Dear Sir/Madam

SCOPING REPORT FOR COMMENT

**NEMA SCOPING AND EIA APPLICATION FOR THE PROPOSED HENKRIES MEGA-AGRIPARK ON
REMAINDER OF FARM STEINKOPF 22, SPRINGBOK, NAMA KHOI MUNICIPALITY, NORTHERN CAPE**

EnviroAfrica was appointed by the Northern Cape Department of Agriculture Land Reform and Rural Development to apply for environmental approval in terms of the NEMA EIA (2014) for the following project.

The Namakwa district is one of very few areas in South Africa where high quality arable land together with water licenses from the Orange River are readily available for the economic development of local communities. The NC Department of Agriculture Land Reform and Rural Development propose the establishment of a new 130-150 ha Mega-Agripark at Henkries in order to stimulate the economy of this region, through agriculture. The purpose being to promote sustainable economic growth, job creation and previously disadvantaged settlement and economic development in the Northern Cape. The project is a settlement and economic development project. The project is a settlement and economic development project. The project is a settlement and economic development project.

SCOPING REPORT FOR COMMENT

**NEMA SCOPING AND EIA APPLICATION FOR THE PROPOSED HENKRIES MEGA-AGRIPARK ON
REMAINDER OF FARM STEINKOPF 22, SPRINGBOK, NAMA KHOI MUNICIPALITY, NORTHERN CAPE**

EnviroAfrica was appointed by the Northern Cape **Department of Agriculture Land Reform and Rural Development** to apply for environmental approval in terms of the NEMA EIA (2014) for the following project.

The Namakwa district is one of very few areas in South Africa where high quality arable land together with water licenses from the Orange River are readily available for the economic development of local communities. The NC Department of Agriculture Land Reform and Rural Development propose the establishment of a new 130-150 ha Mega-Agripark at Henkries in order to stimulate the economy of this region, through agriculture. The purpose being to promote sustainable economic growth, job creation and economic empowerment of previously disadvantaged communities.

The Henkries development will form part of the larger Orange River Emerging Farmer Settlement and Development Program which aims at economic growth, the development of rural communities and economic empowerment through the development of irrigation land into intensive agricultural units in the Northern Cape. It will be a Comprehensive Agricultural Support Programme (CASP) which aims to provide post-settlement support to the targeted beneficiaries of land reform. This development is designed to act as catalyst for the development of a further 3 000 ha of arable land which is located in eleven distinct areas of the Namaqualand District.

Attached please find the Final Scoping Report for the proposed development for Comment. Comments must please reach EnviroAfrica on or before the **21st of January 2017**.

Should any further information be required, please do not hesitate to contact EnviroAfrica.

Kindest regards
