

# Veld PV South Public Participation Report

# 1 INTRODUCTION

The proposed Veld PV South Solar Energy Facility and Associated Infrastructure is located near Aggeneys in the Namakwa District Municipality of the Northern Cape. The Veld PV South project requires environmental authorisation in terms of the National Environmental Management Act (Act 107 of 1998) (NEMA). Veld PV South (Pty) Ltd (Veld PV South) proposes developing a 75 MW Photovoltaic (PV) solar energy facility on Haramoep (Remainder of Farm 53) in the Namakwa District Municipality approximately 20 km north-west of Aggeneys in the Northern Cape. The development has been designed with the intention that the Veld PV South solar facility would form part of a consolidated solar development which will consist of the proposed Veld PV South (75 MW) and the proposed Veld PV South (75 MW) PV facilities. These proposed facilities would utilise shared infrastructure where possible to minimise their overall footprint. To evacuate the power generated by the proposed Veld PV South (and South), a grid connection is required between the solar farm project area and the Aggenys substation.

Note that a Scoping and EIA process was initiated for this project in 2016 but the process was halted. No application was submitted at the time, but a pre-application meeting was held with DEA – see below.

The process has now changed to a Basic Assessment due to the site being within the Springbok REDZ.

The PPP was undertaken in accordance with regulations 39 – 44 of the EIA Regulations. Additional guidance has been incorporated from the Western Cape<sup>1</sup> Department of Environmental Affairs and Development Planning (DEA&DP) Guideline Document on Public Participation (March 2013).

This Public Participation Report (PPR) has therefore been compiled to collectively represent the consultation process that has been undertaken through the PPP. The following sections include:

- Section 2 A database of interested and affected parties (I&APs) was created in the pre-application phase of the proposed Veld PV South project. This database was updated and maintained throughout the Basic Assessment process.
- Section 3 The consultation that were undertaken during the Pre-application phase of project has been described
- Section 4 The consultation that took place for the Basic Assessment
- Section 5 Comments and responses were summarised into a table in this section. All original comments and responses are attached an appendix to this PPR.

## 2 I&AP DATABASE

During the pre-application phase, affected parties were identified, including: landowners, adjacent landowners, commenting authorities and key stakeholders (such as conservancies).

Table 1 summarises the I&AP database for the project. Please note that contact details have been omitted for privacy reasons.

---

<sup>1</sup> These guidelines have been considered as best practice even though the project is located in the Northern Cape.

### 3 PRE-APPLICATION PHASE CONSULTATION

During the pre-application phase, the following components of the PPP were undertaken.

- A **pre-application meeting** was held on 18 November 2016 with the competent authority, DEA, to ensure that an appropriate EIA process would be followed. This included confirmation that appropriate specialists had been appointed to contribute to the scientific findings.
- **Landowners** have been consulted by the Proponent as an agreement regarding their land is required. Proof of emails to all authorities and I&AP's are included in Annexures C1.2 and C1.3.

#### 3.1 Pre-application meeting with DEA

The minutes of the pre-application meeting with DEA, is included in Annexure C1.4.

#### 3.2 Landowner consultation

Ongoing landowner consultation is critical for the successful implementation of the proposed project, provided the necessary legal requirements are met. The Proponent has entered an agreement with the landowner for the use of their land, which has been attached as part of the Application to DEA.

### 4 BASIC ASSESSMENT CONSULTATION

#### 4.1 The PPP during the pre-application phase

The Draft Basic Assessment Report has been made available for a 30-day public comment period from 6 September 2019 until 7 October 2019.

#### 4.2 Notifications about the BA process for Veld PV South:

- **Newspaper advertisements:** Advertisements in English and Afrikaans were placed in a local newspaper, Die Plattelander, notifying the broader public of the initiation of the BA process and inviting them to register as I&APs and inform them of the availability of the draft Basic Assessment Report at Aggeney's Library. Refer to the proof below. Refer to Annexure C1.5.1 and C1.5.2 for the wording of the Advertisement.

**VELD**

ENVIRONMENTAL AUTHORITY (EA) FOR THE PROPOSED VELD PV NORTH AND PV SOUTH ENERGY FACILITIES AND ASSOCIATED INFRASTRUCTURE, ON THE TERRITORIES OF KAMBERG, NORTHERN CAPE

DOA NIE: 14/12/2018/12088 & 14/12/2018/12089

Project Title: Proposed Veld PV North and PV South Energy Facilities and Associated Infrastructure near Aggenies in the Northern Cape

Project Proponent and Location: The Applicant, Veld PV North (Pty) Ltd and Veld PV South (Pty) Ltd, are proposing to develop 2 (two) 75 MW Photovoltaic (PV) solar energy facilities on Kamberg (Municipality of Farm 53) in the Namaqualand District Municipality approximately 20 km north-west of Aggenies in the Northern Cape. The development has been designed with the intention that the proposed Veld PV North (75 MW) and Veld PV South (75 MW) solar facilities would form part of a consolidated solar development. These proposed facilities would either shared infrastructure where possible to minimise their overall footprint. To facilitate the power generated by the proposed Veld PV North and Veld PV South, grid connections are required between the solar farm project area and the Aggenies substation.

Legal Frameworks: Basic Assessment Environmental Process in terms of the National Environmental Management Act (NEMA), Act No. 107 of 1998, as amended and the 2014 Environmental Impact Assessment (EIA) Regulations (as amended) will be followed in order to obtain authorisation for the proposed energy facilities and associated infrastructure. The Department of Environmental Affairs (DEA) is the competent authority.

Date of Advert: 5 September 2019

Public Participation Process: The public is hereby notified of the proposed project and that an application for Environmental Authorisation will be submitted to the Department of Environmental Affairs (DEA). Individuals are invited to formally register as an interested and affected party (IAP) should they wish to make formal representations regarding the Environmental Process (i.e. satisfaction of availability of reports for review and comment).

To register as an IAP, please contact the person below and provide your name, contact details and an indication of any direct interest. The location, format or generally you may have regarding the application, correspondence throughout the Environmental Process will only be distributed to registered IAPs.

Comment Period: The Draft Basic Assessment Report (DBAR) is being made available to the public for a 30-day review and comment period from 7 September 2019 to 7 October 2019. A hard copy of the report will be made available at the Aggenies Public Library.

**LEGAL NOTICE / WETLIKE KENNISGEWING**

UITWISSINGS OM TE REGISTREER VIR DIE PLANEERINGSMAATREKELINGS AANVAARDE ENTOERWATINGSMAKING (EMA) VIR DIE VOORGESTELDE VELD PV NOORD EN VELD PV SUID ENTOERWATINGSMAKING IN OORSTREEK NABY AGGENIES IN DIE NORTHERN CAPE

DOA NIE: 14/12/2018/12088 & 14/12/2018/12089

Project Title: Voorgestelde Veld PV Noord en Veld PV Suid Energie Fasiliteite en Assosieerde Infrastruktuur naby Aggenies in die Noord-Kaap

Proponent en Ligging: Die Aansoekers, Veld PV Noord (SMA) Bpk en Veld PV Suid (SMA) Bpk, is van voorneme om 'n (twee) 75 MW sonne-energie te ontwikkel op Kamberg (Plaas 53) in die Namaqualand Distrik Munisipaliteit, ongeveer 20 km noord-wes van Aggenies in die Noord-Kaap. Die ontwikkeling is ontwerp om te konsolideer met die voorgestelde Veld PV Noord (75 MW) en Veld PV Suid (75 MW) sonne-energie aanvaarde. Hierdie voorgestelde fasiliteite sal deel uitmaak van 'n konsolideerde sonne-energie ontwikkeling. Hierdie voorgestelde fasiliteite sal gedeeltes van infrastruktuur waar moontlik te deel en te minimeer hul oorspronklike voetspoor. Om die elektrisiteit te vervoer, sal die voorgestelde Veld PV Noord en Veld PV Suid aggenies word te verkeer, wat 'n grid-aansluiting vereis tussen die sonne-energie fasiliteite en die Aggenies sub-stasie.

Wettelike Raamwerk: 'n Basiese Ombioerwagingsproses (OBP) in terme van die Nasionale Ombioerwagingswet (NEMA), Wet No. 107 van 1998, soos aangepas, en die 2014 Ombioerwagingswet (EIA) Regulasies (soos aangepas) sal gevolg word. Om te kwalifiseer as 'n belanghebbende, moet individue formele registrasie as 'n belanghebbende doen. Die Departement van Ombioerwagings (DEA) is die kompetente owerheid.

Advertensie Datum: 5 September 2019

Publieke Ombioerwagingsproses: Die publiek word kennis gegee van die voorgestelde projek en dat 'n aansoek om Ombioerwagingsproses (OBP) vir die voorgestelde ontwikkeling te die Departement van Ombioerwagings (DEA) ingedien sal word. Individuele word uitgenooi om te registreer as 'n belanghebbende en formele registrasie te doen. Die Departement van Ombioerwagings (DEA) sal slegs kommentaar van belanghebbende ontvang. Die Ombioerwagingsproses (OBP) sal slegs aan geregistreerde IAP's versorg word.

Kommentaar Periode: Die Ombioerwagingsproses (OBP) is beskikbaar vir 'n 30-dag kommentaar en kommentaar periode vanaf 7 September 2019 tot 7 Oktober 2019. 'n Hardkopies van die verslag sal beskikbaar gestel word by die Aggenies Publieke Biblioteek.

See section 2.2.1 of the project EMPR.            2. To be recommended as a condition of authorisation.            Kind regards</p>

Date	Comment	Response
<b>PLEASE NOTE THE FOLLOWING COMMENTS WERE RECEIVED AFTER THE CLOSURE OF THE 30-DAY PPP TIME PERIOD</b>		
Jacobus Hendrik Louw Smit -Black Mountain Mining		
9 October 2019	Refer to Annexure C1.10.16-17	Refer to Annexure C1.10.18-19 for the response.

Refer to Annexures C1.11.1- 10 for the attempts to elicit comments during the pre-application process.

## 5.1 The PPP after the application has been submitted

An updated Draft Basic Assessment Report has been made available for a 30-day public comment period from 5 December 2019 until 27 January 2020. The 30-day comment period excluded the holiday period from 15 December 2019 to 5 January 2020.

## 5.2 Notifications about the BA process for Veld PV North:

- Newspaper advertisements:** Advertisements in English and Afrikaans were placed in a local newspaper, Die Plattelander, notifying the broader public of the initiation of the BA process and inviting them to register as I&As and inform them of the availability of the draft Basic Assessment Report at Aggeneys Library. Refer to the proof below. Refer to Annexure C1.12.1 and C1.12.2 for the wording of the Advertisement.

- Site notices:** posters in English and Afrikaans were erected at the entrance of the proposed site. Refer to Annexure C1.12.1 and C1.12.2 for the wording of the Site Notices. Refer to image below for the proof of the site notice on the site during the application phase.

- **Written notification:** Letters and/ or emails were issued to all authorities and the landowner informing them of the proposed project including a notification of the availability of the draft Basic Assessment Report for comment. Each letter included a CD. Refer to Annexure C1.13.1- C1.13.4 for the wording of the Letters. Identified I&APs were notified of this comment period via letters delivered by post and email. The proof of delivery has been included in Annexure C1.13.5 Electronic copies were made available to I&APs on request via CD or Dropbox and Google Drive. Refer to Annexures C1.13.6 – C1.13.12 for the proof of emails sent

**A Hardcopy of the draft Basic Assessment Report** was made available at the Aggeneys Public Library. Refer to Annexure C1.13.13 for the proof of delivery

## 6 COMMENTS AND RESPONSES DURING THE APPLICATION PHASE

Throughout the application process, any comments received from I&APs were summarised in Table 3 with the response from Aurecon. The original comments and responses are included in Annexure C1.14.1 – C1.14.8.

Table 3 | I&AP Comments and Responses

<b>Draft Basic Assessment Report for the Proposed Veld PV North Solar Energy Facility and associated infrastructure near Aggeneys in the Northern Cape</b>		
<b>BASIC ASSESSMENT REPORT: COMMENTS AND RESPONSES REPORT (APPLICATION PHASE)</b>
