Beste Eppie:

1. Neem asseblief kennis dat die stof besoedeling deel uitmaak van die Omgewingsbestuurprogram "EMPR" indien die projekte goedkeuring ontvang. Vewys asseblief na Afdeling 4.8 sowel as Afdeling 5.15 van Aanhangsel E1 van beide konsep verslae.
 - *The Contractor shall take all reasonable measures to minimise the generation of dust as a result of construction activities to the satisfaction of the Engineer. The most successful measure would be to limited vegetation clearance as far as possible to maintain the natural crust on the soil and allow the vegetation to keep the soil intact. The Contractor's dust management planning should, as a minimum, take cognisance of the mechanisms that can be used for dust management:*
 - *Sprays to be applied at the area to be cleared should significant amounts of dust be generated. Moist or bound topsoil will reduce the potential for dust generation when tipped onto stockpiles. Potable water should not be used to moisten access roads;*
 - *Chemical soil binding agents must be utilised on gravel roads to reduce dust if deemed required by the engineer (this also serves to reduce water consumption);*
 - *Ensure travel distance between clearing area and topsoil piles to be at a minimum;*
 - *Ensure exposed areas remain moist or bound through regular spraying during dry, windy periods;*
 - *Location and treatment of material stockpiles taking into consideration prevailing wind directions. Stockpiles must ideally be covered;*
 - *Dust fallout monitoring buckets must be considered should excessive levels of dust occur;*
 - *Cover disturbed areas with previously collected topsoil and replant native species;*
 - *Measures to control dust should be applied according to current best practice in the industry;*
 - *Minimise the time that stripped areas are exposed;*
 - *Haulage vehicles may not leave the access roads or dedicated turning circles, as this may cause excessive dust generation;*
 - *Adhere to a 40km/h speed limit when travelling on gravel roads and 20km/h when traversing cleared/non-vegetated areas;*
 - *Material loads must be covered properly during transport and storage thereof (using 60% shade cloth netting); and*
 - *The Engineer shall be advised of the areas that the Contractor intends to use for the stockpiling of both natural and manufactured materials.*
 - *The ECO must continually monitor dust at the site and recommend mitigation measure where and when required.*
2. Om die vraag rakende vee diefstal te beantwoord neem asb kennis dat: enige EPC-kontrakteur wat vir die projek aangestel sal word, volgens streng maatreëls gaan moet optree. Die EPC-kontrakteur sal 'n sekuriteitskontrakteur aanstel wat toesig sal hou oor die 24-uur-perseel vir die duur van die projek. met streng beheermaatreëls, en veiligheid op die terrein word baie ernstig opgeneem.

Groete
Corlie

Goeie dag Corlie

Ek het twee besware:

- 1) Watter voorsorg gaan getref word om die stof besoedeling op my grond te beperk, wat as gevolg van die boorwerk en grondverskuiwing tydens die konstruksie fase van die sonplaas, gaan plaasvind?
- 2) Hoe gaan werkers en voertuie geregleer en gekontroleer word om te verhoed dat enige vee diefstal op my eiendom gaan voorkom, aangesien my grensheining redelik naby die konstruksie aanleg gaan wees?

Ek hoor graag van julle.

By voorbaat dankie

Edmund (Eppie) Agenbag

Goeie dag,

Die PPP kommentaar periode vir beide Veld PV Noord en Veld PV Suid sluit Maandag 7 Oktober 2019.

Indien u enige navrae/kwessie het moet dit asb. voor die sluitingsdatum ingedien word.

Groete

Please confirm receipt of this email and contact Aurecon if you are unable to open the attachment.

Yours sincerely

Corlie Steyn

Goeie dag,

IN SAKE:

1. **OMGEWINGSMAGTIGING (OM) VIR DIE VOORGESTELDE VELD PV NOORD ENERGIE FASILITEIT EN VERWANTE INFRASTRUKTUUR, OP DIE RESTANT VAN PLAAS 53 HARAMOEP, NABY AGGENEYS IN DIE NOORD-KAAP : DOS Verw.: 14/12/16/3/3/1/2051**
2. **OMGEWINGSMAGTIGING (OM) VIR DIE VOORGESTELDE VELD PV SUID ENERGIE FASILITEIT EN VERWANTE INFRASTRUKTUUR, OP DIE RESTANT VAN PLAAS 53 HARAMOEP, NABY AGGENEYS IN DIE NOORD-KAAP: DOS Verw.: 14/12/16/3/3/1/2052**

Aangeheg is 2 briewe (in Afrikaans en Engels) wat verband hou met bogenomede projekte. Die Basiese Konsep Invloedsbepalingsverslae word vir 'n kometteraar periode van 30-dae beskikbaar gestel vanaf 6 September tot 7 Oktober 2019.

'n Digitale kopie van die **Veld PV Noord verslag** is beskikbaar op "Dropbox":

<https://www.dropbox.com/sh/snz66ideo8nktpt/AABnDirWNoBLRoHbBzGbN7kHa?dl=0>

of op "Google Drive":

<https://drive.google.com/drive/folders/14TWDxsYWugpRFX5qIHx44aS-9W064JJV?usp=sharing>

'n Digitale kopie van die **Veld PV Suid** verslag is beskikbaar op "Dropbox":
