Dear Madam / Sir,

The Department of Agriculture, Forestry and Fisheries (DAFF) proposes to establish a sea-based Aquaculture Development Zone (ADZ) in Saldanha Bay, which is intended to attract and incentivise investment in the sector, provide marine aquaculture services, manage the risks associated with aquaculture and provide skills development and employment for coastal communities.

SRK Consulting was appointed to develop a framework for the Saldanha Bay ADZ (together with CapMarine) and undertake the Environmental Impact Assessment (EIA) process required in terms of the National Environmental Management Act 107 of 1998, as amended (NEMA) and the EIA Regulations, 2014.

You have been identified as a potentially interested and / or affected party who may wish to be informed of and/or comment on this project, which has only recently been initiated.

Please find attached a Background Information Document providing additional information on the proposed ADZ, the framework development and EIA process, and how you can participate. The document can also be downloaded from SRK's website www.srk.co.za (following the "Library" and "Public Documents" links).

We have added you to our stakeholder database and will inform you of future formal opportunities to review documents and provide input into the process.

Please contact Jessica du Toit of SRK at jedutoit@srk.co.za with any submissions or if you would like to be removed from the database.

Best regards,
Sue
