3. Architectural Significance:
The house is a solid well-built Edwardian suburban house. It has a strong relationship with the street (Montpelier road) and forms a pleasant streetscape with the North West neighboring dwelling, which is of similar scale and proportion. Both have first floor verandas that overlook the street.
The properties along Montpelier Rd have narrow sites and the houses are close together. The sites are also long - therefore only the front elevations and a portion of the sides are visible to the street.
The relationship of the building with the street is significant.
