

SCOPING PHASE

NOTIFICATION OF ENVIRONMENTAL IMPACT
ASSESSMENT PROCESS:
INTERESTED AND AFFECTED PARTIES (I&APS)

01 October 2018

Dear Stakeholder

**ENVIRONMENTAL IMPACT ASSESSMENTS AND PUBLIC PARTICIPATION PROCESSES FOR THE
DEVELOPMENT OF FOUR 100MW PV PROJECTS NEAR UPINGTON IN THE NORTHERN CAPE:
ALLEPAD PV ONE, ALLEPAD PV TWO, ALLEPAD PV THREE, AND ALLEPAD PV FOUR**

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT (EIA) PROCESSES

The development of four 100MW Photovoltaic (PV) facilities and associated infrastructure is proposed on the Remaining Extent of Erf 5315 Upington, located approximately 11km north-west of Upington, in the Dawid Kruiper Local Municipality, of the ZF Mgcawu District, in the Northern Cape Province. The projects are to be known as Allepad PV One, Allepad PV Two, Allepad PV Three, and Allepad PV Four. Each of the four Allepad PV projects entails the development of a PV facility and supporting infrastructure.

Each of the proposed projects will have a contracted capacity of up to 100MW, and will make use of photovoltaic (PV) solar technology for the generation of electricity. Each project will comprise of the following key infrastructure and components:

- » Arrays of PV panels with a generation capacity of up to 100MW.
- » Mounting structures to support the PV panels.
- » Combiner boxes, on-site inverters (to convert the power from Direct Current (DC) to Alternating Current (AC)), and power transformers.
- » A 132kV on-site substation up to 1ha in extent to facilitate the connection between the solar energy facility and the Eskom electricity grid.
- » A new 132kV power line approximately 5km in length, between the on-site substation and Eskom grid connection point.
- » Cabling between the project's components (to be laid underground where practical).
- » Meteorological measurement station.
- » Energy storage area of up to 2ha in extent.
- » Access road and internal access road network.
- » On-site buildings and structures, including a control building and office, ablutions and guard house.
- » Perimeter security fencing, access gates and lighting.
- » Temporary construction equipment camp up to 1ha in extent, including temporary site offices, parking and chemical ablation facilities.

- » Temporary laydown area up to 1ha in extent, for the storage of materials during the construction.

All four PV facilities are located on the following affected properties:

Allepad PV One, Allepad PV Two, Allepad PV Three, and Allepad PV Four PV facilities:

- » Remaining Extent of Erf 5315 Upington

Grid connection:

- » Remaining Extent of Erf 5315 Upington
- » Erf 01 Upington

The projects are intended to form part of the Department of Energy's (DoE's) Renewable Energy Independent Power Producer Procurement (REIPPP) Programme. The power generated by the projects will be sold to Eskom and will feed into the national electricity grid. The development of the projects will assist with the achievement of the electricity goals as set out in the Integrated Resources Plan for electricity (IRP) 2010 – 2030 by diversifying South Africa's electricity mix, and positively contributing towards socio-economic, and environmentally sustainable growth

ENVIRONMENTAL IMPACT ASSESSMENT (EIA) PROCESS

The development of the four Allepad PV projects each require that application for Environmental Authorisation (EA) be made to the Competent Authority, the National Department of Environmental Affairs (DEA), in consultation with the Local Commenting Authority, the Northern Cape Department of Environment and Nature Conservation (DENC), in accordance with the requirements of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the 2014 Environmental Impact Assessment (EIA) Regulations (GNR 326). Separate applications for EA will be made for each project, and will be supported by full Scoping and EIA processes.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Consultants responsible for managing the applications for EA and supporting Scoping and EIA processes. The purpose of these processes is to identify and assess potential environmental impacts associated with the projects, and propose appropriate mitigation and management measures to be included in the project's Environmental Management Programmes (EMPrs). Interested and / or Affected Parties (I&APs) will be actively involved through the public participation process.

You and / or the organisation you represent have been identified as an I&AP for the four Allepad PV projects. A Background Information Document (BID) which provides further information on the nature and extent of the proposed projects and the EIA processes being undertaken is attached to this letter, and is also available for download on Savannah Environmental's website (www.savannahsa.com). Should you have an interest in the projects, please register yourself as an I&AP by completing and returning the attached stakeholder registration / comment form. By registering on the project's database, you will be kept informed of the EIA processes being undertaken for the projects and will be provided with an opportunity to provide comment and input on the projects.

Please do not hesitate to contact us should you require additional information and / or clarification regarding the projects. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

NICOLENE VENTER

NOTIFICATION OF ENVIRONMENTAL IMPACT
ASSESSMENT PROCESS:
LANDOWNERS

01 October 2018

Dear Stakeholder

**ENVIRONMENTAL IMPACT ASSESSMENTS AND PUBLIC PARTICIPATION PROCESSES FOR THE
DEVELOPMENT OF FOUR 100MW PV PROJECTS NEAR UPINGTON IN THE NORTHERN CAPE:
ALLEPAD PV ONE, ALLEPAD PV TWO, ALLEPAD PV THREE, AND ALLEPAD PV FOUR**

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT (EIA) PROCESSES

The development of four 100MW Photovoltaic (PV) facilities and associated infrastructure is proposed on the Remaining Extent of Erf 5315 Upington, located approximately 11km north-west of Upington, in the Dawid Kruiper Local Municipality, of the ZF Mgcawu District, in the Northern Cape Province. The projects are to be known as Allepad PV One, Allepad PV Two, Allepad PV Three, and Allepad PV Four. Each of the four Allepad PV projects entails the development of a PV facility and supporting infrastructure.

Each of the proposed projects will have a contracted capacity of up to 100MW, and will make use of photovoltaic (PV) solar technology for the generation of electricity. Each project will comprise of the following key infrastructure and components:

- » Arrays of PV panels with a generation capacity of up to 100MW.
- » Mounting structures to support the PV panels.
- » Combiner boxes, on-site inverters (to convert the power from Direct Current (DC) to Alternating Current (AC)), and power transformers.
- » A 132kV on-site substation up to 1ha in extent to facilitate the connection between the solar energy facility and the Eskom electricity grid.
- » A new 132kV power line approximately 5km in length, between the on-site substation and Eskom grid connection point.
- » Cabling between the project's components (to be laid underground where practical).
- » Meteorological measurement station.
- » Energy storage area of up to 2ha in extent.
- » Access road and internal access road network.
- » On-site buildings and structures, including a control building and office, ablutions and guard house.
- » Perimeter security fencing, access gates and lighting.
- » Temporary construction equipment camp up to 1ha in extent, including temporary site offices, parking and chemical ablation facilities.

- » Temporary laydown area up to 1ha in extent, for the storage of materials during the construction.

All four PV facilities are located on the following affected properties:

Allepad PV One, Allepad PV Two, Allepad PV Three, and Allepad PV Four PV facilities:

- » Remaining Extent of Erf 5315 Upington

Grid connection:

- » Remaining Extent of Erf 5315 Upington
- » Erf 01 Upington

The projects are intended to form part of the Department of Energy's (DoE's) Renewable Energy Independent Power Producer Procurement (REIPPP) Programme. The power generated by the projects will be sold to Eskom and will feed into the national electricity grid. The development of the projects will assist with the achievement of the electricity goals as set out in the Integrated Resources Plan for electricity (IRP) 2010 – 2030 by diversifying South Africa's electricity mix, and positively contributing towards socio-economic, and environmentally sustainable growth

ENVIRONMENTAL IMPACT ASSESSMENT (EIA) PROCESS

The development of the four Allepad PV projects each require that application for Environmental Authorisation (EA) be made to the Competent Authority, the National Department of Environmental Affairs (DEA), in consultation with the Local Commenting Authority, the Northern Cape Department of Environment and Nature Conservation (DENC), in accordance with the requirements of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the 2014 Environmental Impact Assessment (EIA) Regulations (GNR 326). Separate applications for EA will be made for each project, and will be supported by full Scoping and EIA processes.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Consultants responsible for managing the applications for EA and supporting Scoping and EIA processes. The purpose of these processes is to identify and assess potential environmental impacts associated with the projects, and propose appropriate mitigation and management measures to be included in the project's Environmental Management Programmes (EMPrs). Interested and / or Affected Parties (I&APs) will be actively involved through the public participation process.

You and / or the organisation you represent have been identified as a directly affected or adjacent property owner that could be impacted by the proposed development of the four Allepad PV projects. The 2014 EIA Regulations (GNR 326) require that the owner or person in control of the land, as well as occupiers of the affected and adjacent properties which could be impacted by a project, are informed in writing of the environmental assessment process. In this regard, please could you kindly inform any other persons (tenants, employees, farm managers, and workers etc.) residing on your property of the EIA processes. A Background Information Document (BID) which provides further information on the nature and extent of the proposed projects and the EIA processes being undertaken is attached to this letter, and is also available for download on Savannah Environmental's website (www.savannahsa.com). Should you or any other occupier of your property have an interest in the projects, please register yourselves as I&APs by completing and returning the attached

stakeholder registration / comment form. By registering on the project's database, you will be kept informed of the EIA processes being undertaken for the projects and will be provided with an opportunity to provide comment and input on the projects.

Please do not hesitate to contact us should you require additional information and / or clarification regarding the projects. Our team welcomes your participation and looks forward to your involvement throughout this process.

NOTIFICATION OF AVAILABILITY OF SCOPING
REPORT FOR PUBLIC REVIEW

12 October 2018

Dear Stakeholder

**ENVIRONMENTAL IMPACT ASSESSMENTS AND PUBLIC PARTICIPATION PROCESSES FOR THE
DEVELOPMENT OF FOUR 100MW PV PROJECTS NEAR UPINGTON IN THE NORTHERN CAPE:
ALLEPAD PV ONE, ALLEPAD PV TWO, ALLEPAD PV THREE, AND ALLEPAD PV FOUR**

NOTICE OF AVAILABILITY OF SCOPING REPORTS FOR REVIEW

LEnergy Development (Pty) Ltd proposes the development of four 100MW Photovoltaic (PV) facilities and associated infrastructure on the Remaining Extent of Erf 5315 Upington, located approximately 11km north-west of Upington, in the Dawid Kruiper Local Municipality, of the ZF Mgcawu District, in the Northern Cape Province. The projects are to be known as Allepad PV One, Allepad PV Two, Allepad PV Three, and Allepad PV Four.

The development of the four Allepad PV projects require that separate applications for Environmental Authorisation (EA) be made to the Competent Authority, the National Department of Environmental Affairs (DEA). In accordance with the requirements of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the 2014 Environmental Impact Assessment (EIA) Regulations, as amended (GNR 326), EA is required subject to the completion of full Scoping and EIA processes. Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Consultants responsible for managing the applications for EA and supporting Scoping and EIA processes.

AVAILABILITY OF SCOPING REPORT FOR REVIEW

As a registered Interested and Affected Party (I&AP), you are hereby notified that Scoping Reports prepared for the Allepad PV projects are available for review and comment. The reports can be viewed at the Dawid Kruiper Public Library (corner of Mark Street and Mutual Street, Upington), from **12 October 2018 – 12 November 2018**. The reports are also available for download on: www.savannahsa.com. Please submit all written comment on the Scoping Reports via fax, post or email to the contact person below by **Monday, 12 November 2018**. All comments received during this 30-day review period will be recorded and included in the Final Scoping Report for submission to the National DEA in line with Regulation 44 of the 2014 NEMA EIA Regulations, as amended (GNR 326).

Please do not hesitate to contact us should you require additional information and / or clarification regarding the projects. Our team welcomes your participation and looks forward to your involvement throughout these processes.

Kind regards

Rozanne Els

DISTRIBUTION OF SCOPING REPORT FOR PUBLIC
REVIEW TO INTERESTED AND AFFECTED PARTIES

Savannah Environmental has played a significant role in the energy sector since 2007, specifically in the roll-out of renewable energy projects throughout southern Africa. We have provided consulting services to over 350 renewable and baseload energy applications submitted by Independent Power Producers (IPPs) to the Department of Environmental Affairs in South Africa for authorisation, as well as to Eskom on their renewable energy and gas-to-energy projects. In addition, we have provided environmental management services on the development and implementation of 42 projects selected as preferred bidders by the Department of Energy under the Renewable Energy Independent Power Producers Procurement (REIPPP) Programme (small- and large-scale projects).

- ALLEPAD PV ONE
- ALLEPAD PV TWO
- ALLEPAD PV THREE
- ALLEPAD PV FOUR
- KRUISVALLEI HYDROELECTRIC POWER SCHEME
- KELVIN POWER STATION AEL
- LICHTENBURG 1 PV FACILITY
- LICHTENBURG 2 PV FACILITY

Allepad PV One

Allepad PV One Facility and Associated Infrastructure

Project Name: Allepad PV One

Applicant: iEnergy Development (Pty) Ltd

Proposed Activity: The development of a 100MW Photovoltaic (PV) facility and associated infrastructure, including the following infrastructure:

- Arrays of PV panels with a generation capacity of up to 100MW.
- Mounting structures to support the PV panels.
- Combiner boxes, on-site inverters (to convert the power from Direct Current (DC) to Alternating Current (AC)), and power transformers.
- An on-site substation up to 1ha in extent to facilitate the connection between the solar energy facility and the Eskom electricity grid.

Allepad PV Two

Allepad PV Two Facility and Associated Infrastructure.

Project Name: Allepad PV Two

Applicant: iEnergy Development (Pty) Ltd

Proposed Activity: The development of a 100MW Photovoltaic (PV) facility and associated infrastructure, including the following infrastructure:

- Arrays of PV panels with a generation capacity of up to 100MW.
- Mounting structures to support the PV panels.
- Combiner boxes, on-site inverters (to convert the power from Direct Current (DC) to Alternating Current (AC)), and power transformers.
- An on-site substation up to 1ha in extent to facilitate the connection between the solar energy facility and the Eskom electricity grid.

Allepad PV Three

Allepad PV Three Facility and Associated Infrastructure

Project Name: Allepad PV Three

Applicant: ILEnergy Development (Pty) Ltd

Proposed Activity: The development of a 100MW Photovoltaic (PV) facility and associated infrastructure, including the following infrastructure:

- Arrays of PV panels with a generation capacity of up to 100MW.
- Mounting structures to support the PV panels.
- Combiner boxes, on-site inverters (to convert the power from Direct Current (DC) to Alternating Current (AC)), and power transformers.
- An on-site substation up to 1ha in extent to facilitate the connection between the solar energy facility and the Eskom electricity grid.

Allepad PV Four

Allepad PV Four Facility and Associated Infrastructure

Project Name: Allepad PV Four

Applicant: Allepad Solar Four

Proposed Activity: The development of a 100MW Photovoltaic (PV) facility and associated infrastructure, including the following infrastructure:

- Arrays of PV panels with a generation capacity of up to 100MW.
- Mounting structures to support the PV panels.
- Combiner boxes, on-site inverters (to convert the power from Direct Current (DC) to Alternating Current (AC)), and power transformers.

DEVELOPMENT OF FOUR 100MW PV PROJECTS NEAR UPINGTON IN THE NORTHERN CAPE:
ALLEPAD PV ONE, ALLEPAD PV TWO, ALLEPAD PV THREE, AND ALLEPAD PV FOUR**

NOTICE OF AVAILABILITY OF SCOPING REPORT FOR REVIEW AND WRITTEN COMMENTS

The development of four 100MW Photovoltaic (PV) facilities and associated infrastructure is proposed on the Remaining Extent of Erf 5315 Upingont, located approximately 11km north-west of Upington, in the Dawid Kruiper Local Municipality, of the ZF Mgcawu District, in the Northern Cape Province. The projects are to be known as Allepad PV One, Allepad PV Two, Allepad PV Three, and Allepad PV Four. Each of the four Allepad PV projects entails the development of a PV facility and supporting infrastructure.

This letter serves to inform you that as per the Environmental Impact Assessment Regulations of December 2014, as amended, that the hard copy of the Scoping Report included in this envelope must please be made available to public members.

We kindly request Dawid Kruiper Public Library to ensure that the report is available to the public during the review period which is from **Friday, 12 October** to **Monday, 12 November 2018**.

IMPACT ASSESSMENT PHASE

Notification of availability of Environmental Impact
Assessment Report for review and comment

Sent to all registered I&APs on
project database

28 February 2019

Dear Interested and Affected Party,

**ENVIRONMENTAL IMPACT ASSESSMENTS AND PUBLIC PARTICIPATION PROCESSES FOR THE
DEVELOPMENT OF FOUR 100MW PV PROJECTS NEAR UPINGTON IN THE NORTHERN CAPE:
ALLEPAD PV ONE, ALLEPAD PV TWO, ALLEPAD PV THREE, AND ALLEPAD PV FOUR**

**NOTICE OF AVAILABILITY OF ENVIRONMENTAL IMPACT ASSESSMENT REPORTS FOR REVIEW AND
COMMENTS**

As you may recall, the Allepad PV projects proposed by ILEnergy Development (Pty) Ltd, proposes the development of four 100MW Photovoltaic (PV) facilities and associated infrastructure on the Remaining Extent of Erf 5315 Upington, located approximately 11km north-west of Upington, in the Dawid Kruiper Local Municipality, ZF Mgcawu District Municipality, Northern Cape Province. The projects are known as Allepad PV One, Allepad PV Two, Allepad PV Three, and Allepad PV Four.

The development of Allepad PV One, Allepad PV Two, Allepad PV Three, and Allepad PV Four each require that application for Environmental Authorisation (EA) be made to the Competent Authority, the Department of Environmental Affairs (DEA), in consultation with the Local Commenting Authority, the Northern Cape Department of Environment and Nature Conservation (DENC), in accordance with the requirements of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the 2014 Environmental Impact Assessment (EIA) Regulations (GNR 326). Separate applications for EA have been made for each project.

This letter serves to inform you, as a registered Interested and Affected Party (I&AP), that the Environmental Impact Assessment Reports (EIARs) are available for your review and comment. The reports can be viewed at the Upington Public Library (cnr of Mark & Mutual Streets, Upington) from **Thursday, 28 February 2019 to Monday, 01 April 2019**. The reports are also available for download on Savannah Environmental's website: <http://www.savannahsa.com/public-documents/energy-generation/>.

You are kindly requested to please submit your written comment/s on the Environmental Impact Assessment Reports by **Monday, 01 April 2019** via fax, post or email to the contact person below.

All comments received during this 30-day review period will be recorded and included in the Final Environmental Impact Assessment Reports for submission to the Department of Environmental Affairs in line with Regulation 44 of the 2014 NEMA EIA Regulations, as amended (GN R326).

Please do not hesitate to contact us should you require additional information and / or clarification regarding the projects. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

> Cc:
> Subject: FW: Allepad PV1, PV2, PV3 & PV4 Projects: Notification of Availability of Environmental Impact Assessment Reports
>

Dear Interested and Affected Party,

ILEnergy Development (Pty) Ltd proposes the development of four 100MW Photovoltaic (PV) facilities and associated infrastructure on the Remaining Extent of Erf 5315 Upington, located approximately 11km north-west of Upington, in the Dawid Kruiper Local Municipality, of the ZF Mgcawu District, in the Northern Cape Province. The projects are to be known as Allepad PV One, Allepad PV Two, Allepad PV Three, and Allepad PV Four. As a registered Interested and Affected Party (I&AP), you are hereby notified that the Environmental Impact Assessment Reports (EIARs) prepared for the Allepad PV projects are available for review and comment.

The Reports can be viewed at the Dawid Kruiper Public Library (corner of Mark Street and Mutual Street, Upington), from **Thursday, 28 February 2019 to Monday, 01 April 2019**. The Reports are also available for download on our website: <https://www.savannahsa.com/public-documents/energy-generation/>. Please submit all written comment on the EIARs by **Monday, 12 November 2018**.

Kindly refer to the attached Notification Letter for further information.

Kind regards,

Nicolene Venter

Subject: Registration as I&AP for Allepad PV Projects 1 to 4 - 12 March 2019

Good afternoon Nicolene,

Please could you register me as an I&AP for the following projects and provide me with the password to access the PPP documents:

- Allepad PV One;
- Allepad PV Two;
- Allepad PV Three; and
- Allepad PV Four

I want to be registered to keep up to date with the Environmental Permitting Processes for Renewable Energy Projects in RSA.

Thanks,
Maggie
