

CUMULATIVE IMPACTS FOR THE PROPOSED BRANDVALLEY WEF

DEA Comment	Action	Yes/No	Proof in Report
<i>Due to the number of similar applications in the area, all the specialist assessments must include a cumulative environmental impact statement. Identified cumulative impacts must be clearly defined and where possible the size of the identified impact must be indicated, i.e. hectares of cumulatively transformed land.</i>	Is a cumulative impact statement included in the report?	Yes (Only relating to Rietkloof and Brandvalley)	Pg 45 & 52
	Are cumulative impacts clearly defined?	Yes	Stated on page 45 as both Brandvalley and Rietkloof operational simultaneously
	Has the size of the identified cumulative impact been indicated in the report?	Yes	Stated in Table 15. The actual decibels at the receiver has been calculated.
<i>Identified cumulative impacts significance rating must be rated with significance rating methodology approved with the acceptance of the scoping report.</i>	Do the cumulative impacts include a significance rating as per the assessment methodology?	No	An addendum to the report is provided is provided.
<i>Detailed cumulative impact assessments must be provided in the EIAr for all specialist studies conducted. The specialist studies must provide proof that other specialist reports that was conducted for renewable energy projects in the area were reviewed and indicated how the recommendations, mitigation measures and conclusions have been taken into consideration when the conclusion and mitigation measures were drafted for this project.</i>	Does the report provide proof that other specialist reports conducted for renewable energy projects in the area were reviewed and indicate how the recommendations, mitigation measures and conclusions have been taken into consideration?	No	An addendum to the report is provided is provided.
