QUATERNARY CATCHMENTS

LEGEND

- Farm boundary Kanakies332
- Quaternary catchments

Kanakies332 is mostly inside
quaternary catchment E33A, with
a little part falling in E31H.
E33A = 135476.703764 ha
E31H = 72607.071598 ha

VEGMAP2012
Released 2017/07/06

MAPCODE12
Code for a vegetation type.
Types added in 2006
correspond with codes in
Mucina and Rutherford (2006).
Vegetation types added in
subsequent versions have been
assigned new codes.
Follows BiomeCode+BioregionCode+Sequence.

DATA OWNERSHIP:
Western Cape CBA&ESA data:
Cape Nature
Date released 2014/03/31

Northern Cape CBA data:
Northern Cape Department of
Environment and Nature Conservation
Data released 2016

PURPOSE Northern Cape:
The CBA Map identifies biodiversity priority areas, called Critical Biodiversity Areas (CBA's) and Ecological Support Areas (ESA's), which, together with protected areas, are important for the persistence of a viable representative sample of all ecosystem types and species as well as the long-term ecological functioning of the landscape as a whole.
