turbines, CSP or PV infrastructure would encroach on the proposed setbacks provided for in this guideline and to ensure that their planning and Eskom's future expansion planning is taken into account. Eskom must inform all renewable energy developers, including Eskom RE, of the existence of the setbacks guideline early in the development process. Should there be an encroachment, a formal request should be sent to and accepted by Eskom in writing if any of the below mentioned setback distances are infringed upon:

- Eskom requests a setback distance of 3 times the tip height of the wind turbine from the edge of the closest Eskom servitude (including vacant servitudes) for transmission lines (220kV to 765kV) and Substations.
- Eskom requests a setback distance of 1 times the tip height of the wind turbine from the edge of the closest Eskom servitude (including vacant servitudes) for distribution lines (66 kV to 132 kV) and Substations.

Renewable Energy Generation Plant Setbacks to Eskom Infrastructure

Unique Identifier: 240-65559775
Revision: 2
Page: 8 of 9

- A written request should be sent to Eskom via the Grid Access Unit regarding any proposed wind turbine, concentrated solar plants and photovoltaic activity within a 5 km radius of a substation for Eskom to comment on.
- Where concentrated solar plants, photovoltaic structures, battery storage systems (BESS) and other renewable generation plants fall within a 2 km radius of the closest point of a transmission or distribution substation (66kV to 765kV), a written agreement with Eskom is recommended during the planning phase of such plant or structures to ensure Eskom's future planning is not impeded.
- Applicants should not position any wind turbine in the line of site between and two Eskom Radio Telecommunication masts. It should be proven that Eskom radio telecommunication systems (mainly microwave systems) will not be affected in any way by wind turbines due to the criticality of this infrastructure in terms of network operation. Eskom Telecommunications should be engaged on this matter.
- If the position or size of any turbine changes and subsequently infringes on any of the above stated setbacks, a request for relaxation must be sent through to Eskom as per the point mentioned above.

8. Comments received from the Northern Cape Department of Agriculture, Environmental Affairs, Rural Development and Land Reform (DAEARDLR)

From: Rohaida Abed
Sent: Wednesday, 05 July 2023 17:47
To: nuys.denc@gmail.com
Cc: Corné Niemandt; Du Toit Malherbe; Petrus Scheepers; EMS
Subject: Kudu Solar Facilities - Query on CBAs vs ESAs in LN3
Attachments: Comments_Kudu_DSR_NU.pdf; Email_NC_DAEARDLR_030223.pdf; Listed Activity_Discussion_NC DAEARDLR.pdf

Importance: High

Dear Natalie

I trust that you are well.

I am emailing with regards to the proposed Kudu Solar Facilities Scoping and EIA Processes.

The NC Department of Agriculture, Environmental Affairs, Rural Development and Land Reform (DAEARDLR) provided comments on the Draft Scoping Report (attached), and also responded to a query regarding the status of critical biodiversity areas (CBAs) in terms of Listing Notice 3 (attached). The following was confirmed regarding the latter:

- *The Northern Cape CBA map was signed off by the head of the department as an "instrument for informing decisions and priorities on biodiversity". Based on the definition of a systematic biodiversity plan in Listing Notice 3, the CBA map meets both the criteria as important biodiversity areas were identified and targets for both terrestrial and freshwater systems were determined (Holness & Oosthuysen, 2016). Thus, the triggers mentioned for LN3 regarding CBAs and ESAs would still apply.*
- *The Northern Cape does not have any bioregional plans, therefore only listed activities relating to CBAs in terms of systematic biodiversity plans would apply.*

The Kudu Solar Facilities fall within an ESA, and the attached listed activities from Listing Notice 3 were thus included in the Application for EA for the project.

However, the IEA directorate of the National DFFE has submitted the following comment on the Draft EIA Report:

- *It has been noted that activity 4 and 23 of Listing Notice 3 have been applied due the Critical Biodiversity Area been affected by the proposed development. However, figure 4-2 in Chapter 7 indicate that the site falls within an Ecological Support Area. Therefore, you are requested to clarify the applicability of this listed activity considering that listed activity in the EIA Regulation, 2014 as amended only refers to the Critical biodiversity areas as identified in systematic biodiversity plans adopted by the competent authority or in bioregional plans.*

Based on the above comment, could you kindly confirm if the listed activities currently included for the project from Listing Notice 3 (attached) would still apply i.e. as the listed activity only refers to CBAs and not ESAs. For other provinces, like Gauteng, KZN and Free State, the various listed activities in Listing Notice 3 specify CBAs and ESAs but for the Northern Cape, only CBAs are mentioned. Listing Notice 3 does not provide a definition for ESAs and CBAs (only aquatic CBAs are defined), and I cannot determine if the NC CBA Technical Report states if CBAs include ESAs; or if ESAs are separate features.

Please could you kindly provide feedback on the above. We want to ensure that the relevant listed activities are included in the Application from a precautionary perspective, but based on the comment received from the DFFE above

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

(as well as previous comments from DFFE on not following the precautionary approach when identifying listed activities and providing certainty) and the way in which the listed activities in LN3 for the NC are worded, it seems like we might need to remove them from our Application for EA. We would appreciate your feedback in this regard.

We need to submit the Final EIA Reports to the DFFE next week. We would appreciate your feedback on the above by 7 July, if possible?

Thanks and kind regards,
Rohaida

To: Rohaida Abed <RAbed@csir.co.za>
Subject: Re: Kudu Solar Facilities - Query on CBAs vs ESAs in LN3

Dear Rohida.

Apologies, my meeting took longer than expected. I read through your email and our documents. I understand how you interpreted it as the technical document for our CBA map has no predefined definitions. However, the final map makes distinction between CBA 1, CBA 2, Ecological Support Areas and Other Natural areas. I phoned our conservation planner who developed the map to confirm this with him. As discussed with you over the phone, he indicated that the Ecological Support Areas were not listed under listing notice 3 (as with Gauteng and Western Cape) due to the size of the Northern Cape Province, the size of our corridors and the levels of development.

I hope this clarifies the matter.
Best regards
Natalie Uys

COMMENT OF NORTHERN CAPE HERITAGE RESOURCES AUTHORITY ON THE PROPOSED DEVELOPMENT 12 SOLAR PHOTOVOLTAIC (PV) FACILITIES (I.E KUDU SOLAR FACILITIES) AND VARIOUS ASSOCIATED INFRASTRUCTURE, NEAR DE AAR, NORTHERN CAPE

Thank you for your indication that the above development is to take place in the Northern Cape.

Proposed Development

The Project Developer, Kudu Solar Facility 1 (Pty) Ltd is proposing to develop a Solar Photovoltaic (PV) power generation facility and associated Electrical Grid Infrastructure (EGI), north-east of the town of De Aar in the Renosterberg Local Municipality and Pixley Ka Seme District Municipality, in the Northern Cape Province. The proposed projects are located approximately 50km from De Aar and 25 km from Petrusville. A total of 12 Solar PV Facilities are being proposed. Each project will have a specific Project Applicant. The proposed projects are referred to as the "Kudu project".

The proposed Solar PV Facilities will make use of PV solar technology to generate electricity from energy derived from the sun. Each solar PV Facility will have a range of associated infrastructure, including, but not limited to, an on-site substation complex, Battery Energy Storage System (BESS), and is proposed to connect to the existing Hydra-Perseus 400 kV overhead power line via dedicated proposed 132 kV power lines, an independent Main Transmission Substation (MTS), and a 400 kV Loop-In-Loop-Out (LILO)

Each of the Solar PV Facilities would be its own project and would require its own, separate EA. The same applies to the EGI projects.

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

The extent of the proposed development falls within the requirements for a Heritage Impact Assessment (HIA) as required by section 38 of the National Heritage Resources Act, no. 25 of 1999.

Compliance with section 34

Properties (structures) older than 60 years are generally protected under section 34 of the National Heritage Resources Act. Once identified, each property's heritage significance should be assessed. If the intention is to demolish or alter some of them a heritage permit should be obtained from the Northern Cape Heritage Resources Authority.

Compliance with section 30

The Renosterberg Local Municipality Spatial Development Framework does not provide a mechanism for the protection of heritage resources the local authority considers to be conservation worthy in terms of its heritage strategies. Neither does it make provision for the protection of buildings or structures entered on the heritage register maintained by the provincial heritage resources authority. There are no identified, graded and designated heritage resources in the development area.

Compliance with section 31

The Gamagara Local Mu Renosterberg Local Municipality does not provide mechanism for the protection of heritage areas/conservation areas. There are no identified, grade and even designated heritage/ conservation areas in the development area.

Compliance with section 38

The applicant complied with section 38 of the National Heritage Resources Act. An Heritage Impact Assessment was submitted as part of the Environmental Impact Assessment.

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

Case Decision:

The applicant should note that all buildings over 60 years of age are generally protected by section 34 of the National Heritage Resources Act no.25 of 1999 to ensure that they have not been accidentally left out of the surveys of heritage resources or in areas where heritage resources surveys have been carried out.

The author states that there are structures older than 60 years identified and protected under the National Heritage Resources Act no.25 of 1999. That being the case, the applicant has to obtain a heritage permit for each and every structure from the Northern Cape Heritage Resources Authority before any attempt to alter or demolish any part of the identified generally protected structures.

As there is indication that the applicant has complied with section 30, 31, 34 and 38 of the National Heritage Resources Act, no.25 of 1999, the Northern Cape Heritage Resources Authority has no objection to the development (in terms of the built environment component of the heritage resources) on condition that, if any new evidence on structures older than 60 years is found during implementation process, the office of Northern Cape Heritage Resources will be alerted immediately.

The applicant has to inform the public (people in the surrounding area) or any other party that has expressed a bona fide interest in any heritage related aspect of this Record of Decision.

The notice of development should be advertised in the local newspapers and with no deviation from the proposed development work.

The issuance of this authority does not stop the applicant from obtaining any other concession from any relevant regulatory body for the work intended.

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

Dear [REDACTED]

Thank you for your email.

The CSIR Environmental Management Services (EMS) Group is undertaking the EIA process for the proposed Kudu Solar Facilities project.

We have sent your email below to the Project Developer for their consideration.

Wishing you all the best.

Kind Regards,
Rohaida

Dear Sam

Thank you for your reply. We do not have any particular bird related questions on our end - the sensitivities identified by the avifauna specialist for avoidance have been avoided by the project layout; and the specialist states that overall, the post-mitigation significance is moderate to low; that no fatal flaws were identified; and that the proposed projects are supported with the understanding that mitigation measures will be implemented. Mitigation measures recommended by the specialist have been included in the EMPs as well.

Kind Regards,
Rohaida

Dear [REDACTED]

Thank you for your email. Kindly note that a public meeting has not been included in the Plan of Study for EIA, and is not planned for the Kudu Solar PV Project.

If you need additional information on the project or if you would like to have a discussion, we can give you a call. Alternatively, please kindly send through your comments via email by 3 July 2023.

Kind Regards,
Rohaida

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

26 June 2023

INPUT AND OBJECTION TOWARDS THE KUDU DEVELOPEMET

I registered as an interested and affected party to the proposed Kudu development in the Philipstown ditrict.

Paragraphs 1 to 3 was mentioned in my previous objection.

1. We understand according to documents at our disposal that your development is a massive one proposed on only two farms. As a neighbour who has been farming for my entire life in the Karoo, I want to know what the water use of this project will be. Further , I also request information on measures that you have put in place to test the availability of water resources.
2. According to the layouts of the solar farms, it appears the majority of certain farms will be covered almost entirely under panels . What is your company's viewpoint and understanding of the subdivision of agricultural land act (Act 70 of 1970) ? How would the act impact on your proposed developments ?
3. What benefits would your development have for the farming community of Philipstown district ?
4. **I want to emphasize paragraph 3 as you emphasize the positive socio-economic benefits for the farming community in your environmental reports. Your proposed model will in fact have the exact opposite effect. The alternative model where approximately 20 farms get the benefit from solar development will definitely benefit 20 farmers and their farmworkers , while a model that enrich only 2 farmers will have no positive socio-economic effects on the greater farming community and will not enhance agricultural sustainability.**

Regards

3. What benefits would your development have for the farming community of Philipstown district ?
4. **I want to emphasize paragraph 2:**
In many meetings between government and agriculture, the importance of food security is emphasized. Agricultural unions such as Agri SA, to which most farmers in our area belong, will therefore support the legislation that no more than 10% of agricultural land per farm must be used for other purposes. I feel that this point should be respected by all developers.

Goeie middag [REDACTED]

Baie dankie vir u e-pos.

Dit is korrek dat u plaasgedeelte nie direk betrokke by die voorgestelde ontwikkeling van die Kudu Sonkragfasiliteite is nie (sien asseblief die onderstaande tabel vir 'n lys van die geaffekteerde plaasgedeeltes). Die WNNR wil graag grondeienaars in die naby geleë omgewing in kennis stel van die ontwikkeling, asook 'n geleentheid bied om kommentaar te lewer op die projekte.

Farm Portion	SG code
Remaining Extent of the Farm Bas Berg No. 88	C0570000000008800000
Remaining Extent of Portion 3 of the Farm Bas Berg No. 88	C0570000000008800003
Portion 4 (Portion of Portion 3) of the Farm Bas Berg No. 88	C0570000000008800004
Remaining Extent of Portion 2 (Middel Plaats) (a Portion of Portion 1) of the Farm Grasspan No. 40	C0570000000004000002
Remaining Extent of the Farm Annex Wolve Kuil No. 41	C0570000000004100000
Portion 1 (Wolve Kuil West) of the Farm Annex Wolve Kuil No. 41	C0570000000004100001
Portion 2 of the Farm Wolve Kuil No. 43	C0570000000004300002
Remaining Extent of the Farm Wolve Kullen No. 42	C0570000000004200000

Ons sal u 'n nota maak vir die projek-ontwikkelaars om u te kontak indien hul toekomstige projekte in die gebied beplan.

Vriendelike groete
Helen Antonopoulos

Beste Helen,

Dankie vir nota betreffende die sluit van die kommentaar periode.

Ek sluit graag my kommentaar as aangeheg in. Indien dit slegs in Engels verkies word, sal ek dit in so 'n formaat kan verskaf.

Ek het al my kommer oor die omgewings inpak van genoemde ontwikkeling tydens 'n vorige deelname proses, aan die einde van Januarie uitgespreek sonder enige terugvoering tot nou ontvang. Ek kan ook nie sien waar in die "draft EIA report" my bekommernisse en vrae hanteer word nie.

Ek hoor graag van u.

Beste wense

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

Kommetaar rakende die beoogde 12 Kudu Sonkragprojekte: Phillipstown distrik.

29 Junie 2023

Aan wie dit mag gaan:

My naam is [REDACTED]. Ek is die eienaar van die plaas [REDACTED] in die Phillipstown distrik. [REDACTED] is aangrensend vir [REDACTED] meter tot die beoogde Kuduprojek en [REDACTED] van hierdie projek. Aangesien ek as 'n belanghebbene formeel by die projek geregistreer is, teken ek weereens die volgende besware aan:

Eerstens, die Kudu Sonkragprojek het 'n uiters gebrekkige openbare deelname inisiatief van stapel gestuur. Fokusgroepe soos naasliggende bure tot die projek, asook ander betrokke grondeienaars, is nie gekontak nie. Verder is vorige insette en besware nie hanteer nie.

Die voorlopige EIA verslag spreek nie die verdraaide en negatiewe realiteite van die Kuduprojek tot die maatskaplike en sosio-ekonomiese impak en uitdagings van die Bo- Karoo en sy inwoners aan nie.

- Die verspreiding van die moontlikhede tot die skep van welvaart is uiters beperk, met die Kuduprojek van 12 eenhede wat slegs twee grondeienaars uitermatig bevoordeel. 'n Alternatief sou wees om 'n groter aantal grondeienaars te betrek en sodoende die breek gemeenskap te bevoordeel en die geleentheid tot welvaart baie beter te versprei.
- Die Karoo is 'n semi ariede gebied wat gebuk gaan onder periodieke droogtes. Die welvaart van die gebied is hoofsaaklik afhanklik van die voor of teenspoed wat die landbou en veral die grondeenaar of boer ervaar. Die landbougemeenskap van die distrik is die primere ekonomiese basis van die dorpe Phillipstown, Petrusville en Vanderkloof, waar werkloosheid en armoede aan die orde van die dag is. Tydens droogtes word werkers afgele as gevolg van dalende ekonomiese aktiwiteite en verminderde

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

boerderyinkomste. Die plaaslike besighede se omset en wins daal drasties gedurende droogtes, omdat daar minder geld beskikbaar en in omloop is.

- 'n Beter en meer eweredige verspreiding van "die geleentheid" sal dus meebring dat droogtes en natuurrampe meer volhoubaar hanteer kan word. Die rimpel effek van 'n meer eweredige verspreiding van die "geleentheid", sal gevolglik die lewensgehalte en kwaliteit van 'n groter aantal bewoners van die distrik en streek positief beïnvloed.

Tweedens, die voorlopige EIA spreek **NIE** die hoe risko aan van die oorbenutting van onderaardse waterbronne in die streek aan nie. Grondwater is 'n skaars en kosbare hulpbron in die Karoo. Die EIA is vaag oor die impak van 'n gekonsentreerde massa water onttrekking gedurende die konstruksie fase van die Kudu projek, asook die hoeveelheid benodig vir die onderhoud tydens die 20 jaar opwekkingsperiode.

- Die Kudu ontwikkeling beslaan etlike duisend hektaar, gekonsentreerd in 'n massiewe blok.
- As dieselfde ontwikkeling oor 'n groter geografiese gebied versprei kan word, sal dit die impak van massa onttrekking, van die onderaardse water, beter versprei en die kans op volhoubare onttrekking verhoog.
- Die navorsing wat gedoen is oor die beskikbare hoeveelheid onderaardse water in die gebied van die projek, asook van die naasliggende gebiede en die aanvulling van grondwater, is gebrekkig. Verder, is dit nie gedeel of bespreek met die naasliggende grondeienaars nie. Die rigting van die beweging van onderaardse water, asook die aanvulling daarvan is nie goed nagevors en in die verslag opgeneem nie.
- Die volgende vrae bly onbeantwoord:
 1. Hoeveel grondwater sal in die gekonsentreerde blok van Kudu onttrek moet word om die ontwikkeling deur te voer?
 2. Hoe lank sal die gekonsentreerde onttrekking van onderaardse water bin die opwekkings termyn deur te voer, volhoubaar wees?

APPENDICES

ENVIRONMENTAL IMPACT ASSESSMENT REPORT: Scoping and Environmental Impact Assessment (EIA) Process for the Proposed Development of a Solar Photovoltaic (PV) Facility (Kudu Solar Facility 11) and associated infrastructure, near De Aar, Northern Cape Province

3. Wat sal die effek wees op my as naasliggende buurman se boorgate, wat krities belangrik is vir die volhoubare kleinvee- en wild boerdery op my plaas?
4. Hoe sal chemiese besoedeling van my weiveld voorkom word, aangesien die projek direk stroomop is van 'n reuse waterbaan is wat deur my plaas strek?

Ek teken dus beswaar aan ten opsigte van die deeglikheid en deursigtigheid van die konsep EIA vir die Kudu Sonkragprojek van 12 eenhede en die ontwikkeling van die beoogde projek.

Ek versoek dat my besware en insette met die nodige respek, deursigtigheid en erns hanteer sal word.

Met dank

Beste [REDACTED]

Baie dankie vir u e-pos en deelname in die publieke deelname proses dus ver.

U kommentaar in Afrikaans is nie 'n probleem nie, ek vertaal met graagte u kommentaar - tensy u sou verkies om self te vertaal.

Die projekspan het alle kommentaar ontvang gedurende die kommentaar periode van 9 Desember 2022 tot 30 Januarie 2023 aangespreek in die "Comments and Responses Report". 'n Kopie van elke kommentaar was ingesluit in Bylaag E.10 en E.11 in die Finale Bestekopname Verslae, en was ook ingesluit in Bylaag F Gedeeltes 2 en 3 van die Konsep Omgewingsimpakverslae ("Draft EIA Report") (sien asseblief dokumente [28 App F Kudu Solar 1 DEIAR PPP Scoping CRR Part 2 Final June2023](#) en [29 App F Kudu Solar 1 DEIAR PPP Scoping CRR Part 3 Final June2023](#) op Google Drive: [https://bit.ly/KUDU SOLAR PV](https://bit.ly/KUDU_SOLAR_PV)).

U kommentaar, tesame met die WNNR se terugvoer, tydens die huidige publieke deelname periode sal ingesluit word in die "Comments and Responses Report" van Finale Omgewingsimpakverslae. Die projekspan sal die webskakels met alle Geïnteresseerde en/of Belanghebbende Partye (G&BPs) gedeel word.

U is meer as welkom om my te kontak indien u addisionele vrae het.

Baie dankie
Helen Antonopoulos

Beste Helen,

INSAKE: KUDU SONKRAGFASILITEITE

Verder tot u Whatsup gerig aan my rakende bovermelde ontwikkeling, maak ek weer kontak. Ek [REDACTED] is die eienaar van eiendomme (plase) wat naby of aangrensend is van die beoogde ontwikkeling in die Phillipstowndistrik. Verder huur ek ook al meer as twintig jaar die plaas Basberg, waar van die ontwikkeling beplan word. Ek het ook ook vroeer kommentaar gelewer soos versoek rakende die projekte, maar dit blyk dat my insette nie oorweeg is in die voorlopige verslag nie.

Die volgende kommentaar word weer en aanvullend tot my vorige insette gelewer.

Ons familie boer reeds geslagte in die distrik, insluitend die plaas Bokkraal. Ek is ook reeds van kindsbeen af betrokke by die boerdery en het, nadat ek afstudeer het aan die Universiteit van die Vrystaat, voltyds begin boer. Die afgelope ongeveer veertig jaar het ek en my familie, in samewerking met die breër boerderygemeenskap en werkers, gepoog om so volhoubaar as moontlik te boer. Ons besef deeglik wat dit is om periodieke droogtes en natuurrampe te voorkom in die ongenaakbare Karoo. Boerderybestuur, insluitend droogtes en beperkte waterbronne, is van kritiese belang om finansiële lewensvatbaarheid in die semi-woestyn gebied te verseker. Ek en my voorsate het nog altyd gestreef om in lyn met regeringsbeleid soos drakrag per hektaar en die grootte van ekonomiese eenhede, te boer. Ons familie was ook nog altyd nou betrokke by die

gemeenskappe in die distrik, welwetende wat die positiewe impak van boerdery op die sosio-ekonomiese uitdagings het. Werkloosheid en armoede in die Renosterberg munisipaliteit is van die hoogste in Suid – Afrika. Die boere van die gemeenskap hou nietemin die gemeenskappe in stand, ten spyte van die laer produksiepryse, inflasie en rente stygings, 'n plaaslike owerheid wat inplof en geen regerings ondersteuning nie.

Die bovermelde paragraaf het ten doel om te bevestig hoe moeilik dit is om volhoubaar in die Karoo te boer. As daar dus nuwe ekonomiese geleenthede na vore kom, soos in die geval met die beoogde Kuduprojekte, is dit noodsaaklik dat ontwikkelaars met groot omsigtigheid die saak te benader. Volgens inligting tot my beskikking, word beoog om 14 sonplase op eiendomme van twee grondeienaars te ontwikkel. Dit is my mening dat die beoogde ontwikkeling kontra-produktief is betreffende die volhoubaarheid van landbou in die gebied. In plaas dat die ontwikkelingsgeleentheid kan meedoen om die breër boerderygemeenskap se welvaart en volhoubaarheid verbeter, gebeur die teenoorgestelde. Dit is strydig wat ten doel gestel word met die Onderverdeling van Landbougrondwet (SALA), wat onder andere landbouvolhoubaarheid bevorder.

Die uitkoms van so 'n benadering is dat enkele individue astronomies finansiële bevorder word, terwyl die res van die gemeenskap effektief benadeel word. Die benadering impakteer direk op sosio – ekonomiese realiteite soos werkloosheid, armoede, tiener swangerskappe, ongeletterheid, drank misbruik en vele meer. Die werklike alternatief is om 'n gedesentraliseerde benadering te volg, wat binne die huidige raamwerk van SALA benader word waardeur die ekonomiese trefwydte verbreed word en finansiële voordele meer versprei word. Dit beteken dat daar 'n sinergie tussen landbou volhoubaarheid, energie behoeftes en die sosio – ekonomiese uitdagings van verarmde gemeenskappe soos Phillipstown, Petrusville of Phillipstown en die ontwikkeling moet bestaan. Soos die ontwikkeling tans beplan word, is en sal dit nie die geval wees nie.

Aangesien ek die plaas Basberg vir langer as twintig jaar huur, het ek ook verder 'n direkte belang by die ontwikkeling. Basberg speel 'n belangrike rol in my boerderybeplanning en inkomste. As sonplase buite die raamwerk van SALA op die eiendom ontwikkel word, sal dit nie meer

ekonomies produktief wees om daar te boer nie, met natuurlik die gepaardgaande verlies aan inkomste en werksgeleenthede.

Dit is ook noodsaaklik om te noem dat ek uiters afhanklik is van die volhoubare grondwater om te boer, ook op Basberg. Ek is nie bewus of volhoubaarheidstudies rakende die ondergrondse water gedoen is nie, en wat die uitslag daarvan was nie. Die stoffaktor wat voortspring uit die massiewe gesentraliseerde benadering, impakteer ook direk op die produksievermoe van die veld, aangesien die vee nie plante eet wat met 'n stoflaag bedek word nie.

Ek wil verder vermeld dat daar volgens my inligting gebrekkige kommunikasie was met die tersaaklike gemeenskappe en plaaslike owerheid. Dit is krities dat daar saam met georganiseerde landbou en regeringsinstellings gewerk word om stabiliteit ten opsigte van moontlike arbeidsonrus, volhoubaarheid en gemeenskaps betrokkenheid te verseker.

Ek vertrou laastens dat my insette, bekommernisse en bydrae met die nodige sorg en oordeel hanteer sal word.

Die uwe,

Goeie môre [REDACTED]

Baie dankie vir u insette en deelname in die publieke deelname proses dus ver.

Sien asseblief die aangehede vertaalde weergawe van u kommentaar. Ek sal dit opreg waardeer as u asseblief daarna kan kyk en na my toe kan terugkeer met enige voorstelle, verbeteringe, of kommentaar voor dat ek u insette insluit in die Kommentaar en Antwoorde Verslae.

Baie dankie
Helen Antonopoulos
