ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES FOR THE PROPOSED DEVELOPMENT OF THE ANGORA WIND FARM NEAR RICHMOND, NORTHERN CAPE PROVINCE (DFFE Reference No.: To be Issued)

Dear Stakeholder and Interested & Affected Party,

Great Karoo Renewable Energy (Pty) Ltd proposes the development of the Angora Wind Farm located ~35km South-West of the town of Richmond along the N1 and 80km South-East of Victoria West along the R63 in the Northern Cape Province, within the Ubuntu Local Municipality, and within the greater Pixley Ka Seme District Municipality. The project will have a contracted capacity of up to 140MW and is planned as part of a larger cluster of renewable energy projects. The connection point to the national grid will be the existing Eskom Gamma Substation.

SCOPING REPORT AVAILABLE FOR REVIEW AND COMMENT

The Scoping Report for the Angora Wind Farm is available for download, review, & comment on the Savannah Environmental website. The 30-day review & comment period of the Scoping Report is from **Friday, 28 July 2023** until **Monday, 28 August 2023**. The last day to submit written comments is **Monday, 28 August 2023**.

Please find attached for your perusal the notification letter informing you of the availability of the Scoping Report for your review and comments and the Scoping Report can be downloading from our website [CLICK HERE](#).

Please do not hesitate to contact us should you require any additional information and/or clarification regarding this project. Our team welcomes your participation and look forward to your involvement throughout the EIA Process.

Kind regards,

[SAWEA Award for Leading Environmental Consultant on Wind Projects in 2013 & 2015](#)

28 July 2023

Dear Stakeholder and Interested and Affected Party,

**ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES FOR THE PROPOSED
DEVELOPMENT OF THE ANGORA WIND FARM NEAR RICHMOND, NORTHERN CAPE PROVINCE
(DFFE Reference No.: To be Issued)**

NOTIFICATION OF EIA PROCESS AND AVAILABILITY OF SCOPING REPORT FOR REVIEW AND COMMENT

Great Karoo Renewable Energy (Pty) Ltd proposes the development of the Angora Wind Farm located ~35km South-West of the town of Richmond along the N1 and 80km South-East of Victoria West along the R63 in the Northern Cape Province, within the Ubuntu Local Municipality, and within the greater Pixley Ka Seme District Municipality. The project will have a contracted capacity of up to 140MW and is planned as part of a larger cluster of renewable energy projects. The connection point to the national grid will be the existing Eskom Gamma Substation. Infrastructure associated with the project includes:

- » Wind turbines.
- » Concrete turbine foundations & turbine hardstands.
- » Inverters & transformers.
- » Temporary laydown areas which will accommodate storage & assembly areas.
- » Cabling between the turbines, to be laid underground where practical.
- » A temporary concrete batching plant.
- » 33/132kV onsite facility substation.
- » Underground cabling from the onsite substation to the collector substation.
- » Electrical & auxiliary equipment required at the collector substation that serves that wind energy facility, including switchyard/bay, control building, fences, etc.
- » Battery Energy Storage System (BESS).
- » Access roads & internal distribution roads.
- » Site offices & maintenance buildings, including workshop areas for maintenance & storage.

The development area consist of four (4) affected properties, which include:

- Portion 11 of Farm Gegundefontein 53
- Portion 0 of Farm Vogelstruisfontein 84
- Portion 1 of Farm Rondavel 85
- Portion 0 of Farm Rondavel 85

ENVIRONMENTAL IMPACT ASSESSMENT (EIA) PROCESS

In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with the EIA Regulations (2014), as amended on 07 April 2017, of GN R324 to GN R327, a Scoping and EIA is required to be undertaken for the proposed project. The Scoping Report was accepted in January 2022 and the application subsequently lapsed. The Applicant has resubmitted the application to continue at the initiation of the Environmental Impact Assessment Phase, in accordance with Regulation 21(2)(a) of the EIA Regulations 2014, as amended, since the findings of the scoping report remain valid, and the environmental context has not changed.

SCOPING REPORT AVAILABLE FOR REVIEW AND COMMENT

The Scoping Report for the Angora Wind Farm is available for download, review, & comment on the Savannah Environmental website (<https://savannahsa.com/public-documents/energy-generation/>). The 30-day review & comment period of the Scoping Report is from **Friday, 28 July 2023** until **Monday, 28 August 2023**. The last day to submit written comments is **Monday, 28 August 2023**.

Please note Regulation 3(1) of the Environmental Impact Assessment Regulations, 2014, as amended, i.e.:

Subject to subregulations (2) and (3), when a period of days must in terms of these Regulations be reckoned from or after a particular day, that period must be reckoned as from the start of the day following that particular day to the end of the last day of the period, but if the last day of the period falls on a Saturday, Sunday or public holiday, that period must be extended to the end of the next day which is not a Saturday, Sunday or public holiday.

Although the Scoping Report for the renewable energy facilities will be available during the course of the day on Friday, 28 July 2023, Saturday, 29 July 2023 would be the first day of your 30-day review and comment period. The due date for written comments is Monday, 28 August 2023.

You can also request that an electronic copy of the Scoping Report be sent to you via file transfer services such as WeTransfer or Dropbox.

Please submit your written comments on the Scoping Report to Nicolene Venter via one of the following means:

- Telephone: 011 656 3237
- Mobile: 060 978 8396 (including please call me)
- Fax: 086 684 0547
- E-mail: publicprocess@savannahsa.com

All comments received during the 30-day review and comment period will be recorded and included in the Final Scoping Report for submission to the DFFE in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

We are looking forward to your participation in the public participation processes for these projects as your valuable contribution to the proposed projects will ensure an inclusive approach and allow the DFFE to make an informed decision.

Proof of upload to be included in Final Scoping Report

PREVIOUS SCOPING PHASE PROCESS

Notification of initiation of EIA & Public Participation
Process

21 October 2021

Dear Stakeholder and Interested and Affected Party,

**PROPOSED DEVELOPMENT OF THE GREAT KAROO CLUSTER OF RENEWABLE ENERGY FACILITIES AND
GRID CONNECTION INFRASTRUCTURE NEAR RICHMOND, NORTHERN CAPE PROVINCE
(DEFF Reference Nos.: To be Issued)**

NOTICE OF ENVIRONMENTAL IMPACT ASSESSMENT AND PUBLIC PARTICIPATION PROCESSES

Great Karoo Renewable Energy (Pty) Ltd proposes the development of a cluster of renewable energy facilities and associated infrastructure, including Electrical Grid Infrastructure (EGI), ~35km South-West of the town of Richmond along the N1 and 80km South-East of Victoria West along the R63 in the Northern Cape Province. The cluster consists of three (3) 100MW solar photovoltaic (PV) energy facilities, and two (2) 140MW wind farms. The grid connection infrastructure for all projects will include one central collector 132kV substation and a double circuit 132kV power line to the existing Eskom Gamma Substation, located within the Western Cape Province.

Each renewable energy facility will be constructed as a separate stand-alone project and therefore, separate Scoping and Environmental Impact Assessment (EIA) processes will be undertaken for each of the renewable energy facilities. Similarly, the grid connection solution will be subjected to a separate Basic Assessment (BA) process which will consider feasible alternatives for the power line corridors. A combined six (6) applications for Environmental Authorisation (EA) are currently being pursued as follows:

- » Two (2) wind farm EAs:
 - Angora Wind Energy Facility
 - Merino Wind Energy Facility
- » Three (3) solar PV facility EAs:
 - Nku Solar PV Facility
 - Moiriro Solar PV Facility
 - Kwana Solar PV Facility
- » One (1) Electrical Grid Infrastructure (EGI)
 - A central collector 132kV substation and double circuit 132kV power line EA.

Additional technical information regarding these renewable energy facilities is available in the Background Information Document attached to this notification letter.

ENVIRONMENTAL IMPACT ASSESSMENT PROCESS

In accordance with the Environmental Impact Assessment (EIA) Regulations, 2014 (as amended) published in terms of Section 24(5) of the National Environmental Management Act (No. 107 of 1998) (NEMA), the applicants require Environmental Authorisation (EA) from the National Department of Environment, Forestry and Fisheries (DFFE) in consultation with the Northern Cape Department of Agriculture, Environmental Affairs, Rural Development and Land Reform (DAEARD&LR) and the Western Cape Department of Environmental Affairs and Development Planning (DEA&DP) for the development of the proposed projects. In terms of Section 24(5) of NEMA, the EIA Regulations 2014 (as amended) and Listing Notices (GNR 327, GNR 325, and GNR 324), the five (5) applications for EA for the renewable energy facilities are subject to the completion of Scoping/EIA processes, and that for the EGI is subject to the completion of a BA process. Each application is required to be supported by comprehensive, independent environmental studies undertaken in accordance with the EIA Regulations, 2014 (as amended).

The proponent has appointed Savannah Environmental, as the independent environmental consultant to undertake the EIA processes for the projects to identify and assess all potential environmental impacts associated with the projects and recommend appropriate mitigation measures in the Environmental Management Programmes (EMPrs).

Due to the proximity of the renewable energy facilities and their associated grid connection solution to one another, the public participation processes for the projects will be undertaken concurrently, providing the public with an opportunity to understand and provide comment on all the projects. The Public Participation Plan submitted to the DFFE and this approach was approved by the DFFE on 15 September 2021. As part of the environmental studies, Interested and Affected Parties (I&APs) will be actively involved through the public involvement process being undertaken by Savannah Environmental.

You and/or the organization/company, which you represent, have been identified as a stakeholder for the proposed projects as described above. The nature and extent of the solar PV, wind energy facilities, the EGI and associated infrastructure are explored in more detail in the BID which is attached to this letter and is also available for download from the Savannah Environmental website <https://savannahsa.com/public-documents/energy-generation/the-great-karoo-cluster-of-renewable-energy-facilities/>.

PUBLIC INVOLVEMENT PROCESS

The public participation (PP) process will be undertaken in accordance with the requirements of Regulations 39 to 44 of the Environmental Impact Assessment (EIA) Regulations, 2014, as amended, (GNR 326). The aim of the public participation process is primarily to ensure that:

- » information containing all relevant facts in respect of the proposed project is made available to potential stakeholders and I&APs;
- » participation by I&APs is facilitated in such a manner that all potential stakeholders and I&APs are provided with a reasonable opportunity to comment on the proposed project; and
- » comments received from potential stakeholders and I&APs are recorded and incorporated into the EIA process.

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster limiting the movement and gathering of people to curb the spread of the

COVID-19 virus has placed some limitations on how public consultation can be conducted as part of an EIA processes. The consultation process for these projects has been designed considering these limitations, and the implementation is in line with our public participation plan, as approved by the DFFE. Savannah Environmental have established an online stakeholder engagement platform, where you are invited to register your interest in the project/s, and view project documentation. Please visit our website: <https://savannahsa.com/public-documents/energy-generation/the-great-karoo-cluster-of-renewable-energy-facilities/>.

Where I&APs do not have the applicable facilities or access to internet, alternative means for consultation and to facilitate comment on the projects will be made, including consulting with the Ward Councillor, the ward committee members, community representatives and local community forum members.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

Nicolene Venter

Notification of availability of Scoping Report for review
and comment

10 November 2021

Dear Stakeholder and Interested and Affected Party,

**GREAT KAROO CLUSTER OF RENEWABLE ENERGY FACILITIES AND GRID CONNECTION INFRASTRUCTURE
NEAR RICHMOND, NORTHERN CAPE PROVINCE
(DFFE Reference Nos.: To be Issued)**

NOTIFICATION OF AVAILABILITY OF SCOPING REPORTS FOR REVIEW AND COMMENT

The development of the three (3) 100MW solar photovoltaic (PV) energy facilities, and the two (2) 140MW wind farms for which separate Environmental Impact Assessment (EIA) processes and a combined Public Participation Process are being conducted, namely:

Solar PV Facilities	Wind Energy Facilities
Nku Solar PV Facility	Angora Wind Energy Facility
Moriri Solar PV Facility	Merino Wind Energy Facility
Kwana Solar PV Facility	

The detailed project information that was provided in the Background Information Document (BID) distributed on 21 October 2021, has reference.

SCOPING REPORTS AVAILABLE FOR PUBLIC REVIEW AND COMMENT

The Scoping Reports for each of the renewable energy facilities are available for review and comment from **Friday, 12 November 2021** until **Monday, 13 December 2021**. The reports are available for download from the Savannah Environmental website <https://savannahsa.com/public-documents/energy-generation/the-great-karoo-cluster-of-renewable-energy-facilities/>.

Please note Regulation 3(1) of the Environmental Impact Assessment Regulations, 2014, as amended, i.e.:

Subject to subregulations (2) and (3), when a period of days must in terms of these Regulations be reckoned from or after a particular day, that period must be reckoned as from the start of the day following that particular day to the end of the last day of the period, but if the last day of the period falls on a Saturday, Sunday or public holiday, that period must be extended to the end of the next day which is not a Saturday, Sunday or public holiday.

Although the Scoping Reports for the renewable energy facilities will be available during the course of the day on Friday, 12 November 2021, Saturday, 13 November 2021 would be the first day of your 30-day review and comment period. The due date for written comments is Monday, 13 December 2021.

The restrictions enforced in terms of Government Gazette 43096 which placed the country in a national state of disaster, limiting the movement and gathering of people to curb the spread of the COVID-19 virus has placed some limitations on making hard copies of the Scoping Reports available at public places such as libraries and municipal offices.

As per our approved public participation plan submitted to the Department of Forestry, Fisheries and the Environment (DFFE), you can also request that an electronic copy of the Scoping Reports be sent to you via file transfer services such as WeTransfer or Dropbox.

Please submit your written comments on the Scoping Reports via one of the following means:

- Telephone: 011 656 3237
- Mobile: 060 978 8396 (including please call me)
- Fax: 086 684 0547
- E-mail: publicprocess@savannahsa.com

All comments should be addressed to Nicolene Venter or Tumelo Mathulwe at Savannah Environmental.

All comments received during the 30-day review and comment period will be recorded and included in the Final Scoping Reports for submission to the DFFE in line with Regulation 44 of the EIA Regulations, 2014, as amended (GN R326).

INVITATION TO INFORMATION SESSION

You are invited to attend the Information Session (poster display) which will take place at the Richmond Show Grounds on **Thursday, 02 December 2021** at **14h00** until **17h00**. The Information Session will take place in compliance with COVID-19 protocols, and attendees are limited to 12 persons at a time in the Hall. Please contact Nicolene Venter or Tumelo Mathulwe (details below) to register your attendance:

- Mobile: 060 978 8396 (including *please call me*)
- Fax: 086 684 0547
- E-mail: publicprocess@savannahsa.com

We are looking forward to your participation in the public participation processes for these projects as your valuable contribution to the proposed projects will ensure an inclusive approach and allow the DFFE to make an informed decision.

Please do not hesitate to contact us should you require additional information and/or clarification regarding the project. Our team welcomes your participation and look forward to your involvement throughout this process.

Kind regards

Nicolene Venter

**GREAT KAROO CLUSTER OF RENEWABLE ENERGY FACILITIES AND GRID CONNECTION INFRASTRUCTURE NEAR RICHMOND,
NORTHERN CAPE PROVINCE
(DFFE Reference Nos.: To be Issued)**

Dear Stakeholder and Interested & Affected Party,

Great Karoo Renewable Energy (Pty) Ltd proposes the development of a cluster of renewable energy facilities and associated infrastructure, ~35km South-West of the town of Richmond along the N1 and 80km South-East of Victoria West along the R63 in the Northern Cape Province. The cluster consists of three (3) 100MW solar photovoltaic (PV) energy facilities, and two (2) 140MW wind farms.

Please find attached for your perusal the notification letter informing you of the availability of the Scoping Reports for your review and comments. The Scoping Reports are available for downloading from our website [click here](#).

Please do not hesitate to contact us should you require any additional information and/or clarification regarding these projects.

Our team welcomes your participation and look forward to your involvement throughout the Basic Assessment Process.

Kind regards,

Dear Stakeholder and Interested & Affected Party,

With reference to the attached notification letter sent on Friday, 12 November 2021, this e-mail serves to inform you that the review and comment period for the Scoping Reports are ending on **Monday, 13 December 2021**.

As you may recall, the review and comment period for the Scoping Reports commenced on Friday, 12 November 2021.

The Scoping Reports are available on our website [click here](#)

Thank you to those Stakeholders and Interested and Affected Parties who submitted their written comments and those who had not yet to please do so before on **Monday, 13 December 2021**.

Kind regards,

Dear Peter,

Please receive herewith acknowledgement that you are registered on the Angora WEF and Merino WEF projects' database that forms part of the Great Karoo Cluster of Renewable Energy Facilities.

The projects are currently in the scoping phase and it is envisaged that the scoping reports will be available on our website next week Friday, 12 November 2021.

As a registered Interested and Affected Party, you will receive the notification of the availability of the Reports and the review and comment periods.

Kind regards,

Nicolene Venter

Morning,

Please can you register me as an I&AP on the following projects as part of the Great Karoo Cluster of Renewable Energy Facilities:

Angora WEF's and
Merino WEF's

Can you please confirm as to what stage of the environmental process are the Mernio & Angora WEF's currently in?

Kind regards

(DFFE Reference Nos.: To be Issued)**

Dear Stakeholder and Interested & Affected Party,

Great Karoo Renewable Energy (Pty) Ltd proposes the development of a cluster of renewable energy facilities and associated infrastructure, ~35km South-West of the town of Richmond along the N1 and 80km South-East of Victoria West along the R63 in the Northern Cape Province. The cluster consists of three (3) 100MW solar photovoltaic (PV) energy facilities, and two (2) 140MW wind farms.

Please find attached for your perusal the notification letter informing you of the availability of the Scoping Reports for your review and comments. The Scoping Reports are available for downloading from our website [click here](#).

Please do not hesitate to contact us should you require any additional information and/or clarification regarding these projects.

Our team welcomes your participation and look forward to your involvement throughout the Basic Assessment Process.

Kind regards,

Subject: GREAT KAROO RENEWABLE ENERGY CLUSTER: Invitation to Key Stakeholder Workshop

When: 23 November 2021 11:00 AM-12:30 PM (UTC+02:00) Harare, Pretoria.

Where: Microsoft Teams Meeting

Importance: High

Dear Key Stakeholders,

Just a friendly reminder of the Key Stakeholder Workshop taking place tomorrow, Tuesday, 23 November 2021 at 11h00 (we had move the meeting 30min earlier to end before lunch time).

Thank you to those Key Stakeholders who already RSVP and we urged those who had not yet done so to please at your earliest convenience.

The team is looking forward to a fruitful meeting.

Kind regards,

Nicolene Venter

Dear Key Stakeholders,

Great Karoo Renewable Energy (Pty) Ltd proposes the development of a cluster of renewable energy facilities and associated infrastructure, including Electrical Grid Infrastructure (EGI), ~35km South-West of the town of Richmond along the N1 and 80km South-East of Victoria West along the R63 in the Northern Cape Province. The cluster consists of three (3) 100MW solar photovoltaic (PV) energy facilities, and two (2) 140MW wind farms. The grid connection infrastructure for all projects will include one central collector 132kV substation and a double circuit 132kV power line to the existing Eskom Gamma Substation, located within the Western Cape Province.

Savannah Environmental has been appointed as the independent environmental assessment practitioner to manage the application for Environmental Authorisation (EA) and undertaking the Environmental Impact Assessment (EIA) Process required to identify and assess potential environmental impacts associated with the project, as well as propose appropriate mitigation and management measures to be contained within the Environmental Management Programme (EMPr).

We would like to take this opportunity to invite you to the Key Stakeholder Workshop (KSW) taking place on **Tuesday, 23 November 2021** at **11h30** via **MS Teams**. By attending the KSW it would provide you with the opportunity to hear other key stakeholders comments, contributions and viewpoints regarding the applications.

The purpose of the KSW is to present the following to you as Key Stakeholders:

- brief background to the proposed projects;
- an overview of the EIA processes followed for the scoping phase;
- a summary of the key environmental findings as documented in the Scoping Reports;
- an opportunity to seek clarity and raise comments and/or concerns; and
- to record comments raised at the KSW.

Should you not be able to attend the KSW, you are most welcome to forward this invitation to your colleague to attend the KSW on your behalf.

Just a friendly reminder that the Scoping Reports in support of the Applications for the EAs have been compiled and are available for your review and comment. Visit our website on <https://savannahsa.com/public-documents/energy-generation/the-great-karoo-cluster-of-renewable-energy-facilities/> - the release code for all the Reports is VtUvOs4x

The review and comment period for the Scoping Reports commenced on **Friday, 12 November 2021** and is ending on **Monday, 13 December 2021**.

You are kindly requested to submit any questions that you would want the project team to respond to at the KSW to us prior to the meeting.

Please do not hesitate to contact us should you require any additional information.

Kind regards,

Nicolene Venter

Good Day Nicolene,

Yes, we did receive the notification.

Can we perhaps have a password to gain access to the scoping reports ?

Best Regards

Dear Reuben,

Can you please confirm whether you received the attached notification that the Scoping Reports for the Great Karoo Cluster is available for review and comment?

The Scoping Reports are available on our website <https://savannahsa.com/public-documents/energy-generation/great-karoo-wef/>

Kind regards,

Subject: Request for Registration as an I&AP on Projects

Good Day,

Kindly consider our request to be registered as an I&AP on the following projects:

- Great Karoo Cluster of Renewable Energy Facilities
- Houthaalboomen PV Cluster

For the registration process, please use the email address below:

iap@solagroup.co.za

Let me know if anything further is required on our end, I will be glad to assist.

Best Regards
