Natasha Higgins
South African Heritage Resources Agency
111 Harrington Street
Cape Town

Dear Ms. Higgins,

RE: SAHRIS REFERENCE 13963

Our previous e-mail communications refer.

As Site Lon-01 is located in an existing quarry mitigation measures has been suggested in the applicable HIA. Please note the it will NOT be impacted on in the future as it is located near an indigenous and protected tree. In my recent communication with the developer he has indicated that he is willing to demarcate the site. Recording of the site is, additionally planned, during the drafting of the CHMP of the entire game reserve which will be submitted to SAHRA once completed.

Pease confirm the above is acceptable to SAHRA.

Yours sincerely,

Annie van Deventer Radford
Contract Archaeologist
