**Subject:** RE: Proposed Establishment of a New Dairy, 650 000m<sup>3</sup> Dam and the Cultivation of an additional 15 ha of Virgin Veld, on The Farm Clovelly No. 16370, Underberg, KwaZulu-Natal

We in Sani Wildlife wish to express concerns about the breaking up of any veld. We feel that this is a fast diminishing biome and needs to be kept intact where ever possible. Although we are sympathetic to the needs of farmers and their need to expand we would urge them to look at other areas which could be leased, where veld has been degraded and/or existing arable land not being used.
