Dear Stakeholder

**NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS:
PROPOSED AMAKHALA EMOYENI WIND ENERGY FACILITY, BETWEEN
BEDFORD AND COOKHOUSE, EASTERN CAPE PROVINCE
(DEA Ref No. 12/12/20/1754)**

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

Windlab Developments South Africa Pty Ltd is proposing to establish a commercial wind energy facility on a site between Cookhouse and Bedford in the Eastern Cape Province. It is proposed for a cluster of up to 350 wind turbines (described as a wind energy facility) to be constructed over an area of approximately 273 km² in extent. This project is known as the Amakhala Emoyeni Wind Energy Facility.

The proposed wind energy facility would include:

- » Up to **350 wind turbines** and foundations to support them
- » **Underground cables** between the turbines
- » Up to **3 substations** to facilitate the connections between the Wind Energy Facility and the grid.
- » Internal **access roads** to each turbine.
- » Overhead **power lines** either feeding into the Poseidon Substation or tying directly into existing transmission lines
- » Workshop area for maintenance and storage

The site proposed for the Amakhala Emoyeni Wind Energy Facility area falls within the Blue Crane Route Local Municipality. The wind energy facility is proposed on the following farms:

Portion 1, 2 and remainder of Farm 222, Portion 3 of Farm 203 (Platt House), Remainder of Farm 205 (Kop Leegte), Portion 1 of Farm 206 (Normandale), Remainder of Farm 168 (Stompstaart Fontein), Remainder of Farm 224 (Taai Fontein), Remainder of Farm 221 (Leeuw Fontein), Portion 2 and remainder of Farm 223 (Paarde Kloof), Remainder of Farm 227 (Wilgem Bush), Remainder of

Farm 225, Portion 1, 2 and remainder of Farm 218 (Brakke Fonteyn), Remainder of Farm 259, Remainder of Farm 260, Portion 5 of Farm 149 (Great Knoffel Fonteyn), Remainder of Farm 242, Portion 1 and remainder of Farm 220 (Brak Fonteyn), Remainder of Farm 219 (Vogel Fonteyn), Remainder of Farm 169 (Olive Woods Estate), Portion 3 of Farm 141 (Brakfonteyn), Portion 1 of Farm 187 (Kleine Knoffel Fonteyn).

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

The proposed development is considered to be a listed activity in terms of Government Notices R385 promulgated in terms of the National Environmental Management Act (Act No. 107 of 1998). In terms of this legislation, a Scoping and Environmental Impact Assessment are required to be undertaken for this proposed project.

In this regard, Windlab has appointed **Savannah Environmental** to undertake the Environmental Impact Assessment process to identify and assess all potential environmental impacts that might arise as a result of the proposed project. **Sustainable Futures ZA** is assisting Savannah Environmental in the process through the facilitation of the public participation process, which forms part of the overall EIA process. You and/or the organisation/department which you represent have been identified as an Interested and Affected Party (I&AP). Should you have an interest in this project, please register yourself as an I&AP and note your formal comments by sending written correspondence in this regard. All comments received will form part of the Comments and Response Report that will be included in the Scoping and EIA reports which will be submitted to the Department of Environmental Affairs (DEA). By submitting your details and comments to Sustainable Futures ZA, you are ensured that your comments, concerns or queries will be noted.

To obtain further information and register on the project database, please submit your name, contact information and interest in the project to the contact person below. This project has been registered with the National Department of Environmental Affairs (DEA), the Competent Authority for this proposed project, under Application Reference Number **12/12/20/1754**.

Comments can be made as written submission via fax, post or e-mail.

Please submit your comments to
Shawn Johnston of Sustainable Futures ZA PO Box 749, Rondebosch, Cape Town, 7701 Fax: 086 510 2537 E-mail: swjohnston@mweb.co.za

Please do not hesitate to contact us should you require additional information and/or clarification regarding the proposed project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Yours sincerely,

Shawn Johnston
Process Facilitator

INVITATION TO REVIEW THE DRAFT SCOPING REPORT

Windlab Developments South Africa Pty Ltd is proposing to establish a commercial wind energy facility on a site between Cookhouse and Bedford in the Eastern Cape Province. It is proposed for a cluster of up to 350 wind turbines (described as a wind energy facility) to be constructed over an area of approximately 273 km² in extent. This project is known as the Amakhala Emoyeni Wind Energy Facility.

The proposed wind energy facility would include:

- » Up to **350 wind turbines** and foundations to support them
- » **Underground cables** between the turbines
- » Up to **3 substations** to facilitate the connections between the Wind Energy Facility and the grid.
- » Internal **access roads** to each turbine.
- » Overhead **power lines** either feeding into the Poseidon Substation or tying directly into existing transmission lines
- » Workshop area for maintenance and storage

INVITATION TO REVIEW THE DRAFT SCOPING REPORT

A Draft Scoping Report has been prepared by Savannah Environmental and will be made available for public review. You are invited to review the report at one of the following locations:

Bedford Library	www.savannahSA.com
Cookhouse Library	Cookhouse Farmers Association

The period for review is **21 May 2010 to 21 June 2010**. Comments can be made as written submission via fax, post or e-mail.

Please submit your comments to
Shawn Johnston of Sustainable Futures ZA PO Box 749, Rondebosch, Cape Town, 7701 Fax: 086 510 2537 E-mail: swjohnston@mweb.co.za

Please do not hesitate to contact us should you require additional information and/or clarification regarding the proposed project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Yours sincerely,

Shawn Johnston

LIFE IS NOT DULL ...

(By Jan Hopkins)
 Especially if you have experienced Evening Bowls in Fort Beaufort recently.

At the end of last year we launched Evening Bowls with the official "turning on" of the lights, but since mid-January this year Wednesday evenings have not been the same.

Evening Bowls is not just "bowls with the lights on"; the whole atmosphere changes. Evening Bowls is a fun social event well supported by business people in town who cannot play on a Wednesday afternoon or Saturday afternoon. It is also a lot cooler!! The rules are relaxed inasmuch as clothing is casual as long as the shoes are flat-soled. Doesn't matter if you can play or not, or if you have your own woods. There are plenty of Club Members to help and assist and share their own woods as we only play with two woods each.

We started off only playing 11 ends instead of 21, but the enthusiasm has grown so much that players now want to carry on to 13 or 15 ends; they just don't want to stop. It seems that playing in the dark under lights people lose their inhibitions and don't mind making mistakes,

Pearston Kudde-kompetisie

Op Donderdag 6 Mei, 2010 het Pearston Landbouvereniging weer hul jaarlikse Kuddekompetisie aangebied. Dit was weereens 'n gesellige en geslaagde dag. Die uitwerking van die droogte het 'n rol gespeel in die bywoning, nogtans het ons 35 krale gehad wat om die pryse meegeding het. Melding moet gemaak word van die hoë kwaliteit diere wat deelgeneem het.

Jeugprogram

'n Eerste vir Pearston was die aanbied van 'n Jeugprogram vir leerders van omliggende Hoërskole. Leerders was 'n kort kursus aangebied in die beoordeling van Angorabokke, waarna hulle 5 diere volgens rangorde moes plaas.

Mnr. Gerhard Grobler (President SASKV), Philip Vosloo (Bestuurder SASKV) asook verskeie verteenwoordigers van Maatskappye wat ons dag moontlik gemaak het d.m.v. hul borgskappe, het die dag bygewoon. Baie dankie aan die volgende maatskappye en persone vir hul borgskap.

S.A.S.K.V	Rice Irrigation
B.C.R Wool and Mohair	Somerset Budget
Virbac	Phizer

Jenkins signs up Matt Bouman for this weekend's Hansa Powerade Fish

CRADOCK

World marathon championships medalist Len Jenkins will be jetting home from Spain this week to challenge for an unprecedented seventh victory in the Hansa Powerade Fish river canoe marathon, and has enlisted powerhouse paddler Matt Bouman as a partner for what is shaping up to be a ferociously competitive title race.

Jenkins, who has won six back to back K1 titles since 2001, and won the K2 title with Hank McGregor in 2006, won a bronze medal in the senior men's K1 race at the world marathon championships in Banyoles in Spain on the weekend.

Jenkins and a number of elite marathoners in the South African squad that finished fifth overall at the world marathon championships will fly back on the first available flights to be able to be on the start-line for the Hansa Powerade Fish River Canoe marathon that starts on Friday morning.

"KING OF THE FISH" Len Jenkins has caused a stir by signing up Durban iron man, Matt Bouman, as his partner for this weekend's Hansa Powerade Fish River Canoe Marathon.

The Pietermaritzburg based speedster, who has spent much of his year training with the national sprint squad has earned the title "King of the Fish" from his peers of his uncanny ability to outstrip all challengers over the three hour first stage, and knows the tactical demands of the race better than any other paddler. Word has been circulating in canoeing circles that Jenkins has been without a partner for this year's race, and he even put out feelers on his Facebook profile looking for potential partners for the race.

"We haven't done that much time in the boat together," said Bouman. "But we have paddled together before and went well, so I am really looking forward to the race." Bouman anchored a K3 that tore through the field last year to finish in the top ten overall, helping to build the credibility of the unusual three seater craft to the point that they have

winner from last weekend's world marathon champs, teenager Brandon van der Walt, and a number elite local racers who just missed medalling at the world title decider at Banyoles in Spain.

Brandon van der Walt had to settle for the silver medal in his attempted defence of the U18 world title, and is looking forward to his Fish challenge with talented Cape paddler Ivan Kruger, where they will start as the hot favourites to take the junior title.

His older brother Grant van der Walt, who came away with a fourth place in his bid to defend his Under 23 world title, will team up with Hank McGregor. The 2008 champs will start as the favourites to retain their title in this year's Hansa Powerade Fish.

Also jetting back from Spain just in time for the big race in Cradock this weekend is Eastern Cape star Michéle Eray, who had to endure being muscled off

Daily Dispatch

VACANCY

JUNIOR PHOTOGRAPHER

Department: Daily Dispatch
Reporting to: Picture Editor

A vacancy exists for a suitably experienced Junior Photographer at the Daily Dispatch newspaper in East London

Purpose of the Job: To provide excellent pictures for all sections of the newspaper. Liaise closely with all editorial departments to provide excellent pictures for publication.

Dear Stakeholder

**ENVIRONMENTAL IMPACT ASSESSMENT PROCESS:
PROPOSED AMAKHALA EMOYENI WIND ENERGY FACILITY, BETWEEN
BEDFORD AND COOKHOUSE, EASTERN CAPE PROVINCE
(DEA Ref No. 12/12/20/1754)**

INVITATION TO REVIEW THE DRAFT EIA REPORT

Windlab Developments South Africa Pty Ltd is proposing to establish a commercial wind energy facility on a site between Cookhouse and Bedford in the Eastern Cape Province. It is proposed for a cluster of up to 350 wind turbines (described as a wind energy facility) to be constructed over an area of approximately 273 km² in extent. This project is known as the Amakhala Emoyeni Wind Energy Facility.

The proposed wind energy facility would include:

- » Up to **350 wind turbines** and foundations to support them
- » **Underground cables** between the turbines
- » Up to **3 substations** to facilitate the connections between the Wind Energy Facility and the grid.
- » Internal **access roads** to each turbine.
- » Overhead **power lines** either feeding into the Poseidon Substation or tying directly into existing transmission lines
- » Workshop area for maintenance and storage

INVITATION TO REVIEW THE DRAFT EIA REPORT

A Draft EIA Report has been prepared by Savannah Environmental and will be made available for public review. You are invited to review the report at one of the following locations:

Bedford Library	Cookhouse Library
www.savannahSA.com	

The period for review is **18 October 2010 to 16 November 2010.** Comments can be made as written submission via fax, post or e-mail.

Please submit your comments to
Shawn Johnston of Sustainable Futures ZA PO Box 749, Rondebosch, Cape Town, 7701 Fax: 086 510 2537 E-mail: swjohnston@mweb.co.za

Please do not hesitate to contact us should you require additional information and/or clarification regarding the proposed project. Our team welcomes your participation and looks forward to your involvement throughout this process.

Yours sincerely,

Shawn Johnston
Process Facilitator
