Subject: Re: Engineering Services Agreement: Marapong Ext.7

Hi Pieter

Thanks very much for the response.

Can we please have this letter on an official Eskom Letter Head and signed.

Kind Regards.

Hi Anthony

As per our site meeting at Matimba P/S the following from Eskom;

1. The proposal for the installation of an additional sewerage pipe over the Eskom property is being conducted by your company. This investigation is approved by Eskom on the following conditions.
2. Due notice be given to Eskom of the final alignment of the pipeline in order for Eskom to confirm it will not affect Eskom's assets.
3. The existing sewerage pipe traversing the Eskom property be replaced by a new sewerage pipe as result of the existing pipe spilling raw sewerage on the Eskom property thus contaminating it.
4. Point 3 above is of critical importance as this matter has been outstanding for a number of years. Also as per our site meeting you are urged to investigate the current status of the said pipeline and take it to your client for approval for replacement.
5. Eskom will not unduly withheld approval of the planned pipeline but eh existing issues have to addresses to Eskom's satisfaction first.

Regards
