(with all revisions indicated), date of drawings and signatures of the owners and the author.

### 1. \*PHOTOGRAPHS OF EXISTING STRUCTURE/S AND CONTEXT:

Submit annotated/captioned photographs of the exterior (all facades/elevations) and interior of all buildings on the site and views that clearly illustrate the features of the structures to be altered/demolished.

Photographs showing the context (streetscape and surrounding buildings – adjacent and across the road, aerial view, etc.) must also be submitted. Submit in colour and in jpeg format. If incorporated into a document or report, photographs must be post card size – 100x150mm.

Sahris allows about 8-10 photographs of 10MB or less to be uploaded – click Advanced upload to upload multiple images at once but remember to click upload and wait for the system to complete the upload.

Complete the description/caption field provided. If there are more than 10 images, please upload the rest to AdditionalDocuments – the limit of 10 is to keep the block of selected images on the case front page to a limited number of images – AdditionalDocuments has no limit.

### 2. PLANS:

Submit one full set of submission drawings for alterations & additions applications and concept drawings or renditions for demolition applications (see above) – upload to AdditionalDocuments or to ResearchProposals if the case is confidential. Colour plans as follows:

MATERIALS	COLOUR
all existing	grey
demolition	dotted lines
new masonry	red
new concrete	green
new iron or steel	blue
new painting & plastering	yellow
new wood	brown
other	clearly indicated, using colours other than as above

#### 2.1. SITE PLAN

The site plan must be drawn in accordance with the approved surveyor's diagram of the site and must show: scale; the north point; the erf/property/farm number of the site; the location of the site and any structures on it in relation to surrounding roads, buildings and other features; existing buildings, structures, and pools on the site (coloured grey or uncoloured); proposed work (coloured red) and buildings or portions of buildings proposed for demolition (in dotted lines). An aerial view obtainable from "Google Earth" or the municipality is also very useful.

#### 2.2. FLOOR PLANS, ELEVATIONS AND SECTIONS

Sufficient plans, elevations and sections must be submitted to show the proposed work clearly. These drawings should be at 1:100, 1:50 or 1:20 scale, and must be fully dimensioned. The position of section lines must be indicated on the plan. The elevations should accurately reflect the effect of the proposal on the structure and its relationship to adjacent buildings.

All new materials, including finishes, must be specified. Drawings should be coloured as follows:

#### 2.3. SCALE PLAN OF EXISTING STRUCTURE(S)

If it is impossible to distinguish the existing layout from the original plans submitted, a measured floor plan of the structure as it exists is required. It must be at the same scale and orientation as the plans of the proposed work to facilitate comparison.

#### 2.4. DOOR AND WINDOW SCHEDULES AND DETAILS

Proposals for changing or replacing doors or windows must include sufficient information about their size, proportion and detail. This may be in the form of manufacturer's information (for stock windows and doors) or joinery details (for specials).
