Dear Mr. L. De Villiers

RE: PROPOSED REHABILITATION OF THE PIT ON THE PORTION 15 OF THE FARM JAGERSFONTEIN 14 BY INFILLING OF THE FINE AND COARSE TAILINGS AND SAND FROM THE DIAMIND EXTRACTION PROCESSING PLANT, FAURESMITH RD, FREE STATE.

The Department of Economic, Small Business Development, Tourism and Environmental Affairs (DESTEA) - 'the Department', acknowledges receipt of your request for a listed activity confirmation (comments) in terms of 2014 Environmental Impact Assessment (EIA) Regulations as amended promulgated under National Environmental Management Act, 1998 (Act No. 107 of 1998) on the 16th of April 2018.

Based on information provided on the activity confirmation form dated 16th of April 2018, the Department is satisfied with the original state of the implementations and methods to be used on the activity.

Therefore, implementation and rehabilitation of the pit must take place with suitable stated methods; stability must be prioritised as there is a close by residential area not far from the activity. Duty of care must be applied at all times on site.

Regards,

Mkhosana

Ms. G. Mkhosana
Control Environmental Officer Grade B: EIM
