

WITKOP FLUORSPAR (PTY) LTD PPP REPORT – EIA/EMPR PHASE

**REVISION 1
AUGUST 2018**

1. INTRODUCTION

This report outlines the Public Participation Process (PPP) that has and will be followed for the application made by Witkop Fluorspar (Pty) Ltd, hereinafter referred to as “the Applicant”.

Witkop Fluorspar submitted an application for a Mining Right and associated Environmental Authorisation on the 9th March 2018. The application relates to the surface trench mining of Gypsum on Portion 0 (Remaining Extent) of the farm Kanakies 332, near Loeriesfontein, Northern Cape.

The PPP aims to involve the authorities and Interested and Affected Parties (I&APs) in the project process; and determine their needs, expectations and perceptions. An open and transparent process was and will be followed at all times and is based on the reciprocal dissemination of information.

The PPP was designed to provide sufficient and accessible information to I&APs in an objective manner to assist them to:

- Raise issues of concern and suggestions for enhanced benefits;
- Contribute local knowledge and experience;
- Verify that their issues will be captured;

The following sections outline the steps that have and will be undertaken in line with NEMA and its Regulations (GNR 326 – PPP guideline). All the relevant documents have been included as Annexures where relevant.

2. PPP UNDERTAKEN TO DATE

2.1 Identification of Authorities

2.1.1 Competent Authority

As per NEMA and its Regulations, the Competent Authority for the Environmental Authorisation and Waste Management License Processes was identified as the Department of Mineral Resources (DMR).

2.1.2 Regulatory Authorities

Local and Regional authorities were identified from similar projects in the past and included in the I&AP register (**Annexure I**).

The Authorities contacted with regards to this project include:

- Department of Water Affairs and Sanitation, Northern Cape;
- Department of Water Affairs and Sanitation, Western Cape;
- Hantam Local Municipality;
- Matzikama Local Municipality;
- Namakwa District Municipality;
- Northern Cape Agriculture, Land Reform and Rural Development;
- Northern Cape Heritage Authority;
- South African Heritage Resources Agency (SAHRA);
- Berg Olifants Catchment Management Agency;

- Department of Economic Development and Tourism;
- Department of Education;
- Department of Health;
- Department of Treasury;
- Department of Sports, Arts and Culture; and
- Department of Justice- environmental and nature conservation internal department.

2.2 Affected Parties

2.2.1 Land Owners

Landowners of the directly affected properties were identified and included in the I&AP register (see **Annexure I**). Directly affected landowners are summarised in Table 1 below:

Table 1: Land Owners of the directly affected properties

Farm Name	Portion	Size (Ha)	Owner
Kanakies 332	0 (RE)	7456.6974	PPC Cement SA (Pty) Ltd
Total:		7456.6974 Ha	

2.2.2 Communities

The following community representatives and resident associations were identified and included in the I&AP register (**Annexure I**):

- Ward 5 Hantam Local Municipality;
- Ward 8 Matzikama Local Municipality;
- Provincial Department of Cooperative Governance Human Settlement and Traditional Affairs;
- Human Settlements & Traditional Affairs; and
- Department of Rural Development and Land Reform.

2.2.3 Adjacent Land Owners / Users:

Landowners and land users immediately adjacent properties were identified and included in the I&AP register (**Annexure I**) as far as possible. These include Transnet and Eskom.

2.3 Notification

2.3.1 Background Information Documents

Background Information Documents (BIDs) were compiled in English and Afrikaans and were distributed via e-mail and post to all the identified authorities and organs of state as discussed above.

Hard Copies were hand delivered on the 30-31st January 2018 to affected parties (land owners and users) where possible. In some cases no one could be located on the property;

in such a case the BID was attached to the property gate or left in a post box (when available).

The purpose of the BID was to:

- Introduce the project to the I&APs;
- Invite I&APs to attend an introductory public meeting;
- Inform them of the proposed applications and associated regulatory processes; and
- Initiate a process of public consultation to record perceptions and issues.

A copy of the BID has been included in **Annexure II** for reference and proof of notification has been included in **Annexure III**.

2.3.2 Advertisements

Advertisements, informing people of the proposed activities, inviting I&APs to attend the public meeting and requesting readers to register as I&APs, was placed in one (1) local newspaper (in both English and Afrikaans):

- Noordwester, publication date 2nd February 2018.

Please refer to **Annexure IV** for a copy of the advertisements.

2.3.3 Notices / Posters

A2 posters, written in English and Afrikaans, informing people of the proposed activities, inviting I&APs to attend the public meeting and requesting I&APs to register were placed on the site boundary fence and at other public locations; including:

- Agrimark, Loeriesfontein;
- Central Traders, Loeriesfontein;
- Die Vis Winkel, Loeriesfontein;
- Gravity's Trading Shop, Loeriesfontein;
- Hantam Local Municipality;
- Loeriesfontein Public Library;
- Loeriesfontein Post Office;
- Smartiebox 2, Loeriesfontein; and
- Loeriesfontein Spar.

Please refer to **Annexure V** for a copy of the posters, and photographic evidence thereof.

2.4 Public Meetings / Open Days

The Scoping Phase Public Meeting was held on 9th February 2018 at the Loeriesfontein Public Hall. The purpose of the meeting was to introduce the project to I&APs and explain the environmental authorisation process. All registered I&APs were notified of the meeting's date through the BIDs, posters and adverts. In addition, a reminder SMS was sent to all registered I&APs prior to the meeting.

Copies of the minutes were sent to all registered I&APs. Minutes were sent via e-mail and people who do not have access to e-mail were sent an SMS informing them that the minutes

are available and advising them where to find copies thereof. In addition, the minutes were uploaded onto the Cabanga website for download. Please refer to **Annexure VI** for a copy of the minutes and the associated presentation for the Scoping Phase Public Meeting.

A second Public Meeting is scheduled to take place on 29th August 2018 to provide feedback of the findings of the specialist studies, the Environmental Impact Assessment and Environmental Management Plan report (EIA/EMPr). All registered I&APs have been notified of the meeting via e-mail, fax and SMS.

2.4.1 Micro-Consultation Meetings

Individual meetings will be scheduled with the relevant land owners/lawful occupiers or any I&AP should they be requested.

No such meetings have been requested to date.

2.5 Document Review

2.5.1 Scoping Report

The Draft Scoping Report was made available to the public for review and comment from the 27th March - 29th April 2018 at the following locations:

- Online at www.cabangaenvironmental.co.za; and
- The Loeriesfontein Public Library.

All registered I&APs were informed of the reports availability via e-mail, fax, post and SMS. Proof of notification of the Draft Scoping Report's availability is attached in **Annexure IX** herewith.

In addition to the above, copies of the Draft Scoping Report were delivered to the following authorities for review and comment:

- Department of Mineral Resources;
- Department of Water Affairs and Sanitation;
- Department of Economic Development, Environmental & Tourism;
- Hantam Local Municipality;
- Matzikama Local Municipality
- Namakwa District Municipality; and
- South African Heritage Resource Agency (SAHRA).

Comments and / or issues raised during the review period have since been included in this report (Version 2) as well as the final Scoping Report for submission to the DMR.

2.5.2 EIA/EMPr

The EIA/EMPr will be made available for public review for 30 days from 14th August 2018 until 14th September 2018 at the following locations:

- Online at www.cabangaenvironmental.co.za; and
- The Loeriesfontein Public Library.

All registered I&APs will be informed of the reports availability via e-mail, fax, post and SMS.

In addition to the above, copies will be delivered to the following authorities for review and comment:

- Department of Mineral Resources;
- Department of Water Affairs and Sanitation;
- Department of Economic Development, Environmental & Tourism;
- Hantam Local Municipality;
- Matzikama Local Municipality
- Namakwa District Municipality; and
- South African Heritage Resource Agency (SAHRA).

All comments and / or issues raised during the Draft EIA EMPr review period will be included in the final EIA EMPr for submission to the DMR.

3. SUMMARY OF ISSUES AND RESPONSE

Table 2 below summarises the issues and responses received from the various authorities, organs of state and I&APs to date. Copies of all correspondence has been attached as **Annexure VII**.

Table 2: Issues and Response Table

Interested and Affected Parties	Date Comments Received	Issues raised	Response	Consultation Status (consensus dispute, not finalised, etc.)
AFFECTED PARTY				
Landowner/s	X			
<i>No comments received to date</i>				
Lawful occupier/s of the land	X			
<i>No comments received to date</i>				
Landowners or lawful occupiers on adjacent properties	X			
Riaan Vd Merwe (RvdM)	X	9- Feb- 18- Public Meeting Will there be any permanent structures on the land? The main concern is safety, it is mainly elderly people living on these farms and we worry about farm attacks. We will also worry about theft in the area if a mine opens.	Container offices will be utilized. No permanent structures will be constructed on site. Safety is a valid concern and we will make note of it.	Finalised.
Municipal Councillor	X			
<i>No comments received to date</i>				

Interested and Affected Parties	Date Comments Received	Issues raised	Response	Consultation Status (consensus dispute, not finalised, etc.)	
Municipality	X				
Jl Swartz, Municipal Manager- Hantam Municipality	X	27- March- 18- Email	<p>The following S&LP projects are to be implemented by the Kanakies Gypsum Mine:</p> <p>Conversion of horse stables in Calvinia West to Economic Hubs (R1 760 000)</p> <p>Seebox learning Technology in Loeriesfontein (R 740 000).</p>	Noted. The S&LP will be finalized accordingly.	Finalised.
Briaan Smit- Matzikama Municipality	X	23- April- 18	<p>Although the application area is located within the Northern Cape please register the Matzikama Municipality as an interested and affected party.</p> <p>Please note that on the cover letter by CABANGA Environmental dated 19 March 2018 it is stated that the application is for a "gypsum" mine but the cover page from the DMR report refers to "... Bulk Sampling Activities Including Trenching in cases of Alluvial Diamond Prospecting". Clarity on the discrepancy is needed.</p>	<p>The Municipality has been registered as an I&AP.</p> <p>As per your comment, the "Bulk Sampling Activities Including Trenching in cases of Alluvial Diamond Prospecting", this is part of the official Scoping Report template from the Department of Mineral Resources. This is the official cover and does not refer to what we are applying for.</p>	Finalised.
Organs of state (Responsible for infrastructure that may be affected)	X				

Interested and Affected Parties	Date Comments Received	Issues raised		Response	Consultation Status (consensus dispute, not finalised, etc.)
Roads Department, Eskom, Telkom, DWA etc.					
<i>No comments received to date</i>					
Communities	X				
<i>No comments received to date</i>					
Dept. Land Affairs	X				
Ryan Oliver- Department of Land Restitution Support	X	23-Jan-18- Email	<p>No land claims appear on our database in respect of the property. Please note however:</p> <ul style="list-style-type: none"> - Some claimants referred to properties they claim dispossession of rights in land against using historical property descriptions which may not match current property description, - Some claimants provided the geographic descriptions of the land they claim without mentioning the particular actual property description they claim dispossession of rights in land against. 	Noted.	Finalised.
Traditional Leaders	X				
<i>No comments received to date</i>					
Dept.	X				

Interested and Affected Parties	Date Comments Received	Issues raised	Response	Consultation Status (consensus dispute, not finalised, etc.)	
Environmental Affairs					
Asiashu Lenette Tshikovhi, Department of Environmental Affairs	X	4- April-18	In response to a query regarding contact details for the Kalk Gat Nature Reserve: Unfortunately we only capture the spatial extent of the reserves we don't keep the contact details.	Thank you for the response. Do you know anyone who might know? The Kalk Gat Nature Reserve touches on a farm portion that a mining right is being applied for. We need to have contact details of this reserve so that it can be added as an Interested and Affected Party and notified.	On-going.
Other Competent Authorities affected	X				
J. Janse-Spatial Planning (Northern Cape)Prov. Dept. Cooperative Governance Human Settlement and Traditional Affairs	X	29- Jan-18- I&AP Registration Document	Concerned about wear and tear on roads. Municipality will be affected.	The possibility of raiing product from site, using the existing rail siding is currently being investigated. A transport impact assessment has been undertaken as per the plan of study for the EIA.	Finalised.
Danita Hohne-Department of Water Affairs and Sanitation	X	2- Feb-18- Email	A geohydrological study would need to be done, as the area has not had rain in 7 years. The area is mainly depleted of its groundwater resources. Also	A geohydrological study was undertaken as per the plan of study for the EIA. This includes a hydrocensus. Mining activities will be undertaken at a	Water Use License Application on-going.

Interested and Affected Parties	Date Comments Received		Issues raised	Response	Consultation Status (consensus dispute, not finalised, etc.)
			<p>included in the study must be a hydrocensus of about 5km around the property and pump test must be conducted by a specialist with Pr. Status.</p> <p>Pump test must be undertaken for 24hours.</p> <p>Please note that the application for a water use licence would fall mainly on the Western Cape. Nieuwoudtville, Calvinia and Loeriesfontein all fall under the Berg Olifants CMA and therefore applications should be made to them and not the Orange CMA in Upington.</p>	<p>depth of approximately 1.4 – 2.5m, thus it is not expected that the groundwater table will be intersected by mining activities.</p> <p>Water use will be limited that of potable/domestic water and dust suppression. This is currently estimated at 81m³ / day and will be sourced from a borehole on site.</p> <p>The necessary water use license applications will be made to the Berg Olifants CMA.</p>	
Natasha Higgitt- SAHRA	X	19- Feb-18-Email	<p>As the proposed development is undergoing an EA Application process in terms of the National Environmental Management Act, No 107 of 1998 (NEMA), NEMA Environmental Impact Assessment (EIA) Regulations for activities that trigger the Mineral and Petroleum Resources Development Act, No 28 of 2002 (MPRDA)(As amended), it is incumbent on the developer to ensure that a Heritage Impact Assessment (HIA) is done as per section 38(3) and 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA). This must include an archaeological component, palaeontological component and any</p>	<p>A Phase I Heritage Impact Assessment was undertaken as per the plan of study for the EIA. 	14- June- 2018- Email	<p>In response to requesting an extension until the 27th September 2018</p> <p>I refer to your letter dated the 14th June 2018, with regards to requesting an extension to submit an environmental impact report (EIR).</p> <p>The EIA was supposed to be submitted no later than 27th August 2018. Based on the reasons that you have stipulated in your request and your supporting documents which is in conjunction with NEMA Regulations. Your request for an extension is granted. You are therefore, authorised to submit the EIR on the 18th of October 2018.</p>	The EIR will be submitted by the 18 th of October 2018.	Finalised.	
Mgxwati Lungiswa- Department of Water Affairs	X	24- July- 2018- Phone call and email	Our records show that we have not received the copy of the scoping report. Kindly forward us the copy as per our telecom conversation.	Hard copy couriered to the Western Cape DWS on 20 th March 2018. Dropbox link sent for Scoping Report.	Finalised.
OTHER AFFECTED PARTIES	X				
André Bodenstern- Transnet	X	11- April- 18- Email	Please provide locality maps of the project area enabling this office to determine if Transnet will be affected in any way.	Forwarded requested plans.	Finalised.
Ria-Ri		25- April-	We hereby request an extension on the	Unfortunately due to deadlines set by the	Negotiations between the applicant

Interested and Affected Parties	Date Comments Received	Issues raised	Response	Consultation Status (consensus dispute, not finalised, etc.)
Boonzaaier-Transnet	18- Email	<p>timelines to submit comments on attached.</p> <p>Our depot only received the information yesterday and quite a few relevant people required for comments are currently out of office.</p> <p>We also have no indication as to what is being planned. Please submit at least the following information:</p> <p>Exact proposal with regards to work to be done,</p> <p>Methods to be used for mentioned work,</p> <p>Exact location of work in relation to railway line (distance from line is important).</p> <p>"It seems that the proposal would be developed over Portion 1 of Farm KANAKIES No.332, Administrative District CALVINIA (SBS0283S) and Portions as service roads (SBS0320S & SBS0795S), where KANAKIES (LOOP 6) is situated, on Sishen - Saldanha Iron Ore line [between Saggiesberg (Loop 5) – De Kop (Loop 7).]" This is unfortunately insufficient information to make any comments from the depot's side.</p>	<p>Department of Mineral Resources we are unable to extend the Scoping Report deadline further. However, any comments received after the submission of the Scoping Report will still be considered for the EIA / EMP Phase of the project.</p> <p>Gypsum mining will be located on Portion 1 of the farm Kanakies 332 and will be conducted via trench mining to a maximum depth of 2.5m. No blasting will be undertaken as mining will be undertaken using diesel driven equipment. It must be noted that mine activities will remain outside the regulated 100m distance from the rail line and it is not expected that the rail line will be directly impacted on by mining activities.</p> <p>At this stage the applicant has indicated that they would like to make an application to Transnet for the use of the existing service road and rail siding, located on site and a transport impact assessment is currently underway.</p>	and Transnet are on-going.
	26- April-18- Email	<p>Please note that at this stage the depot cannot approve of this application.</p> <p>According to the locality plan the mining will take place across our</p>		Negotiations between the applicant and Transnet are on-going.

Interested and Affected Parties	Date Comments Received		Issues raised	Response	Consultation Status (consensus dispute, not finalised, etc.)
			<p>railway line and we do not have sufficient time to conduct a proper investigation on this matter.</p> <p>The utilization of our railway line will have a huge impact on our train service and detailed investigations will need to be undertaken.</p>		
Annelize Harmse-Transnet Freight Rail	X	27- June-2018- Email	Transnet SOC Limited is owner of Portion 1 of the farm Kanakies No 332. The property is currently utilized for the Sishen to Saldanha Bay railway line and is situated adjacent to the property referred to in the Scoping Report. The adjacent properties to the railway line concerned, your attention is drawn to Regulation 17 (6) (a) of the Mine Health and Safety Act, 1996 which determines that no mining operations may be carried out within a horizontal distance of 100 metres from buildings, roads, railway.	<p>Official Letter sent:</p> <p>The property is bisected by the Transnet Freight railway line which links Sishen Iron Ore to the Port of Saldanha (Loop 6). Existing infrastructure on site includes a small rail siding, powerlines, sub-station, farmsteads and associated infrastructures. It is proposed that mining will be undertaken using diesel driven machinery to a depth of 2.5m thus no blasting will be undertaken on site. It must be noted that mine activities will remain outside the regulated 100m distance from the rail line and it is not expected that the rail line will be directly impacted on by mining activities.</p>	Negotiations between the applicant and Transnet are on-going.
INTERESTED PARTIES	X				
I&AP (name not stated)	X	9- Feb-18- Public Meeting	The site is not located on Calvinia Road and the direction of the site from Loeriesfontein is incorrect.	Calvinia Rd refers to the Registration Division of the Land with the Deeds office, and not the physical address.	Finalised.
Karel Nevil (KN)	X	9- Feb-18- Public	What is the process and how will the locals get jobs for this project?	CV's and business profiles can be forwarded to MTS Holdings. These will be considered	Finalised.

Interested and Affected Parties	Date Comments Received		Issues raised	Response	Consultation Status (consensus dispute, not finalised, etc.)
		Meeting		should the mine's application be successful.	
Richard Mollat (RM)	X	9- Feb-18- Public Meeting	<p>What type of waste will the mine create? Will there be hazardous waste?</p> <p>If the whole process takes 300 days this means that smaller companies are able to get their registration and affairs ready; so that they can be used by the mine.</p> <p>Will your business need to be on a database?</p>	<p>The mine will generate general waste as well as limited amounts of hazardous waste. Used hydrocarbons and oil rags etc. are considered hazardous waste.</p> <p>No disposal will take place on site. Waste will need to be removed by a contractor for disposal at a licensed facility.</p> <p>CV's and business profiles can be forwarded to MTS Holdings for inclusion in a database. These will be considered should the mine's application be successful.</p> <p>Employment and procurement will be sourced from Loeriesfontein as far as possible.</p>	Finalised.
Richard Mollat (RM)	X	9- Feb-18- I&AP Form	Interested in work in the project. Water will be sourced from Loeriesfontein and there is already a deficit in water.	<p>CV's and business profiles can be forwarded to MTS Holdings. These will be considered should the mine's application be successful.</p> <p>Water use will be limited that of potable/domestic water and dust suppression. This is currently estimated at 81m³ / day and will be sourced from a borehole on site.</p> <p>The necessary water use license applications will be made to the Berg Olifants CMA.</p> <p>Further to this the necessary geohydrological investigations will be undertaken as per the</p>	Finalised.

				plan of study for the EIA.	
Linda Adonis (LA)	X	9- Feb-18- Public Meeting	<p>If there are protected plants in the area they need to relocate within Loeriesfontein and not in other areas.</p> <p>The mine needs to make provisions for medicals before and after so that we do not get sick from the mine and then the mine says that they didn't make the workers sick. This needs to be kept on record as dust could impact our health.</p> <p>We have an issue with other companies coming in and not giving the locals employment, people are sourced from outside the area. Murray & Roberts came in and did that. We weren't given opportunities.</p> <p>We in general would like to know what skills are needed to work at a mine as we do not have mines in the area.</p>	<p>This is required in terms of the Health and Safety Laws. Medicals will be undertaken prior to personnel starting work on the mine; this will also need to be undertaken annually thereafter. Exit medicals are also required by law when leaving a mine.</p> <p>In terms of dust, an air quality study will be undertaken and dust fallout monitoring will be proposed for the mine going forward. These results can be requested by the public.</p> <p>Witkop Fluorspar is a small company, and the proposed mine will have limited job opportunities as discussed in the presentation. The company endeavours to employ locals as far as possible.</p>	Finalised.
Johanna Basson (JB)	X	9- Feb-18- Public Meeting	Impact studies are undertaken for projects, and the companies are considered compliant but people still get sick.	<p>On-going monitoring is important to ensure compliance with the relevant standards and to ensure mitigation is efficient.</p> <p>Samples will need to be analysed by accredited laboratories and compared to relevant Standards. This is then submitted</p>	Finalised.

Interested and Affected Parties	Date Comments Received		Issues raised	Response	Consultation Status (consensus dispute, not finalised, etc.)
				<p>to the various Authorities.</p> <p>The public is allowed to request monitoring data.</p> <p>The health effects of mining gypsum are much lower compared to coal and uranium. Precautions taken are the same with all the mines regardless of mineral.</p>	
Isak Nel (IN)		9- Feb-18- Public Meeting	The locals have many skills and need to be considered. How will they handle people who need jobs?	<p>CV's and business profiles can be forwarded to MTS Holdings for inclusion in a database. These will be considered should the mine's application be successful.</p> <p>MTS Holdings is responsible for the compilation of the Social and Labour Plan which will outline the procurement and employment policies of the project.</p>	Finalised.
I&AP (name not stated)	X	9- Feb-18- Public Meeting	How long will the mine be open for?	The estimated life of mine is roughly thirty (30) years.	Finalised.
I&AP (name not stated)	X	9- Feb-18- Public Meeting	The mine will only create 14 permanent jobs? That is not a lot.	<p>That is correct; it is a very small project.</p> <p>CV's and business profiles can be forwarded to MTS Holdings for inclusion in a database. These will be considered should the mine's application be successful.</p>	Finalised.

Interested and Affected Parties	Date Comments Received		Issues raised	Response	Consultation Status (consensus dispute, not finalised, etc.)
I&AP (name not stated)	X		<p>You will mine the gypsum, take it away and sell it somewhere else. That profit goes to another area.</p> <p>14 permanent jobs are not a lot of jobs.</p>	<p>There is no market for gypsum in this area. The processing will occur at the mine not in other towns or provinces.</p> <p>Although only 14 permanent jobs will be created there is still a knock on effect by using contractors and services.</p> <p>Gypsum is sold for R10/ton, thus it is not as profitable as other mines. This needs to be kept in mind when putting the project into perspective.</p>	Finalised.
Beaucannith Swartz (BS)	X	9- Feb-18-I&AP Document	<p>Project will have a good impact. Have a recycling company, interested in tenders.</p>	<p>CV's and business profiles can be forwarded to MTS Holdings. These will be considered should the mine's application be successful.</p> <p>MTS Holdings is responsible for the compilation of the Social and Labour Plan which will outline the procurement and employment policies of the project.</p>	Finalised.
David Okhuis (DO)	X	9- Feb-18-I&AP Document	<p>There will be a positive impact on the poor youth that have interests in mining.</p> <p>The project will create work, socio-economic development, enterprise development as well as the development of black empowered businesses.</p> <p>To obtain historical background information on Kanakies contact: Mr</p>	<p>CV's and business profiles can be forwarded to MTS Holdings. These will be considered should the mine's application be successful.</p> <p>MTS Holdings is responsible for the compilation of the Social and Labour Plan which will outline the procurement and employment policies of the project.</p> <p>Noted, the Department of Land Affairs will</p>	Finalised.

Interested and Affected Parties	Date Comments Received		Issues raised	Response	Consultation Status (consensus dispute, not finalised, etc.)
			Kenneth Ulambano, Department of Land Affairs. Kimberley, Northern Cape. Tel: 053 807 5700	be consulted.	
Alana Duffell-Canham-Cape Nature	X	11- April-18- Email	In response to Cabanga: We do not have any contact details for Kalk Gat private nature reserve. We initially thought that it may have some link to the University of Stellenbosch but it does not seem to be the case. According to the Matzikama Municipality's 2015 Valuation Roll the property owner is Dieter Joachim von Willert for KLIP GAT 85/1.	Noted. <i>*Through consultation with the neighbouring farmers and research the contact details were unable to be obtained for Dieter Joachim von Willert. A background information document was left on the locked gate of Farm Klipgat 85 Portion 1. The reserve falls on the neighbouring farm, Klipgat 85 portion RE. *</i>	On-going.

**ANNEXURE II:
BACKGROUND INFORMATION DOCUMENT**

AANSOEK OM 'N MYNREG – WITKOP FLUORSPAR MYN (EDMS) BPK

KANAKIES 332, CALVINIAPAD, NOORD-KAAP

1. INLEIDING

Witkop Fluorspar Myn (Edms) Bpk is voornemens om aansoek te doen om 'n mynreg kragtens die Wet op die Ontwikkeling van Minerale en Petroleum-hulpbronne, Wet 28 van 2002 (WOMPH) op Erfdeel 0 (die Restant), Kanakies 332, Calviniapad.

Die beoogde mynreggebied beslaan 7,456.70 hektaar en lê sowat 45 km oos-suidoos van die dorp Loeriesfontein en 40 km noord-noordwes van die dorp Nieuwoudtville in die provinsie Noord-Kaap (Figuur 1 en 2).

Hierdie mynregaansoek is onderhewig aan 'n aansoek om Omgewingsmagtiging kragtens die Wet op Nasionale Omgewingsbestuur (WNOB), Wet 107 van 1998.

Daarby verg die projek moontlik ook 'n afvalbestuurslisensie kragtens die Wet op Nasionale Omgewingsbestuur: Afval (WNOB:Afval), Wet 59 van 2008 en 'n watergebruiklisensie kragtens die Nasionale Waterwet, Wet 36 van 1998 (NWW).

Cabanga is aangestel as die onafhanklike Omgewingsassesseringspraktisyn (OAP) om die nodige omgewingsaansoeke te behartig en toesig te hou oor die onderskeie spesialisstudies.

2. DOEL VAN HIERDIE DOKUMENT

Hierdie dokument (Agtergrondinligtingsdokument of AID) is opgestel om u as Belangstellende en Geaffekteerde Partye (B&GP) van inligting te voorsien oor die voorgename projek en verwante omgewingsmagtigingsproses.

U word hiermee genooi om vrylik deel te neem en enige vrae of inligting wat u meen kan bydra tot die proses, voor te lê. Alle kommentaar wat ons ontvang, sal aangeteken en behandel word as deel van die assessering van die omgewingsimpakproses.

Vul asb. die aangehegte vraelys in en stuur dit aan ons by Faks: 011 794 6946 of michelle@cabangaenvironmental.co.za om as 'n B&GP te registreer. So nie, skakel ons by Sel: 072 859 7268

3. PROJEKOORSIG

Mineraal: Gips

Mynmetode: Oppervlakgroefmyn

Diepte van Myn: 1.4 – 2.5 meter

Lewensduur van Myn: 30 jaar +

Produk: Landbou- en Nywerheidsmark

Van die totale Mynreggebied, is sowat 689 ha bestem vir myn, terwyl 'n verdere 9 ha deur oppervlak-infrastruktuur in beslag geneem sal word. Die neerslag bestaan uit 2 lae gips nl 'n poeierlaag en 'n klonterige kristallaag (klei).

Daar sal by wyse van oppervlakgroewe gemyn word. Die afmetings van 'n enkele mynblok sal sowat 50m x 100m wees. Die poeier sal gesif word om vreemde stowwe te verwyder met 'n verwagte herwinningmarge van ten minste 90%. Die kleilaag sal met rollers vergruis word en deur middel van 'n hoëfrekwensie-aanleg gesif word teen 'n beraamde herstelvlak van ongeveer 50%.

Die produk sal in afgebakende gebiede opgestapel word vir kwalifisering voordat dit per vragmotor na die markte afgevoer sal word, of in 'n trein gelaai word met gebruik van bestaande infrastruktuur op die plaas.

Beoogde infrastruktuur:

- 'n Mobiele vergruisings- en siftingsaanleg sal op die terrein gebruik word.
- Mobiele "houerkantore" sal opgeslaan word.
- 'n Voertuigparkeerarea, insluitend 'n werkwinkel en staanplek sal gebou word.
- Berging van koolwaterstof word benodig (maks 30m³).

- Gruistoegangspaaie (10km x 5m breed) sal gebou word.

Diensvereistes:

- Hantering van alle myn- en bykomende minerale is per dieselgedrewe masjinerie en/of elektrisiteit opgewek deur dieselgedrewe opwekkers.
- Water is net nodig vir stofdemping en drink/huishoudelike gebruik. Dit sal verkry word van 'n boorgat op die terrein. Tans word die watervereistes op 81m³/dag gestel.
- Algemene afval sal versamel word vir wegdoening by die Munisipale Stortings-terrein.
- Industrële afval sal versamel word vir wegdoening by 'n behoorlik gelisensieerde fasiliteit alhoewel dit verwag is nie.
- Rool sal in 'n houertenk opgegaan en met 'n suier geledig word vir behandeling by 'n behoorlik gelisensieerde fasiliteit.

Werkverskaffing:

- Die projek sal werkseleentheid vir nagenoeg 14 mense verskaf.

4. OMGEWINGSMAGTIGINGSPROSES

Sodra die aansoek om omgewingsmagtiging ingelewer is, moet die aansoeker die aansoek onderwerp aan óf 'n Basiese Assessering, óf 'n proses van Bestek- en Omgewingsimpakassessering (OIA).

Gedurende hierdie proses word die positiewe en negatiewe impakte verwant aan die ontwikkeling geassesseer; en geskikte alternatiewe en/of bestuursmaatreëls voorgestel om die omgewingsimpakte te verminder.

Aangesien die aansoek met mynbou verband hou, (Lyskennisgewing 2) sal 'n volledige Bestek- en OIA proses gevolg word. Die stappe word kortliks hieronder uiteengesit:

- **Pre-aansoekfase**
 - Finaliseer projekomsyrywing
 - Identifiseer B&GPe
 - Sirkuleer AIDe, plaas terreinkennisgewings en advertensies.
 - Lewer aansoekvorms by die Departement van Minerale Hulpbronne (DMH) in.
- **Bestekopname**
 - Oorweeg die aanvangsomgewing (begin met spesialisstudies)

TANS

- Identifiseer potensiële impakte vir verdere oorweging
- Eerste openbare vergadering om B&GPe se kwellings en kwessies te identifiseer
- Bepaal alternatiewe
- Identifiseer studieplan vir die OIA
- Stel die Bestekverslag saam en reik uit vir openbare oorsig vir 'n tydperk van 30 dae
- Handel Bestekverslag af en lê voor aan DMH.
- **OIA / OBP Fase**
 - Spesialisstudies word afgehandel
 - Evalueer impakte en stel versagtingsmaatreëls voor waar moontlik
 - Moniteerprogramme om te verseker dat versagtingsmaatreëls effektief is;
 - OIA/OBP Verslag word saamgestel en vir 30 dae beskikbaar gestel vir openbare oorsig
 - 2de openbare vergadering om OIA/OBP Verslag aan te bied en enige bykomende kommentaar en kwellings aan te teken
 - OIA/OBP Verslag word afgehandel en aan DMH voorgelê.
- **Besluit**
 - DMH neem en notuleer die besluit aangaande die aansoek.
 - Alle B&GPe word verwittig van die uitslag van die aansoek, en hulle reg om te appelleer.

Die Bestek- en OIA/OBP Verslag word saamgestel in die formaat soos voorgeskryf deur die DMH, ooreenkomstig WNOB en WNOB:Afval (geïntegreerde aansoek).

Die volledige tydraamwerk vir die omgewingsmagtigingsproses is sowat 300 dae volgens WNOB regulasies.

5. GELYSDE AKTIWITEITE

Onderstaande tabel is 'n opsomming van die voorlopige lys van aktiwiteite geïdentifiseer kragtens WNOB en WNOB:Afval. Hierdie aktiwiteite sal ingesluit word by die aansoek om omgewingsmagtiging:

TOEPASLIKE LYS-KENNISGEWING	AKTIWITEIT NO.:
Lyskennisgewing 1 van WNOB	12, 19,22, 27,30,
Lyskennisgewing 3 van WNOB	6, 15, 17,

TOEPASLIKE LYS-KENNISGEWING	AKTIWITEIT NO.:
GNR 921 van WNOB:Afval	4, 10, 12

- Landelike ekologie (Fauna & Flora)
- Grond, landgebruik en grondvermoë
- Visuele assessering
- Luggehalte
- Oppervlakwater
- Grondwater
- Erfenis
- Verkeer

6. WATERGEBRUIKE

Die vernaamste gesag vir die magtiging van watergebruike kragtens die NWW is die Departement van Water en Sanitasie (DWS). Kragtens Artikel 21 van die NWW moet alle watergebruike wat nie as Skedule 1 gebruike geag word nie, by die DWS gelisensieer word. Die volgende watergebruike word op die terrein voorsien:

- 21(a) Onttrekking uit 'n boorgat
- 21(c) en (i) Aktiwiteite binne 500m van 'n vlei (*moet nog bevestig word*)
- 21(g) Opstapeling
- 21(j) Ontwatering van mynwerke (*moet nog bevestig word*)

6. POTENSIËLE OMGEWINGSIMPAKTE

Die volgende potensiële omgewingsimpakte is geïdentifiseer en sal verder geassesseer word gedurende die omgewingsmagtigingsproses:

- Potensiële wysiging aan topografie
- Verlies van grondeienskappe – erosie en verdigting
- Verandering in grondgebruik van boerdery na mynbou
- Verlies aan biodiversiteit – ontbossing en vernietiging van habitat
- Potensiële vestiging van indringerplante
- Verlaagde watervloei na opvanggebied stroomaf
- Potensiële waterbesoedeling weens sedimentasie
- Toename in stof en emissies
- Verhoogde geraasvlakke
- Visuele skoonheid en sin van ligging gaan verander
- Potensiële skade aan erfenisgebiede (grafte en/of argeologiese oorblyfsels)
- Toevloei van werksoekers na die gebied
- Toename in verkeer - produkvervoer

Die volgende spesialisstudies word tans beoog en sal deel vorm van die OIA:

- Varswaterekologie (Vleie)

Sou u weet van enige bykomende impakte of 'n alternatiewe versagtingsmaatreël wil voorstel, vul asb. die aangehegte vraelys in.

7. OPENBARE DEELNAMEPROSES

Openbare deelname is 'n noodsaaklike komponent van die omgewingsproses. Dit hanteer die reg van Belangstellende en Geaffekteerde Partye (B&GPe) om ingelig en betrokke te wees by voorgenome aktiwiteite wat hulle raak. Dit gee ook die praktisyne van omgewingsassessering geleentheid om die kwessies en kwellings van Belangstellende en Geaffekteerde Partye (B&GPe) te assesser en te hanteer om sodoende al die potensiële impakte van die voorgenome projek te assesser.

Huidig word daar voorsien dat twee openbare vergaderings in die loop van die aansoek gehou sal word – (1) tydens die Bestekfase en (2) tydens die OIA/OBP Fase van die aansoekproses.

Let ten verfolge asb daarop dat alle omgewingsverslae vir ten minste 30 dae beskikbaar gestel sal word vir openbare oorsig en kommentaar.

UITNODIGING NA OPENBARE VERGADERING:

Datum: Vrydag, 9 Februarie 2018

Plek: Loeriesfontein Gemeenskapsaal, Rossouw
Straat

Tyd: Van 10:00 vm- 15:00 nm

**Registreer asb as 'n B&GP om inligting te kry oor
beskikbare dokumente asook die venue, datum en
tye van openbare deelnamevergaderings.**

APPLICATION FOR A MINING RIGHT – WITKOP FLUORSPAR MINE (PTY) LTD

KANAKIES 332, CALVINIA RD, NORTHERN CAPE

1. INTRODUCTION

Witkop Fluorspar Mine (Pty) Ltd intends to submit an application for a mining right in terms of the Minerals and Petroleum Resources Development Act, Act 28 of 2002 (MPRDA) over Portion 0 (the Remaining Extent), Kanakies 332, Calvinia Rd.

The proposed mining right area comprises 7,456.70 hectares and is located approximately 45km east-south-east of the town of Loeriesfontein and 40km north-north-west of the town of Nieuwoudtville, within the Northern Cape Province (Figures 1 and 2).

This application for a mining right is subject to an application for an Environmental Authorisation in terms of the National Environmental Management Act (NEMA), Act 107 of 1998.

In addition to this, the project may also require a waste management license in terms of the National Environmental Management: Waste Act (NEM:WA), Act 59 of 2008 and a water use license in terms of the National Water Act, Act No. 36 of 1998 (NWA).

Cabanga has been appointed as the independent Environmental Assessment Practitioner (EAP) to complete the necessary environmental applications and oversee the various specialist studies.

2. PURPOSE OF THIS DOCUMENT

This document (the Background Information Document or "BID") has been compiled to provide you, the Interested and Affected Party (I&AP), with information on the proposed project and the associated environmental authorisation process.

You are hereby invited to participate freely and submit any questions or information you feel may contribute to the process. All comments received will be recorded and addressed as part of the environmental impact assessment process.

Please complete the attached questionnaire and return to us on Fax: 011 794 6946 or michelle@cabangaenvironmental.co.za to register as an I&AP. Alternatively call us on Cell: 072 859 7268

3. PROJECT OVERVIEW

Mineral: Gypsum

Mining Method: Surface trench mining

Depth of Mining: 1.4 – 2.5 metres

Life of Mine: 30 years +

Product: Agricultural and Industrial Markets

Of the overall Mining Right Area, approximately 689 Ha will be earmarked for mining, whilst a further 9Ha will be affected by surface infrastructure. The deposit consists of 2 layers of gypsum i.e. a powder layer and nodular crystalline (clay) layer of gypsum.

Mining will be conducted via surface trench mining the dimensions of a single mining block will be approximately 50m x 100m. The powder will be screened to remove foreign materials and is expected to be recovered by a margin of at least 90%. The clay layer will be roll-crushed and screened by means of high frequency screening plant at an estimated recovery of approximately 50%.

Product will be stockpiled in designated areas for pre-qualification prior to being either trucked to market or loaded onto train trucks using the existing rail siding on the farm.

Proposed Infrastructure:

- A mobile crushing and screening plant will be utilised onsite.
- Mobile "container" offices will be erected.
- A vehicle park area, including workshop and bays will be constructed.
- A built hydrocarbon storage will be required (max 30m³).
- Gravel access roads (10km x 5m wide) will be constructed.

Service Requirements:

- All mining and ancillary minerals handling will be performed using diesel driven machinery and/or electricity generated by diesel driven generators.
- Water will be required for dust suppression and potable/domestic use only. This will be sourced from a borehole located on site. At this stage it is anticipated that the water requirements are 81m³/day.
- General waste will be collected for disposal at the Municipal dump.
- Industrial waste (if generated) will be collected for disposal at a suitably licensed facility.
- Sewage will be collected within conservancy tanks to be emptied by honey sucker for treatment at a suitably licensed facility.

Employment:

- The project will create employment for approximately 14 people.

4. ENVIRONMENTAL AUTHORISATION PROCESS

Following the submission of an application for an environmental authorisation the applicant is required to subject the application to either a Basic Assessment or a Scoping and Environmental Impact Assessment (EIA) process.

During this process the positive and negative impacts associated with the development are assessed and suitable alternatives and/or management measures are proposed to reduce the environmental impacts.

As the application relates to mining activities (Listing Notice 2), a full Scoping and EIA process will be followed. The steps in this process are briefly outlined below:

- **Pre-application Phase**
 - Finalise project description
 - Identify I&APs
 - Circulate BIDs, place site notices and advertisements
 - Submit application forms to the Department of Mineral Resources (DMR)
- **Scoping**
 - Consider baseline environment (commence with specialist studies)
 - Identify potential impacts for further consideration

WE ARE HERE

- Initial public meeting to identify I&AP issues and concerns
- Assess alternatives
- Identify plan of study for the EIA
- The Scoping Report is then compiled and put out for public review for a period of 30 days
- Scoping Report is finalised and submitted to DMR
- **EIA / EMP Phase**
 - Specialist studies are finalised
 - Impacts are rated and mitigation measures proposed where possible
 - Monitoring programmes proposed to ensure mitigation measures are efficient;
 - EIA/EMP Report is compiled and put out for public review for a period of 30 days
 - 2nd Public meeting is held to present the EIA/EMP Report and note any additional comments and concerns
 - EIA/EMP Report is finalised and submitted to DMR
- **Decision**
 - DMR makes a decision on the application and issues a record of decision
 - All I&APs are notified of the outcome of application, and their right to appeal.

The Scoping and EIA/EMP reports will be compiled in the format prescribed by the DMR, in accordance with NEMA and NEM:WA (integrated application).

The overall timeframe for the environmental authorisation process is approximately 300 days as regulated by NEMA.

5. LISTED ACTIVITIES

The following table summarises the preliminary list of activities identified in terms of NEMA and NEM:WA. These activities will be included in the application for environmental authorisation:

APPLICABLE LISTING NOTICE	ACTIVITY NO.:
Listing Notice: 1 of NEMA	12, 19,22, 27,30,
Listing Notice 3 of NEMA	6, 15, 17,
GNR 921 of NEM:WA	4, 10, 12

6. WATER USES

The lead authority for the authorisation of water uses in terms of the NWA is the Department of Water Affairs and Sanitation (DWS). In terms of Section 21 of the NWA, all water uses that are not deemed to be Schedule 1 uses must be licensed with DWS. The following water uses are anticipated to occur on site:

- 21(a) Abstraction from a borehole
- 21(c) and (i) Activities within 500m of a wetland (*to be confirmed*)
- 21(g) Stockpiling
- 21(j) Dewatering of mine workings (*to be confirmed*).
-

6. POTENTIAL ENVIRONMENTAL IMPACTS

The following potential impacts have been identified and will be assessed further during the environmental authorisation process:

- Potential to alter the topography
- Loss of soil characteristics - erosion and compaction
- Change in land use from farming to mining
- Loss of biodiversity – vegetation clearance and habitat destruction
- Potential for alien invasive establishment
- Reduced flow to downstream water catchment
- Potential pollution to water resources through sedimentation
- Increased dust and emissions
- Increased noise levels
- Visual aesthetics and sense of place will be altered
- Potential damage to heritage sites (grave and/or archaeological artefacts)
- Influx of job seekers to the area
- Increased traffic – coal haulage

The following specialist studies are currently proposed and will form part of the EIA:

- Freshwater Ecology (Wetlands)
- Terrestrial Ecology (Fauna & Flora)
- Soils, land use and land capability
- Visual Assessment
- Air quality
- Surface water
- Groundwater
- Heritage
- Traffic

Should you be aware of any additional impacts or should you wish to propose an alternative mitigation measure, please do so by completing the attached questionnaire.

7. PUBLIC PARTICIPATION PROCESS

Public involvement is an essential component of the environmental process. It addresses the right of the Interested and Affected Parties (I&APs) to be informed of the proposed activities and to be involved in decisions that affect them. It also affords the environmental assessment practitioner the opportunity to assess and address the issues and concerns raised by Interested and Affected Parties (I&APs) thus allowing us to assess all the potential impacts of the proposed project.

It is envisaged at this stage that two public meetings will be held during the course of the application (1) during the Scoping Phase, and (2) during the EIA / EMP Phase of the application process.

You are hereby invited to attend the Open Day:

Date: Friday, 9th February 2018

Time: 10:00 am- 15:00 pm

Venue: Loeriesfontein Community Hall, Rossouw Street

Further to this, please note that all environmental reports will be made available for public review and comment for a minimum period of 30 Days.

Please register as an I&AP to receive information on the document availability as well as the venue, date and time of the public participation meetings.

**ANNEXURE IV:
ADVERTISEMENTS**

SO SÊ DIE REDAKTEUR

VRYDAG 2 FEBRUARIE 2018

HIER IS WATERSKAARSTE NORMAAL

WATER val oor 'n groot deel van die Karoo onderwyl daar steeds strepe en kolle is waar die verlossing nog moet kom. Die vreugde en byna ongelof wat uit gesigte straal raad die reën, in sommige gevalle ná vier jaar weer neersif, is aandoenlik maar verstaanbaar onder die ouer inwoners van die strek.

Karoo mense ken almal die storie van die vierjarige kind wat glad nie gewet het wat aangaan toe hy reën sien nie, maar om skape te sien wat glad nie soet water ken wat sommer in kuile in die veld staan na die reën nie, is 'n nuwigheid. Izak van Williston vertel dat sy widdopers so diep in die kuil water ingeloop het dat hulle naderhand begin swem het!

Hierdie wêreld se mense kan nie help om die Kaap se reaksie op hul waterskaarste met 'n meewarige glimlag te aanskou nie. In die Karoo, veral vir die ouer geslag, is dit nie 'n nuwigheid nie. Die lang periode van goeie reëns voor die huidige droogte toegeslaan het, het die jonger garde bederf om te dink dat dit normaal is.

Die water wat al hoe kraker raak en boorgate wat leegtrek is geen onbekende verskynsel in hierdie wêreld nie. Daar word maar net nog pype aangelas om die dieper water by te kom totdat dit ook nie meer help nie. Volgende word water met tenks en sleepwaens aangery om die diere se dors te help.

POLITIEKE KATGEVEGTE HELP NIE

ROWWE katgevegte het uitbreek 'n mate water in die Kaap al hoe skaarser raak. Reeds lê daar al 'n hele klompie slagoffers in die afgelede politieke pad soos betrokkenes probeer om die skuld vir die krisis op iemand anders af te pak.

Politici en amptenare het gewoon geword met die miljard rande wat instroom uit die sakke van vier miljoen inwoners van die metro waarmee hulle kon maak wat hulle wou. Die meeste van die stadsvaders en moeders is helaas glad nie opgevoed en ingestel om die belastingbetalers se belange eerste te stel nie.

Daar word veral nie maklik geld bestee aan die vervang van infrastruktuur nie en wanneer water- en rioolpype uiteindelik op 'n streep ingee en die een krisis op die ander op hulle neerdaal, weet hulle uiteraard nie wat om te doen nie.

Skielik word besef dat die onbeheerste toestroming van mense uit gebiede waar daar eintlik baie water is en lopende riviere nooit oopdroog nie, 'n reuse fout was. Dit maak nou skielik sin dat dit dalk 'n beter idee kan wees om die werk waarvoor mense nou na die stede toe stroom, eerder daar geskep moes word waar daar volop water en baie onbenutte grond is.

Daardie mense is nie gewoon aan 'n moderne stad waar daar vir alles betaal moet word nie — ook vir 'n woonplek, water

Wanneer die weiding mettertyd gedaan raak en die opgegaarde lusernmiemens ook gedaan raak, kos dit gesakte voer by die kooperasie aankoop en elke dag uitry veld toe waar die skape aangestreep kom as hulle die bakkie met die melies sien.

Wanneer die droogte die vierde jaar binnegaan, soos nou die geval was, kom selfs die vermoendste landbouer aan die einde van sy spaargeld en moet op die kooperasie en die bank gereken word vir geld om verder voer te koop.

Na soveel jare se stryd is dit geen wonder dat talle moed verloor en nie verder kans sien vir die gesukkel en die dodelike roetine van voer koop, water aanry en die werkers moed inpraat nie.

Onder die huidige bewind het hierdie mense ook al gewoon geraak dat fondse wat vantevore uit die staatskas gekom het in rampdroogtes nou eerder aangewend word om semi-staatsondernemings wat leeggesteel is aan die gang te hou en melkplase te koop waar koeie uit Indië ingevoer word en die geld gebruik word om bruilofte te finansier.

Maar die kern van die Karoo-mense gaan voort om te produseer en hul mense gereeld te betaal al is die geld by die bank geleen en staan steeds verslae om te sien hoe die Karoo binne weke weer in 'n lushof verander nadat deurdringende reën in oorvloed geval het.

brandstof en vervoer. Maar hulle dring in elke geval daarop aan dat daardie dienste aan hulle verskaf word sonder dat hulle daarvoor hoef te betaal. Want hulle politieke meesters het hulle so vertel.

In al die land se stede, nie net Kaapstad nie, het die werklikheid nou deurgedring dat die manier waarop werk kunsmatig geskep word deur die huidige geslag politici en amptenare glad nie die antwoord is nie maar trouens die land en sy mense net dieper in die ellende insleep.

Die bronne in die stede blyk ontoereikend te wees en daar sal op 'n nuwe manier gekyk moet word in die manier waarop belastinggeld aangewend word. Nie alleen is die natuurlike bronne soos water onvoldoende nie maar is daar ook 'n einde aan die manier waarop voorsiening gemaak kan word vir welsynbehoefes.

Hoe erg die euforie nou ookal is oor die nuwe bewind in die regerende party, as daar nie nuut gekyk gaan word aan die basiese vereistes van 'n voorspoedige land nie, soos onder andere basiese eerlikheid en basiese vertroue in harde werk en tronk vir die skelms nie, sal ons net bly waar ons nou is — in tamatiestraat met geen vooruitsig op verbetering nie.

Ons bly in 'n waterarm land en as daarvoor nie voorsiening gemaak gaan word nie, sal die krisis net meer word en nog politieke lyke in die pad van die toekoms bly lê.

UIT DIE WOORD

GEE OM VIR JÔU KINDERS

Hy was al twee jaar in Jerusalem terug sonder dat hy die koning gesien het. 2 Samuel 14:28.

Die verhouding tussen Dawid en Absalom was nie goed nie. Hulle het mekaar gewantrou. Dit is vandag nog die geval met ouers en kinders. Ons hoor dikwels van onge-disiplinerde kinders, maar die ouers dra ook skuld hieraan. Te veel kinders word "ouerloos" groot omdat ouers altyd elders is. Baie skoolkinderes daag elke middag by 'n leë huis op en sien hulle ouers saans net vir 'n kort rukkie. Dan is die ouers gewoonlik so

moeg dat daar nie veel sprake van kwaliteit tyd tussen gesinslede kan wees nie.

Die Bybel verwag van ouers om Christelike beginsels aan hulle kinders oor te dra. Dit is nie in die eerste plek die skool of die kerk se werk nie.

25 Jaar gelede

DIE NOORDWESTER: 16 Julie 1993. Saterdag is op die oomblik besig met 'n veldtog om hotelle, gastehuse en alle ander vorme van privaat akkommodasie na 'n nuwe graderingstelsel oor te skakel.

Daarom moet pa's en ma's meer tyd vir hulle kinders opsy sit. As hulle persoonlik betrokke raak by hulle kinders se aktiwiteite, sal daar minder probleemkinders op die skoolbanke sit. Die verhoudings in die gesin sal verbeter. Ouers en kinders sal mekaar respekteer en in liefde saamleef. Terloops gebeur dit in jou huis? Maak jy genoeg tyd vir diegene naaste aan jou? Indien nie, dan is dit nou die tyd om jou prioriteite in orde te kry.

Gebed: *Here, bind ons as gesin met u liefdesbande saam.* — Stephan Joubert.

OVK WOLVEILING: PRYSE LAER

Carnarvon wol kry goeie pryse

PORT ELIZABETH — By die wolweiling van Woensdag 24 Januarie 2018 het die prys vir goeie gehalte langwolk laer verhandel in navolging van die swakker Australiese mark.

- * A.J. Louw, Carnarvon vir 4 CL van 17,2 mikron teen R150,20/kg
- * A.J. Louw, Carnarvon vir 2 DL van 16,7 mikron teen R148,10/kg

WITKOP FLUORSPAR (EDMS) BPK

AANSOEK OM 'N MYNREG EN VERWANTE OMGEWINGSMAGTIGING KANAKIES NO. 332, HANTAM MUNISIPALITEIT, NOORDKAAP

Witkop Fluorspar Myn (Edms) Bpk gaan by die Departement van Minerale Hulpbronne (DMH) aansoek doen om 'n Mynreg kragtens die Wet op die Ontwikkeling van Minerale en Petroleum hulpbronne, Wet 28 van 2002 ("WOMPH").

Die aansoek hou verband met die oppervlakmyn van Gips. Verwantebedrywigheid sluit in opstapeling, vergruising en sifting, administrasie- en ablusiegeriewe, werkwinkels, wasplekke, brandstofberging, toegangspaaie, ens.

INDIENER: Witkop Fluorspar Myn (Edms) Bpk

BETROKKE EIENDOMME: Erfdeel 0 (die Restant), Kanakies 332, Calvinia

LIGGING: Die voorgename Mynreggebied lê 41 km wes van Loeriesfontein in die Hantam Munisipaliteit van die Noord-Kaapprovinsie. Hierdie aansoek om 'n Mynreg is onderhewig aan 'n aansoek om Omgewingsmagtiging kragtens die Wet op Nasionale Omgewingsbestuur (WNOB), Wet 107 van 1998. As sodanig sal 'n Proses van Bestek en Omgewingsimpakassessering gevolg word. Daarby sal die projek moontlik 'n afvalbestuursiensensie vereis kragtens die Wet op Nasionale Omgewingsbestuur: Afval (WNOB:Afval), Wet 59 van 2008; en 'n watergebruik lisensie kragtens die Nasionale Waterwet, Wet 36 van 1998 (NWW). Cabanga is aangestel as die onafhanklike Omgewingsassesseringspraktisyn (OAP) om die nodige omgewings aansoek asook die Opnare Deelnemingsproses te behartig. Die volgende Gelyste Aktiwiteite is op die voorgename projek van toepassing:

TOEPASLIKE LYSKENNISGEWING	AKTIWITEIT NO.:
Lyskennisgewing 1 van WNOB	12, 19, 22, 27, 30
Lyskennisgewing 3 van WNOB	6, 15, 17
GNR 921 van WNOB: Afval	4, 10, 12
NWW	21(a), 21(c), 21(i), 21(g), 21(j)

OPENBARE DEELNAME:

Vir meer inligting oor die voorgename projek, kontak asb. Michelle Venter by Cabanga (besonderde hieronder). Let asb daarop dat 'n Ope Dag vir die publiek geskeduleer is vir 9 Februarie 2018. Lede van die projekspan sal beskikbaar wees om enige vrae/kwellinge van die publiek in hierdie verband te beantwoord.

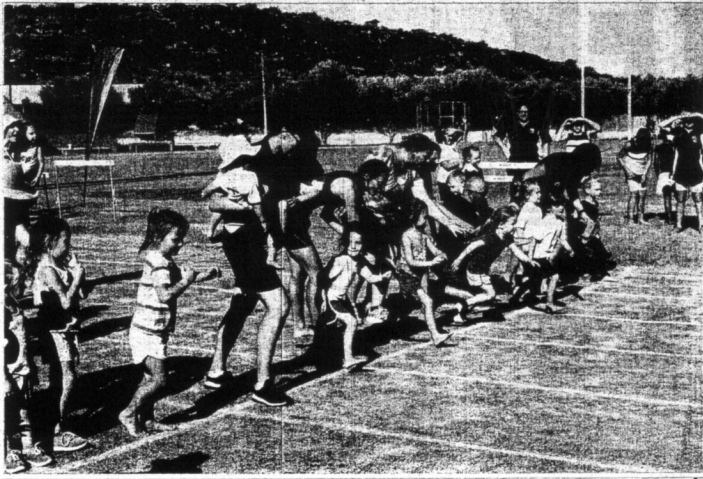

UITNODIGING NA OPENBARE VERGADERING:

Datum: Vrydag, 9 Februarie 2018
 Plek: Loeriesfontein Gemeenskapsaal, Rossouwstraat
 Tyd: Van 10:00 vm- 15:00 nm

Geagte Leser.

'n Mens kan dalk sê dat die huidige droogte nie sommer net in jou klere gaan sit nie. Dit is asof dit dieper vasbyt en nie wil laat los nie. Wanneer 'n mens 'n bietjie terugblaai in die verlede en kyk na die blomfoto's, dan wonder jy hoe dit moontlik is. Alles lyk dan nou swart – of is dit ons gemoed wat dit so laat lyk. 'n Vriend wat lief is om vroeg-oggend te gaan stap, stuur laasweek aan my 'n foto wat hy bokant die dorp geneem het. 'n Mens kan nie glo nie. Dit lyk soos 'n skildery met twee droë wit bome op die voorgrond, die paadjie waarmee hy gestap het, 'n draadheining en die berg in die agtergrond. Die blou lug word gebreek met ligte vlieswolkies. Ek dink ek kan sê dat dit dalk net hy is wat hierdie mooi eerstehands ervaar het.

Gister ry ek en my vrou met die bakkie om 'n trop skaap te gaan voer. Die oë staan in 'n lang streep op die mielies wat op die grond gegooi is. Ons

JAPIE KYK DIE DROOGTE MOOI

Suikerbekkie kry nog sy nektar

wag in die bakkie dat hulle eers moet klaar vreet voordat ons die lusern gooi. Ons aandag word getrek deur 'n klein voeltjie bo in 'n doringbos. Tot ons verbasing sien ons dat dit 'n veelkleurige suikerbekkie is. 'n Mens kan nie dink wat die besonderse voeltjie in 'n droë doringbos doen nie, totdat jy oplet dat daar 'n voel-ent bo in die doringbos is. Die suikerbekkie is besig om nektar van die voel-ent se blommetjies te soek. Te midde van die droogte, is daar tog iets waar-aan jy jou kan veronder. Dit is nie groot nie en tog is dit wonderlik om te sien hoe die natuur sorg en onderhou –

sels in die droogte.

En dan moet jy die Tankwa-Karooop aandurf. Dit bly 'n gelukskoot as jy nie 'n papwiel oplet nie, omdat die pad in so 'n swak toestand is. En tog kan jy jou veronder aan die pragtige blou-wit donderweerkwolk wat soos 'n reuse blomkool bo die Roggeveldberge uitrooi.

Dit is dalk tog 'n gawe as 'n mens die mooi van ons omgewing te midde van die droogte kan raaksien. Die droogte is erg, maar gelukkig is daar nog steeds baie om te geniet en te waardeer.

Groete, Japie.

WITKOP FLUORSAPAR (PTY) LTD

APPLICATION FOR A MINING RIGHT AND ASSOCIATED ENVIRONMENTAL AUTHORISATION KANAKIES NO. 332, HANTAM MUNICIPALITY, NORTHERN CAPE

Witkop Fluorsapar Mine (Pty) Ltd intends to submit an application for a Mining Right in terms of the Minerals and Petroleum Resources Development Act, Act 28 of 2002 ("MPRDA") to the Department of Mineral Resources (DMR).

The application relates to the surface mining of Gypsum. Associated activities include stockpiling, crushing and screening, administration and ablution facilities, workshops, washbays, fuel storage, access roads etc.

PROPOSITOR: Witkop Fluorsapar Mine (Pty) Ltd

AFFECTED PROPERTIES: Portion 0 (the Remaining Extent), Kanakies 332, Calvinia Rd
LOCATION: The proposed Mining Right Area is located 41 km West of Loeriesfontein within the Hantam Municipality of the Northern Cape Province.

This application for a Mining Right is subject to an application for an Environmental Authorisation in terms of the National Environmental Management Act (NEMA), Act 107 of 1998 and as such a Scoping and Environmental Impact Assessment Process will be followed. In addition to this, the project may also require a waste management license in terms of the National Environmental Management: Waste Act (NEM:WA), Act 59 of 2008 and a water use license in terms of the National Water Act, Act No. 36 of 1998 (NWA).

Cabanga has been appointed as the independent Environmental Assessment Practitioner (EAP) to complete the necessary environmental applications and to complete the Public Participation Process. The following Listed Activities are applicable to the proposed project:

APPLICABLE LISTING NOTICE	ACTIVITY NO.:
Listing Notice: 1 of NEMA	12, 19, 22, 27, 30
Listing Notice 3 of NEMA	6, 15, 17,
GNR 921 of NEMWA	4, 10, 12
NWA	21(a), 21(c), 21(f), 21(g), 21(j)

PUBLIC PARTICIPATION:

To get more information on the proposed project, please contact Michelle Venter at Cabanga (details below). Please note that an Open Day for the public has been scheduled for the 9th February, where members of the project team will be available to assist with any questions/or concerns you may have with regards to the project.

INVITATION TO PUBLIC MEETING:

Date: Friday, 9th February 2018
Venue: Loeriesfontein Community Hall, Rossouw Street
Time: Between 10:00 am- 15:00 pm

DIE NOORDWESTER: 5 Maart 1993. Op Woensdag 24 Februarie 1993 is 'n reuse veiling van surplusroerusting van die Noordweste SDR op Calvinia gehou. Kopers het van so ver as Gaborone, Delmas en Badplaas uit die verre Noord-Transvaal gekom. Sommige het selfs gevlieg om tog nie 'n moontlike winskoop mis te loop nie.

2. Opening & Welcome:

- Ken van Rooyen (KvR) opened the meeting, introduced himself and welcomed the attendees. Noted that Cabanga had been appointed as the environmental assessment practitioners to undertake the environmental application process.
- Outlined the agenda and format of the meeting. Explained that the meeting had originally been planned as an open-day question and answers session. However, due to the large amount of people arriving at 10:00am it was decided to rather conduct the meeting in the form of presentation followed by a question and answers session.
- Introduced the project team:
 - Jaco Erasmus, representing the proponent, Witkop Fluorspar;
 - Michelle Venter of Cabanga Environmental; and Nothabo Tshuma of MTS Holdings, responsible for the compilation of the Social and Labour Plan (S&LP).

3. Purpose of the Meeting:

- KvR explained that this was the first of two public participation meetings. The purpose of this meeting is to introduce the project to the public and to provide an overview on the environmental authorisation process going forward. It may not be possible to address all concerns or questions at this meeting, these will however be noted and assessed during the environmental impact assessment process.
- I&APs can raise comments, queries or concerns during the meeting or submit these in writing via fax, e-mail or post.
- All comments received from Interested and Affected Parties (I&APs) will be included in the environmental reports and submitted to the Department of Mineral Resources. Requested that all attendees please sign the attendance register.

4. Project Description:

- KvR provided a short summary of the proposed project description:
 - Approximately 45km east-south-east from the project site is the town Loeriesfontein, Northern Cape.
 - The site falls on farm Kanakies 332 Portion 0 (Remaining Extent).
 - The mineral that will be mined is gypsum and it will be mined via surface trench mining. The depth of the trenches will be between 1.4 metres - 2.5 metres. The gypsum will be for agricultural and industrial markets.
 - As they mine the trenches, when they are finished with one trench they will carry onto the other trench and backfill the previous one. This is known as roll over rehabilitation.
 - The powder layer will be screened and foreign objects removed. The clay layer will be roll-crushed and then screened with a high frequency.
 - The project will create approximately 14 permanent jobs but mining will make use of contractors where more jobs will be created.
 - Product will be transported via truck or rail using the existing rail and rail siding on the farm.

5. Principal Laws & Applications:

- Explained that South Africa has a number of Environmental Laws in place, with which a new development or mine must comply before they can commence.
- The principal authorisations required for the proposed Kanakies project include a Mining Right in terms of the Minerals and Petroleum Development Act; Environmental Authorisation in terms of the National Environmental Management Act; a Waste Management License in terms of the Waste Management Act, a Water Use License in terms of the National Water Act and authorization through the National Heritage Resources Act.
- Other authorisations are also required in terms of managing emissions; relocating endangered species and rezoning.

6. Environmental Authorisation Process:

- Explained that the application for Environmental Authorisation will follow a Scoping and Environmental Impact Assessment (EIA) process.
- In total approximately 150 days is allocated for the completion of the Scoping and Environmental Impact Assessment, including the public review.

- Following which, the authorities have approximately 150 days to consider the application and issue a Record of Decision.
- The Scoping Report is currently being compiled. The purpose of the report is to potential impacts and areas for further investigation in the EIA phase. The EIA report will assess the impacts on a detailed level and included a number of specialist studies.

7. Potential Environmental Impacts:

- The following preliminary impacts have been identified with the project and will be included in the Scoping Report:
 - Change of land use.
 - Change in topography due to excavations and stockpiling activities.
 - Increased noise as a result of machinery and vehicles.
 - Increased dust and emissions due to vehicle movement, stripping and stockpiling activities.
 - Soil erosion and compaction.
 - Loss of soil fertility.
 - Decrease in water quality and quantity.
 - Impact on groundwater levels and quality.
 - Loss of biodiversity, specialist studies undertaken to ensure that protected species are not in danger and are relocated if they are found.
 - Potential for alien invasive encroachment, management plans to eradicate alien invasive growth.
 - Deterioration of visual aesthetics and sense of place.
 - Increased traffic.
 - Potential loss of heritage and cultural sites, anything that is over 60 years old has heritage and cultural importance.
 - Influx of job seekers to area.
- Positive impacts identified include:
 - Economic Development, an increase in cash flow in the area will help the towns businesses.
 - Job creation, increase in employment for locals.
 - Contribution to taxes and GDP, development in the town contributes to the overall development of the country.

8. Service Requirements & Proposed Infrastructure:

- The proposed service and infrastructure requirements were listed:
 - All mining and ancillary minerals handling will be performed using diesel driven machinery and/or electricity generated by diesel driven generators.
 - Water will be required for dust suppression and potable/domestic use only. This will be sourced from a borehole located on site (81m³/day).
 - General waste will be collected for disposal at the Municipal dump.
 - Industrial waste (if generated) will be collected for disposal at a suitably licensed facility.
 - Sewage will be collected within conservancy tanks to be emptied by honey sucker for treatment at a suitably licensed facility.
 - A mobile crushing and screening plant will be utilised onsite.
 - Mobile "container" offices will be erected.
 - A vehicle park area, including workshop and bays will be constructed.
 - A built hydrocarbon storage will be required (max 30m³).
 - Gravel access roads (10km x 5m wide) will be constructed.
- Approximately 14 permanent jobs will be created. Jaco Erasmus (JE) stated that, skills that would be required by the mine include drivers and TLB operators. Services will be required for drilling of boreholes, windmill installation and repair, office construction, waste collection and management etc. as well as laboratory services.

9. Specialist Studies:

- As was mentioned earlier specialist studies will need to be undertaken for this project. Some of these studies have already commenced as they have seasonal requirements. The following specialist studies are anticipated for the project:
 - Freshwater Ecology (Wetlands)
 - Terrestrial Ecology (Fauna & Flora)
 - Soils, land use and land capability
 - Visual Assessment
 - Air quality
 - Surface water
 - Groundwater
 - Heritage
 - Traffic
- If there are any additional comments on the area or environment you can email or call Michelle Venter (MV) for consideration.

10. Way Forward:

- Minutes of the meeting and a copy of the presentation will be sent to all registered I&APs.
- The Draft Scoping Report will be made available for public review for a period of 30 days. Notification will be sent out to all registered I&APs. This report will be made available at the Loeriesfontein Public Library and as well as online at www.cabangaenvironmental.co.za
- All comments received will be included in the final Scoping Reports for submission to the Department of Mineral Resources.
- A second PPP meeting will be held during the EIA / EMP phase of the project. All registered I&APs will be invited to attend. In addition to this the EIA / EMP report and completed specialist studies will also be made available for public review once complete.
- DMR will issue a Record of Decision based on the EIA / EMP report and all I&AP's will be notified of the decision as well as the appeal procedure.
- Only if and once a Mining Right, Environmental Authorisation and Water Use License is issued can the mining proceed.

11. Questions and Answers:

- Jaco Erasmus (JE) requested that queries regarding Skills Development, Procurement and Employment Opportunities be directed to MTS Holdings, Ms. Nothabo Tshuma (NT) I.
- Nothabo Tshuma (NT) stated that she is here for the benefit of the people. If you have a concern and a solution then bring it to me, we want to make the mine a success for the business and community perspective.
- KvR opened the floor for a questions and answers session.

Interested and Affected Party	Issues/Question raised	Response
Environmental Questions and Answers :		
I&AP (name not stated)	The site is not located on Calvinia Road and the direction of the site from Loeriesfontein is incorrect.	Thank you, we will look into it and make the changes if necessary.
Karel Nevil (KN)	What is the process and how will the locals get jobs for this project?	CV's and business profiles can be forwarded to MTS Holdings. These will be considered should the mine's application be successful.
Richard Mollat (RM)	<p>What type of waste will the mine create? Will there be hazardous waste?</p> <p>If the whole process takes 300 days this means that smaller companies are able to get their registration and affairs ready; so that they can be used by the mine.</p> <p>Will your business need to be on a database?</p>	<p>The mine will generate general waste as well as limited amounts of hazardous waste. Used hydrocarbons and oil rags etc. are considered hazardous waste.</p> <p>No disposal will take place on site. Waste will need to be removed by a contractor for disposal at a licensed facility.</p> <p>CV's and business profiles can be forwarded to MTS Holdings for inclusion in a database. These will be considered should the mine's application be successful.</p> <p>Employment and procurement will be sourced from Loeriesfontein as far as possible.</p>
Linda Adonis (LA)	If there are protected plants in the area they need to relocate within Loeriesfontein and not in other areas.	This is required in terms of the Health and Safety Laws. Medicals will be undertaken prior to personnel starting work on the mine; this will also need to be undertaken annually

Interested and Affected Party	Issues/Question raised	Response
	<p>The mine needs to make provisions for medicals before and after so that we do not get sick from the mine and then the mine says that they didn't make the workers sick. This needs to be kept on record as dust could impact our health.</p> <p>We have an issue with other companies coming in and not giving the locals employment, people are sourced from outside the area. Murray & Roberts came in and did that. We weren't given opportunities.</p> <p>We in general would like to know what skills are needed to work at a mine as we do not have mines in the area.</p>	<p>thereafter. Exit medicals are also required by law when leaving a mine.</p> <p>In terms of dust, an air quality study will be undertaken and dust fallout monitoring will be proposed for the mine going forward. These results can be requested by the public.</p> <p>Witkop Fluorspar is a small company, and the proposed mine will have limited job opportunities as discussed in the presentation. The company endeavors to employ locals as far as possible.</p>
Johanna Basson (JB)	<p>Impact studies are undertaken for projects, and the companies are considered compliant but people still get sick.</p>	<p>Ongoing monitoring is important to ensure compliance with the relevant standards and to ensure mitigation is efficient.</p> <p>Samples will need to be analysed by accredited laboratories and compared to relevant Standards. This is then submitted to the various Authorities.</p> <p>The public is allowed to request monitoring data.</p>

Interested and Affected Party	Issues/Question raised	Response
		The health effects of mining gypsum are much lower compared to coal and uranium. Precautions taken are the same with all the mines regardless of mineral.
Isak Nel (IN)	The locals have many skills and need to be considered. How will they handle people who need jobs?	CV's and business profiles can be forwarded to MTS Holdings for inclusion in a database. These will be considered should the mine's application be successful. MTS Holdings is responsible for the compilation of the Social and Labour Plan which will outline the procurement and employment policies of the project.
I&AP (name not stated)	How long will the mine be open for?	The estimated life of mine is roughly thirty (30) years.
I&AP (name not stated)	The mine will only create 14 permanent jobs? That is not a lot.	That is correct; it is a very small project. CV's and business profiles can be forwarded to MTS Holdings for inclusion in a database. These will be considered should the mine's application be successful.
I&AP (name not stated)	You will mine the gypsum, take it away and sell it somewhere else. That profit goes to another area. 14 permanent jobs are not a lot of jobs.	There is no market for gypsum in this area. The processing will occur at the mine not in other towns or provinces.

Interested and Affected Party	Issues/Question raised	Response
		<p>Although only 14 permanent jobs will be created there is still a knock on effect by using contractors and services.</p> <p>Gypsum is sold for R10/ton, thus it is not as profitable as other mines. This needs to be kept in mind when putting the project into perspective.</p>
Riaan Vd Merwe (RvdM)	<p>Will there be any permanent structures on the land?</p> <p>The main concern is safety, it is mainly elderly people living on these farms and we worry about farm attacks. We will also worry about theft in the area if a mine opens.</p>	<p>Container offices will be utilized. No permanent structures will be constructed on site.</p> <p>Safety is a valid concern and we will make note of it.</p>
Meeting adjourned.

OPEN DAY MEETING

Witkop Fluorspar Mine(Pty) Ltd

Kanakies Mining Right Application: Scoping Phase

9 February 2018

10:00am- 15:00pm

Loeriesfontein Community Hall

INTRODUCTION:

Proponent: Witkop Fluorspar Mine(Pty) Ltd

- Applying for a mining right and associated environmental authorisations

EAP: Cabanga Environmental

- Independent environmental assessment practitioners appointed to undertake and manage the environmental assessment process

S&LP Consultant: MTS Holdings

- Transformation specialists responsible for the compilation of the Social & Labour Plan

PURPOSE OF OPEN DAY:

SHARE INFORMATION:

- Provide an overview of the project
- Explain the authorisation process

PUBLIC PARTICIPATION:

- Gather inputs, comments and concerns from interested & affected parties (I&APs)

INFORM THE ENVIRONMENTAL IMPACT ASSESSMENT PROCESS AND SOCIAL & LABOUR PLAN

PROJECT DESCRIPTION:

LOCATION: Approximately 45km east-south-east of the town of Loeriesfontein and 40km north-north-west of the town of Nieuwoudtville, within the Northern Cape Province

PROPERTIES: Kanakies 332 Portion 0 (the Remaining Extent)

MINERAL: Gypsum

METHOD: Surface trench mining

PROJECT DESCRIPTION:

DEPTH: 1.4 – 2.5 metres

LOM: 30 Years +

MARKET: Agricultural and Industrial Markets

Employment: 14 permanent jobs

- Mining will be conducted via surface trench mining the dimensions of a single mining block will be approximately 50m x 100m.
- The powder will be screened to remove foreign materials and is expected to be recovered by a margin of at least 90%.
- The clay layer will be roll-crushed and screened by means of high frequency screening plant at an estimated recovery of approximately 50%.
- Product will be stockpiled in designated areas for pre-qualification prior to being either trucked to market or loaded onto train trucks using the existing rail siding on the farm.

ENVIRONMENTAL AUTHORISATION PROCESS:

- **Legal Requirements**
 - Minerals and Petroleum Resources Development Act
 - The National Environmental Management Act
 - The National Environmental Management: Waste Act
 - National Heritage Resources Act
 - The National Water Act
- **Authorisation required prior to commencement**
- **Authorisation is subject to a Scoping & Environmental Impact Assessment**

ENVIRONMENTAL AUTHORISATION PROCESS:

No
Timeframe

Timeframes are regulated in terms of the National Environmental Management Act (NEMA)

Approximately 150 days within which to complete the Scoping and Environmental Impact Assessment (incl. public review)

AND

Approximately 150 days for the authorities consideration

44
Days

106
Days

300
Days

ENVIRONMENTAL AUTHORISATION PROCESS:

SCOPING:

- Initiate Public Participation
- Desktop study on baseline environment
- Identify potential issues for consideration in the EIA / EMP
- Outline the plan of study for the EIA / EMP
 - What specialist studies are required?

We are here

EIA / EMP:

- Integrated assessment (I&AP concerns; specialist studies etc.)
- Rates the impacts according to significance
- Proposes mitigation measures where possible
- Outline monitoring and compliance requirements

POTENTIAL ENVIRONMENTAL IMPACTS:

Negative Impacts

- ✘ Change in land-use
- ✘ Change in topography
- ✘ Increased noise
- ✘ Increased dust & emissions
- ✘ Soil erosion & compaction
- ✘ Loss of soil fertility
- ✘ Decrease in water quality & quantity
- ✘ Impact on groundwater levels & quality
- ✘ Loss of biodiversity

- ✘ Potential for alien invasive encroachment
- ✘ Loss of biodiversity
- ✘ Deterioration of visual aesthetics & sense of place
- ✘ Increased traffic
- ✘ Potential loss of heritage & cultural sites
- ✘ Influx of job seekers to area

Positive Impacts

- ✓ Economic Development
- ✓ Job creation
- ✓ Contribution to taxes & GDP

PROPOSED SERVICE REQUIREMENTS:

- All mining and ancillary minerals handling will be performed using diesel driven machinery and/or electricity generated by diesel driven generators.
- Water will be required for dust suppression and potable/domestic use only. This will be sourced from a borehole located on site (81m³/day).
- General waste will be collected for disposal at the Municipal dump.
- Industrial waste (if generated) will be collected for disposal at a suitably licensed facility.
- Sewage will be collected within conservancy tanks to be emptied by honey sucker for treatment at a suitably licensed facility.

PROPOSED INFRASTRUCTURE:

- A mobile crushing and screening plant will be utilised onsite.
- Mobile “container” offices will be erected.
- A vehicle park area, including workshop and bays will be constructed.
- A built hydrocarbon storage will be required (max 30m³).
- Gravel access roads (10km x 5m wide) will be constructed.

PROPOSED SPECIALIST STUDIES:

- Specialist studies are needed where significant impacts are anticipated or where there is insufficient information to determine whether the impacts will be significant.
- **The following specialist studies are proposed:**
 - Freshwater Ecology (Wetlands)
 - Terrestrial Ecology (Fauna & Flora)
 - Soils, land use and land capability
 - Visual Assessment
 - Air quality
 - Surface water
 - Groundwater
 - Heritage
 - Traffic

Some studies have commenced – seasonal requirements

WAY FORWARD:

- Scoping Report will be made available for public review and comment (30 days)
 - All registered I&APs will be notified of the report's availability
 - Comments received will be incorporated into the final Scoping Report for submission to DMR
 - DMR will approve the Scoping Report and plan of study OR ask for additional information
- Specialist studies will be completed
- EIA / EMP report will be compiled and made available for public review and comment (30 days)
 - All registered I&APs will be notified of the report's availability

WAY FORWARD:

- Comments received will be incorporated into the final EIA / EMP Report for submission to DMR
- DMR will issue a Record of Decision (RoD)
- I&APs are notified of the RoD and the appeal procedure

QUESTIONS?

Tel: (011) 794-7534 | Info@cabangaconcepts.co.za | www.cabangaconcepts.co.za

Thank you for attending!

SURFACE TRENCH MINING

– for mineral deposits close to the earth's surface that lay in horizontal beds. Strips or trenches are dug, and as a trench is depleted and new trenches are dug, the overburden is placed in the trenches.

WHAT ARE THE USES OF GYPSUM?

- Manufacture of wallboard
- Cement
- Plaster of Paris
- Soil conditioning
- Hardening retarder in portland cement

**ANNEXURE VII:
CORRESPONDENCE WITH I&APS**

<p>'n herinnering van die openbare vergadering op 9 Februarie 2018. Witkop Fluorspar Myn (Edms) is voornemens om aansoek te doen om n mynreg te kry vir die plaas Kanakies 332. Die openbare vergadering is by die Loeriesfontein Gemeenskapsaal op Rossouw Straat, Tyd- enige tyd tussen 10:00 vm en 15:00 nm. Michelle- 072 859 7268</p>				

Good afternoon Mr De Kock, I apologise we keep on missing each others phone calls. We will be in Loeriesfontein on Friday 9 February 2018 at the community hall for an open day for the proposed project from 10am-1500pm. Your farm, Kalkgat Vlakte, is neighbouring the area that will be applied for, Kanakies 332. We are doing the environmental side of the project, if you have any comments you can call this number, SMS or email me at Michelle@cabangaenvironment

Knervlakte nature reserve

To 'info@wwf.org.za'

i This message was sent with High importance.

Good day,

I have a query regarding a nature reserve that is reasonably close to the WWF South Africa: Knervlakte Nature Reserve in the Western Cape. It is called Kalk Gat Nature Reserve. I am unable to find any contact details on line of this reserve.

Your help would be greatly appreciated.

Thank you

Kind regards,

| Michelle Venter (B Sc Hons.)

<p>Good morning Mr Adriaanse, I have tried to give you a call a few times. Your farm, Stinkfontein borders with farm Kanakies. SA Lime is undertaking a mining right application on farm Kanakies. We are currently doing all the necessary environmental studies. If you have any questions please contact me on 011 794 7534 and on michelle@cabangaenvironmental.co.za. If you could please respond with your email address that would be ideal. Thank you</p>

Query: nature reserve

To 'aduffell-canham@capenature.co.za'

 This message was sent with High importance.

Good afternoon,

I was hoping you might be able to help me.

We have a mining project and a nature reserve borders the area we are applying for. We have been unable to find contact details for this reserve. It is called Kalk Gat Nature Reserve. It falls under Matzikama Municipality. We need to add it to our Interested and Affected Parties and notify them.

Thank you

Kind regards,

Michelle Venter (B Sc Hons.)

RE: Query: nature reserve
To Michelle Venter

Hi Michelle

We do not have any contact details for that reserve. We initially thought that it may have some link to the University of Stellenbosch but it does not seem to be the case. According to the Matzikama Municipality's 2015 Valuation Roll the property owner is Dieter Joachim von Willert for KLIP GAT 85/1.

 This message was sent with High importance.

Thank you very much.

Do you by any chance have Dieter von Willert's contact details? As we have been struggling to get his details, none of the neighbouring farm owners have his details and he does not live on the property.

Kind regards,

Michelle Venter

Message FW: Locality Plan (238 KB)

Good day all,

We hereby request an extension on the timelines to submit comments on attached.
 Our depot only received the information yesterday and quite a few relevant people required for comments are currently out of office.
 We also have no indication as to what is being planned. Please submit at least the following information:

- Exact proposal with regards to work to be done,
- Methods to be used for mentioned work,
- Exact location of work in relation to railway line (distance from line is important).
- "It seems that the proposal would be developed over Portion 1 of Farm KANAKIES No.332, Administrative District CALVINIA (SBS0283S) and Portions as service roads (SBS0320S & SBS0795S), where KANAKIES (LOOP 6) is situated, on Sishen - Saldanha Iron Ore line [between Saggiesberg (Loop 5) – De Kop (Loop 7)]." This is unfortunately insufficient information to make any comments from the depot's side.

Kind regards,

Ria-Ri Boonzaaier

Message Kanakies 332.kmz (4 KB)

Good day,

Unfortunately due to deadlines set by the Department of Mineral Resources we are unable to extend the Scoping Report deadline but you may submit your comments and they will be included in the Phase Two of our project- the Environmental Impact Assessment and Environmental Management Plan (EIA/EMP) phase.

The proposed project would like to make use of the rail line and an existing siding on the property. Please find attached a KMZ file of where the project area will be located.

Please find below a link to download the Draft Scoping Report which outlines the proposed project:

<https://www.dropbox.com/s/ow5g68rd036u8yd/Witkop%20Fluorspar%20Kanakies%20Scoping%20Report%20200318.pdf?dl=0>

Thank you.

Kind regards,

Michelle Venter

i You replied to this message on 2018/04/26 12:18 PM.

Good day,

Please note that at this stage the depot cannot approve of this application.
 According to the locality plan the mining will take place across our railway line and we do not have sufficient time to conduct a proper investigation on this matter.

Kind regards,

Ria-Ri Boonzaaier

Good day,

I will include this in our final Scoping Report.

As we are only in the Scoping Phase I do believe there is time for you to look into this matter. Once we submit the final Scoping Report we enter the EIA phase which is a more in depth study of this proposed project. The deadline for the EIA is later in the year.

Witkop Fluorspar do not intend to mine through the rail, they intend to utilize the railway.

Might I suggest you chat to the gentleman in control of the project, our client from Witkop Fluorspar:

Dr Jaco Erasmus (Group Technical Manager)

Cell: 082 310 9612

Email: jaco@sakg.co.za

Thank you

Kind regards,

Michelle Venter

Attention: Ria-Ri Boonzaaier
Transnet Freight Rail
Telephone: 022 703 3258
Email: Ria-ri.Boonzaaier@transnet.net

7 May 2018

Applicant: Witkop Fluorspar (Pty) Ltd
Project: Kanakies, Mining Right Application
Project Area: Farm Kanakies Portion 0 (RE), Loeriesfontein, Northern Cape
Ref #: NC30/5/1/2/3/2/1 (10136) MR

Dear Ria-Ri Boonzaaier;

Your email dated 24th April 2018 has reference; please see below additional information with regards to the abovementioned project.

1. Introduction

Witkop Fluorspar (Pty) Ltd intends to develop a Gypsum mine over Portion 0 (RE) of the farm Kanakies 332; and as such has submitted an application for a Mining Right in terms of the Minerals and Petroleum Resources Development Act, Act No. 28 of 2002 (MPRDA).

An application for Environmental Authorisation (EA) was submitted simultaneously, as per the requirements of the National Environmental Management Act, Act No. 107 of 1998 (NEMA) and the NEM: Waste Act, Act No. 59 of 2008 (NEM:WA); read with the requirements of the MPRDA. Cabanga Environmental has been appointed by Witkop as the independent Environmental Assessment Practitioners (EAP), responsible for the completing the environmental authorisation process for the proposed project.

2. Project Description

The application relates to the surface mining of the industrial mineral, Gypsum. Gypsum is typically used in the agricultural and construction industries (plasterboard, Portland cement, plaster etc.).

The overall Mining Right Area extends over ±7457 Ha however, it must be noted that only 689 Ha will be earmarked for mining, whilst a further 9Ha will be affected by surface infrastructure.

Currently it is expected that surface infrastructure will be limited to:

- Gravel roads;
- Fencing, security and access control;
- Weighbridge;
- A workshop, hard park and fuel storage;
- Offices, ablution facilities and laboratory (in the form of containers);
- Stockpiles and berms;

- Mobile crushing and screening plant; and
- Vehicle park areas.

3.1 Employment

It is anticipated that the project will employ 14 permanent staff members and more workers will be employed as service providers, as and when required. No personnel will be housed on site.

3.2 Service Requirements

Equipment, lighting and wall sockets at the infrastructure area will be powered by solar panels and/or diesel generator (10kVa) where necessary.

Water requirements on site will be limited to that of potable/domestic use, and dust suppression. The total average water demand is expected to be 81m³/day. At this stage it is anticipated that water will be sourced from the existing borehole (windmill) located on site. Water will be pumped and stored in a jojo tank, to be located at the infrastructure area.

3.3 Mining Method

The deposit consists of two layers of gypsum i.e. a powder layer and nodular crystalline (clay) layer of gypsum. The deposit will be harvested by means of simple roll-over trench mining and the depth of trenching will vary between 1.4 and 2.5m. The first step involves removing the overburden layer of between 0.2 and 0.7m, followed by the selective removal of the powder layer of approximately 0.4 meter and subsequently by removal of the crystal-containing clay layer of between 0.9 and 1.3m. The powder will be screened to remove foreign materials and is expected to be recovered by a minimum margin of at least 40% by volume harvested, inclusive of waste generated during screening, which should be less than 2% combined from dust generated and foreign objects removed during screening. The clay layer will be roll-crushed and screened by means of high frequency technology alongside the trench to concentrate the average gypsum composition from between 40 and 50 percent to between 80 and 90%. The harvesting recovery margin is estimated at 65% by volume extracted whilst the efficiency of the high frequency screening process is expected to be no less than 37%, calculating to an overall 76% mean loss by volume of material harvested.

The overall theoretical recovery per hectare will thus be as follows:

- Powder layer at +60% purity: $0.2\text{m} \times 10\,000\text{m}^2 \times 1\text{ton/m}^3 \times 40\% = 800\text{ t/ha}$
- Powder layer at +80% purity: $0.2\text{m} \times 10\,000\text{m}^2 \times 1\text{ton/m}^3 \times 40\% = 800\text{ t/ha}$
- Crystal layer at +80% purity: $1.1\text{m} \times 10\,000\text{m}^2 \times 1\text{ton/m}^3 \times 24\% = 2\,640\text{ t/ha}$

The combined recovery per hectare therefor equals 800 ton of Agricultural material and 3 440 ton of Industrial material i.e. an overall saleable volume of 4 240 ton per mined hectare. Since the demand for higher purity gypsum in the more sophisticated agricultural industry is on a sharp incline, the volume between the two supply lines can be balanced on demand.

Materials shall therefore be either sold from stockpile or blended to optimise quality as directed by the order book at any specific time.

All mining and ancillary services will be undertaken using diesel driven machinery. The following machinery is currently anticipated for the operations:

- A CAT 633E Scraper or similar
- A Wirtgen 2200SM or similar surface miner
- A 40 ton/hr mobile roller crusher combined with an Astec mobile high-frequency screen engineered to provide efficient sizing
- A CAT 950GC wheel loader
- A CAT250B articulated dump truck
- A Volvo 250 kVA diesel generator & a household 10 kVA diesel generator
- A 120 kW tractor with roller for on-stockpile crushing if and when required
- At least 2 Toyota Hilux 2.8D 4-wheel-drive LCV's

3.4 Transportation

Alternatives are currently being assessed for the project however, the applicant has indicated that they intend to make an application to Transnet to make use of the existing service road located off the R355 to access the site. In addition Witkop has indicated that they will be making an application to utilise the existing Siding to transport product via rail.

4 Location of proposed works in relation to the Transnet rail line

The property is bisected by the Transnet Freight railway line which links Sishen Iron Ore to the Port of Saldanha (Loop 6). Existing infrastructure on site includes a small rail siding, power lines, sub-station, farmsteads and associated infrastructures.

It is proposed that mining will be undertaken using diesel driven machinery to a depth of 2.5m thus no blasting will be undertaken on site. It must be noted that mine activities will remain outside the regulated 100m distance from the rail line and it is not expected that the rail line will be directly impacted on by mining activities. See attached Plan 1 and 2.

5 Conclusion

Please note that your comments received to date have been included in the Scoping Report as submitted and recently approved by the Department of Mineral Resources. Currently the various Specialist Studies are underway, and we anticipated that the Environmental Impact Assessment and Management Plan will be available for review and comment in July 2018. Transnet is a registered Interested & Affected Party (I&AP) for the project and will be notified of the documents availability in due course.

Please do not hesitate to contact me should you have any more questions.

Thank you and regards,

Michelle Venter

Sir

APPLICATION FOR A MINING RIGHT IN TERMS OF THE MINERALS AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT 28 OF 2002)

Your application NC30/5/1/2/3/2/1 (10136) MR dated March 2018.

Please note that Transnet SOC Limited is the owner of Portion 1 of the farm Kanakies No 332, Administrative District Calvinia. The property is currently utilized for the Sishen to Saldanha Bay railway line and is situated adjacent to the property referred to in the Scoping Report (Farm Kanakies No. 332).

Please be aware that as far as the adjacent properties to the railway line concerned, your attention is drawn to Regulation 17 (6) (a) of the Mine Health and Safety Act, 1996 which determines that no mining operations may be carried out under or within a horizontal distance of 100 metres from buildings, roads, railway, reserves etcetera,

Transnet SOC Limited hereby also wished to draw your attention to Section 48 (1) of the Minerals and Petroleum Resources Development Act, 2002 which stipulates as follows:

"48.(1) Subject to section 20 of the National Parks Act, 1976 (Act No. 57 of 1976), and subsection (2), no reconnaissance permission, prospecting right, mining right and mining permit may be issued in respect of-

- a) Land comprising and residential area;
- b) Any public road, railway or cemetery;
- c) Any land being used for public or government purposes or reserved in terms of any other law; or
- d) Areas identified by the Minister by notice in the Gazette in terms of section 49."

Please note that under no circumstance will or do Transnet SOC Limited permit, grant permission or consent to any prospecting or mining activities on its properties.

Regards

24/6/18

Good day,

Please note that there will be a second environmental public meeting held on 29 August 2018 at 09:00 held at the Loeriesfontein Community Hall. This meeting will go over the findings from the specialist studies of the EIA phase.

Thank you.

Kind regards,

Michelle Venter (B Sc Hons.)

CORRESPONDENCE WITH THE AUTHORITIES**

Department of Rural Development and Land Reform
Land Claims / Land Restitution Support
E-mail: ryan.oliver@drdlr.gov.za

15 January 2018

WITKOP FLUORSPAR (PTY) LTD, MINING RIGHT APPLICATION OVER PORTION 1 AND REMAINING EXTENT OF THE FARM KANAKIES NO. 332, ADMINISTRATIVE DISTRICT OF CALVINIA

Dear Sir/Ma'am;

Witkop Fluorspar (Pty) Ltd intends to submit a Mining Right Application in terms of the Minerals and Petroleum Resources Development Act, Act 28 of 2002 ("MPRDA") over various properties to the Department of Mineral Resources (DMR). (Please refer to the list of all the properties concerned below).

Please can you indicate if any of the below mentioned properties are under any current land claims and provide us with the necessary clearance letter?

FARM NAME: KANAKIES NO. 332	
PORTION	OWNER:
RE	PPC Cement
1	Transnet

We trust that you find the above in order and look forward to hearing from you.

Kind Regards,

Michelle Venter

michelle@cabangaenvironmental.co.za

Dear Sir/ Madam

LAND CLAIMS ENQUIRY – Portions 1 and remaining extent of the Farm Kanakies No. 332, Calvinia District, Province Northern Cape.

We refer to your email dated 15/01/2018

We confirm that as at the date of this letter no land claims appear on our database in respect of the Property. This includes the database for claims lodged by 31 December 1998; and those lodged between 1 July 2014 and 27 July 2016 in terms of the Restitution of Land Rights Amendment Act, 2014.

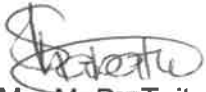

Whilst the Commission takes reasonable care to ensure the accuracy of the information it provides, there are various factors that are beyond the Commission's control, particularly relating to claims that have lodged but not yet been gazetted such as:

1. Some Claimants referred to properties they claim dispossession of rights in land against using historical property descriptions which may not match the current property description; and
2. Some Claimants provided the geographic descriptions of the land they claim without mentioning the particular actual property description they claim dispossession of rights in land against.

The Commission therefore does not accept any liability whatsoever if through the process of further investigation of claims it is found that there is in fact a land claim in respect of the above property.

If you are aware of any change in the description of the above property after 19 June 1913 kindly supply us with such description so as to enable us to do a further search.

Yours faithfully

pp 

Ms. M. Du Toit

RE: Background Information Document for the Mining Right Application_Kanakies, Northern Cape

To Michelle Venter
You replied to this message on 2018/02/02 01:19 PM.

Message 41381_12-1_WaterSanitation.pdf

Good day Michelle,

I agree with the documents. A geohydrological study would need to be done, as the area haven't had rain in 7 years. The area is mainly depleted of its groundwater resources. Also included in the study must be a hydrocensus of about 5km I would say around the property and pump test must be conducted by a specialist with Pr. Status. Pump test must be 24hours.

Hope this information helps, as the application falls under WC Im not sure if they would suggest the same, but that is what I would suggest because of the drought.

Also attached is new regulations for that area and the WC.

Regards
Danita

Interim Comment

In terms of Section 38(3), 38(8) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Witkop Fluorspar Pty Ltd

Witkop Fluorspar Mine (Pty) Ltd intends to submit an application for a mining right in terms of the Minerals and Petroleum Resources Development Act, Act 28 of 2002 (MPRDA) over Portion 0 (the Remaining Extent), Kanakies 332, Calvinia Rd. The proposed mining right area comprises 7,456.70 hectares and is located approximately 45km eastsouth- east of the town of Loeriesfontein and 40km north-north-west of the town of Nieuwoudtville, within the Northern Cape Province (Figures 1 and 2). This application for a mining right is subject to an application for an Environmental Authorisation in terms of the National Environmental Management Act (NEMA), Act 107 of 1998. In addition to this, the project may also require a waste management license in terms of the National Environmental Management: Waste Act (NEM:WA), Act 59 of 2008 and a water use license in terms of the National Water Act, Act No. 36 of 1998 (NWA). Cabanga has been appointed as the independent Environmental Assessment Practitioner (EAP) to complete the necessary environmental applications and oversee the various specialist studies.

Thank you for notifying SAHRA of the Environmental Authorisation (EA) and Mining Right Application on Portion 0 (the Remaining Extent), Kanakies 332, Calvinia Rd, Northern Cape Province.

As the proposed development is undergoing an EA Application process in terms of the National Environmental Management Act, No 107 of 1998 (NEMA), NEMA Environmental Impact Assessment (EIA) Regulations for activities that trigger the Mineral and Petroleum Resources Development Act, No 28 of 2002 (MPRDA)(As amended), it is incumbent on the developer to ensure that a **Heritage Impact Assessment** (HIA) is done as per section 38(3) and 38(8) of the National Heritage Resources Act, Act 25 of 1999 (NHRA). This must include an archaeological component, palaeontological component and any other applicable heritage components. The HIA must be conducted **as part of the** EA Application in terms of NEMA and the NEMA EIA Regulations.

The quickest process to follow for the archaeological component would be to contract a specialist (see www.asapa.org.za or www.aphp.org.za to provide an Archaeological Impact Assessment (AIA). The AIA must comply with the SAHRA 2007 Minimum Standards: Archaeological and Palaeontological Component of Impact Assessments.

A Palaeontological Desktop Assessment must be undertaken to assess whether or not the development will

impact upon palaeontological resources as the area is located within unknown palaeontological sensitivity (see www.palaeontologicalsociety.co.za for qualified paleontologists). The PIA must comply with the SAHRA 2012 Minimum Standards: Palaeontological Component of Heritage Impact Assessments.

Any other heritage resources as defined in section 3 of the NHRA that may be impacted, such as maritime archaeology, built structures over 60 years old, sites of cultural significance associated with oral histories, burial grounds and graves, graves of victims of conflict, and cultural landscapes or viewsapes must also be assessed.

The Scoping Report with all appendices, EIA report with all appendices must be submitted to SAHRA at the start of every Public Review period so that SAHRA comments may be incorporated as part of the Final reports.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

ACKNOWLEDGEMENT OF AN APPLICATION FOR ENVIRONMENTAL AUTHORISATION LODGED IN TERMS OF SECTION 24 OF NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998) READ WITH REGULATION 19 OF THE ENVIRONMENTAL IMPACT ASSESSMENT (EIA) REGULATIONS, 2014 FOR A MINING RIGHT AND RELATED INFRASTRUCTURAL ACTIVITIES ON FARM KANAKIES 332 SITUATED IN THE MAGISTERIAL DISTRICT OF CALVINIA: NORTHERN CAPE REGION

1. I refer to the abovementioned matter and confirm that your application for an Environmental Authorisation herein referred to as "EA" lodged on **09th March 2018** is hereby acknowledged.
2. You must, within 44 days of receipt of the application by the Department of Mineral Resources, submit to the competent authority (DMR) a scoping report which has been subjected to a public participation process of at least 30 days and which reflects the incorporation of comments received, including any comments of the competent authority.

3. NB: Regulation 45 of 2014 EIA Regulations stipulates that “an application in terms of these Regulations lapses and a competent authority will deem the application as having lapsed, if the applicant fails to meet any of the time-frames prescribed in terms of these Regulations, unless extension has been granted in terms of regulation 3(7).” Your 44 (forty four) days will lapse on the 26th April 2018 . Please note that this is inclusive of weekends but exclusive of public holidays.
4. Acknowledgement of your application does not grant you permission to commence with Prospecting activities. Commencement of a listed activity without an EA constitutes an offence in terms of Section 49A (1) (a) of NEMA, 1998 (Act 107 of 1998) as amended and upon conviction for such an offence, a person is liable to a fine not exceeding R10 million or to imprisonment for a period not exceeding ten years, or to both such fine and such imprisonment.

Hope that this letter will receive your utmost attention.

Sir/Madam

APPLICATION FOR A MINING RIGHT IN TERMS OF SECTION 22 OF THE MINERAL AND PETROLEUM RESOURCES DEVELOPMENT ACT, 2002 (ACT 28 OF 2002) AS AMENDED BY SECTION 18 OF ACT 49 OF 2008: REMAINING EXTENT OF THE FARM KANAKIES NO 332, ADMINISTRATIVE DISTRICT OF CALVINIA.

I refer to the above matter and confirm that your application for a Mining Right submitted in terms of Section 22 of the Mineral and Petroleum Resources Development Act, Act 28 of 2002 (MPRDA) to mine for **Gypsum** has been accepted.

Submit relevant environmental reports required in terms of Chapter 5 of the National Environment Management Act, 1998 (Act 107 of 1998); and

Consult in the prescribed manner with the landowner, lawful occupier and any interested and affected party and include the result of the consultation in the relevant environmental reports.

You are also requested to consult with **Blue Waves (Pty) Ltd** as they are interested and affected party.

Please note that acceptance of your application does not grant you the right to commence with mining operation. Your application will be evaluated/processed and recommendation on the granting/refusal of the right will be forwarded to the Minister or her delegate. Any person operating without a Prospecting Right, Mining Right or Mining Permit will be in contravention of Section 5(4) of the MPRDA and would be guilty of an offence in terms of the relevant Act.

Kindly note that failure to submit the documents as requested and failure to adhere to the time frames as stipulated above amount to non compliance with the provision of the Act and will therefore lead to your application being recommended for refusal without further notification to you.

Yours faithfully

Good day

The report does mention that Kalk Gat private nature reserve is adjacent to this proposed mining area. However, I don't see them as registered as interested and affected parties. Nature reserves are identified as protected areas in terms of Protected Areas Act; and therefore an appropriate buffer zone for the protected area is definitely established in order to reduce or mitigate the negative influences of activities taking place outside them and the surrounding landscapes. It is not clear here whether this nature reserves will or not be affected by this development. It is recommended that you also interact with these owners.

Good morning Linda,

I trust you are well.
 We are currently trying to locate the owners of the Kalk Gat Private Nature Reserve – unfortunately the land is owned by a Trust and so the contact details are not public. There is no one residing on the property, nor is there any security or contact details on the farm gate. We are currently awaiting a response from Environmental Affairs to see if they can help with contact details for the reserve.

Thank you and regards,

Jane Barrett

Thanks so much for the response.

Do you know anyone who might know? The Kalk Gat Nature Reserve touches on a farm portion that a mining right is being applied for. We need to have contact details of this reserve so that it can be added as an Interested and Affected Party and notified.

Kind regards,
Michelle Venter

WITKOP FLUORSPAR (PTY) LTD: KANAKIES FINAL SCOPING REPORT

Reference No: NC 30/5/1/1/2/10136 MR

Dear Madam;

The Draft Scoping Report for the above mentioned project was submitted for public review on 20th March 2018. Due to unforeseen circumstances the hard copy was only placed in the public section of the Loeriesfontein Public Library on the 27th March 2018. With the lack of access to internet in this region public review is only able to occur with access to hard copies.

Our original deadline for the final Scoping Report is the 26th April 2018.

In terms of GNR 326: Chapter 2 Section 7 we request an extension of seven (7) days thus making the new deadline for the final Scoping Report 7th May 2018 in order for I&AP's to have a full thirty days of public review.

We trust that you find the above in order.

Thank you and please do not hesitate to contact us should you have any queries.

Best Regards,

Michelle Venter

RE: cooments on the Draft Scoping Report for 10136MR

To 'Linda Njemla'

Cc Jaco; Jane Barrett

i This message was sent with High importance.

Good day Linda,

We have been trying to locate the owners of Kalk Gat Private Nature Reserve. I have been in contact with Environmental Affairs, they do not have the contact details. The surrounding farms owners do not have the contact details either. I have also been in contact with WWF and Cape Nature.

How would you like us to proceed with this matter?

Thank you.

Kind regards,

Michelle Venter

Hi Michelle

One of the Public participation processes is advertised in a local newspaper; they should have seen the advert by now or heard from someone. We shall continue with the process without them. Please keep proof that you have contacted but failed(e.g your communication with DEA) so that if they decide to appeal if the EA is granted , we do have such records and be able to defend this.

Interim Comment

In terms of Section 38(3), 38(8) of the National Heritage Resources Act (Act 25 of 1999)

Attention: Witkop Fluorspar Pty Ltd

Witkop Fluorspar Mine (Pty) Ltd intends to submit an application for a mining right in terms of the Minerals and Petroleum Resources Development Act, Act 28 of 2002 (MPRDA) over Portion 0 (the Remaining Extent), Kanakies 332, Calvinia Rd. The proposed mining right area comprises 7,456.70 hectares and is located approximately 45km eastsouth- east of the town of Loeriesfontein and 40km north-north-west of the town of Nieuwoudtville, within the Northern Cape Province (Figures 1 and 2). This application for a mining right is subject to an application for an Environmental Authorisation in terms of the National Environmental Management Act (NEMA), Act 107 of 1998. In addition to this, the project may also require a waste management license in terms of the National Environmental Management: Waste Act (NEM:WA), Act 59 of 2008 and a water use license in terms of the National Water Act, Act No. 36 of 1998 (NWA). Cabanga has been appointed as the independent Environmental Assessment Practitioner (EAP) to complete the necessary environmental applications and oversee the various specialist studies.

Cabanga Environmental has been appointed by Witkop Fluorspar Mine (Pty) Ltd to undertake a Scoping and Environmental Impact Assessment (S&EIA) process in support of an Environmental Authorisation (EA) and Mining Right Application on over Portion 0 (the Remaining Extent), Kanakies 332, Calvinia Rd, Northern Cape Province.

A draft Scoping Report has been submitted in terms of the National Environmental Management Act, No. 107 of 1998 (NEMA), NEMA EIA Regulations for activities that trigger the Mineral and Petroleum Resources Development Act, No. 28 of 2002 (MPRDA) (As amended).

Project activities include 700 ha of vegetation clearance and topsoil stripping, 700 ha of surface trench mining and backfilling and rehabilitation, and supporting infrastructure such as administrative and ablution facilities, maintenance shed, various stockpiles, stockpile yard, and mobile crushing and screening plant.

The Scoping Report notes that a Heritage Impact Assessment (HIA) will be completed as part of the EIA.

Interim Comment

The SAHRA Archaeology, Palaeontology and Meteorites (APM) Unit awaits the pending HIA that must comply

with section 38(3) of the National Heritage Resources Act, Act 25 of 1999 (NHRA). The Archaeological Impact Assessment (AIA) component must comply with the SAHRA 2007 Minimum Standards: Archaeological and the Palaeontological Component of Impact Assessments and the Palaeontological Assessment must comply with SAHRA 2012 Minimum Standards: Palaeontological Component of Heritage Impact Assessments.

Any other heritage resources as defined in section 3 of the NHRA that may be impacted, such as maritime archaeology, built structures over 60 years old, sites of cultural significance associated with oral histories, burial grounds and graves, graves of victims of conflict, and cultural landscapes or viewsapes must also be assessed.

The EIA report with all appendices must be submitted to SAHRA at the start of every Public Review period so that SAHRA comments may be incorporated as part of the Final reports.

Should you have any further queries, please contact the designated official using the case number quoted above in the case header.

Yours faithfully

Farm Kanakies No 332: Scoping Report

To linda.njemla@dmr.gov.za; Info

Cc collab@matzikamamun.co.za

You replied to this message on 2018/04/24 08:43 AM.

Dear me Venter and Njemla,

The "Scoping Report for Listed Activities Associated with Mining Right and/or Bulk Sampling Activities Including Trenching in cases of Alluvial Diamond Prospecting" with reference "NC 30/5/1/2/3/2/1 (10136) MR" dated March 2018, refers.

Although the application area is located within the Northern Cape please register the Matzikama Municipality as an interested and affected party.

Please note that on the cover letter by CABANG Environmental dated 19 March 2018 it is stated that the application is for a "gypsum" mine but the the cover from page from DMR refers to "... Bulk Sampling Activities Including Trenching in cases of Alluvial Diamond Prospecting". Clarity on the discrepancy is needed.

Please note that this office reserves the right to provide contradictory and/or amended comment and to request any additional or new information based on any additional or new information that is received.

Good morning,

You are registered as an I&AP.

As per your comment, the "Bulk Sampling Activities Including Trenching in cases of Alluvial Diamond Prospecting", this is part of the official Scoping Report template from the Department of Mineral Resources. This is the official cover and does not refer to what we are applying for.

Thanks for your comments.

Kind regards,

Michelle Venter

<mailto:Michelle@cabangaconcepts.co.za>

CONSIDERATION OF SCOPING REPORT IN TERMS OF REGULATION 22 OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT 107 OF 1998) (AS AMENDED) REGARDING THE ENVIRONMENTAL AUTHORISATION APPLICATION FOR THE PROPOSED MINING ACTIVITIES AT FARM KANAKIES 332 SITUATED IN THE MAGISTERIAL DISTRICT OF CALVINIA: NORTHERN CAPE REGION.

1. Your scoping report was examined by the Department and found that it meets the requirements stated in the National Environmental Management Act, 1998 regulations. Therefore, you are advised to continue with the tasks contemplated in the plan of study for environmental impact assessment.
2. One of the things that have been noted during the perusal of this report are:
 - On page 10 you have mentioned that, water will be sourced from an existing borehole at the site. Please verify if this borehole is registered in terms of the National Water Act requirements and if so, provide documents from the Department of Water and Sanitation when submitting the Environmental impact report.
 - On page 40 you have stated that Transnet has concerned that the mining will mining will take place across their railway line. Is this refereeing to the fact that you will be using the railway services to transport your product?

- Regarding the utilisation of Transnet railway line which will have a huge impact on their train service; I'm convinced that you can work out a plan regarding the schedule time of Transnet services and come to an agreement. Transnet should be having a fixed schedule.
- On page 57, it is stated that certain areas have been mapped as areas of biodiversity importance and must be managed accordingly and the project does not overlap with these areas. Even though the project does not overlap with these areas; some biodiversity features require buffers of natural habitat to ensure their persistence. Your studies should also investigate the ecological buffers, and policy-related or legislative buffers of these Critical Biodiversity Areas and Ecological Support Areas. You can contact Mr. Peter Cloete of the Northern Cape Department of Environment and Nature Conservation at the Springbok office regarding issues related to biodiversity at C/O Voortrekker and Magasyn Street, Springbok, Tel: (027) 718 8800, E-mail: peter.denc87@gmail.com.

3. In addition to this, you must within 106 days of the acceptance of the scoping report submit an environmental impact report inclusive of any specialist reports, and an environmental management programme, which must have been subjected to a public participation process of at least 30 days and which reflects the incorporation of comments received, including any comments of the competent authority.

4. In a case where there are significant changes in the information that was previously submitted; you will need to notify the Department in writing of such changes within the 106 days stated above and submit an environmental impact report within 156 days of acceptance of the scoping report by the Department. You will also be notified if there are further developments regarding the consultation of your scoping report by the consulted State organisations.

Email: Linda.Njemla@dmr.gov.za

14 June 2018

Applicant: Witkop Fluorspar (Pty) Ltd

Project: Kanakies, Mining Right Application

Project Area: Farm Kanakies Portion 0 (Re), Loeriesfontein, Northern Cape

Ref #: NC30/5/1/2/3/2/1 (10136) MR

Dear Linda Njemla,

The abovementioned project has reference. As per our telephonic conversation, an initial terrestrial assessment (summer assessment) was completed for the proposed Kanakies Mining Right Area in January/February 2018 whereby *Hoodia* species (protected in the Northern Cape) were identified within the focus area of the project.

However, due to the drought in the area and the fact that the field assessment fell outside of the flowering season of the indigenous floral species, it was decided that a second field assessment be conducted during winter to determine if any other protected floral and faunal species are present. The winter field assessment is currently scheduled for the end of July 2018.

As the scope of work has been expanded, we hereby request an extension in terms of Section 3(7) and Section 23(2) of the National Environmental Management Act, Act 107 of 1998 (NEMA) EIA Regulations (2014) as amended.

An extension of 30 days is requested, thus the final EIA and EMP report will be submitted by no later than the 27th September 2018.

We trust you find the above in order and look forward to hearing from you.

Thank you and regards,

Michelle Venter

REQUEST FOR AN EXTENSION REGARDING SUBMISSION OF AN ENVIRONMENTAL IMPACT REPORT IN TERMS OF THE NATIONAL ENVIRONMENTAL MANAGEMENT ACT, 1998 (ACT NO. 107 OF 1998) AND SECTION 21 (1) OF THE ENVIRONMENTAL IMPACT ASSESSMENT REGULATIONS, 2014, IN SUPPORT OF AN ENVIRONMENTAL AUTHORISATION APPLICATION FOR THE PROPOSED MINING ACTIVITIES AT FARM KANAKIES 332 SITUATED IN THE MAGISTERIAL DISTRICT OF CALVINIA: NORTHERN CAPE REGION.

1. I refer to your later dated the 14th June 2018, with regards to requesting an extension to submit an environmental impact report (EIR). Initially it was stated as per Regulation 21 of NEMA that, you must, within 106 days of the acceptance of the scoping report, submit an EIR which has been subjected to a public participation process of at least 30 days and which reflects the incorporation of comments received, including any comments of the competent authority. Therefore the EIA was supposed to be submitted no later than 27th August 2018.
2. Based on the reasons that you have stipulated in your request and your supporting documents which is in conjunction with NEMA Regulations. Your

request for an extension is granted. You are therefore, authorised to submit the EIR on the 18th of October 2018.

NOTICE OF REVIEW AND COMMENT PERIOD: DRAFT SCOPING REPORT

Attention: Regional Manager

Department of Environmental Affairs and Nature Conservation
90 Long Street,
Kimberley,
8300

19 March 2018

APPLICANT: Witkop Fluorspar (Pty) Ltd

PROJECT: Kanakies, Mining Right Application

PROJECT AREA: Farm Kanakies Portion 0 (RE), Loeriesfontein, Northern Cape

Ref #: NC30/5/1/2/3/2/1 (10136) MR

Dear Sir/Madam;

Witkop Fluorspar (Pty) Lt has submitted an application for a Mining Right, for gypsum, over Portions 0 (Re) of the Farm Kanakies 332 near Loeriesfontein, Northern Cape.

The application for environmental authorisation is subject to a Scoping and an EIA/EMP process. Please find attached 1 x copy of the **DRAFT** Scoping report for review and comment. Kindly submit your comments on the report on or before the **23rd April 2018**.

Comments may be sent directly to the Department of Mineral Resources

Attention: Linda Njemla

Department of Mineral Resources
Corner of Van der Stel & Van Riebeeck,
Hopley Centre Building
Springbok, 8240
Tel: 027 712 8175
Email: linda.njemla@dmr.gov.za

Please be so kind as to copy Cabanga on all comments so that we may record these in the final reports.

Thank you.

Message BID Afr Kanakies.pdf (509 KB)

Good evening,

Thanks so much for taking our call earlier.

Please find attached a Background Information Document if you would like to read it about the project.

My contact details are below in my signature.

The Draft Scoping Report is on public review. You can access it on: www.cabangaenvironmental.co.za

Click on the "public documents tab", select the project and document of interest before completing the form. Once the form has been submitted the Document will be available for download.

Thank you

Kind regards,

| Michelle Venter (B Sc Hons.)

Good day,

Please note that the public review of the Kanakies Draft Scoping Report has been extended to 29th April 2018. It can be found at the Loeriesfontein Public Library and on our website <http://www.cabangaenvironmental.co.za/public-documents>, select the project and document of interest before completing the form. Once the form has been submitted the Document will be available for download.

Thank you.

Kind regards,

Michelle Venter (B Sc Hons.)

Draft EIA/EMPr Kanakies_SA Lime_Public Review

To 'NieuwoudtR@dws.gov.za'

i This message was sent with High importance.

Good day Mr Nieuwoudt,

Please find below the dropbox link to access the Draft EIA EMPPr and all the appendices:
https://www.dropbox.com/sh/nm48bn27oe0wwwvq/AAA_JAwiphvhXPeHzbZ1NdtHa?dl=0

Please let me know if there are any issues accessing it.

We have the hard copy for you for 29th August 2018.

Thank you

Kind regards,

Michelle Venter (B Sc Hons.)

Kanakies_Witkop Fluorspar Mine_Draft EIA EMPr

To 'vanwykjr@hantam.gov.za'

This message was sent with High importance.

Good afternoon,

The project area is situated in the Northern Cape, 45km west-south-west of the town of Loeriesfontein

Witkop Fluorspar Mine (Pty) Ltd intends to develop a Gypsum mine over the farm Kanakies 332 Portion 0 (RE) and as such has submitted an application for a Mining Right (MR) in terms of the Minerals and Petroleum Resources Development Act, Act No. 28 of 2002 (MPRDA).

An application for Environmental Authorisation (EA) was submitted simultaneously, as per the requirements of the National Environmental Management Act, Act No. 107 of 1998 (NEMA) and the National Environmental Management: Waste Act, Act No. 59 of 2008 (NEM:WA); read with the requirements of the MPRDA.

As the application relates to mining activities, a full Scoping and Environmental Impact Report (S&EIR) is required as well as an Environmental Management Programme (EMPr) report. Please find below a link to access the Draft Environmental Impact Assessment and Environmental Management Programme:

https://www.dropbox.com/sh/nm48bn27oe0wvqv/AAA_JAwiphvHXPeHzbZ1NdtHa?dl=0

Thank you

Kind regards,

Michelle Venter (B Sc Hons.)
