### Comment

Good morning To enable SANRAL to give feedback on this application we request a locality map pertaining to this application Information can be emailed to nrstat@nra.co.za.

### Response

Good Afternoon Ria, Thank you for your correspondence regarding the Mooiplaats Colliery Project. As requested, kindly find attached the locality map for the project. Should you have any further comments or queries please do not hesitate to contact me.

Date 2019/06/06 Method Email

### Comment

Good day This email is an acknowledgement of receipt for your enquiry. Please note that your enquiry will be evaluated and a response provided within 30 days, in line with requirements of Section 29 of the Spatial Planning and Land Use management Act (Act No.16 of 2013) read with Section 3 of the Promotion of Administrative Justice Act (Act No.3 of 2000). Should you not receive any response within 30 days, kindly follow up on the enquiry by responding to Jan Oliver who will be dealing with it and will convert back to you. He can be contacted on (012) 426-6200 / 6242.

### Response

Dear Ria, With regards to the below please can you follow up on the status of the comment from Mr Oliver. I have attached the locality map again for your convenience.

### Comment

Please ensure that the Applicant understand that they have to get the correct approvals from Eskom for any activities near our power lines and servitudes as per my previous e-mail with general requirements from Eskom. There are various power lines and a vacant servitude on the properties indicated by yourself. 1. Camden – Incandu 1 400kV 2. Camden – Chivelston 2 400kV 3. Camden – Normandie 1 400kV 4. Vacant 275kV servitude on south-western side of Camden – Normandie 400kV (47m width) 5. Uitkoms - Overvaal 88kV traction line on eastern side of Camden – Normandie 400kV

### Response

Dear Grace, John, With regards to the below correspondence, and the attached correspondence from John, please could you advise on the process to obtain the correct approvals from Eskom for the project. Your assistance in this regard would be greatly appreciated.

Mr Lungile Motsisi

Date 2019/08/22 Method Email

## Comment

Dear Cheyenne, Please find the attached letter. Extract from attached letter: "I refer to your letter dated 16 May 2019 wish to confirm that the following Eskom Transmission (TX's) power lines will be affected by this application: a. Eskom Transmission Camden-Incandu 400kV powerline b. Eskom Transmission Camden-Normandie 400kV powerline c. Eskom Transmission Camden-Chivelston 400kV powerline The following terms and conditions will also apply to this application: 1 . Eskom TX's rights and services must be acknowledged and respected at all times. 2. Eskom Tx shall at all times retain unobstructed access to and egress from its servitudes. 3. Eskom TX's consent does not relieve the applicant from obtaining the necessary statutory, land owner or municipal approvals. 4. The applicant will adhere to all relevant environmental legislation. Any cost incurred by Eskom Tx as a result of non-compliance will be charged to the applicant. 5. All work within Eskom's servitude areas shall comply with the relevant Eskom earthing standards in force at the time. 6. If Eskom Tx has to incur any expenditure in order to comply with statutory clearances or other regulations as a result of the applicant's activities or because of the presence of his equipment or installation within the servitude restriction area, the applicant shall pay such costs to Eskom Tx on demand. 7. The use of explosives of any type within 500 metres of Eskom TX's services, shall only occur with Eskom TX's previous written permission. If such permission is granted the applicant must give at least fourteen working days prior notice of the commencement of blasting. This allows time for arrangements to be made for supervision and/or precautionary instructions to be issued in terms of the blasting process. It is advisable to make application separately in this regard. 8. Changes in ground level may not infringe statutory ground to conductor clearances or statutory visibility clearances. After any changes in ground level, the surface shall be rehabilitated and stabilised so as to prevent erosion. The measures taken shall be to Eskom TX's requirements. 9. Eskom Tx shall not be liable for the death of or injury to any person or for the loss of or damage to any property whether as a result of the encroachment or of the use of the servitude area by the applicant, his/her agent, contractors, employees, successors in title and assignee. The applicant indemnifies Eskom Tx against loss, claims or damages including claims pertaining to consequential damages by third parties and whether as a result of damage to or interruption of or interference with Eskom TX's services or apparatus or otherwise. Eskom Tx will not be held responsible for damage to the applicant's equipment. 10. No mechanical equipment, including mechanical excavators or high lifting machinery, shall be used in the vicinity of Eskom TX's apparatus and/or services, without prior written permission having been granted by Eskom TX. If such permission is granted the applicant must give at least seven working days' notice prior to the commencement of work. This allows time for arrangements to be made for supervision and/or precautionary instructions to be issued by the Lines- and Servitudes Manager. The

## Response

contact person in regard is Mr Tlholo Mafutsana (Lines and Servitudes Manager). He can be contacted at Tel. No.+27 13 693 3884. A copy of this letter will be made available to him. 1 1 . No work shall commence unless Eskom Tx has received the applicant's written acceptance of the conditions specified in this letter of consent within 30 days of the date of this letter and or before commencement of any work. 12. Should the stated works not start within a period 90 days of this letter, the applicant must re-apply. Eskom TX's rights and duties in the servitude shall be accepted as having prior right at all times and shall not be obstructed or interfered with. Note: Where and electrical outage is required, at least fourteen work days are required to arrange it. Under no circumstances shall rubble, earth or other material be dumped within the servitude restriction area. The applicant shall maintain the area concerned to Eskom TX's satisfaction. The applicant shall be liable to Eskom Tx for the cost of any remedial action which has to be carried out by Eskom TX. 14. The clearances between Eskom TX's live electrical equipment and the proposed construction work shall be observed as stipulated by the Regulation 19 of Electrical Machinery Regulations 2011 (with reference to SANS10280-1) of the Occupational Health and Safety Act, 1993 (Act 85 of 1993). 15. Equipment shall be regarded electrically live and therefore dangerous at all times. 16. In spite of the restrictions stipulated by Regulation 19 of Electrical Machinery Regulations 2011 (with reference to SANS10280-1) of the Occupational Health and Safety Act, 1993 (Act 85 of 1993) as additional safety precaution Eskom Tx will not approve the erection of houses and/or structures occupied or frequented by human beings under the power lines or within the tree- and building restriction of the servitude. 17. Eskom Tx may stipulate any additional requirements to eliminate any possible exposure to Customers or Public to coming into contact or be exposed to any dangers of Eskom Tx plant. 18. It is required of the applicant to familiarise himself with all safety hazards related to Electrical plant. For any further information please contact the writer at the above mentioned telephone number.

project: Madeuu Farming will be affected in the project. We run a game and cattle and sheep farming operation. We are concerned about water, groundwater and our sensitive vaal river that runs through Klipbank. Are you a landowner or legal land occupier within the application area? No, I represent Mr Themba Langa the lawful owner of Klipbank. Are you aware of any communities and/or occupiers which exist within the application area (or on your property)? Yes. Petros Mlanga: 0761600449, Zafania Nxumulo: 0848458891. Are you aware of any other I&APs who need to be notified? Yes don't have contact details. Please can you provide us with a description of the receiving environment? A typical Highveld region farm with grasslands on the Vaal Estuary. The farm is used for commercial game, cattle and sheep farming. Maize is also produced on Klipbank. Please describe any bio-physical and/or socio-economic impacts that you believe should be considered? You should please consider the impact on the groundwater and the vaal river running through Klipbank. Please describe any measures you believe should be implemented to mitigate, manage, avoid or remedy the anticipated bio-physical and socio-economic impacts of the proposed activity? Everything and anything should be done to prevent any form of pollution on Klipbank and in the Vaal River. Do you have any specific concerns, comments or objections to the proposed project? Have a big concern in regard to our groundwater being affected and the vaal river being polluted. General Comments: The mine must take full responsibility in preventing any form of water or ground pollution.

Langa. Kindly note that your comments have been passed onto the specialists for their consideration in their specialist reports. As a registered I&AP you will be provided with an opportunity to comment on the Scoping Report and Environmental Impact Assessment (EIA) report and associated appendices once they become available. Should you have any further comments or queries please feel free to contact EIMS.

decision made in respect of the application; 1.5 the draft Environmental Management Plan and all annexures, including but not limited to the prospecting works program, and ancillary documentation pertaining thereto as referred to in the MPRDA regulation 7; 1.6 all and any notices, publications or advertisements to include but not limited to those published in any Gazette, placed at any Magistrates' Court and any local or national newspaper circulated in the relevant area by the DME or the applicant; 17 all and any notices, publications or advertisements informing all interested and affected persons of the public meetings to be held in terms of section 10, 16 or 22 of the MPRDA and the minutes of all public meetings held in terms of the aforementioned section. 2 All and any documents and/or correspondence relating to any request or enquiry received by any person or entity pertaining to the submission of the abovementioned application. 3 All and any documentation indicating whether any application for a prospecting or mining right has been granted or refused in respect of the above mentioned properties. The above information and/or documentation is necessary in order for me to partake effectively and meaningfully in the consultative process which I believe has, inter alia, the following characteristics: 1 . The essence of consultation is a communication of ideas on a reciprocal basis; 2. The consultative procedure (dictated by the Applicant in the prospecting application) must allow reasonable opportunity to both sides to communicate effectively; 3. Consultation must be seen as more than a mere opportunity that you give to me, as an interested and affected party, to make ineffective representations; 3 4. The right to be consulted is valuable and should be implemented: 4.1 by giving me an opportunity to be heard, and 4.2 must take place at the formative stage of the application process and before the DME and or your executive minds become unduly fixed. 5. Sufficient information must be provided to me in order to enable me tender helpful advice. 6. Sufficient time must be given to me to enable me to give the advice and sufficient time must be available to you to consider the advice tendered. I trust you find the above in order and await the documentation and/or information as requested above in order for me to meaningful and effectively participate in the public participation process. "

of the relevant people from your organisation that should also be included on the database. Should you have any further comments or queries please do not hesitate to contact me.

Date 2019/06/25 Method Email

## Comment

Dear Sir/Madam: The director of the company is Mr J A Mabuza. His e-mail address is [jabu@mabuza.com](mailto:jabu@mabuza.com) Does he still have to complete the registration form? Please include him in all future correspondence.

## Response

Dear Mr Dekker, Thank you for the clarification. The registration form is not compulsory however, it does ask questions regarding the land use for your property , any other potential developments, cultural heritage features etc. It also provides an opportunity for I&APs raise comments/concerns/ objections to the proposed project and to provide details of these so that they may be address in the EIA. If Mr Mabuza wishes to provide any comments at this stage of the project, he is welcome to send them via email or to complete the relevant section of the registration form. Furthermore, would it be possible for you to confirm the farms and farm portions that Elgin Investments No 44 (Pty) Limited owns? Should you have any further comments or queries please feel free to contact me.

Colani Sambo
