Dear Olga,

An exemption letter would be R1000.

Since there really is no reason to have a palaeo study at all, I wonder if such a letter is worthwhile. I suggest you consult SAHRA directly about this.

John

Dear John

Should we then at least include an exemption letter? How much would that be?

Regards,

Olga

Subject: RE: Request for a Quotation: Palaeontological Study at Goegap Nature Reserve

Dear Olga,

In my view (sadly) there are no palaeontological studies necessary for this project since the Goegap area is largely underlain by unfossiliferous granites and gneisses.

Regards,

John Almond

Subject: Request for a Quotation: Palaeontological Study at Goegap Nature Reserve

Dear John

Attached, please find the necessary information for delivering a quotation for a palaeontological study at Goegap Nature Reserve. Sorry for giving such short notice again, but would it be possible to give a quotation by start of business on Friday? We are waiting for the client to give us final details with regard to the size of the study area, which will be sent to you as soon as possible.

Kind regards,

Olga Malan
