**ENVIRONMENTAL IMPACT ASSESSMENT FOR THE KOTULO TSATSI ENERGY PV3 AND ASSOCIATED INFRASTRUCTURE,  
NORTHERN CAPE PROVINCE  
(DFFE Reference No.: 14/12/16/3/3/2/2223)**

Dear Stakeholder and Interested & Affected Party,

Kotulo Tsatsi Energy (Pty) Ltd, is proposing the construction of a photovoltaic (PV) solar energy facility (known as the Kotulo Tsatsi Energy PV3) located on a site located approximately 70km south-west of the town of Kenhardt and 60km north east of Brandvlei in the Northern Cape Province. The solar energy facility will comprise several arrays of PV panels and associated infrastructure and will have a contracted capacity of up to 480MW. The facility will be located within the farm Portion 2 of Farm Styns Vley 280. The PV facility is planned to be located within an area previously authorised for CSP project infrastructure, which is adjacent to the authorised Kotulo Tsatsi Energy PV1 and PV2 Facilities as well as the authorised CSP3 facility and associated infrastructure. The project site falls under the Hantam Local Municipality which is part of Namakwa District Municipality.

The PV infrastructure assessed in this application is in response to the Applicant's need to change the authorised generation technology for the facility located on the farm Portion 2 of Farm Styns Vley 280. That is, a technology change from the previously authorised CSP project infrastructure to PV project infrastructure. In this regard, the solar PV facility will be connected to the grid via a 132kV grid connection solution to the authorised 400kV collector substation located on Portion 2 of Farm Styns Vley 280, and will comprise on-site switching substations, facility substations and a 132kV power line within a 500m wide corridor.

### **AVAILABILITY OF THE ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR REVIEW AND COMMENT**

The Environmental Impact Assessment Report for the Kotulo Tsatsi Energy PV3 Facility is available for a 30-day review and comment period from **04 April 2023** to **09 May 2023** and can be downloaded from our website [CLICK HERE](#).

Please do not hesitate to contact us should you require any additional information at this stage.

Beste Menno,

Dankie vir jou telefoniese navraag rakende die projektydlyne vir die Kotulo Tsatsi PV3 (Sonkragprojek).

Soos per die telefoniese terugvoer na navraag met die Aansoeker, is die **voorgestelde projektydlyn** soos volg:

- Die projek moet eerstens 'n Omgewingsmagtiging van die Department van Bosbou, Visserye en die Omgewing (DFFE) ontvang.
- Daarna sal die projek by die Departement Minerale en Energie se Hernubare Energie Onafhanklike Kragprodusent-Verkrygingsprogramme (REIPPP: Renewable Energy Independent Power Producer Programme).

Indien suksesvol in die volgende REIPPP Rondte (Rondte 7) sal konstruksie **moontlik** eers teen 2024 begin.

Ek hoop dat bogenoemde beantwoord jou vraag.

Vriendelike groete

Mr Kosie Zandberg  
Zandberg Boerdery

**Per e-mail:**

Dear Mr Zandberg,

**ENVIRONMENTAL IMPACT ASSESSMENT FOR THE KOTULO TSATSI ENERGY PV3 AND ASSOCIATED  
INFRASTRUCTURE, NORTHERN CAPE PROVINCE  
(DFFE Reference Nos.: 14/12/16/3/3/2/2223)**

**NOTIFICATION OF AVAILABILITY OF EIA REPORT FOR REVIEW**

Kotulo Tsatsi Energy (Pty) Ltd, is proposing the construction of a photovoltaic (PV) solar energy facility (known as the Kotulo Tsatsi Energy PV3) located on a site located approximately 70km south-west of the town of Kenhardt and 60km north east of Brandvlei in the Northern Cape Province. The solar energy facility will comprise several arrays of PV panels and associated infrastructure and will have a contracted capacity of up to 480MW. The facility will be located within the farm Portion 2 of Farm Styns Vley 280. The PV facility is planned to be located within an area previously authorised for CSP project infrastructure, which is adjacent to the authorised Kotulo Tsatsi Energy PV1 and PV2 Facilities as well as the authorised CSP3 facility and associated infrastructure. The project site falls under the Hantam Local Municipality which is part of Namakwa District Municipality.

The PV infrastructure assessed in this application is in response to the Applicant's need to change the authorised generation technology for the facility located on the farm Portion 2 of Farm Styns Vley 280. That is, a technology change from the previously authorised CSP project infrastructure to PV project infrastructure. In this regard, the solar PV facility will be connected to the grid via a 132kV grid connection solution to the authorised 400kV collector substation located on Portion 2 of Farm Styns Vley 280, and will comprise on-site switching substations, facility substations and a 132kV power line within a 500m wide corridor.

You, as the Property Manager of **Portion 2 of the farm Styns Vley 280, Portions 1 & 3 of the farm Styns Vley 280, Portion 1 and Remaining Extent of the farm Gemsboks Rivier 301, Portion 2 of the farm Kopjes Vley 281 and Remaining Extent of the farm Melkbosch Vley 278** is hereby notified of the availability of the Environmental Impact Assessment (EIA) Report for your review and comments (details below). Should your property be leased, we kindly request you to please provide us with the name and contact details of the lessee to enable us to inform him/her/them of the project. The same request applies to any occupiers / workers you have on the above-mentioned property.

## AVAILABILITY OF THE ENVIRONMENTAL IMPACT ASSESSMENT REPORT FOR REVIEW

The Environmental Impact Assessment Report for the Kotulo Tsatsi Energy PV3 Facility is available for a 30-day review and comment period from period from **04 April 2023** until **09 May 2023**. The due date for written comment is **09 May 2023**, which can be submitted to Nicolene Venter by any of the following means:

- E-mail: [publicprocess@savannahsa.com](mailto:publicprocess@savannahsa.com)
- Telephone: 011 656 3237
- Mobile: 060 978 8396 (including *please call me*)
- Fax: 086 684 0547

The EIA Report can be downloaded from Savannah Environmental website: <https://savannahsa.com/public-documents/energy-generation/kotulo-tsatsi-energy-pv3-and-associated-infrastructure/>. An electronic copy of the report can also be made available via file transfer services such as WeTransfer or Dropbox upon request.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

**ENVIRONMENTAL IMPACT ASSESSMENT FOR THE KOTULO TSATSI ENERGY PV3 AND ASSOCIATED INFRASTRUCTURE,  
NORTHERN CAPE PROVINCE  
(DFFE Reference Nos.: To be Issued)**

Dear Stakeholder and Interested & Affected Party,

The development of a solar photovoltaic (PV) facility with a generating capacity of up to 480MW and other associated infrastructure is proposed by Kotulo Tsatsi Energy (Pty) Ltd on a site located approximately 70km south-west of the town of Kenhardt in the Northern Cape Province. The solar PV development will be known as the Kotulo Tsatsi Energy PV3 Facility. The project is within the in the Namakwa District Municipality.

Kotulo Tsatsi Energy PV3 Facility is located on Portion 2 of Farm Styns Vley 280. The grid connection infrastructure will include an on-site facility substation and power line/s within a 500m wide corridor extending to the Eskom Aries Substation, located north-east of the site.

The PV facility is planned to be located adjacent to the authorised Kotulo Tsatsi Energy PV1 and PV2 Facilities, and within an area previously authorised for CSP project infrastructure.

Please find attached the following documents for your perusal:

- Invitation letter to participate in the Environmental Impact Assessment and Public Participation Process and Notification of the availability of the Scoping Report for review and comment.
- Background Informatin Document which will provide you with additional technical information regarding the proposed development.
- Registration and Comment Form.

### **AVAILABILITY OF THE SCOPING REPORT FOR REVIEW AND COMMENT**

The Scoping Report for the Kotulo Tsatsi Energy PV3 Facility is available for a 30-day review and comment period from **18 October 2022** until **17 November 2022** and can be downloaded from our website [click here](#)

Please do not hesitate to contact us should you require any additional information at this stage.

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

17 October 2022

Dear Stakeholder and Interested and Affected Party,

**ENVIRONMENTAL IMPACT ASSESSMENT FOR THE KOTULO TSATSI ENERGY PV3 AND ASSOCIATED  
INFRASTRUCTURE, NORTHERN CAPE PROVINCE  
(DFE Reference Nos.: To be Issued)**

---

**NOTIFICATION OF EIA REPORT  
AND AVAILABILITY FOR REVIEW AND COMMENT**

---

The development of a solar photovoltaic (PV) facility with a generating capacity of up to 480MW and other associated infrastructure is proposed by Kotulo Tsatsi Energy (Pty) Ltd on a site located approximately 70km south-west of the town of Kenhardt in the Northern Cape Province. The solar PV development will be known as the Kotulo Tsatsi Energy PV3 Facility. The project is within the in the Namakwa District Municipality.

Kotulo Tsatsi Energy PV3 Facility is located on Portion 2 of Farm Styns Vley 280. The grid connection infrastructure will include an on-site facility substation and power line/s within a 500m wide corridor extending to the Eskom Aries Substation, located north-east of the site.

The PV facility is planned to be located adjacent to the authorised Kotulo Tsatsi Energy PV1 and PV2 Facilities, and within an area previously authorised for CSP project infrastructure.

The nature and extent of the solar PV facility are explored in more detail in the Background Information Document (BID) attached to this notification letter. An Environmental Impact Assessment (EIA) process is being undertaken in order to obtain Environmental Authorisation (EA) for the development of the PV facility and associated infrastructure. The public participation process provides the public with an opportunity to comment on the project.

## ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

In accordance with the EIA Regulations, 2014 (as amended) published in terms of Section 24(5) of the National Environmental Management Act (No. 107 of 1998) (NEMA), the applicant requires Environmental Authorisation (EA) from the National Department of Forestry, Fisheries and the Environment (DFFE) in consultation with the Northern Cape Department of Agriculture, Environmental Affairs, Rural Development and Land Reform for the development of the proposed project. In terms of Section 24(5) of NEMA, the EIA Regulations 2014 (as amended) and Listing Notices (GNR 327, GNR 325, and GNR 324), the application for the EA is subject to the completion of Scoping/EIA process. The application is required to be supported by comprehensive, independent environmental studies undertaken in accordance with the EIA Regulations, 2014 (as amended).

An EIA is an effective planning and decision-making tool. It allows for potential environmental consequences resulting from a proposed activity to be identified and appropriately managed during the construction, operation, and decommissioning phases of development. It also provides an opportunity for the project applicant to be forewarned of potential environmental issues, and allows for the resolution of issue(s) identified and reported on as part of the EIA process, as well as provides opportunity for dialogue with key stakeholders and Interested and Affected Parties (I&APs).

Savannah Environmental has been appointed as the independent environmental consultant responsible for managing the application for EA and undertaking the supporting EIA process required to identify and assess potential environmental impacts associated with the project, as well as propose appropriate mitigation and management measures to be contained within the Environmental Management Programmes (EMPr).

## PUBLIC PARTICIPATION PROCESS

The sharing of information forms the basis of the public participation process and offers I&APs the opportunity to become actively involved in the EIA process. Comments and inputs from I&APs are encouraged in order to ensure that potential impacts are considered throughout the EIA process. The public participation process aims to ensure that:

- » Information containing all relevant facts in respect of the application is made available to I&APs for review.
- » I&AP participation is facilitated in such a manner that they are provided with reasonable opportunity to comment on the project.
- » Adequate review periods are provided for I&APs to comment on the findings of the Scoping/EIA Reports.

You, as a representative for your Department / Organisation / Company have been identified as a stakeholder and/or an interested and affected party (I&AP) for this project.

## AVAILABILITY OF THE SCOPING REPORT FOR REVIEW AND COMMENT

The Scoping Report for the Kotulo Tsatsi Energy PV3 Facility is available for a 30-day review and comment period from **18 October 2022** until **17 November 2022**. The due date for written comment is **17 November 2022**, and can be submitted to Nicolene Venter:

- Telephone: 011 656 3237
- Mobile: 060 978 8396 (including *please call me*)
- Fax: 086 684 0547
- E-mail: [publicprocess@savannahsa.com](mailto:publicprocess@savannahsa.com)

The report is available for download from the Savannah Environmental website: <https://savannahsa.com/public-documents/energy-generation/>. An electronic copy of the report can also be made available via file transfer services such as WeTransfer or Dropbox upon request.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

**ENVIRONMENTAL IMPACT ASSESSMENT FOR THE KOTULO TSATSI ENERGY PV3 AND ASSOCIATED INFRASTRUCTURE,  
NORTHERN CAPE PROVINCE  
(DFFE Reference Nos.: To be Issued)**

Dear Mr Janeke,

The development of a solar photovoltaic (PV) facility with a generating capacity of up to 480MW and other associated infrastructure is proposed by Kotulo Tsatsi Energy (Pty) Ltd on a site located approximately 70km south-west of the town of Kenhardt in the Northern Cape Province. The solar PV development will be known as the Kotulo Tsatsi Energy PV3 Facility. The project is within the in the Namakwa District Municipality.

Kotulo Tsatsi Energy PV3 Facility is located on Portion 2 of Farm Styns Vley 280. The grid connection infrastructure will include an on-site facility substation and power line/s within a 500m wide corridor extending to the Eskom Aries Substation, located north-east of the site.

The PV facility is planned to be located adjacent to the authorised Kotulo Tsatsi Energy PV1 and PV2 Facilities, and within an area previously authorised for CSP project infrastructure.

Please find attached the following documents for your perusal:

- Invitation letter to participate in the Environmental Impact Assessment and Public Participation Process and Notification of the availability of the Scoping Report for review and comment.
- Background Informatin Document which will provide you with additional technical information regarding the proposed development.
- Registration and Comment Form.

### **AVAILABILITY OF THE SCOPING REPORT FOR REVIEW AND COMMENT**

The Scoping Report for the Kotulo Tsatsi Energy PV3 Facility is available for a 30-day review and comment period from **18 October 2022** until **17 November 2022** and can be downloaded from our website [click here](#)

Please do not hesitate to contact us should you require any additional information at this stage.

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

02 November 2022

Mr Pieter Janeke  
Landowner

**Per e-mail:**

Dear Mr Janeke,

**ENVIRONMENTAL IMPACT ASSESSMENT FOR THE KOTULO TSATSI ENERGY PV3 AND ASSOCIATED  
INFRASTRUCTURE, NORTHERN CAPE PROVINCE  
(DFFE Reference Nos.: To be Issued)**

**NOTIFICATION OF ENVIRONMENTAL IMPACT ASSESSMENT (EIA) AND PUBLIC PARTICIPATION PROCESS  
AND NOTIFICATION OF EIA REPORT AND AVAILABILITY FOR REVIEW AND COMMENT**

The development of a solar photovoltaic (PV) facility with a generating capacity of up to 480MW and other associated infrastructure is proposed by Kotulo Tsatsi Energy (Pty) Ltd on a site located approximately 70km south-west of the town of Kenhardt in the Northern Cape Province. The solar PV development will be known as the Kotulo Tsatsi Energy PV3 Facility. The project is within the in the Namakwa District Municipality.

Kotulo Tsatsi Energy PV3 Facility is located on Portion 2 of Farm Styns Vley 280. The grid connection infrastructure will include an on-site facility substation and power line/s within a 500m wide corridor extending to the Eskom Aries Substation, located north-east of the site.

The PV facility is planned to be located adjacent to the authorised Kotulo Tsatsi Energy PV1 and PV2 Facilities, and within an area previously authorised for CSP project infrastructure.

The nature and extent of the solar PV facility are explored in more detail in the Background Information Document (BID) attached to this notification letter. An Environmental Impact Assessment (EIA) process is being undertaken in order to obtain Environmental Authorisation (EA) for the development of the PV facility and associated infrastructure. The public participation process provides the public with an opportunity to comment on the project.

## **ENVIRONMENTAL IMPACT ASSESSMENT PROCESS**

In accordance with the EIA Regulations, 2014 (as amended) published in terms of Section 24(5) of the National Environmental Management Act (No. 107 of 1998) (NEMA), the applicant requires Environmental Authorisation (EA) from the National Department of Forestry, Fisheries and the Environment (DFFE) in consultation with the Northern Cape Department of Agriculture, Environmental Affairs, Rural Development and Land Reform for the development of the proposed project. In terms of Section 24(5) of NEMA, the EIA Regulations 2014 (as amended) and Listing Notices (GNR 327, GNR 325, and GNR 324), the application for the EA is subject to the completion of Scoping/EIA process. The application is required to be supported by comprehensive, independent environmental studies undertaken in accordance with the EIA Regulations, 2014 (as amended).

An EIA is an effective planning and decision-making tool. It allows for potential environmental consequences resulting from a proposed activity to be identified and appropriately managed during the construction, operation, and decommissioning phases of development. It also provides an opportunity for the project applicant to be forewarned of potential environmental issues, and allows for the resolution of issue(s) identified and reported on as part of the EIA process, as well as provides opportunity for dialogue with key stakeholders and Interested and Affected Parties (I&APs).

Savannah Environmental has been appointed as the independent environmental consultant responsible for managing the application for EA and undertaking the supporting EIA process required to identify and assess potential environmental impacts associated with the project, as well as propose appropriate mitigation and management measures to be contained within the Environmental Management Programmes (EMPr).

## **PUBLIC PARTICIPATION PROCESS**

The sharing of information forms the basis of the public participation process and offers I&APs the opportunity to become actively involved in the EIA process. Comments and inputs from I&APs are encouraged in order to ensure that potential impacts are considered throughout the EIA process. The public participation process aims to ensure that:

- » Information containing all relevant facts in respect of the application is made available to I&APs for review.
- » I&AP participation is facilitated in such a manner that they are provided with reasonable opportunity to comment on the project.
- » Adequate review periods are provided for I&APs to comment on the findings of the Scoping/EIA Reports.

You, as a directly affected landowner of **Portion 2 of the farm Styns Vley 280**, and as an adjacent landowner of **Portions 1 & 3 of the farm Styns Vley 280, Portion 1 and Remaining Extent of the farm Gemsboks Rivier 301, Portion 2 of the farm Kopjes Vley 281 and Remaining Extent of the farm Melkbosch Vley 278** has been identified as an Interested and Affected Party (I&AP) for this project. Should your property be leased, we kindly request you to please provide us with the name and contact details of the lessee to enable us to inform him/her/them of the project. The same request applies to any occupiers / workers you have on the above-mentioned property.

## AVAILABILITY OF THE SCOPING REPORT FOR REVIEW AND COMMENT

The Scoping Report for the Kotulo Tsatsi Energy PV3 Facility is available for a 30-day review and comment period from **18 October 2022** until **17 November 2022**. The due date for written comment is **17 November 2022**, and can be submitted to Nicolene Venter:

- Telephone: 011 656 3237
- Mobile: 060 978 8396 (including *please call me*)
- Fax: 086 684 0547
- E-mail: [publicprocess@savannahsa.com](mailto:publicprocess@savannahsa.com)

The report is available for download from the Savannah Environmental website: <https://savannahsa.com/public-documents/energy-generation/>. An electronic copy of the report can also be made available via file transfer services such as WeTransfer or Dropbox upon request.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

The development of a solar photovoltaic (PV) facility with a generating capacity of up to 480MW and other associated infrastructure is proposed by Kotulo Tsatsi Energy (Pty) Ltd on a site located approximately 70km south-west of the town of Kenhardt in the Northern Cape Province. The solar PV development will be known as the Kotulo Tsatsi Energy PV3 Facility. The project is within the in the Namakwa District Municipality.

Kotulo Tsatsi Energy PV3 Facility is located on Portion 2 of Farm Styns Vley 280. The grid connection infrastructure will include an on-site facility substation and power line/s within a 500m wide corridor extending to the Eskom Aries Substation, located north-east of the site.

The PV facility is planned to be located adjacent to the authorised Kotulo Tsatsi Energy PV1 and PV2 Facilities, and within an area previously authorised for CSP project infrastructure.

The nature and extent of the solar PV facility are explored in more detail in the Background Information Document (BID) attached to this notification letter. An Environmental Impact Assessment (EIA) process is being undertaken in order to obtain Environmental Authorisation (EA) for the development of the PV facility and associated infrastructure. The public participation process provides the public with an opportunity to comment on the project.

## ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

In accordance with the EIA Regulations, 2014 (as amended) published in terms of Section 24(5) of the National Environmental Management Act (No. 107 of 1998) (NEMA), the applicant requires Environmental Authorisation (EA) from the National Department of Forestry, Fisheries and the Environment (DFFE) in consultation with the Northern Cape Department of Agriculture, Environmental Affairs, Rural Development and Land Reform for the development of the proposed project. In terms of Section 24(5) of NEMA, the EIA Regulations 2014 (as amended) and Listing Notices (GNR 327, GNR 325, and GNR 324), the application for the EA is subject to the completion of Scoping/EIA process. The application is required to be supported by comprehensive, independent environmental studies undertaken in accordance with the EIA Regulations, 2014 (as amended).

An EIA is an effective planning and decision-making tool. It allows for potential environmental consequences resulting from a proposed activity to be identified and appropriately managed during the construction, operation, and decommissioning phases of development. It also provides an opportunity for the project applicant to be forewarned of potential environmental issues, and allows for the resolution of issue(s) identified and reported on as part of the EIA process, as well as provides opportunity for dialogue with key stakeholders and Interested and Affected Parties (I&APs).

Savannah Environmental has been appointed as the independent environmental consultant responsible for managing the application for EA and undertaking the supporting EIA process required to identify and assess potential environmental impacts associated with the project, as well as propose appropriate mitigation and management measures to be contained within the Environmental Management Programmes (EMPr).

## PUBLIC PARTICIPATION PROCESS

The sharing of information forms the basis of the public participation process and offers I&APs the opportunity to become actively involved in the EIA process. Comments and inputs from I&APs are encouraged in order to ensure that potential impacts are considered throughout the EIA process. The public participation process aims to ensure that:

- » Information containing all relevant facts in respect of the application is made available to I&APs for review.
- » I&AP participation is facilitated in such a manner that they are provided with reasonable opportunity to comment on the project.
- » Adequate review periods are provided for I&APs to comment on the findings of the Scoping/EIA Reports.

You, as an adjacent landowner of **Portion 1 of the farm Melkbosch Vley 278** has been identified as an Interested and Affected Party (I&AP) for this project. Should your property be leased, we kindly request you to please provide us with the name and contact details of the lessee to enable us to inform him/her/them of the project. The same request applies to any occupiers / workers you have on the above-mentioned property.

## AVAILABILITY OF THE SCOPING REPORT FOR REVIEW AND COMMENT

The Scoping Report for the Kotulo Tsatsi Energy PV3 Facility is available for a 30-day review and comment period from **18 October 2022** until **17 November 2022**. The due date for written comment is **17 November 2022**, and can be submitted to Nicolene Venter:

- Telephone: 011 656 3237

- Mobile: 060 978 8396 (including *please call me*)
- Fax: 086 684 0547
- E-mail: [publicprocess@savannahsa.com](mailto:publicprocess@savannahsa.com)

The report is available for download from the Savannah Environmental website: <https://savannahsa.com/public-documents/energy-generation/>. An electronic copy of the report can also be made available via file transfer services such as WeTransfer or Dropbox upon request.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

**Nicolene Venter**

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

02 November 2022

Mr Kosie Zandberg  
Zandberg Boerdery

**Per e-mail:**

Dear Mr Zandberg,

**ENVIRONMENTAL IMPACT ASSESSMENT FOR THE KOTULO TSATSI ENERGY PV3 AND ASSOCIATED  
INFRASTRUCTURE, NORTHERN CAPE PROVINCE  
(DFFE Reference Nos.: To be Issued)**

---

**NOTIFICATION OF ENVIRONMENTAL IMPACT ASSESSMENT (EIA) AND PUBLIC PARTICIPATION PROCESS  
AND NOTIFICATION OF EIA REPORT AND AVAILABILITY FOR REVIEW AND COMMENT**

---

The development of a solar photovoltaic (PV) facility with a generating capacity of up to 480MW and other associated infrastructure is proposed by Kotulo Tsatsi Energy (Pty) Ltd on a site located approximately 70km south-west of the town of Kenhardt in the Northern Cape Province. The solar PV development will be known as the Kotulo Tsatsi Energy PV3 Facility. The project is within the in the Namakwa District Municipality.

Kotulo Tsatsi Energy PV3 Facility is located on Portion 2 of Farm Styns Vley 280. The grid connection infrastructure will include an on-site facility substation and power line/s within a 500m wide corridor extending to the Eskom Aries Substation, located north-east of the site.

The PV facility is planned to be located adjacent to the authorised Kotulo Tsatsi Energy PV1 and PV2 Facilities, and within an area previously authorised for CSP project infrastructure.

The nature and extent of the solar PV facility are explored in more detail in the Background Information Document (BID) attached to this notification letter. An Environmental Impact Assessment (EIA) process is being undertaken in order to obtain Environmental Authorisation (EA) for the development of the PV facility and associated infrastructure. The public participation process provides the public with an opportunity to comment on the project.

## ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

In accordance with the EIA Regulations, 2014 (as amended) published in terms of Section 24(5) of the National Environmental Management Act (No. 107 of 1998) (NEMA), the applicant requires Environmental Authorisation (EA) from the National Department of Forestry, Fisheries and the Environment (DFFE) in consultation with the Northern Cape Department of Agriculture, Environmental Affairs, Rural Development and Land Reform for the development of the proposed project. In terms of Section 24(5) of NEMA, the EIA Regulations 2014 (as amended) and Listing Notices (GNR 327, GNR 325, and GNR 324), the application for the EA is subject to the completion of Scoping/EIA process. The application is required to be supported by comprehensive, independent environmental studies undertaken in accordance with the EIA Regulations, 2014 (as amended).

An EIA is an effective planning and decision-making tool. It allows for potential environmental consequences resulting from a proposed activity to be identified and appropriately managed during the construction, operation, and decommissioning phases of development. It also provides an opportunity for the project applicant to be forewarned of potential environmental issues, and allows for the resolution of issue(s) identified and reported on as part of the EIA process, as well as provides opportunity for dialogue with key stakeholders and Interested and Affected Parties (I&APs).

Savannah Environmental has been appointed as the independent environmental consultant responsible for managing the application for EA and undertaking the supporting EIA process required to identify and assess potential environmental impacts associated with the project, as well as propose appropriate mitigation and management measures to be contained within the Environmental Management Programmes (EMPr).

## PUBLIC PARTICIPATION PROCESS

The sharing of information forms the basis of the public participation process and offers I&APs the opportunity to become actively involved in the EIA process. Comments and inputs from I&APs are encouraged in order to ensure that potential impacts are considered throughout the EIA process. The public participation process aims to ensure that:

- » Information containing all relevant facts in respect of the application is made available to I&APs for review.
- » I&AP participation is facilitated in such a manner that they are provided with reasonable opportunity to comment on the project.
- » Adequate review periods are provided for I&APs to comment on the findings of the Scoping/EIA Reports.

You, as the Property Manager of **Portion 2 of the farm Styns Vley 280, Portions 1 & 3 of the farm Styns Vley 280, Portion 1 and Remaining Extent of the farm Gemsboks Rivier 301, Portion 2 of the farm Kopjes Vley 281 and Remaining Extent of the farm Melkbosch Vley 278** has been identified as an Interested and Affected Party (I&AP) for this project. Should there be any occupiers / workers on the above-mentioned properties, you are kindly requested to inform us of their names and contact details to ensure that they are also informed regarding this proposed project.

## **AVAILABILITY OF THE SCOPING REPORT FOR REVIEW AND COMMENT**

The Scoping Report for the Kotulo Tsatsi Energy PV3 Facility is available for a 30-day review and comment period from **18 October 2022** until **17 November 2022**. The due date for written comment is **17 November 2022**, and can be submitted to Nicolene Venter:

- Telephone: 011 656 3237
- Mobile: 060 978 8396 (including *please call me*)
- Fax: 086 684 0547
- E-mail: [publicprocess@savannahsa.com](mailto:publicprocess@savannahsa.com)

The report is available for download from the Savannah Environmental website: <https://savannahsa.com/public-documents/energy-generation/>. An electronic copy of the report can also be made available via file transfer services such as WeTransfer or Dropbox upon request.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

# Kotulo Tsatsi Energy PV3 and Associated Infrastructure

## NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESS KOTULO TSATSI ENERGY PV3 AND ASSOCIATED INFRASTRUCTURE, NORTHERN CAPE

**Applicant:** Kotulo Tsatsi Energy (Pty) Ltd

**Proposed Activity:** The development of a Solar Photovoltaic (PV) Facility of up to 480MW and associated infrastructure. Infrastructure associated the Solar PV Facility will include:

- Solar PV array comprising PV modules and mounting structures.
- Inverters and transformers.
- Cabling between the project components.
- On-site facility substation and power line to facilitate the connection between the Solar PV Facility and the Eskom electricity grid at Aries Substation.
- Battery Energy Storage System (BESS).
- Site offices and maintenance buildings, including workshop areas for maintenance and storage.
- Laydown areas and temporary man camp area.
- Access roads, internal distribution roads and fencing around the development area.

**Project Location:** Adjacent to the authorised Kotulo Tsatsi PV1 and PV2 Facilities and within an area previously authorised for CSP infrastructure, ~70km south-west of Kenhardt in the Hantam Local Municipality and the Namakwa District Municipality. The project is located on Portion 2 of Farm Styns Vley 280.

**Application for Environmental Authorisation:** In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327,

as amended, a Scoping/EIA process is to be undertaken. An application is to be lodged with the DFFE, as the competent authority.

**Scoping Report available for Review:** The Scoping Report is available for download, review and comment on the Savannah Environmental website: [www.savannahsa.com/public-documents/energy-generation/](http://www.savannahsa.com/public-documents/energy-generation/) The 30-day review and comment period for the Scoping Report is from **18 October 2022** until **17 November 2022**. The final date to submit comments is **17 November 2022**.

To obtain further information, register on the project database and submit comments, please use the contact details below:

**ENVIRONMENTAL IMPACT ASSESSMENT FOR THE KOTULO TSATSI ENERGY PV3 AND ASSOCIATED INFRASTRUCTURE,  
NORTHERN CAPE PROVINCE  
(DFFE Reference No.: 14/12/16/3/3/2/2223)**

Dear Stakeholder and Interested & Affected Party,

The development of a solar photovoltaic (PV) facility with a generating capacity of up to 480MW and other associated infrastructure is proposed by Kotulo Tsatsi Energy (Pty) Ltd on a site located approximately 70km south-west of the town of Kenhardt in the Northern Cape Province. The solar PV development will be known as the Kotulo Tsatsi Energy PV3 Facility. The project is within the in the Namakwa District Municipality.

Kotulo Tsatsi Energy PV3 Facility is located on Portion 2 of Farm Styns Vley 280. The grid connection infrastructure will include an on-site facility substation and power line/s within a 500m wide corridor extending to the Eskom Aries Substation, located north-east of the site.

With reference to our letter dated 17 October 2022 in which we notified registered Interested and Affected Parties (I&APs) that the Scoping Report for the Kotulo Tsatsi Energy PV3 and Associated Infrastructure is available for review and comment from 18 November 2022 until 17 November 2022 has reference.

We would like to take this opportunity to thank those Stakeholders and I&APs who submitted their written comments on the Scoping Report and we kindly urge those who have not yet submitted their written comments on the Scoping Report to please do so before or on Thursday, 17 November 2022.

The Scoping Reports can be downloaded from our website: [click here](#)

Please do not hesitate to contact us should you require any additional information.
