DEVELOPMENT DETAILS

Project Title:	Proposed Rotacan Workshop Expansion
----------------	-------------------------------------

Project Description:
Rotacon Engineering cc is a light to medium general mechanical engineering workshop facility, which manufactures industrial machinery spare parts and also undertakes complete machine building. The existing workshop covers an area of approximately 3 000m ² . Owing to the size of machinery utilised during the manufacturing processes, together with an increase in operations, floor space has become limited and working areas congested. Rotacon has, therefore, proposed a workshop expansion of 3 000m ² . The expansion would involve the extension of the existing workshop onto a lower platform, to the east of the site, below the existing factory building, within 32 metres of the Palmiet River. The project site is located at 29°48'14.53"S 30°52'11.12".

Extent of Development Footprint (in m ²):	3000
