

16 October 2020

Dear Interested & Affected Party,

BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

ENVIRONMENTAL AUTHORISATION FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT GREAT KAROO WIND ENERGY FACILITY (WEF), NORTHERN CAPE ('Great Karoo BESS')

NOTIFICATION OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

Great Karoo Wind Farm would like to provide for the installation of a Battery Energy Storage System (BESS) at the authorised Great Karoo Wind Energy Facility (WEF) (DEA Ref: 12/12/20/2370/3) in the Northern Cape Province. The BESS is proposed to be located near the WEF substation and will be up to 4ha in total extent. MV cabling (33kV or less) will connect the BESS to the substation.

An access road to the BESS of up to 8m in width will be developed. The BESS is envisaged to become an integral component of the authorised WEF which is located on Farm Kentucky 206, Sutherland.

The proposed BESS project will consist of:

- A Battery Energy Storage System (BESS) inside containers or similar housing structures with a footprint of up to 4ha in extent.
- Access road to the BESS (which will branch off the WEF roads to the BESS)
- Medium Voltage cabling (above ground or overhead) between the BESS and substation.
- Fencing around the BESS.
- Possible firebreak (i.e. vegetation trimmed low) or 4m wide road around the BESS, inside the fencing.
- 4ha laydown area within the BESS footprint.

An area of ~500m around the boundary of the WEF substation (assessment area) was assessed, to allow for the optimization of the placement of the BESS anywhere within this assessment area. This assessment area allows for the assessment of several location alternatives for the BESS and owing to the continuously advancing and emerging BESS technologies, there are several alternatives that can be considered for the BESS technology

BASIC ASSESSMENT PROCESS

The proposed developments are subject to the requirements of the Environmental Impact Assessment (EIA) Regulations of 2014 published in terms of Section 24(5) of NEMA. In terms of the EIA Regulations of 2014, as amended, and promulgated under Sections 24 and 24D of the NEMA, various aspects of the project are listed as activities that may have an impact on the environment. Due to the triggering of GNR 327, Listing Notice 1, Activities 12, 14, 19,27(ii) and 28 and GNR 324, Listing Notice 3, Activities 4(g)(ii)(ee), 10(g)(iii)(ee), 12(g)(ii) and 14(ii)(a)(c)(g)(ii)(ff) amongst others, of the EIA Regulations 2014 (as amended), a Basic Assessment process must be undertaken in order to obtain Environmental Authorisation for the construction and operation of the Great Karoo BESS for the Great Karoo Wind Farm.

Savannah Environmental was appointed as the independent environmental consultant to undertake the Basic Assessment and public participation process for the project to identify and assess all potential environmental impacts associated with the proposed upgrades and recommend appropriate mitigation measures in the Environmental Management Programme (EMPr).

PUBLIC INVOLVEMENT PROCESS

The public participation (PP) process will be undertaken in accordance with the requirements of Regulations 39 to 44 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, (GNR 326). The aim of the public participation process is primarily to ensure that:

- » information containing all relevant facts in respect of the proposed project is made available to potential stakeholders and I&APs
- » participation by I&APs is facilitated in such a manner that all potential stakeholders and I&APs are provided with a reasonable opportunity to comment on the proposed project; and
- » comments received from potential stakeholders and I&APs are recorded and incorporated into the EIA process.

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster limiting the movement and gathering of people to curb the spread of the COVID-19 virus has placed some limitations on how public consultation can be conducted as part of a BA process. The consultation process for these projects has been designed considering these limitations, and the implementation is in line with our public participation plan (PP Plan), as approved by the Department of Environmental Affairs (DEA). Our PP Plan is in compliance with the Department of Environment, Forestry and Fisheries (DEFF) Directions issued on the 5th of June 2020. One of our approved consultation methods is for you to visit our online stakeholder engagement platform, register your interest in the project/s, and view project documentation: visit <https://www.savannahsa.com/public-documents/energy-generation/great-karoo-bess/>.

Alternative means of undertaking consultation have been designed to ensure that I&APs are afforded sufficient opportunity to raise comments on the project, predominately through an interactive web-based platform readily available and accessible to any person with interest in the project, enabling the public participation process to be undertaken in line with Regulations 41 to 44

of the EIA Regulations, 2014, as amended. This online stakeholder engagement platform allows the EAP to visually present details regarding the project and our consultation documentation, including project maps and plans, presentations and posters regarding the project, and reports available for review. The use of online tools enables stakeholders and I&APs to explore the project-specific content in their own time, and allows participation in the consultation process in a meaningful way. The online platform allows for instant feedback and comments to be submitted, in so doing saving time for the stakeholder and also giving the assurance that their comments have been submitted for inclusion in the project reporting.

You and/or the organisation, which you represent, has been identified as an Interested and Affected Party (I&AP) for the proposed project as described above. Should you have an interest in the project, please register yourself as an I&AP by completing and returning the attached registration and comment form. By registering on the project database, you will be kept informed of the BA process being undertaken for the project and will be provided with an opportunity to provide comment and input.

AVAILABILITY OF BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

The Basic Assessment Report (BAR) is available for your review and comment from **Friday, 16 October 2020** until **Monday, 16 November 2020**. The report is available for download from our website / stakeholder engagement platform on the above-mentioned link.

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster limiting the movement and gathering of people to curb the spread of the COVID-19 virus has placed some limitations on making hard copies of the BAR available at public places such as libraries and municipal offices. As per our approved public participation plan submitted to the Department of Environment, Forestry and Fisheries (DEFF), you can also request that an electronic copy of the BAR be send to you via file transfer services such as WeTransfer or Dropbox or a compact disk (CD).

Please submit your written comments on the BAR to us by latest **Monday, 16 November 2020** via our website / stakeholder engagement platform (link provided above) or via:

- Telephone: 011 656 3237
- Mobile: 060 978 8396 (including messages and *please call me* notification)
- Fax: 086 684 0547
- Post: PO Box 148, Sunninghill, 2157
- E-mail: publicprocess@savannahsa.com

to Nicolene Venter or Ronald Baloyi.

All comments received during the 30-day review and comment period will be recorded and included in the Final BAR for submission to the DEFF in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

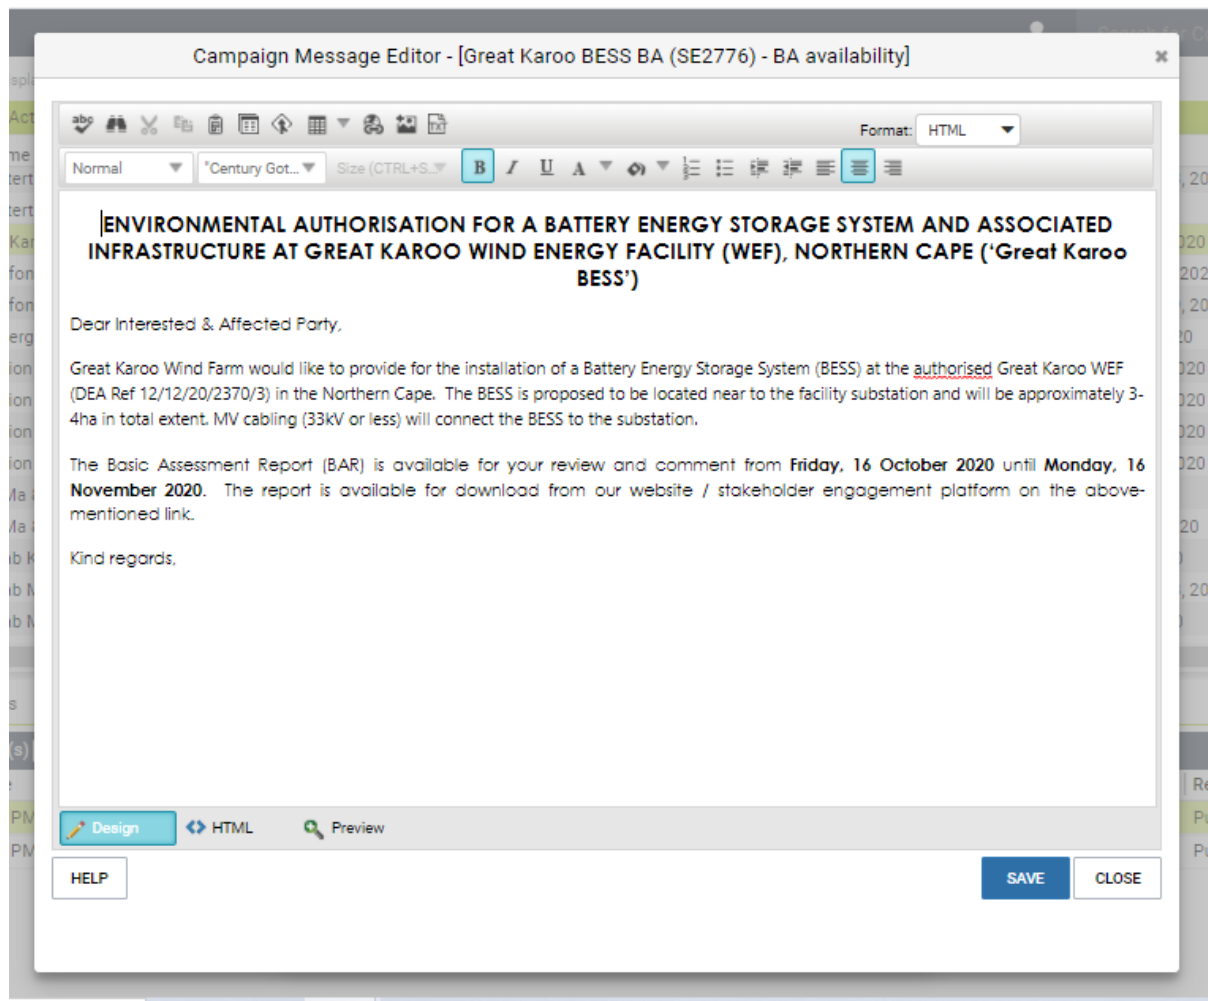

Kind regards

A handwritten signature in black ink, appearing to read 'Nicolene'.

16 October 2020

Dear Stakeholder,

BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

ENVIRONMENTAL AUTHORISATION FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT GREAT KAROO WIND ENERGY FACILITY (WEF), NORTHERN CAPE ('Great Karoo BESS')

NOTIFICATION OF BASIC ASSESSMENT AND PUBLIC PARTICIPATION PROCESS

Great Karoo Wind Farm would like to provide for the installation of a Battery Energy Storage System (BESS) at the authorised Great Karoo Wind Energy Facility (WEF) (DEA Ref: 12/12/20/2370/3) in the Northern Cape Province. The BESS is proposed to be located near the WEF substation and will be up to 4ha in total extent. MV cabling (33kV or less) will connect the BESS to the substation.

An access road to the BESS of up to 8m in width will be developed. The BESS is envisaged to become an integral component of the authorised WEF which is located on Farm Kentucky 206, Sutherland.

The proposed BESS project will consist of:

- A Battery Energy Storage System (BESS) inside containers or similar housing structures with a footprint of up to 4ha in extent.
- Access road to the BESS (which will branch off the WEF roads to the BESS)
- Medium Voltage cabling (above ground or overhead) between the BESS and substation.
- Fencing around the BESS.
- Possible firebreak (i.e. vegetation trimmed low) or 4m wide road around the BESS, inside the fencing.
- 4ha laydown area within the BESS footprint.

An area of ~500m around the boundary of the WEF substation (assessment area) was assessed, to allow for the optimization of the placement of the BESS anywhere within this assessment area. This assessment area allows for the assessment of several location alternatives for the BESS and owing to the continuously advancing and emerging BESS technologies, there are several alternatives that can be considered for the BESS technology

BASIC ASSESSMENT PROCESS

The proposed developments are subject to the requirements of the Environmental Impact Assessment (EIA) Regulations of 2014 published in terms of Section 24(5) of NEMA. In terms of the EIA Regulations of 2014, as amended, and promulgated under Sections 24 and 24D of the NEMA, various aspects of the project are listed as activities that may have an impact on the environment. Due to the triggering of GNR 327, Listing Notice 1, Activities 12, 14, 19,27(ii) and 28 and GNR 324, Listing Notice 3, Activities 4(g)(ii)(ee), 10(g)(iii)(ee), 12(g)(ii) and 14(ii)(a)(c)(g)(ii)(ff) amongst others, of the EIA Regulations 2014 (as amended), a Basic Assessment process must be undertaken in order to obtain Environmental Authorisation for the construction and operation of the Great Karoo BESS for the Great Karoo Wind Farm.

Savannah Environmental was appointed as the independent environmental consultant to undertake the Basic Assessment and public participation process for the project to identify and assess all potential environmental impacts associated with the proposed upgrades and recommend appropriate mitigation measures in the Environmental Management Programme (EMPr).

PUBLIC INVOLVEMENT PROCESS

The public participation (PP) process will be undertaken in accordance with the requirements of Regulations 39 to 44 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, (GNR 326). The aim of the public participation process is primarily to ensure that:

- » information containing all relevant facts in respect of the proposed project is made available to potential stakeholders and I&APs
- » participation by I&APs is facilitated in such a manner that all potential stakeholders and I&APs are provided with a reasonable opportunity to comment on the proposed project; and
- » comments received from potential stakeholders and I&APs are recorded and incorporated into the EIA process.

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster limiting the movement and gathering of people to curb the spread of the COVID-19 virus has placed some limitations on how public consultation can be conducted as part of a BA process. The consultation process for these projects has been designed considering these limitations, and the implementation is in line with our public participation plan (PP Plan), as approved by the Department of Environmental Affairs (DEA). Our PP Plan is in compliance with the Department of Environment, Forestry and Fisheries (DEFF) Directions issued on the 5th of June 2020. One of our approved consultation methods is for you to visit our online stakeholder engagement platform, register your interest in the project/s, and view project documentation: visit <https://www.savannahsa.com/public-documents/energy-generation/great-karoo-bess/>.

Alternative means of undertaking consultation have been designed to ensure that I&APs are afforded sufficient opportunity to raise comments on the project, predominately through an interactive web-based platform readily available and accessible to any person with interest in the project, enabling the public participation process to be undertaken in line with Regulations 41 to 44

of the EIA Regulations, 2014, as amended. This online stakeholder engagement platform allows the EAP to visually present details regarding the project and our consultation documentation, including project maps and plans, presentations and posters regarding the project, and reports available for review. The use of online tools enables stakeholders and I&APs to explore the project-specific content in their own time, and allows participation in the consultation process in a meaningful way. The online platform allows for instant feedback and comments to be submitted, in so doing saving time for the stakeholder and also giving the assurance that their comments have been submitted for inclusion in the project reporting.

You and/or the organization / company, which you represent, has been identified as an Interested and Affected Party (I&AP) for the proposed project as described above. Should you have an interest in the project, please register yourself as an I&AP by completing and returning the attached registration and comment form. By registering on the project database, you will be kept informed of the BA process being undertaken for the project and will be provided with an opportunity to provide comment and input.

AVAILABILITY OF BASIC ASSESSMENT REPORTS FOR REVIEW AND COMMENT

The Basic Assessment Report (BAR) is available for your review and comment from **Friday, 16 October 2020** until **Monday, 16 November 2020**. The report is available for download from our website / stakeholder engagement platform on the above-mentioned link.

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster limiting the movement and gathering of people to curb the spread of the COVID-19 virus has placed some limitations on making hard copies of the BAR available at public places such as libraries and municipal offices. As per our approved public participation plan submitted to the Department of Environment, Forestry and Fisheries (DEFF), you can also request that an electronic copy of the BAR be send to you via file transfer services such as WeTransfer or Dropbox or a compact disk (CD).

Please submit your written comments on the BAR to us by latest **Monday, 16 November 2020** via our website / stakeholder engagement platform (link provided above) or via:

- Telephone: 011 656 3237
- Mobile: 060 978 8396 (including messages and *please call me* notification)
- Fax: 086 684 0547
- Post: PO Box 148, Sunninghill, 2157
- E-mail: publicprocess@savannahsa.com

to Nicolene Venter or Ronald Baloyi.

All comments received during the 30-day review and comment period will be recorded and included in the Final BAR for submission to the DEFF in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

A handwritten signature in black ink, appearing to read 'Nicolene'.

Subject: GUNSTFONTEIN BESS: Notification of availability of Basic Assessment Report for review and Comment

Body:

ENVIRONMENTAL AUTHORISATION FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT GUNSTFONTEIN WIND ENERGY FACILITY, NORTHERN CAPE ('Gunstfontein BESS')

Dear Key Stakeholder,

Gunstfontein Wind Farm (Pty) Ltd would like to provide for the installation of a Battery Energy Storage System (BESS) at the authorised Gunstfontein Wind Energy Facility (WEF) (DEA Ref 14/12/16/3/3/2/826) in the Northern Cape Province. The BESS is proposed to be located near to the WEF substation and will be up to 4ha in total extent. MV cabling (33kV or less) will connect the BESS to the substation. An access road to the BESS of up 8m in width will be developed. The BESS is envisaged to become an integral component of the authorised Gunstfontein WEF which is located on the remainder of Farm Gunstfontein 131, near Sutherland.

The Basic Assessment Report (BAR) is available for your review and comment from Friday, 15 October 2020 until Monday, 16 November 2020. The report is available for download from our website / stakeholder engagement platform.

Kind regards,

--

Dear Key Stakeholders,

Great Karoo Wind Farm would like to provide for the installation of a Battery Energy Storage System (BESS) at the authorised Great Karoo WEF (DEA Ref 12/12/20/2370/3) in the Northern Cape. The BESS is proposed to be located near to the facility substation and will be approximately 3-4ha in total extent. MV cabling (33kV or less) will connect the BESS to the substation.

The Basic Assessment Report (BAR) is available for your review and comment from Friday, 16 October 2020 until Monday, 16 November 2020. The report is available for download from our website / stakeholder engagement platform on the above-mentioned link.

Kind regards,

--

Great Karoo Wind Energy Facility

NOTICE OF BASIC ASSESMENT AND PUBLIC PARTICIPATION PROCESS FOR FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT GREAT KAROO WIND ENERGY FACILITY, NORTHERN CAPE ('Great Karoo BESS')

Project Name	Applicant
Battery Energy Storage System and Associated Infrastructure for the Great Karoo Wind Energy Facility, Northern Cape Province	Great Karoo Wind Farm (Pty) Ltd

Project details: Great Karoo Wind Farm would like to provide for the installation of a Battery Energy Storage System (BESS) at the authorised Great Karoo WEF (DEA Ref 12/12/20/2370/3) in the Northern Cape. The BESS is proposed to be located near to the facility substation and will be approximately 3-4ha in total extent. MV cabling (33kV or less) will connect the BESS to the substation.

An access road to the BESS will be developed. The BESS is envisaged to become an integral component of the authorised WEF which is located on Farm Kentucky 206, Sutherland.

The proposed BESS project will consist of:

- Access road to the BESS (will branch off the WEF roads to the BESS).
- Medium Voltage cabling (above ground or overhead) between the BESS and substation.
- Fencing around the BESS.
- Possible firebreak (i.e. vegetation trimmed low) or 4m wide road around the BESS, inside the fencing.
- 4ha Laydown Area.

Project Location: The proposed BESS and associated infrastructure is located on one (1) affected property, namely:

Farm Kentucky 206, Sutherland, Northern Cape

Basic Assessment Process: In terms of Sections 24 and 24D of NEMA, as read with the EIA Regulations 2014 of GNR 324 - R327, a Basic Assessment process is required to obtain Environmental Authorisation for the proposed project. An application for Environmental Authorisation for the project has been lodged with the Department of Environmental Affairs (DEA), as the competent authority. Savannah Environmental is undertaking the required basic assessment and public participation process.

Basic Assessment Report available for Review: The Basic Assessment Report is available for review and comment. The 30-day review and comment period of the BA Report is from **Friday, 16 October 2020** until **Monday, 16 November 2020**. The report is also available for download on www.savannahsa.com/projects. The due date for written comment is **Monday, 16 October 2020**.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project in writing to:

Nicolene Venter or Ronald Baloyi at Savannah Environmental

Good day Ms Venter,

I see on the Savannah website that these two project's BA reports are available for public review. If so, please may I have access to them?

I have been registered as an I&AP for both.

Kind regards,
Zakiya

Dear Ms Venter,

I trust you are well.

Please may I request the Basic Assessment Reports for the following projects:

- Battery Energy Storage System and Associated Infrastructure for the **Great Karoo Wind Energy Facility**, Northern Cape Province
- Battery Energy Storage System and Associated Infrastructure for the **Gunstfontein Wind Energy Facility**, Northern Cape Province

And may I, (abrahams@wkn-windcurrent.com), please register as an I&AP for the two projects listed above.

Many thanks, your assistance is much appreciated

Kind regards,
Zakiya Abrahams

Dear Abrie,

No problem, as requested, herewith the link to the project documents <https://www.savannahsa.com/public-documents/energy-generation/great-karoo-bess/> and the release code is **6x(CrF)**

Attached is the .KMZ which shows the 500m assessment zone within which the Battery Energy Storage System facility will be placed. It is near the town of Sutherland.

Please note that the release code is provided in the notification letter attached to our e-mail.

Please do not hesitate should you require any additional information.

Kind regards,

Hi

No actual link from where to download is provided in the e-mail.

Can you at least indicate the location of the proposed facility?

Thanks

Subject: GREAT KAROO GRID CONNECTION: Notification of Availability of Basic Assessment Report for review and comment

GRID CONNECTION INFRASTRUCTURE, INCLUDING 132KV OVERHEAD POWERLINE, SWITCHING STATION AND ANCILLARIES, FOR THE GREAT KAROO WIND FARM, NORTHERN CAPE

Dear Armandt,

Great Karoo Wind Farm (Pty) Ltd proposes the construction and operation of grid connection infrastructure required to connect and evacuate the generated power of the authorised Great Karoo Wind Farm to the national electricity grid. The project is located ~44km south of Sutherland and ~50km north of Matjiesfontein within the Northern Cape Province and falls within the Namakwa District Municipality and the Karoo Hoogland Local Municipality. The respective applicants are also proposing a change in the description included in the EA for each on-site substation. The change relates to the addition of collector infrastructure as part of the authorised on-site substation and within the authorised footprint of the substation.

Savannah Environmental was requested by Mr Gielie Hanekom that BioTherm be informed of the Great Karoo Grid Connection project as he informed us further that you are the relevant BioTherm representative to be notified that the Basic Assessment Report is available for your review and comment from Tuesday, 03 November 2020 until Thursday, 03 December 2020 and can be downloaded from our online stakeholder engagement platform at <https://www.savannahsa.com/public-documents/grid-infrastructure/great-karoo-wef-grid-connection/>. The release code to download the public documents is: **9Q%+ec**

The attached notification letter also provides further details regarding the availability of the Basic Assessment Report as well as the Registration and Comment Form.

Kind regards,

SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015

From: Savannah Public Process
Sent: Friday, October 4, 2019 1:05 PM
To: Nicolene Venter <nicolene@savannahsa.com>; Ronald Baloyi <Ronald@savannahsa.com>
Subject: GREAT KAROO WEF: Notification of Amendment of Environmental Authorisation Issued

AMENDMENT OF THE ENVIRONMENTAL AUTHORISATION FOR THE PROPOSED 140 MEGAWATTS GREAT KAROO WIND FARM (PHASE 3) AND ITS ASSOCIATED INFRASTRUCTURE ON THE FARM KENTUCKY 206 AND PORTION 1 (WELGEMOED) OF THE FARM WOLVENKOP 207 WITHIN THE KAROO HOOGLAND LOCAL MUNICIPALITY IN THE NORTHERN CAPE PROVINCE

(DEA Ref.: DEA Ref.: 12/12/20/2370/3/AM3)

Dear Stakeholders and Interested and Affected Parties,

Great Karoo Wind Farm (Pty) Ltd submitted an application for Amendment to the Environmental Authorisation (EA) issued on 12 August 2014, the first amendment to the EA dated 25 July 2016 and the second amendment to the EA on 05 May 2017 to the Department of Environment, Forestry and Fisheries (DEFF) (previously the Department of Environmental Affairs (DEA)), for the proposed 140 Megawatts Great Karoo Wind Farm (phase 3) and its associated infrastructure on the Farm Kentucky 206 and portion 1 (Welgemoed) of the Farm Wolvenkop 207 within the Karoo Hoogland Local Municipality, Northern Cape Province.

The applicant hereby notifies all registered interested and affected parties, as instructed by the decision issued by the Department on 19 September 2019, and in terms of Regulation 4(2) of the Environmental Impact Assessment Regulations, 2014, as amended, of the outcome of the application for an Amendment to the EA.

Please refer to the attached Notification Letter and copy of the Environmental Authorisation for further information.

Also attached please find copies of the National Appeal Regulations 2014 and the National Appeal Amendment Regulations, 2015.

Kind regards,

Subject: Great Karoo Wind Farm: Extension of Grid Connection - Notification of Basic Assessment (BA) Process & BA Report availability

ENVIRONMENTAL AUTHORISATION FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT GREAT KAROO WIND ENERGY FACILITY (WEF), NORTHERN CAPE ('Great Karoo BESS')

Dear Shaun,

Great Karoo Wind Farm would like to provide for the installation of a Battery Energy Storage System (BESS) at the authorised Great Karoo WEF (DEA Ref 12/12/20/2370/3) in the Northern Cape. The BESS is proposed to be located near to the facility substation and will be approximately 3-4ha in total extent. MV cabling (33kV or less) will connect the BESS to the substation.

The Basic Assessment Report (BAR) is available for your review and comment from Friday, 16 October 2020 until Monday, 16 November 2020. The report is available for download from our website / stakeholder engagement platform on: <https://www.savannahsa.com/public-documents/energy-generation/great-karoo-bess/> and the release code is: 6x{CrF

Body:

ENVIRONMENTAL AUTHORISATION FOR A BATTERY ENERGY STORAGE SYSTEM AND ASSOCIATED INFRASTRUCTURE AT GUNSTFONTEIN WIND ENERGY FACILITY, NORTHERN CAPE ('Gunstfontein BESS')

Dear Shaun,

Gunstfontein Wind Farm (Pty) Ltd would like to provide for the installation of a Battery Energy Storage System (BESS) at the authorised Gunstfontein Wind Energy Facility (WEF) (DEA Ref 14/12/16/3/3/2/826) in the Northern Cape Province. The BESS is proposed to be located near to the WEF substation and will be up to 4ha in total extent. MV cabling (33kV or less) will connect the BESS to the substation. An access road to the BESS of up 8m in width will be developed. The BESS is envisaged to become an integral component of the authorised Gunstfontein WEF which is located on the remainder of Farm Gunstfontein 131, near Sutherland.

The Basic Assessment Report (BAR) is available for your review and comment from Friday, 15 October 2020 until Monday, 16 November 2020. The report is available for download from our website / stakeholder engagement platform on: <https://www.savannahsa.com/public-documents/energy-generation/gunstfontein-wind-energy-facility/> and the release code is: q9'wHP.
