

NOTIFICATION OF ENVIRONMENTAL IMPACT
ASSESSMENT PROCESS

01 October 2018

Dear Stakeholder

**ENVIRONMENTAL IMPACT ASSESSMENTS AND PUBLIC PARTICIPATION PROCESSES FOR THE
DEVELOPMENT OF FOUR 100MW PV PROJECTS NEAR UPINGTON IN THE NORTHERN CAPE:
ALLEPAD PV ONE, ALLEPAD PV TWO, ALLEPAD PV THREE, AND ALLEPAD PV FOUR**

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT (EIA) PROCESSES

The development of four 100MW Photovoltaic (PV) facilities and associated infrastructure is proposed on the Remaining Extent of Erf 5315 Upington, located approximately 11km north-west of Upington, in the Dawid Kruiper Local Municipality, of the ZF Mgcawu District, in the Northern Cape Province. The projects are to be known as Allepad PV One, Allepad PV Two, Allepad PV Three, and Allepad PV Four. Each of the four Allepad PV projects entails the development of a PV facility and supporting infrastructure.

Each of the proposed projects will have a contracted capacity of up to 100MW, and will make use of photovoltaic (PV) solar technology for the generation of electricity. Each project will comprise of the following key infrastructure and components:

- » Arrays of PV panels with a generation capacity of up to 100MW.
- » Mounting structures to support the PV panels.
- » Combiner boxes, on-site inverters (to convert the power from Direct Current (DC) to Alternating Current (AC)), and power transformers.
- » A 132kV on-site substation up to 1ha in extent to facilitate the connection between the solar energy facility and the Eskom electricity grid.
- » A new 132kV power line approximately 5km in length, between the on-site substation and Eskom grid connection point.
- » Cabling between the project's components (to be laid underground where practical).
- » Meteorological measurement station.
- » Energy storage area of up to 2ha in extent.
- » Access road and internal access road network.
- » On-site buildings and structures, including a control building and office, ablutions and guard house.
- » Perimeter security fencing, access gates and lighting.
- » Temporary construction equipment camp up to 1ha in extent, including temporary site offices, parking and chemical ablation facilities.

- » Temporary laydown area up to 1ha in extent, for the storage of materials during the construction.

All four PV facilities are located on the following affected properties:

Allepad PV One, Allepad PV Two, Allepad PV Three, and Allepad PV Four PV facilities:

- » Remaining Extent of Erf 5315 Upington

Grid connection:

- » Remaining Extent of Erf 5315 Upington
- » Erf 01 Upington

The projects are intended to form part of the Department of Energy's (DoE's) Renewable Energy Independent Power Producer Procurement (REIPPP) Programme. The power generated by the projects will be sold to Eskom and will feed into the national electricity grid. The development of the projects will assist with the achievement of the electricity goals as set out in the Integrated Resources Plan for electricity (IRP) 2010 – 2030 by diversifying South Africa's electricity mix, and positively contributing towards socio-economic, and environmentally sustainable growth

ENVIRONMENTAL IMPACT ASSESSMENT (EIA) PROCESS

The development of the four Allepad PV projects each require that application for Environmental Authorisation (EA) be made to the Competent Authority, the National Department of Environmental Affairs (DEA), in consultation with the Local Commenting Authority, the Northern Cape Department of Environment and Nature Conservation (DENC), in accordance with the requirements of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the 2014 Environmental Impact Assessment (EIA) Regulations (GNR 326). Separate applications for EA will be made for each project, and will be supported by full Scoping and EIA processes.

Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Consultants responsible for managing the applications for EA and supporting Scoping and EIA processes. The purpose of these processes is to identify and assess potential environmental impacts associated with the projects, and propose appropriate mitigation and management measures to be included in the project's Environmental Management Programmes (EMPrs). Interested and / or Affected Parties (I&APs) will be actively involved through the public participation process.

The department and / or organisation which you represent has been identified as a commenting authority for the four Allepad PV projects. **In this regard, please can you provide us with the name and contact details of the relevant contact person at your Department who we would liaise with regarding these projects.** A Background Information Document (BID) which provides further information on the nature and extent of the proposed projects and the EIA processes being undertaken is attached to this letter, and is also available for download on Savannah Environmental's website (www.savannahsa.com). By registering on the project's database, you will be kept informed of the EIA processes being undertaken for the projects and will be provided with an opportunity to provide comment and input on the projects.

Please do not hesitate to contact us should you require additional information and / or clarification regarding the projects. Our team welcomes your participation and looks forward to your involvement throughout this process.

Kind regards

NICOLENE VENTER

NOTIFICATION OF AVAILABILITY OF SCOPING
REPORT FOR PUBLIC REVIEW AND REPORT
DISTRIBUTION

12 October 2018

Dear Stakeholder

**ENVIRONMENTAL IMPACT ASSESSMENTS AND PUBLIC PARTICIPATION PROCESSES FOR THE
DEVELOPMENT OF FOUR 100MW PV PROJECTS NEAR UPINGTON IN THE NORTHERN CAPE:
ALLEPAD PV ONE, ALLEPAD PV TWO, ALLEPAD PV THREE, AND ALLEPAD PV FOUR**

NOTICE OF AVAILABILITY OF SCOPING REPORTS FOR REVIEW

LEnergy Development (Pty) Ltd proposes the development of four 100MW Photovoltaic (PV) facilities and associated infrastructure on the Remaining Extent of Erf 5315 Upington, located approximately 11km north-west of Upington, in the Dawid Kruiper Local Municipality, of the ZF Mgcawu District, in the Northern Cape Province. The projects are to be known as Allepad PV One, Allepad PV Two, Allepad PV Three, and Allepad PV Four.

The development of the four Allepad PV projects require that separate applications for Environmental Authorisation (EA) be made to the Competent Authority, the National Department of Environmental Affairs (DEA). In accordance with the requirements of the National Environmental Management Act (No. 107 of 1998) (NEMA) and the 2014 Environmental Impact Assessment (EIA) Regulations, as amended (GNR 326), EA is required subject to the completion of full Scoping and EIA processes. Savannah Environmental (Pty) Ltd has been appointed as the independent Environmental Consultants responsible for managing the applications for EA and supporting Scoping and EIA processes.

AVAILABILITY OF SCOPING REPORT FOR REVIEW

As a registered Interested and Affected Party (I&AP), you are hereby notified that Scoping Reports prepared for the Allepad PV projects are available for review and comment. The reports can be viewed at the Dawid Kruiper Public Library (corner of Mark Street and Mutual Street, Upington), from **12 October 2018 – 12 November 2018**. The reports are also available for download on: www.savannahsa.com. Please submit all written comment on the Scoping Reports via fax, post or email to the contact person below by **Monday, 12 November 2018**. All comments received during this 30-day review period will be recorded and included in the Final Scoping Report for submission to the National DEA in line with Regulation 44 of the 2014 NEMA EIA Regulations, as amended (GNR 326).

Please do not hesitate to contact us should you require additional information and / or clarification regarding the projects. Our team welcomes your participation and looks forward to your involvement throughout these processes.

Kind regards

Rozanne Els

Savannah Environmental has played a significant role in the energy sector since 2007, specifically in the roll-out of renewable energy projects throughout southern Africa. We have provided consulting services to over 350 renewable and baseload energy applications submitted by Independent Power Producers (IPPs) to the Department of Environmental Affairs in South Africa for authorisation, as well as to Eskom on their renewable energy and gas-to-energy projects. In addition, we have provided environmental management services on the development and implementation of 42 projects selected as preferred bidders by the Department of Energy under the Renewable Energy Independent Power Producers Procurement (REIPPP) Programme (small- and large-scale projects).

- LICHTENBURG 2 PV FACILITY

Allepad PV One

Allepad PV One Facility and Associated Infrastructure

Project Name: Allepad PV One

Applicant: iEnergy Development (Pty) Ltd

Proposed Activity: The development of a 100MW Photovoltaic (PV) facility and associated infrastructure, including the following infrastructure:

- Arrays of PV panels with a generation capacity of up to 100MW.
- Mounting structures to support the PV panels.
- Combiner boxes, on-site inverters (to convert the power from Direct Current (DC) to Alternating Current (AC)), and power transformers.
- An on-site substation up to 1ha in extent to facilitate the connection between the solar energy facility and the Eskom electricity grid.

Allepad PV Two

Allepad PV Two Facility and Associated Infrastructure.

Project Name: Allepad PV Two

Applicant: iEnergy Development (Pty) Ltd

Proposed Activity: The development of a 100MW Photovoltaic (PV) facility and associated infrastructure, including the following infrastructure:

- Arrays of PV panels with a generation capacity of up to 100MW.
- Mounting structures to support the PV panels.
- Combiner boxes, on-site inverters (to convert the power from Direct Current (DC) to Alternating Current (AC)), and power transformers.
- An on-site substation up to 1ha in extent to facilitate the connection between the solar energy facility and the Eskom electricity grid.

Allepad PV Three

Allepad PV Three Facility and Associated Infrastructure

Project Name: Allepad PV Three

Applicant: ILEnergy Development (Pty) Ltd

Proposed Activity: The development of a 100MW Photovoltaic (PV) facility and associated infrastructure, including the following infrastructure:

- Arrays of PV panels with a generation capacity of up to 100MW.
- Mounting structures to support the PV panels.
- Combiner boxes, on-site inverters (to convert the power from Direct Current (DC) to Alternating Current (AC)), and power transformers.
- An on-site substation up to 1ha in extent to facilitate the connection between the solar energy facility and the Eskom electricity grid.

Allepad PV Four

Allepad PV Four Facility and Associated Infrastructure

Project Name: Allepad PV Four

Applicant: Allepad Solar Four

Proposed Activity: The development of a 100MW Photovoltaic (PV) facility and associated infrastructure, including the following infrastructure:

- Arrays of PV panels with a generation capacity of up to 100MW.
- Mounting structures to support the PV panels.
- Combiner boxes, on-site inverters (to convert the power from Direct Current (DC) to Alternating Current (AC)), and power transformers.

Hi Sarah,

Allepad has been uploaded onto Harvest. Please see proof below

<https://www.sahra.org.za/sahris/cases/allepad-pv-one>

The screenshot displays the SAHRIS web interface. At the top, the SAHRIS logo is visible. Below it is a navigation bar with links for MyDashboard, Explore, Create, Calendar, Maps, and Help. A green notification banner states: "Heritage Cases Allepad PV One has been created." Below this is a section for "Heritage Cases" with a "VIEW" button. The main content area is titled "Allepad PV One" and includes links for "Add new comment" and "Subscribe to: This post". There are three tabs: "CaseHeader", "LocationInfo", and "Admin". The "CaseHeader" tab is active, showing the following details:

**ENVIRONMENTAL IMPACT ASSESSMENT FOR THE DEVELOPMENT OF ALLEPAD PV ONE, A PV FACILITY
AND ASSOCIATED INFRASTRUCTURE, ON A SITE NEAR UPINGTON, NORTHERN CAPE PROVINCE**

Dear Registry

An Environmental Impact Assessment (EIA) process is currently being undertaken by Savannah Environmental (Pty) Ltd in accordance with the 2014 EIA Regulations (GNR 326), in terms of Section 24(5) of the National Environmental Management Act (No. 107 of 1998) (NEMA), for the proposed development of Allepad PV One, a PV facility and associated infrastructure, on a site near Upington, in the Northern Cape Province.

A Scoping Report has been prepared for the project and is available for a 30-day public review period from **12 October 2018** to **12 November 2018**.

Please find enclosed two (2) hard copies, and one (1) electronic copy of the **Application Form**, and two (2) hard copies and two (2) electronic copies of the **Scoping Report** for your review and consideration.

I trust that you will find the attached in order. Please don't hesitate to contact me should you have any queries, or require any additional information in this regard.

Kind regards

Sarah Watson
Savannah Environmental

PER EMAIL / MAIL

Dear Sir/Madam

ACKNOWLEDGEMENT OF RECEIPT OF THE NEW APPLICATION FOR ENVIRONMENTAL AUTHORISATION (ENVIRONMENTAL IMPACT ASSESSMENT PROCESS) AND SCOPING REPORT FOR THE PROPOSED ALLEPAD PV ONE, 100MW PHOTOVOLTAIC SOLAR ENERGY GENERATION FACILITY AND ASSOCIATED INFRASTRUCTURE NEAR UPINGTON, NORTHERN CAPE PROVINCE

The Department confirms having received the Application and draft Scoping Report for Environmental Authorisation for the abovementioned project on 12 October 2018. We further confirm that you have submitted these documents to comply with the National Environmental Management Act, 1998 (Act No. 107 of 1998) Environmental Impact Assessment Regulations, 2014 published under Government Notice R982 in Government Gazette No. 38282 dated 04 December 2014, as amended ('the EIA Regulations, 2014').

Please take note of Regulation 40(3) of the EIA Regulations, 2014 which states that potential Interested & Affected Parties, including the Competent Authority, may be provided with an opportunity to comment on reports and plans contemplated in Regulation 40(1) of the EIA Regulations, 2014, prior to the submission of an application but must be provided an opportunity to comment on such reports once an application has been submitted to the Competent Authority.

Note that in terms of Regulation 45 of the EIA Regulations, 2014 this application will lapse if the applicant fails to meet any of the time-frames prescribed in terms of these Regulations, unless an extension has been granted by the Department in terms of Regulation 3(7) of the EIA Regulations, 2014.

All documentation delivered to the physical address contained in this form must be delivered during the official Departmental Office Hours which is visible on the Departmental gate. EIA related documents (includes application forms, reports or any EIA related submissions) that are faxed; emailed; delivered to Security or placed in the Departmental Tender Box will not be accepted.

You are hereby reminded of Section 24F of the National Environmental Management Act, 1998 (Act No. 107 of 1998), as amended, that no activity may commence prior to an Environmental Authorisation being granted by the Department.

Kindly quote the abovementioned reference number in any future correspondence in respect of the application.

Yours sincerely

Mr Sabelo Malaza

Chief Director: Integrated Environmental Authorisations

Dear Mr Masilela

**ENVIRONMENTAL IMPACT ASSESSMENTS AND PUBLIC PARTICIPATION PROCESSES FOR THE
DEVELOPMENT OF FOUR 100MW PV PROJECTS NEAR UPINGTON IN THE NORTHERN CAPE:
ALLEPAD PV ONE, ALLEPAD PV TWO, ALLEPAD PV THREE, AND ALLEPAD PV FOUR**

NOTICE OF AVAILABILITY OF SCOPING REPORT FOR REVIEW AND WRITTEN COMMENTS

The development of four 100MW Photovoltaic (PV) facilities and associated infrastructure is proposed on the Remaining Extent of Erf 5315 Upington, located approximately 11km north-west of Upington, in the Dawid Kruiper Local Municipality, of the ZF Mgcawu District, in the Northern Cape Province. The projects are to be known as Allepad PV One, Allepad PV Two, Allepad PV Three, and Allepad PV Four. Each of the four Allepad PV projects entails the development of a PV facility and supporting infrastructure.

This letter serves to inform you that the Scoping Report is available for your Organisation's review and written comments, and a CD containing the Scoping Report is included in this envelope.

Please note that the Scoping Report's review period is from **Friday, 12 October** to **Monday, 12 November 2018** and we are looking forward receiving your Organisation's written comment on the Scoping Report before or on the closing date of the review period.

Kind regards

**ENVIRONMENTAL IMPACT ASSESSMENTS AND PUBLIC PARTICIPATION PROCESSES FOR THE
DEVELOPMENT OF FOUR 100MW PV PROJECTS NEAR UPINGTON IN THE NORTHERN CAPE:
ALLEPAD PV ONE, ALLEPAD PV TWO, ALLEPAD PV THREE, AND ALLEPAD PV FOUR**

NOTICE OF AVAILABILITY OF SCOPING REPORT FOR REVIEW AND WRITTEN COMMENTS

The development of four 100MW Photovoltaic (PV) facilities and associated infrastructure is proposed on the Remaining Extent of Erf 5315 Upington, located approximately 11km north-west of Upington, in the Dawid Kruiper Local Municipality, of the ZF Mgcawu District, in the Northern Cape Province. The projects are to be known as Allepad PV One, Allepad PV Two, Allepad PV Three, and Allepad PV Four. Each of the four Allepad PV projects entails the development of a PV facility and supporting infrastructure.

This letter serves to inform you that the Scoping Report is available for your Organisation's review and written comments, and a hard copy of the Scoping Report and CD is included in this envelope.

Please note that the Scoping Report's review period is from **Friday, 12 October** to **Monday, 12 November 2018** and we are looking forward receiving your Organisation's written comment on the Scoping Report before or on the closing date of the review period.

Importance: High

Good morning,

This serves to inform you that DEA: Biodiversity directorate did not receive the allepad solar facilities report. You are kindly requested to send the report to us and give us an extension of at least three days to review it and provide comments.

NB: Please address it to Mr Stanley Tshitwamulomoni.

Kind regards

Good Day Nicole,

With reference to your enquiry below, I would like to confirm that the reference made to a “pipeline”.

Please be informed that the solid yellow line on the locality map is the 300m wide power line corridor (for environmental assessment purposes).

In terms of your request for the number appearing on the nearest blue km marker board along the N10, this will be forwarded as soon as it is available.

Also, we herewith confirm that you are registered as a Key Stakeholder on the above-mentioned projects’ databases.

Kind regards,

Nicolene Venter

Dear Nicolene

The above listed project bears reference.

I would hereby wish to register as an I&AP for this particular project.

The South African National Roads Agency SOC Limited (SANRAL) has received background information and a site layout plan for this project and based on the proximity of the pipeline in relation to the National Road N10, it appears that SANRAL could be impacted by this development.

Could you also indicate the number appearing on the nearest blue km marker board on N10.

If services need to be constructed over or under the national road, (in this case the N10) or within 60m measured from the road reserve fence, the service owner must apply for a written permission from SANRAL, before any work may be carried out. Attached please find an application form for the proposed encroachment.

Do not hesitate to contact the sender should you have any further queries.

I trust that you will find the above in order.

Regards

Nicole Abrahams

Subject: Request for Comment: Allepad Scoping Report for public review
Importance: High

Dear Gilbert,

With reference to the attached notification letter in regards to the availability of the Scoping Report for public review for the four Allepad PV Facilities, we noted that we have not yet received written comment from the ZF Mgcawu District Municipality.

This e-mail serves as a reminder that the comment period for the above mentioned project ends on **Monday, 12 November 2018.**

It would be appreciated if you can submit written comment before or on **Monday, 12 November 2018** by close of business.

Should you not have any comments, please inform us accordingly.

Kind regards,

Notification of availability of Environmental Impact
Assessment Report for review and comment
including Distribution Spreadsheet and Proof of
Delivery
(to be included in Final EIAr)
