Re: Amendment to Mining Right of Ballito Crushers quarry

Ballito Crushers (Pty) Ltd has a Mining Right to operate a dolerite quarry and crushing/screening plant that extends onto part of the property, Portion 28 of Lower Oaklands No. 16728, situated 1.3 km east of Shakaskraal townlands.

Changes to the long-term quarry development plan require the extension of the quarry onto an additional 4 ha area on Portion 28 of Lower Oaklands No. 16728 that lies adjacent to the registered Mining Area. The attached plan shows the extent of the quarry expansion area.

Application has been made to the Minister of Mineral Resources to amend the Mining Right for the Ballito Crushers (Pty) Ltd dolerite quarry in terms of Section 102 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002) as amended by Section 72 of the Mineral and Petroleum Resources Development Amendment Act, 2008 (No. 49 of 2008).

The draft amended Environmental Impact Assessment and Environmental Management Programme documents describing the proposed extension of the quarry area are available for inspection at the Shakaskraal Public Library.

Interested and affected parties are requested to register their interest in this matter, in a written submission addressed to the contact person below, before 5 February 2017.

Yours sincerely,

Dr G.A. Botha
pp. Ballito Crushers (Pty) Ltd
