Dear User,

The airport form is only valid for green protein crystals from MX proposals, not for people or other type of samples, and presenting no risk. The protein crystals should be transported in a dry shipper complying with the international transport rules. You can find more information here: http://www.esrf.fr/Infrastructure/Safety/Experiments/Biology_Experiments/travelling-with-samples

No airport form will be provided for chemical samples or microorganisms.
When bringing samples to and from ESRF, please respect the international transportation rules.

Please also make sure that you have the correct documents with you when organizing your journey and correct sample packaging for your departure from ESRF.

Best regards

Celine

Subject: Airport form alert (New A Form Submission [HG::177::ARAUJO::BM05::13/04/2022/19/04/2022])**Date:** Thu, 27 Jan 2022 16:30:01 +0100 (CET)**From:** noreply@esrf.fr**To:** expsaf@esrf.fr**European Synchrotron Radiation Facility**

Please note that an electronic "Form A" has been submitted by an ESRF user prior to the experiment session: HG/177 ARAUJO BM05 13-04-2022/19-04-2022.

Click on the following link to view the Form A:

<https://smis.esrf.fr/misapps/SMISWebClient/protected/aform/manageAForm.do?action=view&expSessionVO.pk=96092>

Some users needs/do not need any more an airport form to transport samples (see users below).
