“Daar is nie water nie”

Leoni Kruger
LEPHALALE — Die Algemene Jaarvergadering van die Mokolo Watergebruikersvereniging (MWGV) is Vrydag 3 Augustus by die Palm Park Hotel gehou.

Nic Knoetze, Uitvoerende Hoofbestuurder van SAAFWUA (South African Association of Water User Associations) het 'n deeglike oorsig gegee oor die werking van SAAFWUA en hoe WGV's en besproeiingsrade bestuur behoort te word. (In terme van gedelegeerde bevoegdhede.)

Die SAAFWUA is in 2004 gestig en verteenwoordig tans 112 WGV's en besproeiingsrade wat ongeveer 408 000 hektaar (ha) van die 1 2000 000 ha (34%) wat besproei word in Suid-Afrika insluit. Die SAAFWUA word deur die Departement van Water en Sanitasie (DWS) gesien as die mondstuk van belangegroep.

Wolff Jahn (Raadslid van Wyk 6) het verduidelik hoe fase een van die installering

van watermeters werk en waarom dit belangrik is om die regte meter te hê. (Plase 20 hektaar en groter met waterregte moes reeds vanaf 1 Julie vanjaar watermeters geïnstalleer hê.)

Die WGV (sub-area Lephale) het besluit watter soort watermeter die mees aanvaarbare is. Hulle het deeglike navorsing gedoen om meters te identifiseer wat volhoubaar en waarde vir geld is asook voldoen aan die vereistes wat deur die WGV (sub-area Lephale) daargestel is. Tenders is gevra en daar is besluit op die meter wat geïnstalleer moet word. Die besonderhede ten opsigte van die meters is tydens die Algemene Jaarvergadering 2018 voorgeleë en is deur die vergadering goedgekeur.

Daarna is die meters ná die 2017 Algemene Jaarvergadering aangekoop en teen kosprys aan boere wat besproei beskikbaar gestel. Terme vir die afbetaling daarvan is ook vir hulle aangebied.

Jahn het verduidelik dat die meter die gebruiker se eiendom is. Elke meterrekenaar kry sy of haar eie wagwoord wat beteken jy kan self op jou rekenaar of selfoon ingaan om te sien wat jou watergebruik is. Gebruikers is ook aangeraai om die meter nie in die son te laat staan of dit te begrawe nie. Daar mag ook nie met die meters gepeuter word nie. Dit word in Augustus versel en indien daar gevind word dat daar met die meter gepeuter is, word die peuteraar beboet en waterregte gaan opgeskort word.

Fase twee behels dat watermeters op plase vanaf 10-19 ha teen 1 Julie 2019 geïnstalleer moet wees, indien nie, moet die gebruiker die gevolge dra.

Francois van den Berg, voorsitter van die MWGV, het verduidelik dat alle “lodges”, gastehuise, behuising wat uitverhuur word, ens, 'n lisensie moet bekom vir die gebruik van water uit die rivier, al het die gebruiker besproeiingsregte. (Besproeiingsregte is slegs vir landboudoeleindes en huishoudelike gebruik.) Van den Berg het beklemtoon dat lede se watergebruik beperk is tot net 40% van hulle waterregte omdat “daar eenvoudig nie genoeg water is nie”. Hy het hulle versoek om te hou by die 40%.

Die MWGV se kantoonnommer is 014 763 3095.

PROPOSED EXPANSION OF FOUNDERS LODGE IN LAPALALA WILDERNESS RESERVE, LIMPOPO PROVINCE

BACKGROUND INFORMATION DOCUMENT

AUGUST 2018

In terms of the 2014 Environmental Impact Assessment (EIA) Regulations published in terms of Section 24(5) of the National Environmental Management Act 107 of 1998 (NEMA), the Project Applicant hereby gives notice of its intention to apply for Environmental Authorisation from the Limpopo Department of Economic Development, Environment and Tourism (LEDET) as the competent authority, for the proposed expansion of Founders Lodge in Lapalala Wilderness Reserve, Limpopo Province.

The Basic Assessment process provided for in Regulation 19 read with Appendix 1 of GN R326 of 4 December 2014 of the 2014 EIA Regulations, as amended published under NEMA will be followed for the application for Environmental Authorisation.

By virtue of location, you have been identified as a potential **Interested and / or Affected Party (I&AP)** to this process, and are hereby invited to participate.

WHAT THIS DOCUMENT TELLS YOU

This Background Information Document (BID), provides you, as a potential I&AP, with **background information** on the proposed project, as well as, information regarding the Basic Assessment (BA) process to be undertaken to assess the potential impacts (i.e. positive and negative, as well as direct, indirect, and cumulative) of the proposed project.

It further indicates how you can participate in the assessment process, receive information and raise issues that may concern and / or interest you. The sharing of information forms an important component of the Public Participation Process as it not only provides I&APs with the opportunity to become actively involved, but also provides information that may be of value for the proposed development.

PROPERTY & PROJECT DESCRIPTION

The affected property, Portion 10 Lapalala 1020 LR, is situated within Lapalala Wilderness Reserve in the Lephhalale Local Municipality, approximately 60 Km south east of Lephhalale

The proposed expansion will entail the construction of 6 treehouses with the inclusion of a communal dining and lounge area, as well as, a Manor House comprising of 6 rooms, lounge and dining areas, kitchen, swimming pool. Electricity will be via solar panels. All associated civil infrastructure (water and waste treatment) will be included.

PROJECT MOTIVATION

The motivation and reasoning behind the expansion of Founders Lodge is to further develop the growing tourism industry and possible tourism linkages within the area. The vision of Lapalala Wilderness is to build awareness of the interdependence between mankind and nature to deliver lasting benefits for communities, the environment and the country as a whole. In order to realize this vision, a strategic plan has been compiled of which tourism enhancement plays a vital role. Founders Lodge will be one of only a handful of commercial lodges located within Lapalala Wilderness and as it currently stands can only accommodate 16 guests. By expanding the Lodge to include both treehouses and a manor house, this will further provide a drawcard to tourists and expand the accommodation offerings within the Reserve. Additionally, it will provide public access to the reserve, create new jobs, skills transfer and contribute to the sustainability of Lapalala Wilderness Reserve in meeting its conservation objectives.

Additionally, it is important that the natural recreational potential of this region be explored, and in order to do this, accommodation facilities need be developed in the greater region that will help to unlock the natural potential of the region.

THE BASIC ASSESSMENT PROCESS

NuLeaf Planning and Environmental (Pty) Ltd has been appointed by Applicant to conduct the Basic Assessment process for the proposed expansion of Founders Lodge. The 2014 EIA Regulations, as amended in April 2017 and its associated Listing Notices [Listing Notice 1 (GN R327) and Listing Notice 3 (GN R324)] specify the activities that require a Basic Assessment. The activities triggered by the proposed development include the following listed activities:

Number and date of the relevant	Activity Number (s) (in terms of the	Description of each listed activity as per the detailed project description
---------------------------------	--------------------------------------	---

Listing Notice:	relevant Listing Notice):	
GN R.327 (Listing Notice 1)	27	The clearance of an area of 1 hectare or more, but less than 20 hectares of indigenous vegetation.
GN R. 324 (Listing Notice 3)	12 (e) (ii) (iii)	The clearance of an area of 300 square meters or more of indigenous vegetation in (e) Limpopo (ii) critical biodiversity areas (iii) on land zoned open space, conservation or had an equivalent zoning. The total cleared footprint will be greater than 300 square meters. The site is located in a critical biodiversity area as identified in the Limpopo Conservation Plan and the Waterberg Bioregional Plan.
	17 (e) (i) (ee)	The expansion of a resorts, lodges, hotels, tourism or hospitality facilities where the development footprint will be expanded and the expanded facility can accommodate an additional 15 people or more in (e) Limpopo (i) outside urban areas in (ee) critical biodiversity areas. The site is located in a critical biodiversity area as identified in the Limpopo Conservation Plan and the Waterberg Bioregional Plan.
	18 (e) (i) (ee)	The widening of a road by more than 4 meters or the lengthening of a road by more than 1 Km in (e) Limpopo (i) outside urban areas in (ee) critical biodiversity areas.

- An independent **Environmental Assessment Practitioner (EAP)** must undertake the process on behalf of the applicant to ensure objectivity.
- The first step of the process is to submit an **Application for Environmental Authorisation** to the Competent Authority, which in this case is the Limpopo Department of Economic Development, Environment and Tourism (LEDET).
- The EAP must conduct a **Public Participation Process**, and afford any and all persons interested and /or affected by the proposed development an opportunity to register and participate in the process. A **30 day registration period** is allowed for, as well as, an opportunity to ask questions, submit concerns etc.
- The EAP must then prepare a **Draft Basic Assessment Report (BAR)**, inclusive of specialist reports and a draft Environmental Management Programme (EMPr), which describes both the project and the environment and assesses the anticipated impact of the project on the environment, and makes recommendations in terms of mitigation and management.
- Once complete, the Draft BAR will be circulated to all registered I&APs who are entitled to submit written comments in respect thereof. A **30 day comment period** is allowed for in terms of Regulation 40 (1) of the 2014 EIA Regulations.
- Once all comments from registered I&APs have been addressed, the EAP will submit the **Final BAR** to the Competent Authority for consideration.
- The Competent Authority is then required to make a decision on the application for Environmental Authorisation (i.e. either positive or negative).

- Once the Competent Authority has made a decision on the Final BAR, the EAP must communicate the outcome thereof to all I&APs who registered during the Public Participation Process.
- I&AP's have the right to **Appeal** against the decision of the Competent Authority should they feel the need to do so, in which case, the Competent Authority will review and reconsider the application. The appeal process is regulated in terms of the 2014 National Appeal Regulations published in terms of GN R993 on 8 December 2014 under NEMA.

ROLE OF INTERESTED AND AFFECTED PARTIES

You have been identified as a potential Stakeholder or I&AP, and are hereby invited to participate in this EIA Process. If you would like to be involved in this process, comment on draft reports, provide input, raise concerns, or simply remain informed of the project process, please register as a Stakeholder via a return email, fax or post to the contact details provided below.

Registration as a Stakeholder must reach the Environmental Assessment Practitioner listed below by no later than Monday 10 September 2018
