2. Motivation for proposed work (Summarise below and expand on a separate sheet if necessary)

The dwelling as it stands is up to date and all plans in order, with a previously successful AMAFA application to the property. The existing dwelling its orginal state does not accommodate for my client regarding safe undercover parking for weather and security purposes, so they would like to add new Garages if AMAFA allows them. For privacy and security purposes, they would like to add a garage door and wall in front of the existing carport. They would like to propose a new scullery onto the existing kitchen, as well as minor alterations to the existing dwelling to make existing dwelling more functional. The North-East and South East Boundary Wall need to be replaced due to damage and the height of 3m is needed for security reasons. There are no acheological or military significance, no civil value, as well as no heritage issues to the site, so the client would greatly appreciate the approval from AMAFA.

- 3. Detail the alterations/additions/restorations proposed (Briefly outline the proposal)
- 1. They would like new North-East and South East Boundary Walls.
- 2. They would like Minor house alterations done.
- 3. New Garage to be added.
- 4. New Scullery to be added to the exsiting dwelling.
- 5. New soakpit to be added to service the new Garage
- They would like to combine the existing bathroom and W/C into one large Bathroom
- 7. New Window to service the altered Bathroom
- 8. New garage door and walls in front of carport
