Great Karoo Cluster of Renewable Energy Facilities

Notice of Environmental Impact Assessment, Basic Assessment and Public Participation Processes for the Proposed Development of the Great Karoo Cluster of Renewable Energy Facilities and Grid Connection Infrastructure, Near Richmond, Northern Cape Province

Applicant: Great Karoo Renewable Energy (Pty) Ltd.

Proposed Activity: Establishment of three (3) Solar Photovoltaic (PV) Energy Facilities, two (2) Wind Energy Facilities and grid connection infrastructure comprising a 132kV central collector substation and a 132kV power line to enable the connection of five (5) renewable energy facilities to the national grid for the evacuation of the generated electricity. The connection point to the national grid will be the existing Eskom Gamma Substation. Infrastructure associated with each project includes:

Solar Energy Facilities

- » Solar PV array comprising PV modules and mounting structures.
- » Inverters and transformers.

- » Cabling between the panels.

- » 33/132kV onsite facility substation.

- » Cabling from the onsite substation to the collector substation (either underground or overhead).

- » Electrical and auxiliary equipment required at the collector substation that serves that solar energy facility, including switchyard/bay, control building, fences, etc.

- » Battery Energy Storage System (BESS).

- » Site offices and maintenance buildings, including workshop areas for maintenance and storage.

- » Laydown areas.

- » Access roads and internal distribution roads.

Wind Energy Facilities

- » Wind turbines.
- » Concrete turbine foundations and turbine hardstands.

- » Inverters and transformers.

- » Temporary laydown areas which will accommodate storage and assembly areas.

- » Cabling between the turbines, to be laid underground where practical.

- » A temporary concrete batching plant.

- » 33/132kV onsite facility substation.

- » Underground cabling from the onsite substation to the collector substation.

- » Electrical and auxiliary equipment required at the collector substation that serves that wind energy facility, including switchyard/bay, control building, fences, etc.

- » Battery Energy Storage System (BESS).

- » Access roads and internal distribution roads.

Grid Connection Infrastructure

- » Central collector substation which consists of:
 - * 33/132kV collector substation.

 - * Associated equipment, infrastructure, and buildings.

 - * Temporary and permanent laydown areas.

- » Distribution Line:
 - * A double-circuit 132kV distribution line to connect the central collector 132kV substation to the existing Eskom Gamma Substation will be constructed.

- » Site offices and maintenance buildings, including workshop areas for maintenance and storage.

Project Location: Approximately 35km South-West of the town of Richmond along the N1 and approximately 80km South-East of Victoria West along the R63 in the Northern Cape Province, within the Ubuntu Local Municipality, and the Pixley Ka Seme District Municipality.

Scoping and Environmental Impact Assessment (S&EIA) and Basic Assessment (BA) Processes: In terms of Sections 24 and 24D of the National Environmental Management Act (No 107 of 1998), as read with Government Notice R324 – R327, as amended, a S&EIA process is required for each renewable energy facility. Similarly, a BA process is required for the grid connection infrastructure. Savannah Environmental is undertaking the required S&EIA, BA, and public participation processes for these projects.

Case Type: Section 38 (8) - Statutory Comment Required

Development Type: Wind

ProposalDescription:

Great Karoo Renewable Energy (Pty) Ltd is proposing the development of a commercial wind farm and associated infrastructure on a site located approximately 35km south-west of Richmond and 80km south-east of Victoria West, within the Ubuntu Local Municipality and the Pixley Ka Seme District Municipality in the Northern Cape Province. A preferred project site with an extent of ~29 909ha and a development area of ~4 544ha within the project site has been identified by Great Karoo Renewable Energy (Pty) Ltd as a technically suitable area for the development of the Angora Wind Farm with a contracted capacity of up to 140MW that can accommodate up to 45 turbines. The development area consists of the four (4) affected properties, which include: Portion 11 of Farm Gegundefontein 53 Portion 0 of Farm Vogelstruisfontein 84 Portion 1 of Farm Rondavel 85 Portion 0 of Farm Rondavel 85 The Angora Wind Farm project site is proposed to accommodate the following infrastructure, which will enable the wind farm to supply a contracted capacity of up to 140MW: Up to 45 wind turbines with a maximum hub height of up to 170m. The tip height of the turbines will be up to 250m. Concrete turbine foundations to support the turbine hardstands. Inverters and transformers. Temporary laydown areas which will

foundations to support the turbine hardstands. Inverters and transformers. Temporary laydown areas which will accommodate storage and assembly areas. Cabling between the turbines, to be laid underground where practical. A temporary concrete batching plant. 33/132kV onsite facility substation. Underground cabling from the onsite substation to the 132kV collector substation. Electrical and auxiliary equipment required at the collector substation that serves that wind energy facility, including switchyard/bay, control building, fences, etc. Battery Energy Storage System (BESS). Access roads and internal distribution roads. Site offices and maintenance buildings, including workshop areas for maintenance and storage. The wind farm is proposed in response to the identified objectives of the national and provincial government and local and district municipalities to develop renewable energy facilities for power generation purposes. It is the developer's intention to bid the Angora Wind Farm under the Department of Mineral Resources and Energy's (DMRE's) Renewable Energy Independent Power Producer Procurement (REIPPP) Programme, with the aim of evacuating the generated power into the national grid. This will aid in the diversification and stabilisation of the country's electricity supply, in line with the objectives of the Integrated Resource Plan (IRP) with the Angora Wind Farm set to inject up to 140MW into the national grid.

**GREAT KAROO CLUSTER OF RENEWABLE ENERGY FACILITIES AND GRID CONNECTION INFRASTRUCTURE NEAR
RICHMOND, NORTHERN CAPE PROVINCE
(DFFE Reference Nos.: To be Issued)**

Dear Stakeholder and Interested & Affected Party,

Great Karoo Renewable Energy (Pty) Ltd proposes the development of a cluster of renewable energy facilities and associated infrastructure, ~35km South-West of the town of Richmond along the N1 and 80km South-East of Victoria West along the R63 in the Northern Cape Province. The cluster consists of three (3) 100MW solar photovoltaic (PV) energy facilities, and two (2) 140MW wind farms.

Please find attached for your perusal the notification letter informing you of the availability of the Scoping Reports for your review and comments. The Scoping Reports are available for downloading from our website [click here](#).

Please do not hesitate to contact us should you require any additional information and/or clarification regarding these projects.

Our team welcomes your participation and look forward to your involvement throughout the Basic Assessment Process.

**GREAT KAROO CLUSTER OF RENEWABLE ENERGY FACILITIES AND GRID CONNECTION INFRASTRUCTURE NEAR RICHMOND, NORTHERN CAPE PROVINCE
(DFFE Reference Nos.: To be Issued)**

Dear Stakeholder and Interested & Affected Party,

Great Karoo Renewable Energy (Pty) Ltd proposes the development of a cluster of renewable energy facilities and associated infrastructure, ~35km South-West of the town of Richmond along the N1 and 80km South-East of Victoria West along the R63 in the Northern Cape Province. The cluster consists of three (3) 100MW solar photovoltaic (PV) energy facilities, and two (2) 140MW wind farms.

Please find attached for your perusal the notification letter informing you of the availability of the Scoping Reports for your review and comments. The Scoping Reports are available for downloading from our website [click here](#).

Please do not hesitate to contact us should you require any additional information and/or clarification regarding these projects.

Our team welcomes your participation and look forward to your involvement throughout the Basic Assessment Process.

Kind regards,

Subject: GREAT KAROO CLUSTER OF RENEWABLE ENERGY FACILITIES: Notification of Availability of Scoping Reports

**GREAT KAROO CLUSTER OF RENEWABLE ENERGY FACILITIES AND GRID CONNECTION INFRASTRUCTURE NEAR RICHMOND, NORTHERN CAPE PROVINCE
(DFFE Reference Nos.: To be Issued)**

Dear Stakeholder and Interested & Affected Party,

Great Karoo Renewable Energy (Pty) Ltd proposes the development of a cluster of renewable energy facilities and associated infrastructure, ~35km South-West of the town of Richmond along the N1 and 80km South-East of Victoria West along the R63 in the Northern Cape Province. The cluster consists of three (3) 100MW solar photovoltaic (PV) energy facilities, and two (2) 140MW wind farms.

Please find attached for your perusal the notification letter informing you of the availability of the Scoping Reports for your review and comments. The Scoping Reports are available for downloading from our website [click here](#).

Please do not hesitate to contact us should you require any additional information and/or clarification regarding these projects.

Our team welcomes your participation and look forward to your involvement throughout the Basic Assessment Process.

Kind regards,

Subject: GREAT KAROO RENEWABLE ENERGY CLUSTER: Invitation to Key Stakeholder Workshop
When: 23 November 2021 11:00 AM-12:30 PM (UTC+02:00) Harare, Pretoria.
Where: Microsoft Teams Meeting
Importance: High

Dear Key Stakeholders,

Just a friendly reminder of the Key Stakeholder Workshop taking place tomorrow, Tuesday, 23 November 2021 at 11h00 (we had move the meeting 30min earlier to end before lunch time).

Thank you to those Key Stakeholders who already RSVP and we urged those who had not yet done so to please at your earliest convenience.

The team is looking forward to a fruitful meeting.

Kind regards,

Nicolene Venter

Dear Key Stakeholders,

Great Karoo Renewable Energy (Pty) Ltd proposes the development of a cluster of renewable energy facilities and associated infrastructure, including Electrical Grid Infrastructure (EGI), ~35km South-West of the town of Richmond along the N1 and 80km South-East of Victoria West along the R63 in the Northern Cape Province. The cluster consists of three (3) 100MW solar photovoltaic (PV) energy facilities, and two (2) 140MW wind farms. The grid connection infrastructure for all projects will include one central collector 132kV substation and a double circuit 132kV power line to the existing Eskom Gamma Substation, located within the Western Cape Province.

Savannah Environmental has been appointed as the independent environmental assessment practitioner to manage the application for Environmental Authorisation (EA) and undertaking the Environmental Impact Assessment (IEIA) Process required to identify and assess potential environmental impacts associated with the project, as well as propose appropriate mitigation and management measures to be contained within the Environmental Management Programme (EMPr).

We would like to take this opportunity to invite you to the Key Stakeholder Workshop (KWS) taking place on **Tuesday, 23 November 2021 at 11h30 via MS Teams**. By attending the KSW it would provide you with the opportunity to hear other key stakeholders comments, contributions and viewpoints regarding the applications.

The purpose of the KSW is to present the following to you as Key Stakeholders:

- brief background to the proposed projects;
- an overview of the EIA processes followed for the scoping phase;
- a summary of the key environmental findings as documented in the Scoping Reports;
- an opportunity to seek clarity and raise comments and/or concerns; and
- to record comments raised at the KSW.

Should you not be able to attend the KSW, you are most welcome to forward this invitation to your colleague to attend the KSW on your behalf.

Just a friendly reminder that the Scoping Reports in support of the Applications for the EAs have been compiled and are available for your review and comment. Visit our website on <https://savannahsa.com/public-documents/energy-generation/the-great-karoo-cluster-of-renewable-energy-facilities/> - the release code for all the Reports is VtUvOs4x

The review and comment period for the Scoping Reports commenced on **Friday, 12 November 2021** and is ending on **Monday, 13 December 2021**.

You are kindly requested to submit any questions that you would want the project team to respond to at the KSW to us prior to the meeting.

Please do not hesitate to contact us should you require any additional information.

Kind regards,

t: +27 (0)11 656 3237
f: +27 (0) 86 684 0547
