Attachments: BOSA Newspaper_English_SA_Jun2017_ver7.docx

Dear Prof Legotla,

Thank you very much for taking our call this morning and advising on our mail last week.

As discussed we are currently busy with the scoping phase of the environmental and social impact assessment process for the Botswana South Africa Transmission interconnect Project (BOSA).

According to legal requirements we need to inform all stakeholders about the proposed BOSA project and the associated Environmental and Social Impact Assessment (ESIA) process. In the process we are legally required to ensure that the project is advertised in newspapers and site notices needs to go out in order to inform the different stakeholders about the project and the meetings. These needs to go out according to the above mentioned legal requirements, **this week** in order to meet the given time lines.

We do not currently know who all the stakeholders are that might be influenced by the process. We therefore would like to organise meetings on the 17th and 18th of July 2017. The purpose of the meetings is to involve all affected and interested stakeholders and explain the process to them. It is also to ensure that they are included on our database so that we can forward all reports and future information to them.

Because it is such a large project, with many stakeholder, we would like to as many interested and affected parties on board. The Chiefs are one of the most important stakeholders, therefore we would like to ask the Chiefs for their blessing to organise information sessions in the following venues (last column on the attached advertisement):

- Bewley / Miga
- Lehurutshe
- Serake/ Driefontein
- Supingstad

Please assist us in asking for the blessing from the Chiefs.

I will appreciate your feedback by the **end of today** in order for us to meet the above mentioned legal requirements.

Your assistance in this regard is much appreciated.

Amelia Visagie

Subject: BOSA – BOTSWANA-SOUTH AFRICA TRANSMISSION INTERCONNECTION PROJECT

Good day Prof Legotlo.

Thank you for taking my call this morning and thank you for being prepared to assist us in talking with the Chiefs to get their blessing for our meetings which is taking place on the 17th and 18th of July 2017.

Unfortunately the dates has been finalised and cannot change due to the tight deadlines.

As discussed the following venues can be identified as possible places to inform the stakeholders:

- Supingstad: Ntlung Morafe
- Driefontein / Serake: Tribal Office
- Lehurutshe: Lehurutshe Civic Centre
- Possible venue as indicated by you can be Kgosi Lentswe – please let me know where on the map the village is so that we can determine whether we can include it in our planning.

Will you be so kind to assist us in arranging the above-mentioned venues with the relevant stakeholders.

It will be wonderful if you can arrange a meeting with the Municipality for early (8h00) Monday morning then we can brief the Mayor about the project. We will then still be on time to go to Klippan for the first meeting.

Will you also assist us with what the Chiefs will expect from us please?

Your feedback is highly appreciated and it will be wonderful to get feedback about the venues and the Chiefs by Friday the 22nd of June so that we can get approval from our client.

You also mention accommodation; please be so kind to forward the contact details as well.

Kind regards,

Sizwe Mabadi
