ENVIRONMENTAL

To:	Department of Mineral Resources - Mpumalanga	Date:	13 November 2020
From:	Xan Taylor	Proj #:	MP30/5/1/2/51MR
RE:	Exxaro Coal Central (Pty) Ltd Public Participation Plan - Dorstfontein East Coal Mine		

The Exxaro Coal Central (Pty) Ltd (Exxaro) Dorstfontein Coal Mine East (DCME) Expansion Project with Mining Right MP30/5/1/2/51MR as reference.

Digby Wells Environmental has been appointed by Exxaro as an independent Environmental Assessment Practitioner (EAP) to conduct an environmental regulatory process which includes an Environmental Authorisation Application, a Scoping and Environmental Impact Assessment (S&EIA) process as promulgated under the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA).

The Covid-19 Regulations, (Directions Regarding Measures to Address, Prevent and Combat the Spread of Covid-19) relating to National Environmental Management Permits and Licences (GN R 650 of 5 June 2020) have been considered for this application process. In accordance with Annexure 3 of GN R 650, an applicant is required to submit a Public Participation Plan which is to be approved by the Competent Authority prior to public participation commencing.

Digby Wells hereby submits the Public Participation Plan for the proposed DCME Expansion Project, for your comment and approval.

Regards,

Xan Taylor

Environmental Consultant

2 COVID-19 Measures during Face-to-face Meetings

The following provides further detail to meeting conduct, should the Department of Mineral Resources and Energy approve this plan.

Avoid large gatherings:

- No gatherings of 50+ people will be held. All Focus Group Meetings will comprise of 15 people or less.
- Participants will be confirmed by invitation only.

Wearing of cloth face-masks:

- Mandatory wearing of face masks by all participants incl. Consultants.
- Universal Coal will provide face masks for participants.
- Both Consultants and Community members have right to refuse to participate if someone is refusing to wear a mask.

Maintenance of Social distancing:

- Consultants and community members will be seated 2m apart in all Focus Group Meetings.
- Meetings will mostly be held outside; when possible; if inside, DWE will ensure that there is adequate ventilation.

Hand washing and sanitising:

- Hand sanitisers will be provided in all meetings.
- DWE and Universal Coal will provide hand sanitisers at the entrance of the venue.

Regular cleaning of shared surfaces and equipment:

- Consultants will sanitise and clean chairs and tables in the venue regularly.
- There will be a designated rubbish bin in the meeting venue to collect all waste generated. All waste will be handled and treated as hazardous waste.

ENVIRONMENTAL REGULATORY PROCESS REQUIRED FOR THE PROPOSED DORTSFONTEIN EAST COAL MINE EXPANSION, NORTH-EAST OF KRIEL, EMALAHLENI AND GOVAN MBEKI LOCAL MUNICIPALITIES, GERT SIBANDE AND NKANGALA DISTRICT MUNICIPALITIES, MPUMALANGA PROVINCE

Exxaro Coal Central (Pty) Ltd (ECC) operates four mines namely Forzando North Mine, Forzando South Mine, Dorstfontein West Mine, and Dorstfontein East Mine. Dorstfontein East Coal Mine (DECM), the subject of this application, is the only opencast mine while the rest of the operations are all underground mines. DECM is also approved to undertake underground mining of deeper coal reserves.

The current DECM underground mining operation is approved as part of the existing Environmental Management Programme (EMP) (Reference Number: MP 30/5/1/2/3/2/1 (51) MR). Subsequently, additional coal reserves have been identified for mining which are not covered under the existing EMP. ECC therefore intends to further extend the Life-of-Mine of the DECM through the exploitation of these identified additional coal reserves. ECC will utilise underground mining methods to access the coal reserves and access will be through the existing Pit 2 Open Cast Operation. The project also includes additional new surface infrastructure, that will support the proposed underground mining operations.

ECC appointed Digby Wells Environmental (Digby Wells) to independently facilitate the environmental-legal applications relevant to the proposed Project. Digby Wells will undertake an Environmental Authorisation Application comprising a Scoping and Environmental Impact Assessment (EIA) process and Water Use Licence Application (WULA) to comply with the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA); and the National Water Act, 1998 (Act No. 36 of 1998) (NWA).

Digby Wells hereby informs Interested and Affected parties (I&APs) that the Draft Scoping Report will be available for public comment for a 30-day legislated period. ***Due to the COVID-19 national lock down, the Draft Scoping Report will be released electronically. To access the report (free of charge/ data-free); please click on the following link <http://view.datafree.co/PublicDocuments/> or copy the link onto your URL to download the Report for your review and comment from Friday 13 November 2020 to Monday 14 December 2020.***

NOTICE OF BASIC ASSESSMENT PROCESS & PUBLIC PARTICIPATION PROCESS

DEVELOPMENT OF A WASTE RECOVERY PLANT AT HIGHVELD STEEL NEAR WITBANK, MPUMALANGA PROVINCE

Applicant: Anglo African Metals (Pty) Ltd

Proposed Activity: The development of a waste recovery plant and associated infrastructure for the extraction of valuable minerals from mining ore and waste materials from a tailings/slag resource.

Location: Portion 48 of Farm No. 309, approximately 17 km west of eMalahleni town in the eMalahleni Local Municipality (LM) within the Nkangala District Municipality (DM) in Mpumalanga

Impact Assessment Process: An Integrated Application for Environmental Authorisation (EA) in terms of the National Environmental Management Act (No. 107 of 1998) (NEMA) and a Waste Management License (WML) in terms of the National Environmental Management: Waste Act (No. 59 of 2009) is being undertaken for the project. A full Scoping and Environmental Impact Assessment (S&EIA) process is required in support of this application process. The S&EIA process will also support the future application for an Atmospheric Emission License (AEL) in terms of the National Environmental Management: Air Quality Act (No. 39 of 2004) (NEM:QA). Savannah Environmental is undertaking the required EIA and public participation process for the project.

Scoping Report Available for Review: A Scoping Report is available for review and comment. The report is available for download, view and comment on Savannah Environmental's website at: <https://www.savannahsa.com/public-documents/other/>. The 30-day review and comment period of the report is from **Friday, 13 November 2020 until Monday, 14 December 2020**. The due date for written comment is **Monday, 14 December 2020**.

Public Participation Process: Savannah Environmental (Pty) Ltd has been appointed as the independent environmental consultant responsible for undertaking the EIA and Public Participation process in support of this application for EA. To obtain further information on the project and to register on the project database, please submit your name, contact information and interest in the project as per the details below.

Consultation Meetings: Consultation meetings will be held with relevant I&APs and stakeholders via an appropriate forum during the review period. Should you wish to be included in these meetings or receive further information on the project please contact us as per the details below

- Date of original publication of advertisement in name of Newspaper Date Witbank news

Should you wish to be identified as an interested and/or affected party please submit your name, contact information and interest in the matter to the contact persons given above by the end of 11 December 2020.

GLENCORE

GOEDGEVONDEN COLLIERY JOINT VENTURE: ENVIRONMENTAL AUTHORISATION AND WATER USE LICENCE APPLICATIONS ASSOCIATED WITH THE PROPOSED SOUTH WITBANK PIPELINE NEAR OGIES IN THE MPUMALANGA PROVINCE

INVITATION TO REGISTER AS INTERESTED AND AFFECTED PARTY, AND TO COMMENT ON THE DRAFT BASIC ASSESSMENT REPORT AND EMPR

Notice is hereby given that Glencore Operations South Africa (Pty) Ltd (GOSA), particularly its Goedgevonden Colliery (GGV) Joint Venture (JV), is applying for an environmental authorisation (EA) and a water use licence (WUL) for pumping mine affected water from GGV to the South Witbank Colliery (SWC) (Tweefontein South) underground workings via a pipeline for storage and treatment.

GGV is an existing coal mining operation situated in the west of the Nkangala District, approximately 50 km south-west of eMalahleni (Witbank). The town of Ogies is situated directly north of GGV.

The total remaining storage capacity for excess mine affected water at GGV has severely decreased. The recent water balance at GGV has predicted the overall storage capacity moving towards negative if GGV does not implement an alternative solution. The proposed solution is to pump excess water stored in the existing return water dam at the tailings storage facility through a new pipeline to the SWC (Tweefontein South) underground workings for storage and treatment.

The pipeline will be buried, approximately 12 km long and follow existing roads. The proposed pipeline will require an EA in terms of the Environmental Impact Assessment (EIA) Regulations (GN R. 326) published under the National Environmental Management Act, 1998 (Act 107 of 1998) (as amended) (NEMA). The application will need to be supported by a Basic Assessment (BA) process in terms of GN R.326. The competent authority for the BA process is the Department of Mineral Resources and Energy (DMRE).

Since the proposed pipeline will cross a watercourse(s), an application for a WUL in terms of the National Water Act, 1998 (Act 36 of 1998) (NWA) will also be required. The WUL application will be submitted to the Department of Water and Sanitation (DWS).

GGV JV has appointed Golder Associates Africa (Pty) Ltd (Golder), an independent environmental assessment practitioner (EAP), to conduct the EA and WUL application processes.

PUBLIC COMMENT INVITED

We would like to draw I&APs' attention to the following comment periods:

- Draft Basic Assessment Report: **13 November to 14 December 2020** (30-day comment period).
- Water Use Licence Application: **13 November 2020 to 04 February 2021** (60-day comment period).

Printed copies of the draft BA Report are available at the public places listed below. The background information letter and draft report can be downloaded from the following website: <https://www.golder.com/global-locations/africa/south-africa-public-documents/>.

NOTIFICATION ON THE ENVIRONMENTAL REGULATORY PROCESS REQUIRED FOR THE PROPOSED DORTSFONTEIN EAST COAL MINE EXPANSION, NORTH-EAST OF KRIEL, EMALAHLENI AND GOVAN MBEKI LOCAL MUNICIPALITIES, MPUMALANGA PROVINCE

Exxaro Coal Central (Pty) Ltd

Dear Stakeholders and Interested and Affected Parties,

1 Introduction

Exxaro Coal Central (Pty) Ltd (ECC) operates four mines namely Forzando North, Forzando South, Dorstfontein West Mine, and Dorstfontein East Mine. Dorstfontein East Coal Mine (DECM), the subject of this application, is the only opencast mine while the rest of the operations are all underground mines. DECM is also approved to undertake underground mining of deeper coal reserves. The current DECM underground mining operation is approved as part of the existing Environmental Management Programme (EMP) (Reference Number: MP 30/5/1/2/3/2/1 (51) MR). Subsequently, additional coal reserves have been identified for mining which are not covered under the existing EMP. ECC therefore intends to further extend the Life-of-Mine of the DECM through the exploitation of these identified additional coal reserves. ECC will utilise underground mining methods to access the coal reserves and access will be through the existing Pit 2 Open Cast Operation. The project also includes additional new surface infrastructure, that will support the proposed underground mining operations.

The proposed Project is located within the Mpumalanga Province across two district municipalities, Gert Sibande and Nkangala, two local municipalities, Govan Mbeki and Emalahleni, and two wards, Ward 15 (Govan Mbeki) and Ward 25 (Emalahleni). The jurisdiction location is listed in Table 1-1 below.

2 Environmental Authorisation Process

ECC appointed Digby Wells Environmental (hereinafter Digby Wells) to independently facilitate the environmental-legal applications relevant to the proposed Project. Digby Wells will undertake an Integrated Environmental Authorisation Application comprising a Scoping and Environmental Impact Assessment (EIA) process and Integrated Water Use Licence Application (IWULA) to comply with the:

- National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA); and
- National Water Act, 1998 (Act No. 36 of 1998) (NWA).

3 Background Information

ECC has an approved EMP and IWUL for the current DECM operation, the proposed expansion will require amendment and consolidation process to be undertaken. An amendment and consolidated process will ensure that ECC incorporates all current and future proposed activities associated for the DECM operation.

4 Public Participation Process

The National South African Regulatory Framework requires a Public Participation Process be undertaken as part of an Environmental Authorisation application. A Public Participation Process involves notifying stakeholders of the proposed Project and providing Interested and Affected Parties (I&APs) with sufficient information to enable effective engagement.

The Public Participation Process must satisfy the requirements of Regulations 40 through 44 of the NEMA Environmental Impact Assessment (EIA) Regulations, 2014 (GN R 982 of 4 December 2014 as amended by GN R326 of 7 April 2017) (EIA Regulations, 2014), as amended promulgated under the NEMA.

This letter serves to inform you as a potential I&AP of the proposed Project, the associated Environmental Authorisation process and the availability of the Draft Scoping Report for public review. All I&APS are invited to register as a stakeholder.

The Draft Scoping Report will be available for public comments from **Friday 13 November 2020 to Monday 14 December 2020** for a 30-day legislated commenting period. A copy of the DSR may be accessed (by appointment) at the Dorstfontein East Mine, Dorstfontein West Mine and another at the Kriel Public Library. ***Due to the COVID-19 national lockdown, the DSR will also be released electronically. To access the report (free of charge/ data-free); please click on the following link <http://view.datafree.co/PublicDocuments/> or copy the link onto your URL to download the Report for your review and comment. I&APs can obtain a copy of the DSR from the platforms presented in Table 4-1.***

5 Public Meeting Notification

Digby Wells and ECC will host Focus Group meetings at the DECM to discuss the contents of the Draft Scoping Report and obtain I&APs comments. On-site meetings will be limited to 13 attendees to facilitate social distancing in the meeting venue and comply with the COVID-19 Regulations. Meetings will be divided into several sessions if the number of attendees is expected to exceed the venue limit. The details pertaining to the meeting will be provided in due course to all I&APs.

Please complete and return the attached registration and comment form to Digby Wells if you wish to register as a stakeholder, as well as indicate your interest in receiving further information regarding the Environmental Authorisation process. Your comments and feedback are highly valued.

You may direct any queries please via the following contact details:

Telephone: 011 789 9495
Fax: 011 069 6801

1. Purpose of this Document

The purpose of this document is to provide all Interested and Affected Parties (I&APs) with information relevant to the proposed Exxaro Coal Central (Pty) Ltd (ECC) Dorstfontein East Coal Mine Expansion (“the Project”) in Ward 15 (Govan Mbeki) and Ward 25 (Emalahleni) Local Municipality, Mpumalanga Province, as well as the required Environmental Authorisation application process. This document aims to:

- Provide a description of the proposed Project;
- Provide an overview of the required regulatory processes;
- Provide details in terms of the regulated Public Participation Process; and
- Invite all I&APs to register as stakeholders, provide comment, raise issues or concerns, and provide suggestions for the enhanced benefit of the Project.

2. Introduction to the Project & Project Location

ECC operates four mines namely Forzando North Mine, Forzando South Mine, Dorstfontein West Mine, and Dorstfontein East Mine. Dorstfontein East Coal Mine (DECM), the subject of this application, is the only opencast mine while the rest of the operations are all underground mines. DECM is also approved to undertake underground mining of deeper coal reserves.

DECM is in possession of the following environmental related authorisations opencast and underground mining related activities:

- Environmental Management Programme (EMP) in terms of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) (MPRDA) dated 2009;
- Notification of Intent to Develop (NID) in accordance with Section 38(1) of the Heritage Resource Management (HRM) process in accordance with the National Heritage Resources Act, 1999 (Act No. 25 of 1999) (NHRA);
- EA for listed activities in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA) associated with the Pit 1 Extension and Water Transportation Pipeline Project dated 2017 (Reference no. MP 30/5/1/2/3/2/1 (51) (EM)) issued by the Mpumalanga Department of Mineral Resources;
- Environmental Authorisation (EA) for construction of a conveyor and railway loop (Reference no. 17/2/2/2 NK-7) issued on 9 November 2009 by the Mpumalanga Department of Agriculture and Land Management;
- EA for listed activities in terms of the NEMA associated with diesel storage tanks (EA Reference no. 17/2/3 N-19) issued in 19 May 2011 by the Mpumalanga Department of Economic Development, Environment and Tourism; and
- IWUL for the water use related activities in terms of the National Water Act, 1998 (Act No. 36 of 1998) (NWA) dated September 2019 (Licence no. 06/B11B/ACIJ/9138).

As the Dorstfontein East Mine has an approved EMP and IWUL for the current operations, the proposed expansion will require an alignment process to be undertaken to consolidate the EMPs. An alignment process will ensure that ECC Mining incorporates all current and future proposed activities associated with the DECM operation. The EIA Phase of this project will align the EMPs (as listed above) issued to DECM to produce one operational EMP for the entire Dorstfontein East Mining Right Area.

The Project is located within the Mpumalanga Province across two district municipalities, Gert Sibande and Nkangala, two local municipalities, Govan Mbeki and Emalahleni, and two wards, Ward 15 (Govan Mbeki) and Ward 25 (Emalahleni). Table 2-1 below indicates the jurisdiction location:

Table 2-1: Geographic Location of Proposed Project

Province	Mpumalanga	
District Municipality	Gert Sibande	Nkangala
Local Municipality	Govan Mbeki	Emalahleni
Ward	15	25

The nearest town is Ga-Nala (formerly Kriel), approximately 8 km from the Project site, and the nearest settlement is Thubelihle, approximately 5 km from the Project site, as shown in Figure 2-1. Landowners and occupiers of farm portions adjacent to the primary study area are within the Govan Mbeki and Emalahleni local municipal areas

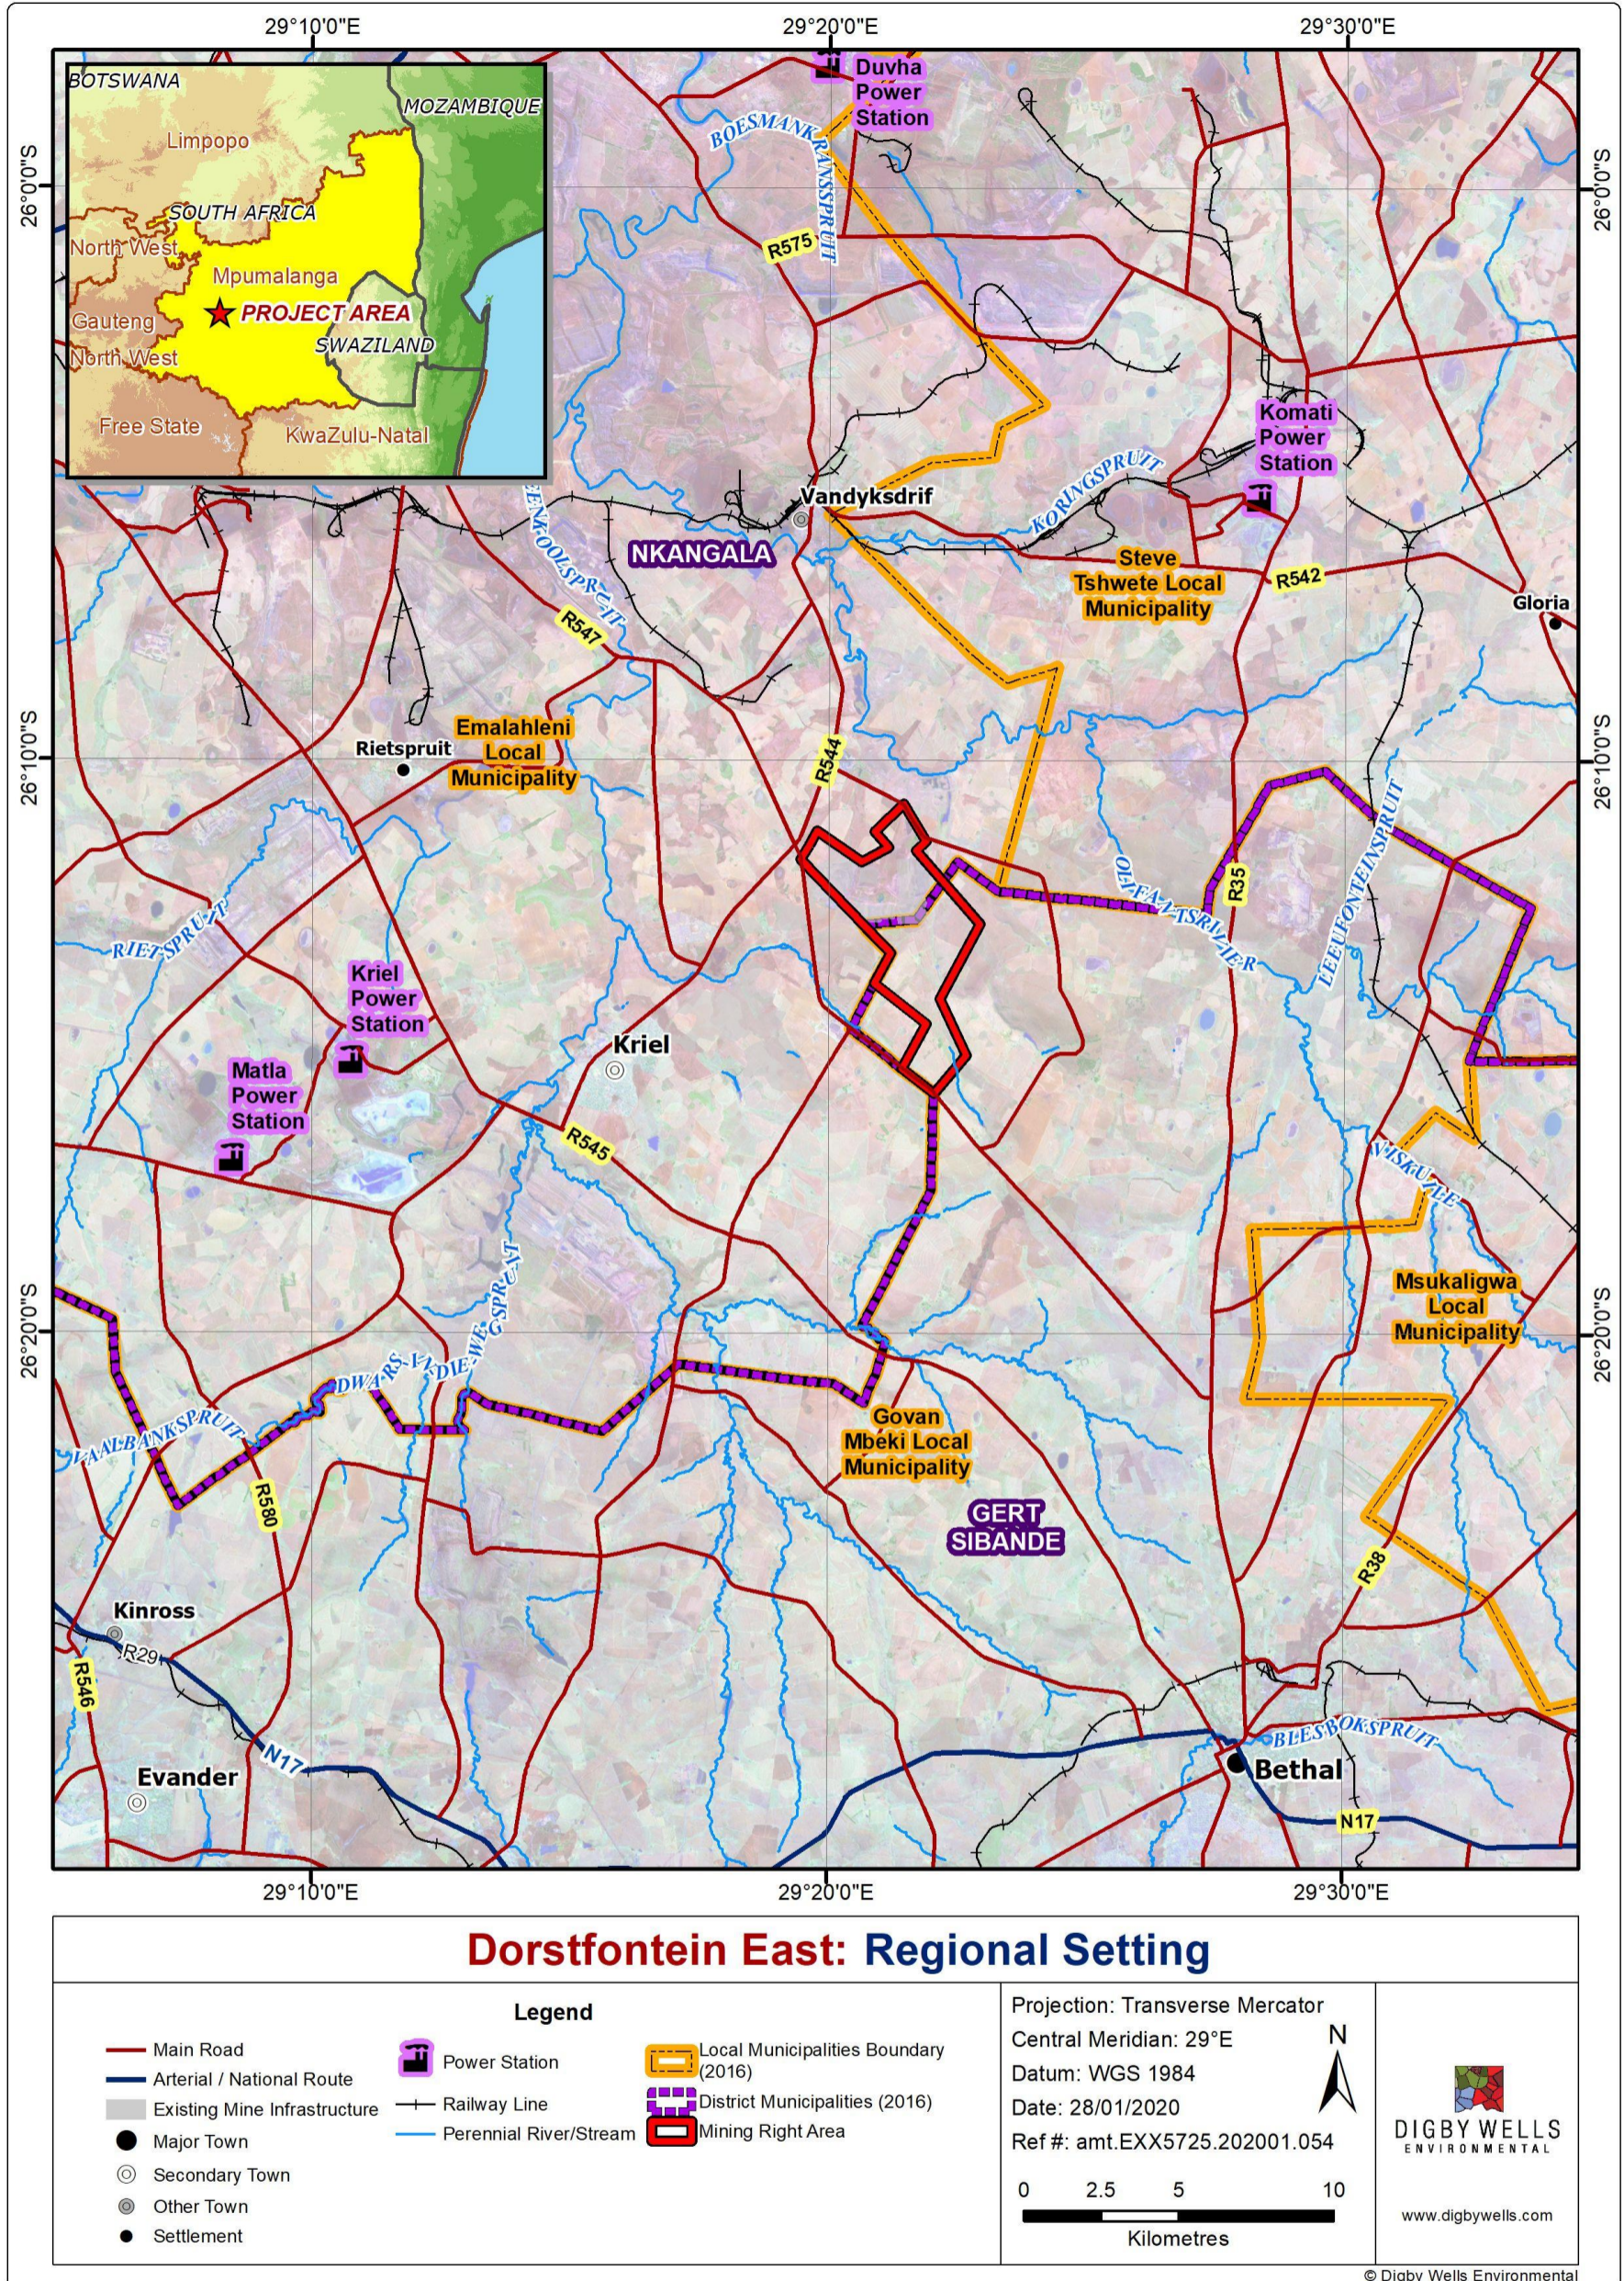

Figure 2-1: Regional Map for the Proposed DECM Project

3. Project Description

Additional coal reserves have been identified underground at DECM for mining which are not covered under the existing approval. ECC Mining therefore intends to further extend the Life-of-Mine of the DECM through the exploitation of these identified additional coal reserves. ECC will utilise underground mining methods to access the coal reserves and access will be through the existing Pit 2 Open Cast Operation. The project also includes additional new surface infrastructure, that will support the proposed underground mining operations. The underground mining operation was approved as part of the existing EMPr (Reference Number: MP 30/5/1/2/3/2/1 (51) MR).

The following additional infrastructure has been planned and requires approval:

- Sewage Treatment Plant;
- Water Treatment Plant;
- Potable Water storage tank);
- Erikson dam;
- A new 22 kV overhead powerline from the existing substation to a new 11kV substation;
- ROM Stockpile conveyor at portal;
- Portal Ventilation fan;
- Sewer and water management;
- Change house;
- Lamp room;
- Office;
- Workshop area; and
- Stone dust silo.

4. Environmental Authorisation Process

To attain the relevant licenses and permits from competent authorities; ECC Mining has appointed Digby Wells Environmental, an independent environmental consultancy, to facilitate the environmental-legal applications relevant to the proposed project. These will include:

- Environmental Authorisation application in terms of the Environmental Impact Assessment in terms of the National Environmental Management Act, 1998 (Act No. 107 of 1998) (NEMA); and
- IWULA in terms of the National Water Act, 1998 (Act No. 36 of 1998) (NWA).

5. Public Participation Process

The PPP has been initiated with the purpose of sharing project information and gathering comments from stakeholders. Stakeholders are hereby invited to register as I&APs and to submit their comments regarding the proposed project. Registered I&APs will be informed about availability of reports via their preferred means of communication (SMS, email, post or fax). Contributions from I&APs will assist in informed decision-making for authorities and provides information to be considered by the Project team and specialists conducting studies. Stakeholders and I&APs can submit their comments and issues directly to the Digby Wells Stakeholder Engagement Team by completing the Comment and Registration Sheet; fax and e-mail or telephonically.

The environmental process is summarised in Figure 5-1 and it also indicates the critical stages for stakeholder engagement.

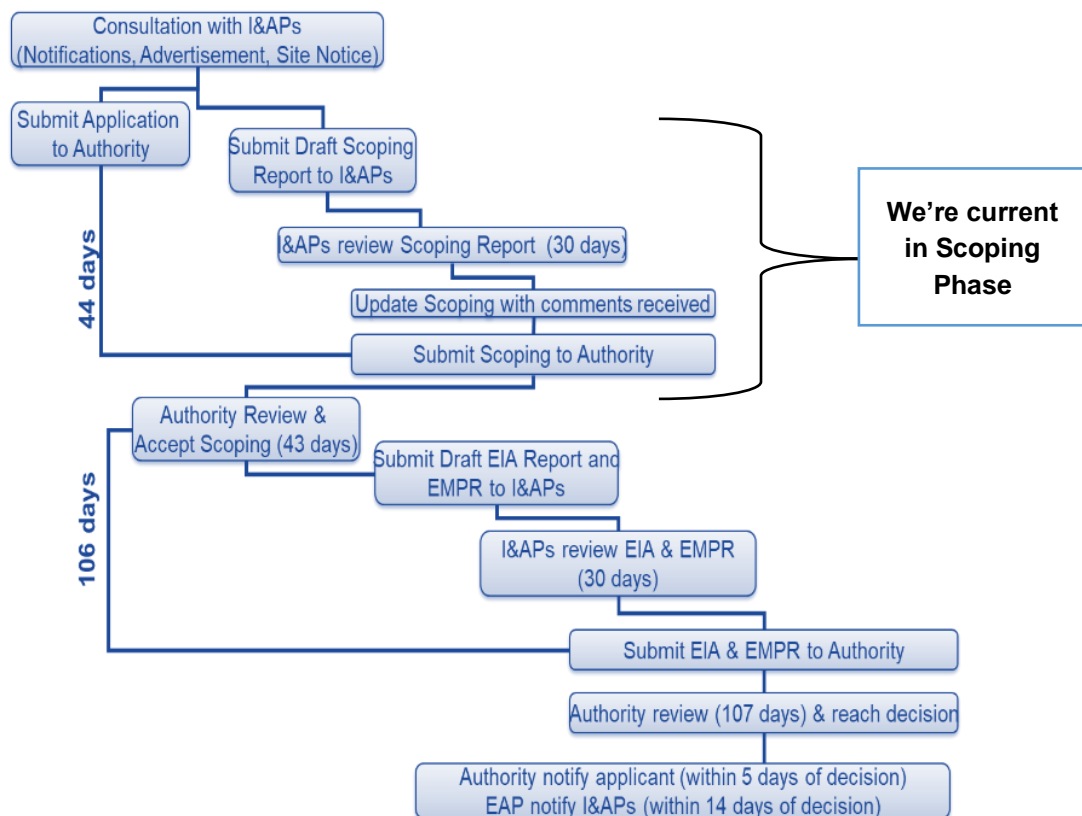

Figure 5-1: The Full Scoping and EIA process flowchart

As indicated in Figure 5-1, we are currently on the Scoping Phase of the Project and the Draft Scoping Report, which will be available for public comments from **Friday 13 November 2020** to **Monday 14 December 2020**, a 30-day legislated commenting period. A copy of the DSR may be accessed (by appointment) at the Dorstfontein East Mine, Dorstfontein West Mine and another at the Kriel Public Library. **Due to the COVID-19 national lockdown, the Draft Scoping Report will also be released electronically. To access the report (free of charge/ data-free); please click on the following link <http://view.datafree.co/PublicDocuments/> or**

copy the link onto your *URL* to download the Report for your review and comment. I&APs can obtain a copy of the Draft Scoping report from the platforms presented in Table 5-1.

Environmental Impact Assessment Regulations of 2014, promulgated in terms of the National Environmental Management Act, as amended, Section 44 (1) requires that we *gather comments* from I&APs. Please complete the questions below. Should you require assistance in completing these questions please contact the Stakeholder Engagement Office at contact information provided above.

How do you think the project might impact (affect) you?
How do you think the project might impact (affect) your socio-economic conditions? (e.g. livelihoods, farm, business, household)
How can these impacts be managed, avoided and / or fixed?
If you are a landowner or occupier, what is your land currently being used for?
Are there any environmental, social or heritage features on the proposed project area we need to be aware of?

Where are these found?
Do you think the project could impact (affect) infrastructure you might have? (e.g. houses, buildings, roads)
If so how can these impacts (affects) be managed, avoided or fixed?
General Comments

If there are any other stakeholders, we should include onto the stakeholder database for the proposed project, please provide their contact details.
